

Campus Ministry & Service

The Campus Ministry Program is based on the conviction that opportunities for religious expression, the search for moral values, and responsible community involvement are fundamental education. The program offers a broad spectrum of activities and experiences designed to inspire life-long religious inquiry, faith dialogue, community service, and personal growth in a way that is relevant to campus life as well as to the concerns of society and the global community. Weekly chapel services offer the College community worship opportunities and a forum for the development of worship leadership skills and tools for discerning a vocational call. Participation in these activities is voluntary. Under the direction of the campus chaplain, Lyon Campus Ministries sponsors special events, fellowship activities, and service projects.
