The College

Mission Statement

Founded in 1872, Lyon College is a four-year college of the liberal arts and sciences associated with the Presbyterian Church (U.S.A.). The following is the mission statement of the College:

A selective, independent teaching and learning community affiliated with the Presbyterian Church (U.S.A.), Lyon College offers both a challenging undergraduate curriculum grounded in the liberal arts and select graduate programs. In a primarily residential setting, the Lyon College experience is guided by the Honor System and enlightened by co-curricular programs, service and experiential learning, and opportunities for leadership. Together these foster critical, creative thought and ethical, spiritual growth that will prepare students for fulfilling personal and professional lives committed to lifelong learning and service.

Policies Disclaimer

The courses, regulations, and fees that appear in this catalog are announcements. They do not represent contractual obligations of Lyon College, which reserves the right to change courses, fees, room and board charges, and general academic regulations without notice, should circumstances warrant in the judgment of the College. Courses listed in this catalog may not be available every year. An official list of courses will be available before the beginning of each term.

Accreditation

Lyon College is accredited by the Higher Learning Commission (30 North LaSalle Street, Suite 2400 Chicago, Illinois 60602-2504, 800-621-7440). Its Teacher Education curriculum is accredited and approved by the Arkansas State Department of Education. The College is approved by the State Approving Agency for Veterans' Training (a division of the State Department of Education). It is a member of the Council on International Education Exchange.

A Brief History of Lyon College

Founded in 1872, Lyon College (then Arkansas College) is the oldest college in Arkansas. Originally located on the "downtown" block the First Presbyterian Church of Batesville now occupies, the College remained under the leadership of the Long family for much of its first four decades. The Reverend Isaac J. Long served as president from the College's founding until his death in 1891, and his son, Eugene R. Long, served two terms as president from 1891 to 1895 and 1897 to 1913.

From its beginning, the College was co-educational and remained dedicated to a classical course of study into the early 20th century. The College expanded after World War I when administrators purchased land in the East End Heights section of town, later known as the middle campus. The boom years of the 1920s faded quickly, however, as the Arkansas economy sank into depression. By the early 1930s, the very survival of the College was in jeopardy. Through the untiring efforts of a group of Batesville supporters and alumni and the generosity of Arkansas Presbyterian families, the College recovered in time to participate in the post-World War II G.I. boom that filled the nation's classrooms.

In 1952, Dr. Paul M. McCain succeeded the Reverend John D. Spragins as president of the College. McCain's 17-year tenure as president saw steady progress including the move to the current campus in 1954; accreditation by the North Central Association (NCA) in 1959; physical expansion during the 1960s; and the geographic and ethnic diversification of the student body.

During the 1970s and 1980s, President Dan C. West oversaw the implementation of significant curricular

reforms, the introduction of innovative fundraising techniques, and the development of the Scottish Heritage Program. A bequest in 1981 of more than \$14 million by Miss Jean Brown of Hot Springs launched a drive that paved the way for a significant expansion of scholarship support for students and endowed faculty positions. In early 1980, the College also established a study-travel program that eventually grew to become the distinctive Nichols International Studies Program. A donation by Shuford Nichols, a trustee, and his wife, Laura, endowed the program.

In the 1990s, President John V. Griffith led a strategic planning process that placed the College on the path to distinction as a national liberal arts institution. During Griffith's tenure, the College changed its curriculum and built or expanded several buildings, including the Holloway Theatre (1991); the Lyon Business and Economics Building (1993); the president's residence, Bradley Manor (1994); and the upper division residence hall, Young House (1993). In 1994, it adopted the name Lyon College to honor a family that had served it with distinction for more than half a century. The College also created the state's only student-run honor system in 1994.

The regular recognition that has come to Lyon's faculty exemplified the College's growing regional and national reputation. Since 1989, the Carnegie Foundation for the Advancement of Teaching and the Council for the Support and Advancement of Education have recognized 14 members of the Lyon faculty as Arkansas Professors of the Year.

Dr. Walter Roettger became the 16th president of Lyon in 1998 and continued the transformation that his predecessor had put into motion. The Derby Center for Science and Mathematics opened in 2003 and the Kelley Baseball Complex opened in 2004.

In 2009, Dr. Donald Weatherman, a former Lyon professor of political philosophy, became the 17th president of Lyon. That fall, Lyon launched the Lyon Education and Adventure Program (LEAP), an outdoor program that takes advantage of the College's location in the Ozark foothills and its close proximity to rivers, lakes, caves, and other natural attractions.

On October 26, 2010, a fire destroyed Edwards Commons, which included the dining hall, student center, and student life offices. A new campus center, also named Edwards Commons, opened in August 2012. In the fall of 2012, the College began an

assessment and prioritization of all academic and administrative programs, a process designed to position the College for sustainability and growth. The French major was added to the curriculum. In 2013, the Board of Trustees approved the reinstatement of the football program, with fall 2015 marking the beginning of competition. Men's wrestling and women's wrestling were also introduced, followed by cross-country, marching band, and Symphonic Winds.

Dr. W. Joseph King succeeded Weatherman as the 18th president of Lyon College in 2017. Under his leadership, the ROTC military science concentration and the exercise science major and minor were approved in the spring of 2019. A new data science degree followed in April 2020. Dr. King also played a key role in making Lyon the first and only pet-friendly campus in the state. In response to the COVID-19 pandemic in the spring of 2020, the College had to make the unprecedented transition to remote instruction for the remainder of the spring semester and the following fall semester.

The College gradually brought students back to campus in the spring of 2021, developing new policies, organizing COVID testing schedules, and arranging vaccine clinics to ensure a safe learning environment.

Dr. Melissa Taverner succeeded Dr. King as the 19th president of Lyon College in 2022. She oversaw the transition to NCAA Division III for Lyon College Athletics, a move that embraced the College's dedication to academics and allowed the College to compete against other selective colleges with similar academic expectations. Additionally, she has been instrumental in organizing a partnership with White River Health on an RN-to-BSN nursing program at Lyon. The Nursing program began in January 2024 and utilizes both the Lyon campus and WRH resources.

Dr. Taverner worked with the Board of Trustees, as well as faculty and staff, to expand Lyon College's mission statement to offer select graduate programs, including a Master of Arts in Teaching and a Graduate Certificate in Teaching Deaf or Hard-of-Hearing Students.

Under her direction, the College began developing plans for proposed veterinary and dental schools located in central Arkansas. The schools will be part of the new Lyon College Institute of Health Sciences. The College's faculty assembly and Board of Trustees

approved both proposals in March 2022, and the proposals for academic changes were approved by the Higher Learning Commission in 2022-2023.

The Lyon College School of Dental Medicine received initial accreditation by the American Dental Association Commission on Accreditation in February 2025 and will seat its inaugural class of 80 students in June 2025 at a campus in the Riverdale neighborhood of Little Rock.

The Lyon College School of Veterinary Medicine is pursuing accreditation by the American Veterinary Medical Association Council on Education. Pending the accreditor's approval, inaugural classes could start as early as 2026 on a campus co-located with Cabot Animal Support Services in Cabot.

Liberal Arts Education

Lyon College stands in a long tradition of liberal arts educational institutions designed to cultivate in their students the habits of reasoned thought. The purpose of this education is not simply the acquisition of knowledge, but the development of thoughtful, inquisitive, critical, and creative human beings. Persons who have the privilege of a liberal arts education appreciate and understand more of human experience, are equipped to serve others in fulfilling vocations and through civic responsibilities, make mature and reflective moral and spiritual commitments, and, as a result, lead richer and fuller lives.

Liberal Arts Education Principles at Lyon College

The center of a liberal arts education is the development of essential intellectual abilities: reasoning clearly and critically, reading carefully and accurately, communicating precisely and persuasively, and interpreting with insight and imagination. This intellectual cultivation is accompanied by the acquisition of complementary values and virtues: intellectual honesty, the love of truth, fairness to opposing points of view, tolerance of reasoned dissent, and patience with complexity and ambiguity. These intellectual and affective qualities together produce a liberally educated person who habitually takes a thoughtful and informed approach to any issue.

The intellectual and personal development that is the heart of a liberal arts education occurs in many ways: through the advising received from faculty; from personal and informal association with faculty, staff, and other students; through participation in campus organizations and athletics and attendance at lectures and cultural events; through the house system; through the Honor and Social Systems; and through the Campus Ministry program. While each of these plays an important part, the chief means of a liberal arts education is the academic curriculum, comprising lectures, seminars, laboratories, studios, internships, and research.

The liberally educated person is the product of the critical, analytical, and creative study of established knowledge, principles, theories, and practices. A liberal arts education results from careful

consideration of issues that are of perennial and contemporary concern to thoughtful persons. It grows through reading and experiencing the moral, intellectual, and aesthetic expressions of human beings around the globe. In other words, a liberal arts education occurs through the critical transmission of and creative response to the world's cultural heritage.

Therefore, a liberal arts education cannot be narrowly focused. Those who take a reasoned approach to their experience must have a breadth of knowledge and understanding. To be liberally educated is to be broadly educated in the arts, the humanities, the natural sciences, and the social sciences.

Lyon's Liberal Arts Curriculum

The liberal arts education Lyon College offers consists of three parts: the Core curriculum, a major, and elective courses. These three groups of courses, roughly equal in size, complement one another, creating a coherent and individualized liberal education for each Lyon graduate.

The Core curriculum develops the knowledge and abilities essential to a liberal arts education and to advanced studies at the College. In the Core, students also develop the abilities to think critically, to communicate clearly, to understand and use effectively quantitative information. Students also experience breadth of knowledge as they study many of the liberal arts and sciences disciplines available to them as majors.

The major adds depth to the learning students do in the Core as they encounter knowledge, theories, and methodologies of a single discipline, cultivating the ability to solve problems and to arrive at new understanding and insight from a narrowed disciplinary point of view.

Elective courses, whether taken for personal enrichment or to complete a second major, a minor or a concentration, round out students' education. They offer students the opportunity to pursue special interests, add depth in disciplines other than their majors, and make possible the combination of additional study beyond the Core in liberal arts disciplines for students majoring in a professional

discipline and the combination of some study in professional areas for students majoring in a liberal arts discipline.

Mission of Lyon's Core Curriculum

The Core Curriculum of Lyon College reflects the commitment of the institution to the liberal arts and is the centerpiece of undergraduate education. This multi-year program of proficiency, core, and disciplinary courses provides undergraduate students with intellectual and practical skills necessary for academic success, to develop the capacity for lifelong learning, and for engaged citizenship. The Core Curriculum develops an appreciation of cultural differences, an understanding of the natural world, and experience with qualitative and quantitative research methods. Combining diverse coursework and meaningful service experiences, the Lyon Core contributes to students' development as reflective and informed humans.

The goals of the Core Curriculum, approved by both the Lyon College faculty and affirmed by the Board of Trustees are as follows:

- **Students will develop the skills that will enable them to be effective communicators.**
- **Students will engage a culture of inquiry and will demonstrate a willingness to ask questions and to pursue multidisciplinary solutions to complex problems. using critical thinking within an ethical framework.**
- **Students will demonstrate an awareness of and respect for the breadth and diversity of human cultures, and their intersection with the natural world.**
- **Students will actively participate in opportunities for service and community engagement through participation in curricular and co-curricular activities.**

- **Students will pursue and develop opportunities for self-reflection and self-examination.**

COR 100: Year One

Year One is a one-credit freshman seminar course designed to help first-year students navigate successfully the transition to college. The college offers a wide range of seminar topics from which students can choose each year, and each section will have similar learning goals and outcomes that are independent of the seminar topic. Each group of approximately fifteen students is led by a carefully selected faculty mentor and two upper-division student mentors well-trained and qualified for this responsibility. The course assists new students in dealing with the inevitable changes and rapid growth they will experience in their transition to college and promotes an increased sense of self-efficacy. In addition, Year One fosters new social connections with other first-year students and across the Lyon community. Students who fail to pass Year One will automatically be registered for Year One in the next regular semester.

All first-time, full-time students who graduated from high school within the last two years take Year One. The provost must approve any exceptions. First-time, full-time students who enter during the spring semester take a modified version of this course. Transfer students who have successfully completed 18 or more credits at another institution do not take Year One.

Students who take Year One and who are also placed into MTH 001 and/or ENG 001 must also simultaneously enroll in COR 101 as a companion course to provide additional support and promote success.

Rules Governing Proficiency Requirements

The proficiency requirements ensure that each student has the ability to use the written word and mathematics as tools of thought and expression and to use a foreign language in a functional way.

Students who demonstrate proficiency in mathematics, writing, or foreign language will be exempted from the appropriate course or courses without credit.

Rules Governing All Proficiency and Developmental Courses

Students who are placed into them must earn a grade of "C" or better in ENG 001, ENG 101, ENG 102, MTH 001, MTH 003, MTH 101, MTH 103, MTH 105, and the first semester (101) of a foreign language in order to satisfy proficiency requirements. Students who either drop or earn a grade of less than a "C" in these courses must repeat the courses immediately in the following regular semester. Students who are unsuccessful after three attempts in any proficiency course or two attempts in a developmental course will be placed on academic suspension.

A student will be suspended for at least one semester if any one of the following conditions occurs:

1. He/she fails to earn a grade of "C" or better (not counting the second semester of a foreign language) in or drops a Core proficiency course three times.
2. He/she fails to earn a grade of "C" or better in or drops a Core developmental course twice.

Once students have matriculated at Lyon, they are advised not to take and attempt to transfer back to Lyon proficiency courses (ENG 101, ENG 102, MTH 101, MTH 103, MTH 105, and the 101-102 foreign language sequence) at other institutions. For that transfer to occur, they must pass a Lyon proficiency exam at the level of the course they are attempting to transfer to Lyon.

Composition and Reading Proficiency

The English faculty has established rules to determine incoming students' writing and reading proficiency and placement on the basis of standardized test scores. Developmental courses taken at other institutions may also be considered in placement but do not transfer to Lyon. Students who are not placed out of ENG 001 will enroll immediately in the sequence as placed. Incoming students who demonstrate proficiency in ENG 101 may delay taking ENG 102 until the spring of their first year. Similarly, students who are placed into ENG 001 must enroll immediately in the course.

Proficiency and Placement

1. Completing ENG001 (if placed into it), ENG 101, and ENG 102 is a continuous enrollment requirement, with the exception that a student placed into ENG 102 in the fall may wait until the spring semester to enroll in it.
2. Placement is based on ACT Reading section scores, SAT Evidenced-Based Reading and Writing scores, or Accuplacer Reading and Writing exam scores.

2.1. Placement into ENG 001 if one of the student's highest scores is either

- 19 or less on either ACT English or ACT Reading scores (SAT EBRW of 520 or less), or
- 249 or less on Accuplacer Writing and 236 or less on Accuplacer Reading

2.2. Placement into ENG 101 if

- 20 to 24 on ACT Reading score and 20 or higher on ACT English (SAT EBRW of 530 to 600), or
- 250 or higher on Accuplacer Writing and 237 or higher on Accuplacer reading

2.3. Placement into ENG 102 if

- 25 or higher on ACT Reading score and 20 or higher on ACT English (SAT EBRW of 610 or more)
- Placement into ENG 102 is not applicable via Accuplacer

3. There are two AP English exams that may serve for ENG 101 credit. See the AP Credit section later in this Handbook for details. Students who submit no official ACT, SAT, or Accuplacer scores from which to derive English placement may choose to take the ACT Residual Exam.

4.1. Students contact the Lyon College Enrollment Services Office and arrange to take the ACT Residual English and Reading sections.

4.2. The Registrar will review the score report to determine placement based on the ranges given on the previous page.

In the absence of (a) transfer credit for English courses that dictate placement, (b) official ACT/SAT/Accuplacer scores, or (c) residual ACT scores, then the default placement will be ENG 001 College English.

OPTION 1: Take an online diagnostic exam

Step 1: Students complete an online English diagnostic exam housed within the “Becoming a Scot” process. The exam would be free to the student.

Step 2: and students submit their best piece of graded high school or college written work

Step 1 will decide whether the student goes into ENG 001. If the student satisfies the benchmark to get out of ENG 001 on the diagnostic, an English professor will read the writing sample to place the student into either ENG 101 or ENG 102.

OPTION 2: Complete the appropriate Accuplacer exam

Step 1: Students complete the Writing and Reading exams. These exams are available at Lyon College (<https://www.lyon.edu/mac>) or at many other institutions. A small fee is associated with them.

Step 2: Ensure that the official score is submitted to the Lyon College Registrar.

The Registrar will review the score report to determine placement based on the following ranges:

- placement into ENG001: if the student scores 249 or lower on the Accuplacer Writing or 236 or lower on the Accuplacer Reading segments
- placement into ENG101: if the student scores a 250+ on the Accuplacer Writing and a 237+ on the Accuplacer Reading segments
- placement into ENG102: not applicable via Accuplacer

OPTION 3: Take the ACT Residual Exam

Step 1: Students contact the Lyon College Enrollment Services Office and arrange to take the ACT Residual English and Reading sections.

Step 2: The Registrar will review the score report to determine placement based on the ranges given on the previous page.

OPTION 4: Be placed into College English

In the absence of (a) transfer credit for English courses that dictate placement, (b) official ACT/SAT scores, (c) residual ACT scores, and (d) an online diagnostic test, then the default placement will be ENG 001 College English.

Mathematics Proficiency

The mathematics faculty will determine incoming students' mathematical proficiency on the basis of standardized test scores. College-level mathematics courses completed by the transfer students will also be considered by the mathematics faculty when determining their mathematics proficiency. Developmental courses taken at other institutions may also be considered in placement but do not transfer to Lyon. Incoming students who are placed into MTH 001 must enroll in the course during their first year. Students who are not placed out of MTH 101, MTH 103, and MTH 105 must enroll in one of these three courses during their first two years.

Proficiency and Placement

The mathematics proficiency of new freshmen and transfer students without credit for MTH 101 College Algebra will be determined by using the students' highest mathematics scores on the ACT or SAT. For transfer students, other college-level mathematics courses completed will also be considered by the mathematics faculty when determining placement.

Full-time students who are not proficient in college algebra must take MTH 101/103 or MTH 105 during their first two years.

Place the student at the proper math level using the ACT/SAT scores given in the table below:

ACT Math Subscore Range	SAT Math Subscore Range	Placement	Proficiency Awarded (if any)
17 – 18	500 – 520	MTH 001	none
19 – 21	530 – 550	MTH 103 or MTH 105	MTH 001
22 – 23	560 – 580	MTH 101 or MTH 105	MTH 001
24 – 25	590 – 630	MTH 110* or MTH 105*	MTH 101*
26 and above (if and only if the student has completed trigonometry or pre-calculus with trigonometry; otherwise place in MTH110 or MTH105)	640 and above (if and only if the student has completed trigonometry or pre-calculus with trigonometry; otherwise place in MTH110 or MTH105)	MTH 210*	MTH 101* and MTH 110

* If a student has earned proficiency in MTH 101 (24 or higher on the math section of the ACT), he or she may also then enroll in courses that require MTH101 as a prerequisite such as BIO110, BUS 323, ECO 208, etc.

Students who submit no official ACT or SAT score from which to derive mathematics placement may choose one of the following three options:

OPTION 1: Take the Accuplacer Exam

Step 1: Students find a location that administers the Accuplacer Advanced Algebra and Functions exam, take the exam, and have scores sent to Lyon College.

Step 2: The Registrar will review the grade report to determine placement based on the following ranges:

- 200–220: MTH 003 and MTH 003L
- 221–236: MTH 001
- 237–252: MTH 103 and MTH 103L (highly recommended if passing MTH 003/001 with only a C)
- 253–268: MTH 101
- 269–284: MTH 110
- 285–300 + H.S. Trig: MTH 210 Calculus 1

OPTION 2: Take the ACT Residual Exam

Step 1: Students contact the Lyon College Enrollment Services Office and arrange to take the ACT Residual Mathematics section.

Step 2: The Registrar will review the score report to determine placement based on the ranges given in the table on the previous page.

OPTION 3: Be placed into Intermediate Algebra

In the absence of (a) transfer credit for math courses that dictates placement, (b) official ACT/SAT scores, (c) residual ACT scores, and (d) an Accuplacer score, then the default placement will be MTH 001 Intermediate Algebra.

Foreign Language Proficiency

All degree-seeking students at Lyon College are required to demonstrate proficiency in a second language. For most students, proficiency will be achieved by taking and passing two semesters of a foreign language at Lyon College.

Any student who is not a native or heritage speaker of that language may opt to take FRN 101, SPN 101, or FGN 101. To take a course above the 101 level, students must demonstrate the appropriate level of proficiency by taking a foreign language placement exam. Students who have had two or more years of French, Latin, or Spanish in high school (grades 9–12) are encouraged to take a foreign language placement exam.

Students should normally take foreign language placement exams, which are available online, during the process of completing Becoming a Scot online well before Scot Week and Matriculation. Once completed, the exams may be returned to Lyon College by e-mail (language.placement@lyon.edu) or by USPS. The appropriate foreign language faculty will then assess the exams and send placement results by e-mail to the Registrar and the Dean of First-Year Studies for use in advising. Students should not expect that foreign language faculty will be available to evaluate placement exams that students bring with them or take on campus during Scot Week.

Students are often anxious about their performance on the placement exams. If they have a concern about their placement, they are welcome to talk with the foreign language faculty during the first week of the semester. They are sometimes embarrassed by their performance. You should reassure them and explain that most students place at the 101 level. The 101 courses assume no prior knowledge of the language.

Certain scores on appropriate Advanced Placement (AP) exams may also result in the awarding of language proficiency. See [this section](#) for more details.

Students are encouraged to complete their foreign language requirement as soon as possible. Once they have completed a 101 course with a grade of C or better, they are required to take the 102 course the following semester. Students who take a placement exam and place into a 102 course should take that course their first year; otherwise, they will have to retake the proficiency exam. Spanish 101 courses are typically offered only in the fall and 102 courses are typically offered only in the spring. French 101 and 102 courses may be offered in both semesters.

NOTES: (1) normally students should start the foreign language sequence in the fall and complete it in the spring; and (2) it is not recommended that students wait to meet this requirement in their senior year, as failing one of the two required courses may cause a delay in their graduation.

Students who wish to demonstrate proficiency in a second language by means other than

(1) taking and passing two semesters of foreign language at Lyon College, (2) passing a proficiency exam as described above, or (3) submitting appropriate AP exam scores must fall into one of the following three categories:

1. Native English speakers who have studied a language not taught at Lyon College

English-speaking students who wish to fulfill Lyon's foreign language requirement by demonstrating proficiency in a second language not taught at Lyon bear the burden of providing proof of their reading, writing, speaking and listening proficiencies in that language to the satisfaction of Lyon's foreign language faculty. This is done through a letter from a qualified post-secondary instructor certifying the student's level of proficiency in that language. Such letters should be mailed directly to the Lyon College Registrar's office, and that office may consult with the foreign language faculty before awarding proficiency.

2. Heritage speakers of a language other than English

Students whose primary and/or secondary education has been conducted in English (e.g. they have lived in the United States for a significant period of time) but who have also grown up speaking another language at home may use their proficiency in such a non-English language to satisfy Lyon's foreign language requirement. If that language is French, Spanish, or another language currently taught at Lyon College, then the student should meet with the faculty in that area to take the proficiency exam during the first week of the fall semester or the week before spring advising. The faculty will then notify the Registrar's office in writing or by e-mail whether or not the student has satisfied proficiency.

If the language in question is not currently taught at Lyon College, then the students bear the burden of providing proof of their reading, writing, speaking and listening proficiencies in that language to the satisfaction of Lyon's foreign language faculty. This is done through a letter from a qualified post-secondary instructor certifying the student's level of proficiency in that language. Such letters should be mailed directly to the Lyon College Registrar's office, and that office may consult with the foreign language faculty before awarding proficiency.

3. International students whose native language is not English

International students who are admitted to Lyon College and whose formal primary and/or secondary school education in their home country was conducted in a language other than English use the fact that their proficiency in English was sufficient to merit admission to Lyon College to satisfy the College's academic foreign language requirement. Once the student's enrollment deposit, international status, and native language are confirmed, the Registrar will update the student's academic records to show foreign language proficiency in the appropriate courses in which their primary and/or secondary education was conducted, i.e., FRN 101-102, SPN 101-102, or FGN 101-102 (using the FGN if the student's primary/secondary education was in a foreign language not taught at Lyon College).

4. Lyon Foreign Language Courses Taken Outside of the College

Current Lyon College students who take courses at a different institution (during the summer, for instance) in a foreign language taught at Lyon must take and pass a verification exam during the first week of either the fall or spring semester, whichever comes first, to transfer those courses to Lyon. Graduating seniors who have not met language proficiency requirements are discouraged from taking language courses the following summer, as doing so may result in having to repeat the course(s) at Lyon.

Academic Rules and Regulations

Criteria for Graduation

To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete the Core curriculum, the requirements of at least one major, and at least 120 semester credits. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration. To graduate with a Bachelor of Science in Nursing degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Nursing Core Requirements (45 hours), the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.75 cumulative grade point average for all work taken at Lyon College and a 2.75 cumulative grade point average in their major, minor, and concentration.

Candidates for a degree must spend at least two semesters in residence as full-time students; attendance during summer terms alone is not sufficient. The last 30 hours toward a degree must be taken at Lyon. Students who are studying abroad and who have had their courses pre-approved to transfer to Lyon are exempt from this policy. Other students may petition, but under no circumstances may they receive relief for more than six hours.

Developmental courses (such as ENG 001 and MTH 001) are transcribed and graded, are counted when determining full-time status, and are counted toward a student's overall Lyon GPA. *However, developmental courses do not count toward the 120 hours required for graduation.*

Students may count only seven credits of physical education activity classes toward the hours required for graduation. A student may enroll in no more than one physical education activity course per semester.

A student's degree is conferred by Lyon College after the Registrar certifies that the student (1) has met all the requirements for graduation, (2) is in good academic and social standing, and (3) has discharged

all financial obligations to the College. Students who will have degrees conferred during or at the conclusion of a fall or spring term are expected to be present for and participate in that term's commencement ceremony unless exempted from this requirement by the provost through an academic petition. Students whose degrees are conferred during the summer term participate in the fall commencement.

Students with senior status who meet all other graduation requirements but will lack 6 hours or less of the 120-credit requirement by the end of the fall or spring terms may petition the provost to participate in the fall or spring commencement exercises, respectively, if they can demonstrate a plan to complete all degree requirements no later than the end of the next academic term (spring term for fall commencement, and summer term for spring commencement).

Students earning degrees are normally expected to complete their course of study at Lyon within four years. When this is not possible, students operate under the degree requirements of any single catalog under which they were enrolled during the 10-year period previous to their graduation. However, a student who allows four years to lapse before re-enrollment must re-enroll under the current catalog.

Lyon graduates may re-enroll at the College and complete an additional major and have it added to their transcript. To do so, they must complete at least 30 credits of the additional major at Lyon and must meet the major requirements of the catalog current when they re-enroll. The second major will not lead to a second degree, with the exception of Nursing.

Advanced Standing

Students who have done exceptionally well in high school, taken college preparatory courses, or gained knowledge in some other way may receive college credit if they can demonstrate their knowledge and ability by examination. Students who have taken college courses at other accredited institutions of higher learning may also enter Lyon with advanced standing.

Advanced Standing by Examination

Up to 33 semester credits may be earned by any combination of the following programs:

1. **ADVANCED PLACEMENT EXAMINATIONS**

Students may receive credit for courses administered by the Advanced Placement Program of the College Board. The determination of the exact course equivalence for AP credit will be made by the registrar in consultation with faculty in the appropriate discipline.

2. **CREDIT BY EXAMINATION**

Students with a strong academic background may petition the provost to take any course by examination. The student's petition must have the approval of the student's advisor and the division chair in whose division the course is located. The chair will consult with appropriate faculty members before making a decision and, if the petition is approved, determine which faculty member(s) will develop/choose the exam, administer it, and grade it. The grade earned on the exam will be recorded on the student's transcript. Academic credit for the course will be granted for a grade of "D" or better. A non-refundable fee per credit hour must be paid prior to taking the exam.

Advanced Standing for International Baccalaureate

Lyon College awards up to 30 hours toward program requirements and graduation for documented scores of at least 5 on the higher-level tests in the International Baccalaureate program. However, no more than 8 credits may be earned in any one of the testing areas. Disciplinary faculty will determine the course equivalents to be awarded.

Transfer Credit

A maximum of 72 hours can be transferred to Lyon College from accredited two-year and four-year institutions of higher learning, provided the courses are in areas of instruction offered by the College and

the grade earned was a "C" or better. (Pass/Fail courses will transfer if the student can demonstrate that the grade earned would have been a "C" or better.) Normally, Lyon will not accept correspondence course work. Transferred grades will appear on the student's transcript, but will not figure into the Lyon GPA. **Students enrolled in the RN-BSN program may transfer a maximum of 90 hours.**

Developmental courses (those that do not count towards the 120 hours to graduate) completed at other institutions will not transfer to Lyon College. They may, however, be considered when determining placement in mathematics and English.

Students academically suspended from another institution must wait at least one semester before being admitted to Lyon. They and students on academic probation at another institution will be admitted to Lyon on academic probation.

Students currently enrolled at Lyon must obtain permission to take academic work at other institutions if they wish to transfer the credit earned to Lyon. All Core proficiency courses with the exception of courses in foreign languages not offered at Lyon must be verified by Lyon examination before credit is awarded.

Lyon reserves the right to determine course equivalence for transfer credit. Transcripts will be evaluated by the registrar upon admission to the College, and students will be notified of their standing through their advisors.

Advanced Standing for Military Service

The College grants academic credit for learning acquired in the military in accordance with the Guide to the Evaluation of Educational Experiences in the Armed Services. The one exception to this is that the College will not accept military service as physical education credit unless it is taken concurrently with the student's enrollment at the College.

Academic Credit Hour Policy

The institutional process for assigning credit hours to courses, in accordance with federal regulations, is

based on minimum academic activity for students to achieve intended learning outcomes as verified by evidence of student achievement.

Each credit hour of instruction consists of approximately one hour of classroom or directed faculty instruction per week. In addition, students are expected to complete a minimum of two hours of “out of class” academic activity each week for each credit hour of instruction, for approximately fifteen weeks for one semester or the equivalent amount of academic activity over a different amount of time for semesters of other durations.

For classes offered in other formats leading to the award of academic credit, an equivalent amount of academic activity is required.

Academic Terms and Student Course Loads

Academic Terms

An academic year at Lyon College normally contains three terms, or semesters: fall, spring, and summer. The fall and spring terms are normally 15 weeks long and normally begin in mid-August and mid-January, respectively. The summer term normally consists of two sub-terms of 5 weeks each with the first beginning near the end of May and the second near the end of June or early July. The College, at its discretion, may approve other terms for special needs in particular programs.

Student Course Loads

The unit of measure at Lyon College is the semester credit. One hundred and twenty (120) semester credits are required for graduation. Therefore, a total of 30 credits during the academic year is considered a normal load.

For the fall and spring semesters, the minimum course load for a full-time student is 12 credits per semester.

The maximum course load is 18 credits per semester. Students wishing to take more than 16 credits per semester must have maintained the following grade point averages (GPA) in the preceding semester: for 17 credits, a 2.50 GPA; and for 18 credits, a 3.00 GPA.

Veterans, athletes, and students receiving financial aid are required to take a minimum of 12 credits during the fall term and 12 in the spring semester to be eligible for the benefits accorded to full-time students. Veterans may not count as part of their 12 credits a course taken on a pass-fail basis or a course repeated unless they are required by Lyon regulations to repeat it.

Six credits are considered a full-time load for summer sub-terms. Ten credits are the maximum load for a summer sub-term.

Audited courses do not carry credit and therefore do not count in a student's load.

Student Registration

Students can receive credit only in those courses for which they are properly registered. Students are also held responsible for every course for which they register unless they officially drop or withdraw from the course by the stated deadlines. A student who is registered for a course at the end of the registration period (final day to enroll for a course) is considered to have “attempted” the course.

Registration is not complete or official until fees are paid or arrangements for payments have been made with the business office. Validation of registration must be completed by the final day to enroll.

Courses Changed or Dropped

In **regular terms**, which include the Fall and Spring semesters, courses may be added through the fifth day of classes on myLyon Ordinarily, permission to add courses will not be granted after the fifth day of classes of each regular term. A course dropped before the 11th day of classes will not appear on the student's transcript. For each course dropped between the 11th day of classes and fifteen class days after the release of mid-semester grades, a grade of "W" (withdrawal) will appear on the transcript. Under exceptional circumstances, and with the provost's approval, a student may drop a course between the end of the fifteen-day class drop period following the release of mid-semester grades and the last day of classes; in this case, a grade of "WP" or "WF" will appear on the student's transcript. See the Table below for a summary.

For the **Summer terms**, the first day of classes is also the last day students may add a course. A course dropped before the 5th day of classes will not appear on the transcript, while courses dropped by the 12th day of classes will be recorded with a "W."

In the **Sub-terms**, available for students in the BSN program, accelerated courses, or courses approved by the Provost, can be added up to the third day of classes. A course dropped before the 6th day of classes will not appear on the transcript, while courses dropped by the 20th day will be recorded with a "W."

In **Mini-terms**, exclusively available for students in the BSN program, students may add courses through the third day of classes. A course dropped before the 5th day of classes will not appear on the transcript, and courses dropped by the 18th day will receive a "W" on the record.

In **all terms**, a course may not be dropped once the final examination period has begun except in the case of an extreme medical emergency and with the provost's permission; in this case, a grade of "WP" or "WF" will be issued.

Term	Add Course Deadline (by 5 PM on the following day of classes)	Drop – No Record (by 5 PM on the following days of classes)	Drop – No Record (by 5 PM on the following days of classes)
Regular Terms (Fall & Spring) (Not counting final exams)	5 th	10 th	15 class days after mid-term grades are posted
Summer Terms (Subterm 1 & 2) (Not counting final exams)	1 st	4 th	12 th
Sub-Terms (Fall and Spring) (Not counting final exams)	3 rd	5 th	20 th
Mini-Terms (5 mini-terms throughout the year)	3 rd	4 th	18 th

Withdrawal from College

If students are unable to complete their academic work, they may withdraw from the College prior to mid-term. A student may not withdraw from the College after mid-term grades are due, except for medical reasons. To withdraw from the College, a student must consult with the dean of students and receive the written permission of the provost and the dean of students. Their transcripts will indicate that their current courses were incomplete by recording either a “WP” or “WF” for each course. Failure to complete the withdrawal process within three business days after initiation will cause a grade of “F” to be recorded for every course in which they are enrolled. Students who have withdrawn from the College must be reviewed by the Admission and Financial Aid Committee before being readmitted.

A student may be withdrawn from a single course or from all courses under several other conditions. The College may withdraw a student following procedures stated in the Student Handbook. If students fail to meet the stated requirements of a course, the faculty member may request that the provost withdraw them from the course in question. Before administering the withdrawal, the provost will warn students that they are in jeopardy. An administrative withdrawal will result in a punitive grade of “AW” and be issued by the provost or the dean of students, and, where possible, preceded by a written warning (see *Class Attendance*). Any student may be administratively withdrawn from the College for social or academic irresponsibility.

Students who are enrolled at Lyon College on the 11th day of classes in a regular fall or spring term and who are not enrolled on the 11th day of class in the immediately-following spring or fall semester will be considered to have withdrawn from the College unless they (1) graduated or (2) applied for and received a leave of absence that covers the unenrolled term. Students who have withdrawn from Lyon College must reapply for admission (see *Applications Procedures*).

Student Leave of Absence

To request a leave of absence, a student must consult with the dean of students. To be granted a leave of absence, a student must be in good academic standing and receive the written permission of the provost and the dean of students. The leave of absence will include a specified date of return and, where appropriate, any conditions for return, both to be determined when the leave is granted. Students on leave will be readmitted without re-application, retain their College-supported financial aid, select housing, and register at the same time as currently enrolled students. The process for returning from Leave of Absence can be found in the Student Handbook.

Independent Study

A student may enroll in a course of study not listed in the Lyon College Catalog to pursue independent research. For this, a student needs a full-time faculty member to supervise the independent study. The course number prefix will conform to the appropriate discipline. Variable credit is allowed up to a total of six semester credits. The student must file with the registrar an independent study form signed by the full-time faculty member serving as supervisor, Chair of the Division in which credit is to be awarded, and the provost, before enrolling in the course. The College is not under any obligation to offer a course through independent study.

Directed Study

A student may enroll in a course listed in the Lyon College Catalog as a directed study under the direction of a full-time faculty member in the discipline under which the course is listed. The normal course title and number will be listed on the student’s transcript preceded by the letters “D.S.” or “Directed Study.” The student must make arrangements for the directed study with the appropriate faculty member and division chair and submit the signed Directed Study Form to the registrar for approval by the provost. The

College and the faculty are not obligated to offer any course through directed study, and doing so will depend on many factors including faculty willingness and availability as well as whether the course could be taken at a regularly scheduled time in the future and whether it is a requirement for graduation.

Student Classification

Classification lists will be compiled by the beginning of each term and will be based on the number of credits successfully completed.

- Freshman: less than 30 hours
- Sophomore: 30–59 hours
- Junior: 60–89 hours
- Senior: 90 plus hours

Class Attendance

Attendance Policy

Classroom attendance and participation in classroom activities are integral components of the educational process. Students may miss up to the equivalent of two weeks of classes for unexcused absences, at which point they will be notified of their Administrative withdrawal (AW). Students may miss a reasonable number of classes per course for excused absences. However, upon reaching four weeks of absences of any kind, CARES team intervention will be required (see below). If a resolution cannot be reached or students fail to follow CARES team instructions, an AW notification will be issued. Attendance policy for courses meeting once a week, subterms, miniterms, and summer terms will be outlined in individual syllabi and determined by the instructor. An AW may only be assigned after a student has reached absences equivalent to 25% of the total duration of the term (aka, equivalent to four weeks of class for a regular term).

Details About Missed Classes

Faculty must use Canvas to record attendance daily.

Students are expected to attend the first and all subsequent course meetings. Students who enroll during the add/drop period may not be counted absent when not formally enrolled in the course; however, students are responsible for catching up on missed content and assignments.

Students who miss class for any reason are responsible for informing their faculty as soon as possible and conferring with individual professors regarding missed assignments/works/class content, etc.

Faculty will make a good-faith effort to provide students with catch-up opportunities for graded work and graded learning experiences in cases of excused absences. Students who fail to do the graded make-up work or learning experiences offered in the timeline decided by the faculty will not receive credit. In the case of lab classes with multiple sections (according to seat availability and prior approval from the faculty) or when faculty offers a catch-up lab session, the absence will not be counted if the student attends another lab section/the catch-up session. No grade or participation penalty will be imposed on students who missed class for excused absences if a catch-up opportunity was not provided.

When excused absences occur because of approved sanctioned activities, the Lyon College employee will submit the information using the Laserfiche available in the forms tab on my.lyon.edu. For other excused absences, students must initiate the process of submitting their documentation using the Laserfiche available in the forms tab on my.lyon.edu within two days of the absence, even if they do not have the documentation available right away. Otherwise, the absence will be recorded as unexcused. If a student misses multiple consecutive days, they must take action within two days of the first missed day.

Absences due to medical incapacitation can be granted retroactively and must involve documentation from a certified professional. Students must request this by contacting the Chief Academic Officer and/or the Dean of Students within two weeks of the first missed class AND prior to the final exam week. The Chief Academic Officer and Dean of Students may grant Medical leave or an Incomplete in extraordinary circumstances outside of other mechanisms presented here.

Students must keep up with how many absences they have in each class using Canvas attendance recording. Faculty will submit the following alerts:

For unexcused absences

- “One week of unexcused absences”: this alert will issue a reminder of the College’s attendance policy, will be issued to the student. When the alert is submitted, it will result in the advisor and CARES team contacting the student via email and

offering a meeting to discuss ways to prevent any more missed class.

- “Two weeks of unexcused absences”: this alert will result in the student being administratively withdrawn from the course and assigned an “AW” grade.

For students with a mix of excused/unexcused or excused only

- “Four weeks of absences”: This alert will result in the student having a mandatory meeting with the CARES team (coordinated by CARES) to determine the conditions under which the student can stay enrolled in the course. This meeting must occur no later than 3 working days from the last absence. If the student misses any more classes before the meeting, if a resolution can’t be reached, or if the student does not follow the CARES team instructions, the faculty will submit an AW alert, resulting in the student being dropped from the course with an AW grade. Academically withdrawn students may petition the Chief Academic Officer to remain in the course. The petition to return may be granted at the discretion of the Chief Academic Officer, in consultation with the CARES team, and generally with the support of the instructor and advisor(s) on a case-by-case basis.

Academically withdrawn students may petition the Chief Academic Officer to remain in the course. The petition to return may be granted at the discretion of the Chief Academic Officer, in consultation with the CARES team, and generally with the support of the instructor and advisor(s) on a case-by-case basis.

Excused Absences Definition

Faculty, staff, and administration acknowledge that students may be prevented from attending classes for unavoidable and/or uncontrollable reasons. Absences due to such reasons are excused absences.

Here are some examples of excused reasons for absences:

- Illness (physical and mental) of the student: students must have a medical note or a note from the Lyon College nurse indicating the student was unable to attend class.
- Family crisis and emergencies: severe illness or death of a student’s immediate family member or other family crises. Students must provide one of the following: a death certificate, memorial

service program, obituary, a note from the doctor of the family member, or any proof of the validity of the absence.

- Jury duty or subpoena for court appearance: students must provide appropriate documentation as proof.
- Military duty: students must provide appropriate documentation as proof.
- Approved sanctioned activities under the supervision of faculty or staff advisors, which include:
 - Intercollegiate athletic competitions (not practices)
 - Collegiate academic competitions
 - Commitments on behalf of the College (Choir representation, Theater play)
 - Class field trips
 - Professional activities recognized by the College related to academics (e.g., ROTC field leadership exercise, professional or research conference attendance)

Students participating in college-sanctioned activities will communicate, verbally and in writing, with faculty during the first week of class about the dates they expect to be absent for scheduled events. For events planned later in the semester, students will inform faculty as soon as they are informed of the date for the event. Students will also remind the faculty immediately before an upcoming absence.

Students shall not miss classes more than 1 hour before they are scheduled to leave for the event or more than 1 hour before they are expected to arrive for at-home games.

Grades

Grades in courses for the term are indicated as follows: “A,” meaning excellent; “B,” good; “C,” satisfactory; “D,” poor, but passing; “I,” incomplete; “F,” failure; “P,” passing; “W,” withdrawal; “IP,” in progress; “FL,” failure, not included in GPA; “WP,” withdrawal passing, not included in GPA; and “WF,” withdrawal failing, not included in GPA; “AW,” administrative withdrawal, included in GPA.

Pass/Fail: After gaining sophomore standing, any student may enroll for one elective each academic year on a pass/fail basis, provided that it is not a Core requirement or part of the student’s major, concentration, or minor. Prerequisites for Nichols

courses may not be taken pass/fail. Nichols courses may not be taken pass/fail without the instructor's permission. Students must notify the registrar within two weeks after the term begins if they wish to be graded on the pass/fail basis. Students must notify the registrar within two weeks after the term begins if they wish to remove the pass/fail grading basis. Such courses are not included in determining grade point average, and do not qualify for veteran's benefits.

Repeated Courses: When a student repeats a course, the grade for each attempt remains on the student's transcript. However, the most recent grade will be used in calculation of the student's grade point average and the awarding of credit hours. Repeated courses must be taken at Lyon.

Any student may audit a course. Audited courses are billed separately, do not carry credit or count in a student's course load, and will show a grade of "X" on a student's transcript. Faculty are neither expected nor required to collect, evaluate, or grade work done by a student auditing their classes.

Incomplete Grades

In cases where students are not able to complete the requirements of a course due to circumstances beyond their control, a grade of incomplete (I) is reported. Filing of an incomplete grade form is required. The student is required to complete the work no later than the last day to drop classes in the following semester as specified in the Catalog. If the incomplete is not removed, the grade becomes an "F."

Grade Point Averages

The grade point is the evaluation of each course according to the grade received on a four-point scale. "A" carries four points, "B" three, "C" two, "D" one, "F" and "AW" zero per credit hour.

The grade point average is the total number of grade points divided by the total number of credits attempted. Courses dropped before the last day to drop a course are not counted as part of the total number of courses attempted for the purpose of computing the grade point average. Transferred grades are not calculated into the Lyon College GPA.

The following is an example of how the GPA is computed for a semester:

COURSE	SEMESTER CREDIT	GRADE	GRADE POINTS
RPH 110	3	B	3 times 3 = 9
CHM 220	4	B	4 times 3 =12
HIS 201	3	C	3 times 2 = 6
PSY 101	3	A	3 times 4 =12
TOTALS	13		= 39

Grade Point Average = 39 divided by 13 = 3.00

Grade Reports and Grade Appeal Policy

Grade Reports

Final grades are issued at the end of the fall, spring, and summer subterms. Mid-term grades will be issued for courses in the fall and spring semesters only. Final and mid-term grades may be accessed online once they have been validated by the registrar's office.

Grade Appeal Policy

Students are responsible for fulfilling the course objectives, assignments, and academic standards prescribed for each course in which they are enrolled. Thus grade appeals must be based on claims of computational errors or actions that are arbitrary, capricious, and/or discriminatory in nature. Grade appeals must be initiated by the add date of the next academic term. Appeals will be conducted in accordance with the following procedures.

The student contesting a grade is to first contact the faculty member involved and seek an informal resolution of the dispute. If the student is unable to resolve the complaint through informal consultation, the student may appeal the grade awarded to the chair of the academic division to which the faculty member is assigned. This appeal will be in writing and accompanied by all relevant documentation (syllabus, graded work, etc.). If the division chair is unable to resolve the grade appeal to the satisfaction of the parties involved, or the person giving the disputed grade is the division chair, then a written appeal with all relevant documentation may be made to the Chief Academic Officer. After consulting with the faculty member and the student, the Chief Academic Officer will reach a decision on the appeal. The decision of the Chief Academic Officer is final. Like other grade changes, these changes must be endorsed by the Chief Academic Officer. A grade change made against the desires of the faculty member will be so noted on the

change of grade form. All parties to the grade appeal are to maintain strict confidentiality throughout the appeal process.

The Dean's List

To be on the Dean's List, a student must earn a 3.75 grade point average on a minimum of 12 graded hours taken at Lyon in a semester. Grades earned at UACCB under the Transfer and Exchange Collaboration (TEC) do not count. Students with incomplete grades at the end of the semester will be eligible for the Dean's List designation if they complete their work by the date for removal of incomplete grades and meet the above criteria. Students must earn 12 credits exclusive of any elective Pass/Fail credits to be eligible for the Dean's List designation.

Graduation with Honors

Cumulative grade point averages required for graduation with honors are as follows: summa cum laude, 3.90; magna cum laude, 3.75; and cum laude, 3.50.

Academic Probation

A student will be placed on 1st-term academic probation if any one or more of the following conditions occur:

- The student's term grade point average is below 1.50 in any fall, spring, or full summer term (see notes about the summer term below).
- The student's cumulative grade point average fails to meet the minimum for good standing based on hours completed as shown below:

0-15 hours completed, 1.50;
16-29 hours completed, 1.75;
30-59 hours completed, 1.90;
60 or more hours completed, 2.00

The probationary term will be the next fall or spring term during which the student is enrolled in any Lyon College courses or the next summer term in which the student completes (with a letter grade, an AW, or a P or F) 5 credit hours or more.

NOTES ABOUT THE SUMMER TERM AND ACADEMIC PROBATION/SUSPENSION POLICIES:

1. Lyon College typically offers two summer sub-terms. Those two sub-terms make up a single, full summer term.

2. If a student completes (with a letter grade, an AW, or a P or F) 5 credit hours or more during the entire summer term, then all summer classes taken during that term will count together as a **single** term for that student for the purposes of probation and suspension evaluation.

3. If a student completes (with a letter grade, an AW, or a P or F) 4 credit hours or less during the entire summer term, then that summer term will not be evaluated for probation, suspension, or removal of probation.

To promote academic success, any student on 1st-term probation must meet all of the following conditions:

Restrictions

- Limit credit hours attempted to a maximum of 15 credit hours for a fall or spring term and a maximum of 12 credit hours for a summer term (6 credit hours per sub-term);
- Prohibition from holding an officer or representative position in student government;
- Prohibition from serving as a captain, co-captain, or any leadership position in any academic, athletic, social, or co-curricular team/organization

Obligations

- Required attendance at two student success workshops during the probationary term;
- Development of an academic improvement plan/strategy with and that is approved by the Director of Student Empowerment. The plan must be submitted to the Provost by the end of the 15th day of class during a fall or spring probationary term or by the end of the 5th day of enrolled class during a summer probationary term.
- Failure to meet one or both of the obligations above will result in the student being placed on 2nd-term probation during the following term regardless of other circumstances.

The status of a student on 1st-term probation will be reviewed at the end of that term (fall, spring, or summer) and one of the following three things will occur:

- **Removal from probation** for the next enrolled term if the student's term and cumulative GPA meet the following minimums:

0-15 hours completed, 1.50;
16-29 hours completed, 1.75;
30-59 hours completed, 1.90;
60 or more hours completed, 2.00

- **Placement on 2nd-term probation** for the next enrolled *term* if the student's term GPA meets the minimum listed above but his or her *cumulative* GPA does not.

Students on 2nd-term probation are subject to the same restrictions and obligations for 1st-semester probation and, additionally, the student is barred from traveling for competitions, performances, excursions, or events outside of Independence County with a team or group representing Lyon College off-campus in any way (athletics, band, co-curricular activities, etc.) for the duration of the probationary term.

- **Placement on academic suspension** for the next term if the student's *term* GPA does not meet the minimums listed above.

Academic Suspension

A student placed under academic suspension after the **fall** term cannot enroll in courses at Lyon College during the following spring term.

A student placed under academic suspension after the **spring** term *may* enroll in no more than 6 credit hours in the first summer sub-term and no more than 6-credit hours in the second summer sub-term.

A student placed under academic suspension after the **summer** term cannot enroll in courses at Lyon College during the following fall term.

To return to Lyon College after a suspension period, the student must first notify the Admissions office prior to the deadline for depositing for that semester. In the first term after a suspension period, the student must earn at least a 2.00 term GPA. In the second term

after a suspension period, the student's cumulative GPA must meet the minimums stated above based on the total credit hours completed. Failure to meet either of these conditions will result in the student being permanently suspended from Lyon College with no option for readmission.

Students who are placed into them must earn a grade of "C" or better in ENG 001, ENG 101, ENG 102, MTH 001, MTH 003, MTH 101, MTH 103, MTH 105, and the first semester (101) of a foreign language to satisfy proficiency requirements. Students who either drop or earn a grade of less than a "C" in these courses must repeat the courses immediately in the following regular semester. **Students who are unsuccessful after three attempts in any proficiency course or developmental course will be placed on academic suspension. On returning from academic suspension, the student must receive a C or better in their proficiency course(s) or they will be dismissed from Lyon College.**

Confidentiality of Records

Lyon College provides access to educational records in accordance with the Family Educational Rights and Privacy Act (FERPA). The Privacy Act ensures the rights of students to inspect, amend and consent to disclosure of all "education records" covered by the Act. The parents and guardians of dependent students (declared as a dependent for income tax purposes) also have access to these education records. Under no circumstances may students be required to waive their rights under FERPA before receiving College services or benefits.

Student records not covered under this policy are employment records, medical and counseling records, law enforcement records maintained by the dean of students, financial records of parents, personal notes of Lyon faculty and staff, and confidential letters and recommendations for which students have waived their right to review.

The School discloses educational records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibilities for the School.

Examples of people who may have access, depending on their official duties, and only within the context of those duties, include:

- Person employed by the school in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel) who have been determined to have a legitimate educational interest
- Person serving on the Board of Trustees
- Student serving on an official committee, such as a disciplinary or grievance committee or assisting another school official in performing his or her tasks
- Person or company with whom the School has contracted as its agent to provide a service instead of using school employees or officials (such as an attorney, auditor, collection agent, verification agencies such as the National Student Clearinghouse)

Lyon has designated in accordance with FERPA “directory information,” which is releasable without prior student consent. A list of directory information items is available from the registrar’s office. Students not wishing some or all of the directory information to be released must file with the registrar’s office a written request to this effect annually at the beginning for the fall semester.

Additional information on the College’s policy on the confidentiality of educational records can be obtained from the registrar’s office.

Exceptions to Academic Policies

Unless otherwise specified, exceptions to the above academic policies may be granted by the provost through a formal, written academic petition process. Contact the Registrar for details.

Accessibility Services

Students with disabilities that qualify under the Americans with Disabilities Act (ADA) may request reasonable academic accommodations through the Office of Academic Support and Accessibility located in the Morrow Building. Disabilities recognized by the ADA may include learning, psychiatric, and physical disabilities and chronic health disorders. Temporary accommodations are also provided to students who have been injured and whose injuries affect their academic performance (concussion, injury to the dominant hand, etc.). To register for accommodations, a student must submit the appropriate accommodations registration forms and provide documentation that verifies need.* The Director of Academic Support and Accessibility coordinates coverage by collaborating with all appropriate parties. Students must register for accommodations each semester.

*If need cannot be verified at the time of registration, the Director of Academic Support and Accessibility may allow temporary accommodations and provide adequate time for verification of need to be secured and provided.

Transcript Requests

Lyon College offers an electronic transcript request service to students through the National Student Clearing House. Transcript requests may be made in two ways: go to studentclearinghouse.org or by requesting the student’s myLYON account.

Graduation Rates

In accordance with the Student Right-to-Know Act, Lyon College annually publishes a report on graduation rates at the College. The report is available from the Office of Institutional Research or at lyon.edu

Advanced Placement Credit

Lyon College accepts credit for certain AP exam scores in various disciplines as described in the table below. If a student comes in with an AP score in a discipline not listed below, consult with the Registrar, but Lyon will not guarantee credit in disciplines not listed below.

In cases where consultation with or permission from disciplinary faculty is required, the disciplinary faculty will notify the Registrar of the credit to be awarded, if any, after the consultation has taken place.

Consult this link for a current list of AP exams available to students: <https://apstudent.collegeboard.org/apcourse>

Disciplinary AP Exam Credit

Discipline/Exam	AP Score(s) Required	Credit
ART HISTORY	4 or 5	ART 201
STUDIO ART (DRAWING)	4 or 5	ART 101 OR, after consultation with the art faculty, possible credit for ART 110.
STUDIO ART (2-D DESIGN)	4 or 5	ART 101 OR, after consultation with the art faculty, possible credit for ART 120.
STUDIO ART (3-D DESIGN)	4 or 5	ART 101 OR, after consultation with the art faculty, possible credit for ART 234.
BIOLOGY	4 or 5	BIO 100
CALCULUS (AB)	3, 4, or 5	Score of 3 gives credit for MTH 110. Score of 4 or 5 gives proficiency for MTH 110 and credit for MTH 210.
CALCULUS (BC)	3, 4, or 5	Score of 3 gives proficiency for MTH 110 and credit for MTH 210. Score of 4 or 5 gives proficiency for MTH 110 and credit for MTH 210 and MTH 220.
CHEMISTRY	4 or 5	Possible credit for CHM 110/110L after consultation with the chemistry faculty.
COMPARATIVE GOVERNMENT AND POLITICS	4 or 5	POL 201
COMPUTER SCIENCE A	3, 4, or 5	CSC 115
ECONOMICS (MICRO or MACRO)	4 or 5	ECO 101
ENGLISH (LITERATURE AND COMPOSITION or LANGUAGE AND COMPOSITION)	4 or 5	ENG 101
ENGLISH (LITERATURE AND COMPOSITION or LANGUAGE AND COMPOSITION)	5; The student must also submit to the English faculty a research paper that demonstrates satisfactory command of research strategies	A score of 5 gives proficiency for ENG 101 and credit for ENG 102
ENGLISH (LITERATURE AND COMPOSITION and LANGUAGE AND COMPOSITION)	At least 4 in one of the AP English classes and a 5 in the other class (and research paper approved by the English faculty)	ENG 101 and ENG 102

Discipline/Exam	AP Score(s) Required	Credit
ENVIRONMENTAL SCIENCE	4 or 5	SCI 100
FRENCH	See details below.	See details below.
EUROPEAN HISTORY	4 or 5	COR 120 or HIS 202, depending on the student's choice.
WORLD HISTORY: MODERN	4 or 5	COR 120 or HIS 202, depending on the student's choice.
UNITED STATES HISTORY	4 or 5	HIS 101 or HIS 102, depending on the student's choice.
MUSIC THEORY	4 or 5	MUS 110
PHYSICS 1	3 (possible after verification exam and consultation with physics faculty), 4, or 5	PHY 210/211 (with permission of physics faculty, PHY 241 may be substituted for PHY 211)
PHYSICS 2	3 (possible after verification exam and consultation with physics faculty), 4, or 5	PHY 220/221 (with permission of physics faculty, PHY 251 may be substituted for PHY 221)
PHYSICS C (MECHANICS)	3 (possible after verification exam), 4, or 5	Possible credit for PHY 240/241 after consultation with physics faculty)
PHYSICS C (ELECTRICITY AND MAGNETISM)	3 (possible after verification exam), 4, or 5	Possible credit for PHY 250/251 after consultation with physics faculty)
PRECALCULUS	3	MTH 110
PSYCHOLOGY	3, 4, or 5	PSY 101

Degree Options

Major Fields of Study

Lyon College offers courses leading to a Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree, depending on the major chosen and, in some cases, the course of study within the major. Lyon offers major programs of study in 23 specific fields of study:

Bachelor of Arts

- Anthropology
- Art
- Communication Studies
- Computer Science
- Computer Science and Game Development
- Economics
- Education
- English
- Fine Arts
- French
- History
- Mathematics
- Political Science
- Psychology
- Religion & Philosophy
- Spanish
- Theater Arts

Bachelor of Science

- Accounting
- Business Administration
- Chemistry
- Computer Science and Artificial Intelligence
- Computer Science and Cybersecurity
- Data Science
- Data Science and Artificial Intelligence
- Exercise Science
- Neuroscience

Bachelor of Arts or Bachelor of Science

- Anthropology
- Biology
- *Individualized

Bachelor of Science in Nursing

* Students may develop individualized majors with the approval of their advisor, the division chair, and the provost. The Veterans Administration will not pay for

individualized majors. Students may also complete two majors but will receive only one degree. If the two completed majors result in different degrees (B.A. and B.S.), the student may decide which degree he or she will receive.

Minor Fields of Study

A minor is an elective course of study that allows for some depth of study in a discipline, but not to the same extent as the major. A minor may be chosen by a student along with any major but is not a requirement for graduation. Lyon offers the following minors:

- Animal Behavior
- Animal Science
- Anthropology
- Art
- Biology
- Business Administration
- Communication Studies
- Chemistry
- Computer Science
- Data Science
- Economics
- Education
- English
- Exercise Science
- Film & Media Studies
- French
- Healthcare Administration
- History
- International Studies
- Marketing
- Mathematics
- Medical Humanities
- Music
- Music/Scottish Arts
- Physics
- Political Science
- Psychology
- Religion & Philosophy
- Social Entrepreneurship
- Spanish
- Theater Arts

Courses of Study

Visit the [Degrees](#) page to view all degrees offered at Lyon.

Pre-Professional Programs

The breadth of understanding and the habits of disciplined thought that are the products of a strong, undergraduate liberal arts education provide an excellent foundation for a range of professions. The courses of study offered at Lyon provide the basic intellectual and communication skills upon which success in professional school and in a profession largely depend.

See the [Degrees](#) page for a list of the pre-professional curriculum programs offered at Lyon.

Pre-Ministry Preparation

Students interested in pre-ministerial preparation are encouraged to consult the college chaplain or any member of the religion faculty. Guidance, support, and assistance with course selection will be offered through such advisors. Though seminaries accept applicants with virtually any college major, the following are recommended as especially good preparation: English, history, and religion and philosophy.

Regardless of their chosen major, pre-ministerial students should take courses in the following areas: English, history, religion, foreign language, philosophy, and psychology. Students interested in pre-ministerial preparation should consult with a member of the religion faculty and the faculty of their chosen major to work out an effective course of preparation.

Concentrations

Lyon offers concentrations in several professional fields. All concentrations must be taken in combination with a major. *

1. Journalism
2. Pre-Law
3. Military Science
4. Outdoor Leadership
5. Pre-Dental
6. Pre-Medical
7. Pre-Nursing

8. Pre-Optometry
9. Pre-Occupational Therapy
10. Pre-Physical Therapy
11. Pre-Pharmacy
12. Pre-Veterinary

*Students may select any major offered by the College.

International Education

The International Education Office at Lyon offers three opportunities for experiences abroad: semester-and year-long study abroad exchange programs at selected foreign universities; Lyon study abroad centers; and travel courses. Scholarships are available for each type of overseas experience, with the awards going to longer-term study abroad. Students must consult with the director of International Education before seeking admission to either program.

Nichols Study Abroad Exchange Programs

Lyon has established formal tuition exchange agreements with Akita International University (Japan); the University of Poitiers (France, where payment of language center fees is required); the International University of Rabat, Morocco; and Belfast Metropolitan College, Queens University, St. Mary's University College, Stranmillis University College, and University of Ulster, all in Northern Ireland, through the Irish-American Scholars Program and the Association of Presbyterian Colleges and Universities. Lyon is also a member of the Consortium for North American Higher Education Collaboration (CONAHEC), which allows student exchange with schools located in Mexico, Spain, Chile, Argentina, Guatemala, Canada, Honduras, Colombia, Iceland, Brazil, and South Korea, and the Universities Studies Abroad Consortium (USAC).

In most cases, the exchange is for a semester but some schools offer summer exchange as well. Students normally participate in a semester and year-long study abroad exchange programs during their junior year or the following summer. Applicants are required to have attended Lyon full-time for the academic year preceding their study abroad, have a Lyon cumulative

GPA of 3.0, be in good financial standing, and have appropriate foreign language skills to be eligible to participate in a semester or year-long study abroad exchange program. In addition, each school may have additional requirements for admission. Students should get more information about their selected school's requirements and application deadlines from the Lyon International Education office. Approval to participate in one of the exchange programs must be granted in advance by the Lyon International Education office with approval from the program and provost, students will register in NIS 300 and/or 301. Proof of medical insurance for the duration of the study abroad program is part of the approval process.

Exchange students will pay Lyon tuition, any tuition differential between Lyon and host institutions, and any required fees. Exchange students are solely responsible for transportation, accommodations, meals, books and supplies, medical insurance, passport and visa fees, and personal expenses and debts related to study abroad. However, they may use their Lyon grants to offset costs, provided they meet the eligibility requirement, and they may apply for outside scholarships. Scholarship information can be obtained from the International Education Office. Students who fail to fulfill the terms of the exchange agreement, or who fail to successfully complete the approved course of study, or who fail to return to Lyon for at least one semester following the exchange program will be required to reimburse the College for any program-related expenses beyond direct payments to the College by the exchange student. Lyon international studies grants are considered College expenses.

The second avenue of study abroad available to Lyon College students is studying at a particular foreign university or educational institution with which Lyon has arrangements to send Lyon faculty for a period of one month to one semester. At a study abroad center, some of the student's classes will be taught by Lyon faculty and some may be taught by visiting professors from other universities or by host institution faculty. Currently, Lyon College has one study abroad center at the Vesuvian Institute in Southern Italy. The Institute offers accommodations and meals, has its own classrooms, and is connected with a UNESCO World Heritage site where students will have a chance to gain practical experience among some of the best-preserved Roman villas in the

Mediterranean. Their website can be reached at <https://www.vesuvianinn.com/>. It will offer its first round of courses in July of 2021. The first program to be implemented at the Institute will be for computer science and data science majors and will feature extensive onsite practical work in GIS supplemented by classes taught by Lyon faculty. Italian language will be offered as part of the orientation. Students will be expected to pay for meals (billed by Lyon College), optional excursions, and incidentals. Additional programs are under development at the Mark Rothko Art Centre in Latvia and Jagiellonian University in Poland.

Lyon students may also participate in semester and year-long study abroad programs at institutions other than the approved exchange programs listed above. They will not be classified as Lyon students during the duration of such study, however. Accordingly, they are responsible for the full cost of such study abroad programs. Students are encouraged to apply for outside scholarships and may apply for a partial Lyon study abroad scholarship if they meet all the eligibility requirements for the grant. While prior approval to participate in such programs is not required, students should consider applying for a leave of absence. In all cases, they must request permission in advance to transfer credit hours from these programs to Lyon. This approval process is the same as for any transfer credit request, except that the written approval of the International Education Office is also required. As with all transferred courses, credit hours may be awarded toward program and/or graduation requirements, but the grades received in these courses will not be used in the calculation of the student's Lyon GPA.

The Washington Center Internships

Lyon College has a formal affiliation with the Washington Center for Internships and Academic Seminars, an independent, nonprofit organization that sponsors internship programs in Washington, D.C., for college students from around the country. This enables Lyon students from all majors and concentrations to take advantage of the Center's many internship programs in the public, private, and nonprofit sectors

in our nation's capital. Summer internships of eight weeks duration will receive six credit hours, three for intern activities and three for an on-site academic course. Interns may also arrange to do an additional three hours of directed study related to their internship in the summer. On-site courses are graded by the Washington Center faculty. A letter grade for the 6 hours of internship duties will be determined by the Lyon campus liaison for the Center, in consultation with supervisors of the internship and faculty members in the student's major.

Students may enroll in other internship programs and seek permission to transfer the credit to Lyon. Students enrolled in programs other than those offered by the Washington Center will not be classified as Lyon students during the duration of the programs. Thus they must be prepared to pay the full cost of such programs as they are not eligible for institutional aid, including scholarships or other forms of financial assistance through Lyon College.

Courses of Study

Accounting

Assistant Professors: Don Ray and Shensi Wang

The Accounting Major provides students with the accounting and business knowledge needed to sit for the CPA exam (NOTE: See state licensure requirements for full requirements to sit for the CPA exam and licensure in your state).

Accounting is a diverse dynamic field with many opportunities in private practice, industry, and government. All organizations hire accountants to maintain vital business and financial information needed to run the organization and to maintain compliance with rules and regulations mandated by the profession and government.

The Accounting Major prepares students to sit for the CPA Exam. In addition to the following required 30 upper-division Accounting credits, students are required to complete the 37 Business Core credits, for a total of 67 credits.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Accounting Course Descriptions

ACC 210: Financial Accounting

A course designed for all students interested in understanding the financial accounting and reporting process. No previous background in accounting or business is required. The course focuses on developing an understanding of the accounting cycle and its role in converting data related to business events into financial knowledge, which is then used to inform decision-making by investors, creditors, and other external parties.

Credits 3

ACC 211: Managerial Accounting

This course explores the internal use of accounting information in the organizations' decision-making process. Including Pro-forma financial statements, and basic concepts in entrepreneurial finance (Raising capital/ capital structure, managing cash flow- including burn rates and runways / operating budgets, introduction to capital budgeting, and firm valuation).

Credits 3

Prerequisites

ECO 101

ACC 300: Accounting Systems

An introduction to the design, implementation, and control of accounting information systems. Students will perform a series of hands-on projects to reinforce the conceptual and theoretical aspects of accounting systems.

Credits 3

Prerequisites

ACC 211

ACC 310: Essentials of Accounting

This is a comprehensive course which covers accounting principles associated with financial and managerial accounting. The course focuses on understanding and measuring business transactions and the capture of related economic data in the accounting system.

Credits 4

ACC 311: Intermediate Accounting I

An advanced course studying the analysis, presentation and interpretation of operations and financial position with emphasis on accounting theory, critical evaluation of accounting concepts and controversial issues in accounting.

Credits 3

Prerequisites

ACC 210

ACC 211

ACC 312: Intermediate Accounting II

This course is a continuation of Intermediate Accounting 1. Topics include long-term investments, long-term liabilities, capital stock, retained earnings, dividends, error correction, and incomplete records.

Credits 3

Prerequisites

ACC 311

ACC 320: Cost Management I

An introduction to the basic concepts and tools associated with cost management information systems, including an in-depth examination of product costing, planning and control, and cost analysis within the context of the traditional, functional-based cost systems companies in both the manufacturing and service sectors use.

Credits 3

Prerequisites

ACC 211

ACC 325: Cost Management II

Examination of the latest developments in course management systems Topics include activity-based costing, strategic cost management, process value analysis, kaizen costing, quality costing, productivity, environmental cost management, and the balanced scorecard. Students will also examine the role of cost information in management decision-making and the models used to facilitate this process.

Credits 3

Prerequisites

ACC 320

ACC 335: Foundations of Taxation

This course will focus on an introduction to Federal Taxation policy and practice. Students will study the process of implementation of tax law and policy in the context of economic and social policy within the political process.

Students will also learn the practical requirements of current tax law and regulations as they pertain to individual taxpayers. Students will also apply this knowledge in the preparation of simple to moderately complex tax returns using software similar to what is used by professional tax preparers.

Credits 3

Prerequisites

ACC 210

ACC 211

ACC 382: Special Topics in Accounting

Study of selected topics in Accounting. Prerequisites will vary.

Credits 1

-3

ACC 400: Governmental and Not-For-Profit Accounting

A study of accounting principles, standards, procedures, and financial statements that apply to state and local governments, and not-for-profit organizations.

Credits 3

Prerequisites

ACC 312

ACC 405: Advanced Tax Accounting

The course studies federal income taxation for partnerships, corporations, sub-s corporations, and estate and gift taxes.

Credits 3

Prerequisites

ACC 335

ACC 412: Auditing

The purpose of this course is to emphasize concepts that enable the student to understand the philosophy and environment of auditing. An audit case is a major component of course assignments.

Credits 3

Prerequisites

ACC 300

ACC 415: Advanced Accounting

This course emphasizes business combinations and the related consolidated financial statements. An expanded look at partnerships, segment reporting, and foreign currency translation is part of the coverage.

Credits 3

Prerequisites

ACC 312

Anthropology

Assistant Professors: Jason Kennedy and Matthew Lebrato

Anthropology examines the full scope of human diversity from the remote past to contemporary times. Drawing on humanistic and scientific knowledge, anthropologists explore humans as biological and cultural beings. At Lyon College, students gain a holistic understanding of humans as a biocultural species and immerse themselves in the critical themes, theories, concepts, and methods of contemporary anthropology. Through personalized attention and academic rigor, the Anthropology Program strives to produce students who are informed and engaged global citizens.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	97-99

ANT 480 or BIO 480

Choose one of the following:

Item #	Title	Credits
ANT 480	Field Study in Anthropology	1-3
BIO 480	Directed Research	1-4

Anthropology Minor

The anthropology minor is a group of courses designed as a second field for students interested in exploring humans and human culture. There are four subfields in anthropology: biological anthropology, archaeology, linguistic anthropology, and cultural anthropology.

NOTES

* Students may use ANT 101 to satisfy core requirements.

Summary of Requirements for a Minor in Anthropology

Item #	Title	Credits
ANT 101	Introduction to Cultural Anthropology (OC)	3
	Anthropology Electives (6 credits) - Group A	6
	Anthropology Electives (9 credits) Group B	9
	Total Credits	18

Anthropology Electives (6 credits) - Group A

Select two of the following:

Group A (6 credits)

Item #	Title	Credits
ANT 100	Biological Anthropology	4
ANT 120	Inequality in the Ancient World (OC)	3
ANT 140	Language and Culture (OC)	3

Anthropology Electives (9 credits) Group B

Group B (9 credits)

Item #	Title	Credits

ANT 400	Archaeological Artifact Analysis	4
ANT 405	Archaeology Field School	3-6
ANT 450	Senior Seminar	3
ANT 480	Field Study in Anthropology	1-3

Anthropology Course Descriptions

ANT 100: Biological Anthropology

Human evolution has been driven by the complex interplay of environmental factors, cultural technologies, and biological adaptations. In this class and its associated laboratory section, we will provide a brief introduction to the diverse methods that researchers have developed to study these interactions, with an emphasis on the relationship between culture and biology. Students will learn basic evolutionary theory, examine humans and our relationship to living and extinct primates, explore the concept of race and human biological variation, and introduce modern applications of biological anthropology including forensics, epidemiology, and medical anthropology.

Credits 4

ANT 101: Introduction to Cultural Anthropology (OC)

An introduction to cultural anthropology with emphasis on human behavior within a cultural context. Topics include religion, gender, social organization, and subsistence.

Credits 3

ANT 120: Inequality in the Ancient World (OC)

Introduction to archaeological method and theory with a focus on the emergence of political institutions and social inequality in early states and empires.

Credits 3

ANT 140: Language and Culture (OC)

An introductory to anthropological linguistics that looks at language from several perspectives, ranging from phonology (the study of the smallest units of sound) to the ways people use language in varying cultural contexts.

Credits 3

ANT 182: Special Topics in Anthropology

Provides an introduction to a topic of particular anthropological concern.

Credits 1

-4

ANT 201: Borders & Boundaries (OC)

What is a border? How do lines, real or imaginary, bring us together or divide us? What happens to those who don't fit comfortably on one side or the other, but rather inhabit the space of the border itself? This class will examine how boundaries—racial, ethnic, linguistic, socioeconomic, scientific, sexual, and otherwise—are constructed, maintained, crossed, challenged, and lived within. Not repeatable for credit.

Credits 3

ANT 202: Anthropology and Social Justice (OC)

For over a century, anthropology in the United States has been founded on the twin principles of scientific objectivity and humanitarian equality. Anthropology has championed the fundamental equality and unity of all humans, even when politicians, the law, and mainstream society maintained segregation and inequality. Nonetheless, the role of anthropology as a discipline that “speaks for” marginalized groups is ambiguous. In this course, students will explore, reflect on, and debate the potential for anthropological research (and social science research broadly) to promote greater social justice. Not repeatable for credit.

Credits 3

ANT 205: Human Origins

Examination of several aspects of physical anthropology, including the history of scientific thought, fossil records, human adaptation, and micro- and macroevolution.

Credits 3

ANT 210: Recipe for Humanity: How Food, Alcohol, and Drugs Make Society (HL)

Consuming food is at once a biological necessity and a deeply socially charged event. Every calorie we consume is the result of our or someone else's labor. This fact means that what we choose to eat, whom we eat it with, how we eat it and the social contexts where we eat carry economic, political, social, or even religious significance. In this class we take an anthropological perspective on the consumption of food, alcohol and psychoactive substances to explore the ways that humanity has constituted itself through patterns of food consumption. We will explore the role of food in our biological evolution, in our historical trajectory and in our current lived experiences in a globally interconnected world.

Credits 3

ANT 240: Archaeological Method and Theory

Examination of the historical background of the discipline of archaeology and the methods used in the recovery of data and the interpretation of archaeological finds.

Credits 3

ANT 282: Special Topics in Anthropology

Focuses on an in-depth, intermediary topic of particular anthropological concern.

Credits 1

-4

ANT 300: Global Health: Introduction to Medical Anthropology

Medical anthropology is the study of how health and illness are perceived and experienced by individuals and groups based on their cultural, historical and political trajectories. It has profound relevance for health professionals and researchers of disease and illness in diagnosing and treating patients across the world. This course provides an overview of the intersection of health, culture, and socio-economic power and the ways that health and illness are constructed cross-culturally.

Credits 3

ANT 305: Indigenous Knowledge in the Americas

This course provides a cross-cultural introduction to diverse forms of knowledge and ways of knowing, focusing on indigenous peoples of America. Our inquiry is guided by three sets of questions: What are indigenous knowledge frameworks and how can we understand them on their own terms? Why are some forms of knowledge viewed as legitimate or even universal, while others are marginalized? How are individuals and groups negotiating and translating indigenous and western forms of knowledge? Not repeatable for credit.

Credits 3

Prerequisites

ANT 101

Or permission of the instructor.

ANT 307: Ethnographic Methods

This course examines ethnography, the primary research methodology used by cultural and other anthropologists. Each semester, the course will focus on a particular world region in order to highlight the diversity of ethnographic techniques and studies emanating from that region while providing a detailed knowledge of regional culture and history. In the process, students will learn about and practice ethnographic methods including sampling techniques, participant observation, interviews, surveys and various kinds of data analysis. We will examine traditional and less traditional forms of ethnography including autoethnography, visual ethnography and testimonio or life-history, and students will select one form to carry out and write-up for their own final grade in the course.

Credits 3

Prerequisites

ANT 101

ANT 310: Forensic Anthropology

In this laboratory course, students will learn the basics of forensic identification and interpretations of human skeletal materials within a medico-legal framework. Students will learn basic skeletal and dental analysis, the estimation of age, sex, stature, and ancestry from recovered materials, the identification of trauma and pathology, and forensic recovery techniques. Finally, this course will examine the legal responsibilities of forensic anthropology and its contributions to criminal investigations.

Credits 4

ANT 311: Cultural Resource Management: Law and Practice

This course introduces the laws and practice of Cultural Resource Management (CRM) within an archaeological framework. Students will learn federal legislation governing archaeology in the United States and how to conduct CRM archaeological investigations, including submitting project proposals, community engagement, and the evaluation of ethical concerns in the field.

Credits 3

ANT 315: Villages to Empire: Archaeology of Mesopotamia

This course offers a brief overview of the social and cultural history of the prehistoric and proto-historic periods of the Middle East. We will examine the principal research questions that have guided archaeological work in the region and how archaeologists and other scholars have attempted to answer them. In addition to the archaeological evidence, we will consider the relationship between the study of the past and the implications that it carries in the present.

Credits 3

ANT 320: Human Variation and Adaptation

Exploration of the origins and processes of human biological variation and adaptation with emphasis on complex human behavior (culture) and how humans respond and adapt to the environment. These responses are viewed within a biocultural perspective; that is, with the knowledge that human biology must always be explored within behavioral and cultural contexts. Sources of variation are developmental, phenotypic, hereditary, gender, individual, population, evolutionary, ecological, sociocultural, and random (in probabilistic terms).

Credits 3

ANT 323: Globalization

This course examines historical and contemporary studies of 'globalization,' a term that has become commonplace in popular and academic discourse. We consider globalization in terms of an apparently increasing velocity in the spread of ideas, commodities, laborers and capital around the world, but we take an anthropological approach to understanding this, meaning that we couple top-down or macro-level theory with deep attention to local experience through ethnographic research. The first part of the course focuses on what is meant by social scientists when we use terms like globalization, the second is devoted to 20th century histories, particularly development ideology, and the last third examines commodification and the global and local natures of consumption.

Credits 3

Prerequisites

ANT 101

ANT 331: Gender and Culture

In this course we examine the social construction of gendered identities in different times and places. We study culturally specific gendered experiences, 'roles,' rights and rebellions around the world, discussing the concepts of gender acquisition, individual and social consequences of gender, and the interrelationships between gender and other categories for identity including race, class, age, ethnicity, occupation and sexuality. We also examine gender 'at home,' and take a critical approach to understanding gender inequality and gender-based violence, as well as the role of Western expectations about gender in science, in discourses about politics, economics and global exchange, and in the arts and media.

Credits 3

Prerequisites

ANT 101

ANT 382: Special Topics in Anthropology

Focuses on an in-depth, upper-level topic of particular anthropological concern.

Credits 1

-4

Prerequisites

ANT 101

Or permission of instructor.

ANT 399: Anthropology International Studies Course: Variable Topics

Study of varying topics in anthropology. Includes a two-week Nichols trip. Prerequisites will vary.

Credits 1

ANT 400: Archaeological Artifact Analysis

In this course, students will learn the basics of artifact analysis across key classes of archaeological materials. This includes the provenience of raw materials, production techniques, intended function, and patterns of use and reuse. Key artifact classes examined include chipped stone tools, ceramics, ground stone tools, metal artifacts, and organic materials.

Credits 4

Prerequisites

ANT 240

Or permission of the instructor.

ANT 405: Archaeology Field School

This course is a practicum in archaeological survey and excavation methods designed to prepare students for a career in archaeology. Students will learn how to establish a survey grid and conduct surface and subsurface surveys to determine archaeological site locations. They will also learn basic excavation methods and site documentation following both Arkansas and federal standards. Additionally, students will learn basic processing techniques and Geographic Information Sciences skills for site analysis and presentation.

Credits 3

-6

Prerequisites

ANT 240

Archaeological Method and Theory or petition for instructor approval.

ANT 450: Senior Seminar

Focused research project on a selected topic.

Credits 3

Prerequisites

Anthropology Major or Permission of Instructor

ANT 480: Field Study in Anthropology

Anthropological research outside the classroom. Students will learn first hand which methods to utilize when conducting research and the potential problems they may encounter. Students must prepare a report regarding the complexities of applying anthropological concepts in research situations. Repeatable for credit.

Credits 1

-3

Prerequisites

ANT 101 and permission of instructor.

ANT 485: Independent Study

Concentrated study in a selected topic.

Credits 1

-3

Prerequisites

Instructor approval

Art

Professor: Dustyn Bork

Assistant Professors: James E. Berry II and Maggie Gayle

The art major offers a rich and diverse range of investigations across the disciplines of art practice and art history. Integrating extensive liberal arts offerings with a broad studio experience, majors will balance exploration with a focus on future goals. The art major prepares students for graduate school applications and works in art-related fields. It develops in students the necessary knowledge, technical skill, and commitment to work as an artist today. Students are immersed in a creative learning environment and encouraged to cultivate an approach to art-making that is informed by traditional two- and three-dimensional art practices, experimental approaches, and new digital technologies.

NOTE

* Students may use ART 201 and ART 202 to satisfy core requirements.

* Students must complete requirements for a Major in Art and select one area of focus.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Art Major (BA)

Art Course Descriptions

ART 101: Introduction to Visual Arts

An introduction to understanding and appreciating the visual arts. Students will learn to analyze art works according to their formal elements, context, and history.

Credits 3

ART 103: Human Expressions (OC)

Human Expressions is a foundational art course designed to introduce students to a broad spectrum of visual art practices. This course offers hands-on experience across various artistic mediums, including sculpture, painting, drawing, and photography. Through a series of interactive projects and discussions, students will develop fundamental skills, explore different techniques, and cultivate their own creative voices. "Human Expressions" fosters an environment of exploration, experimentation, and personal expression, serving as an ideal starting point for any student interested in engaging with the visual arts.

Credits 3

ART 110: Drawing Studio I (PS)

An introductory course for the development of basic drawing skills and practices with various drawing materials. Students will explore drawing as a process of seeing, develop technical skills, and engage in the use of drawing media as materials for communication. Course assignments will acquaint students with the basic elements and principles of design and emphasize discovering the "art" of drawing while perfecting the mechanics and skills required.

Credits 3

ART 120: Two-dimensional Design (PS)

An introduction to the basic elements and principles of design and color theory as well as a wide range of problem-solving strategies. Working with balance, proportion, contrast, and color, students will develop the skills needed for more advanced work in their major area.

Credits 3

ART 201: World Art I

A survey of Western and non-Western art from prehistory to the 13th century. Students will study cross-cultural influences and regional stylistic attributes.

Credits 3

ART 202: World Art II

A survey of Western and non-Western art from the 14th century to the present. Students will study cross-cultural influences and regional stylistic attributes.

Credits 3

ART 204: Ceramics Studio I

An introduction to the tools, techniques, and materials of ceramics. Students will explore a combination of hand-building and wheel-thrown forms.

Credits 3

ART 211: Photography Studio I

An introduction to foundational photographic techniques including camera operation, image editing and manipulation, and printing. Students will cultivate the aesthetic and conceptual skills of photographic image-making. Success in this course is measured in the understanding of basic camera functions, basic imaging skills, conceptual development, and a final portfolio. (Same as JRN 102),

Credits 3

Prerequisites

ART 110 or 120

ART 220: Digital Studio I

Focused study of digital imaging techniques and the industry standard software applications used by professional graphic designers, photographers, and multimedia artists. Students will learn how to use pertinent software and hardware through a series of in class tutorials and weekly assignments. This course is designed to introduce art majors to a wide breadth of digital arts.

Credits 3

Prerequisites

ART 110 or ART 120

ART 230: History of Modern Art

Focused study of modern art movement from Realism to the present with emphasis on artistic innovation during this time of social, political, technological, and religious revolution. The course will cover major movements, including Expressionism, Surrealism, Pop Art, and Minimalism and closely inspect painting, sculpture, photography, and architecture.

Credits 3

ART 232: Painting Studio I

Introduction to the conventions and material concerns of painting. These conventions of painting include color mixing, paint application, and the creation of imagery through sketching and the design process. Students will investigate both representational and abstract forms.

Credits 3

Prerequisites

ART 110 or ART 120

ART 233: Printmaking Studio I

An introductory course designed to initiate a basic understanding of printmaking as an art form through the study and execution of monotype, relief, and intaglio processes.

Credits 3

Prerequisites

ART 110 or ART 120

ART 234: Three-dimensional Studio I

An introduction to a wide range of three-dimensional materials. Course emphasis is on basic skills and craft as the building blocks for communication and conceptual expression in three dimensions. This course also introduces and encourages students to participate in the critique process, which teaches critical thinking and evaluation in order to improve the quality of student work.

Credits 3

Prerequisites

ART 110 or ART 120

ART 282: Special Topics in Art

Study of selected topics in art. Prerequisites will vary.

Credits 3

ART 299: Art in Context

A travel course that allows students to engage with artworks, learn about the exhibition and museum culture, and visit artist studios in the major artistic centers of the United States. The seminar portion of this class will include readings, discussions, and research presentations on special topics related to the travel itinerary. Repeatable for credit.

Credits 1

Prerequisites

ART 101, or 201, or 230, or 308, and permission of instructor.

ART 300: Drawing Studio II

An advanced exploration of drawing skills and materials. Students will explore drawing as a process of observation, further develop technical skills, and engage in the use of drawing media as materials for communication.

Credits 3

Prerequisites

ART 110

ART 301: Painting Studio II

Further investigation of the skills developed in ART 232 with the introduction of media and experimental techniques. Students will learn more advanced techniques in painting with an emphasis on individual interpretation and improvement of technical ability.

Credits 3

Prerequisites

ART 232

ART 304: Ceramics Studio II

A further exploration of the tools, techniques, and materials of ceramic art production. Students will explore a combination of hand-building and wheel-thrown forms.

Credits 3

Prerequisites

ART 204

ART 305: Gallery Practicum

Preparation for the professional practices of gallery management. This course explores how galleries and arts venues operate. Topics include types of exhibition spaces, exhibition development, budgeting, and financial considerations, marketing, and cultivating patrons and audiences. Activities include practical experience in curating, writing exhibition materials, curatorial exercises, creating marketing materials, and visits with galleries, curators, and arts administrators.

Credits 2

Prerequisites

ART 101

ART 110

ART 120

ART 201 or ART 202, and permission of instructor

ART 308: Renaissance Art

Exploration of the artistic development of 15th and 16th century Europe with emphasis on Italian art and artists. Key topics will include patronage, urban development, perspective techniques, humanism, and the changing roll of the artist.

Credits 3

ART 310: Photography II

Further investigation of the photography skills developed in ART 211.

Credits 3

Prerequisites

ART 211 or JRN 102

ART 320: Digital Art Studio II

Further investigation of the digital imaging skills developed in ART 220. Students will study advanced techniques and hone their skills using industry-standard imaging software

Credits 3

Prerequisites

ART 220

ART 323: Moving Image

An introduction to the production, application, and interpretation of time-based visual images such as film, video, and new media. Students will gain experience operating movie cameras, recording video and audio, and editing with computer software. They will also have opportunities to experiment with techniques such as analog filmmaking, animation, installation, projection, multimedia, and web applications. Emphasis will be placed on the application of time-based media within a Studio Art context, and students will cultivate both aesthetic and conceptual skills as makers of moving images. (Same as FMS 323 Moving Image)

Credits 3

Prerequisites

ART 101, or ART 110, or ART 120, or FMS 150

ART 333: Printmaking Studio II

Further investigation of the skills developed in ART 233 with emphasis on concept and subject continuity with respect to modes of personal expression.

Credits 3

Prerequisites

ART 233

ART 334: Three-dimensional Studio II (OC)

Further investigation of the skills developed in ART 234. Students will continue to develop technical proficiency and further develop their ability to think critically and communicate visually. Students will be encouraged to mix media and incorporate nontraditional materials into their process. Assignments will be student driven with emphasis on careful planning, execution, and the completion of projects.

Credits 3

Prerequisites

ART 234

ART 340: Film Studies

An examination of various classic and noncanonical films through close visual and diegetic analysis. Students will acquire the basic vocabulary necessary to analyze film as a visual medium and narrative discourse. They will examine major critical approaches to film through readings in secondary scholarship. Attendance at weekly evening screenings is required.

Credits 3

Prerequisites

ART 101, COR 140, or THE 101, or permission of instructor. (Same as ENG 340).

ART 382: Special Topics in Art

Study of selected topics in art. Prerequisites will vary.

Credits 3

ART 399: Art International Studies Course: Variable Topics

Study of varying topics in art. Includes a two-week Nichols trip. Prerequisites will vary.

Credits 1

ART 440: Advanced Studio Concepts (OC)

Students work at an advanced level in the medium of their choice and develop the conceptual dimensions of their work through research on contemporary art.

Credits 3

Prerequisites

ART 320, ART 333, ART 310, or ART 332. May be taken more than once for credit.

ART 450: Independent Study

Concentrated study in a selected topic.

Credits 1

-3

ART 482: Special Topics in Art

Study of selected topics in art. Prerequisites will vary.

Credits 3

ART 490: Senior Project

An independent project designed by the student with the guidance of art faculty. The student will produce a body of work that synthesizes the knowledge and skill acquired during their course of study in the art discipline. The course should result in a show that exhibits a well-developed body of work.

Credits 3

Prerequisites

ART 440 and Senior Status

Biology

Professors: Cassia C. Oliveira and David Thomas

Associate Professors: Alexander Beeser and Maryline Jones

Assistant Professor: Eric South

Biology is the study of life in all of its abundance, variety, and complexity. Students in the biology major gain a broad knowledge of biological fact and theory, from the molecular to the ecosystem level. They develop their abilities to observe, analyze, and solve problems involving living systems.

Both Bachelor of Science and Bachelor of Arts degrees are available in biology. The B.S. degree is designed primarily for students interested in the health professions, a graduate degree, or employment in biology related fields.

NOTES

* Students may use BIO 110, CHM 105, CHM 110, MTH 110, PHY 210/211, and PHY 240/241 to satisfy core requirements.

* CHM 105 is not required for students who enter Lyon College with a score of 25 or better on the ACT mathematics section (or equivalent SAT score) and a grade of "C" or better in high school chemistry.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Biology Major (BA)

Summary of Requirements for a Major in Biology (BA)

Item #	Title	Credits
BIO 110	Principles of Biology I	4
BIO 112	Principles of Biology II	4
BIO 250	Cell Biology	4
BIO 252	Genetics	4
	BIO 340 or BIO 370	4
	BIO 300 or MTH 360 or PSY 235	3
BIO 495	Senior Evaluation	0
CHM 105	Introduction to Chemistry *	4
CHM 110	General Chemistry I (PS)	4

PSY 306	Animal Behavior I	3
Total Credits		18-20

Biology Minor

The biology minor is a course of study designed as a second field for students who wish to develop an understanding of the scientific study of living systems and organisms.

NOTES

* Students may use BIO 110, CHM 105 and CHM 110 to satisfy core requirements.

* CHM 105 is not required for students who enter Lyon College with a score of 25 or better on the ACT mathematics section (or equivalent SAT score) and a grade of "C" or better in high school chemistry.

Summary of Requirements for a Minor in Biology

Item #	Title	Credits
BIO 110	Principles of Biology I	4
BIO 112	Principles of Biology II	4
	BIO 250 or BIO 252	4
	Biology Minor Electives (8 credits)	8
CHM 105	Introduction to Chemistry *	4
CHM 110	General Chemistry I (PS)	4

BIO 250 or BIO 252

Item #	Title	Credits
BIO 250	Cell Biology	4
BIO 252	Genetics	4

Biology Minor Electives (8 credits)

Two Biology electives (200+ level)

Biology Course Descriptions

BIO 100: Biology in Context

Study of the basic principles and unifying concepts of biology. Emphasis is placed on how biology increasingly plays a role in our everyday lives. Topics include organization of living matter, metabolism, reproduction, genetics, ecology and evolution. The course consists of both lecture and laboratory components. Cannot be counted toward biology major.

Credits 4

BIO 101: Short Topics in Biology

Study of current topics in biology appropriate for all students. Elective credit. May be taken more than once for credit with permission of instructor.

Credits 1

BIO 105: Principles of Fermentation Sciences

Principles of Fermentation Sciences will cover the fundamental science of the fermentation processes, its history and culture and application to basic food science, microbiology, chemistry, biology and nutrition. Bio105 will introduce concepts relating to the utilization of grapes, grains and hops utilized by the fermentation industry. Students will be exposed to the basic methods and principles behind the fermentation process including production of bread, vegetables, beer, wine and bio-fuels. The course consists of both lecture and laboratory components. **Students must be 21 years of age or older by the first day of class.**

Credits 4

Prerequisites

BIO 100 or BIO 110

BIO 110: Principles of Biology I

Study of the integrated principles of biology with emphasis on molecular and cellular aspects of organisms, genetics, and organismal homeostatic mechanisms. The course consists of both lecture and laboratory components.

Credits 4

Prerequisites

MTH 101, MTH 103, or proficiency

BIO 112: Principles of Biology II

Study of the integrated principles of biology with emphasis on the diversity of organisms in the world, their evolution, and their interactions with each other and the environment. The course consists of both lecture and laboratory components.

Credits 4

Prerequisites

BIO 110

BIO 182: Special Topics

Study in a specific area of biology not covered by regularly listed courses. Course content and structure will vary according to the interests of the instructor. Lecture, laboratory, and/or fieldwork may be included.

Credits 1

-4

Prerequisites

Permission of instructor.

BIO 205: Biomedical Terminology

A detailed introduction to the terminology used in health professions.

Credits 1

BIO 206: Introduction to Animal Sciences

Introduction to the study of the selection, reproduction, nutrition, and marketing of beef and dairy cattle, swine, sheep, horses, and poultry. Scientific animal production and the importance of livestock and meat industries.

Credits 3

Prerequisites

BIO 110

Or permission of the instructor.

Corequisites

BIO 110

BIO 207: Principles of Animal Nutrition

This is a course designed to introduce the study of animal nutrition in all aspects and is designed for biology majors and Animal science minors. Topics include the nutrition of companion animals, livestock, and exotic species. Topics will also include anatomy, physiology, and biochemistry of the gastrointestinal system, nutrient procurement and use, feed additives, growth stimulants, metabolic diseases, and diet therapy.

Credits 3

Prerequisites

BIO 110

BIO 220: General Botany

General Botany is an introduction to the structure and life processes of plants and plant-like organisms (cyanobacteria, algae, fungi, etc.). Subjects include genetics, development, anatomy, physiology, evolution, and distribution. The course includes lecture and laboratory components.

Credits 4

Prerequisites

BIO 112 & CHM 110

BIO 222: General Zoology

General Zoology is an introduction to the structure and life processes of animals and animal-like organisms (protists, slime molds, etc.). Subjects include genetics, development, anatomy, physiology, evolution, and distribution. The course includes lecture and laboratory components.

Credits 4

Prerequisites

BIO 112 or permission of the instructor.

Recommended Prep

CHM 105 or CHM 110

BIO 240: Human Microbiology

This course emphasizes the biology of medically important microorganisms. Topics include the history of microbiology, cell structure and function, epidemiology, pathogenicity, and surveys of bacterial, fungal, and viral pathogens. The course includes both lecture and laboratory components.

Credits 4

Prerequisites

BIO 110 or BIO 260

Recommended Prep

CHM 105 or CHM 110

BIO 250: Cell Biology

A detailed introduction to subcellular and cellular structure and physiology, including membrane structure and function, bioenergetics, transport mechanisms, and intercellular communication. The course consists of both lecture and laboratory components.

Credits 4

Prerequisites

BIO 110 & CHM 110

BIO 252: Genetics

An examination of the principles of inheritance and the structure, function, and regulation of genetic material in prokaryotes and eukaryotes. The course consists of both lecture and laboratory components.

Credits 4

Prerequisites

BIO 110 & CHM 110

BIO 260: Human Anatomy and Physiology I

The course is the first of a two-part sequence in human anatomy and physiology. The course consists of both lecture and laboratory components.

Credits 4

Recommended Prep

CHM105 or CHM110 and BIO110 are highly recommended.

BIO 262: Human Anatomy and Physiology II

The second of a two-part sequence dealing with the structure and function of the human body. The course consists of both lecture and laboratory components.

Credits 4

Prerequisites

BIO 260

Recommended Prep

CHM105 or CHM110, and BIO110 are highly recommended.

BIO 282: Special Topics

Study in a specific area of biology not covered by regularly listed courses. Course content and structure will vary according to the interests of the instructor. Lecture, laboratory, and/or field work may be included. Prerequisite: permission of the instructor.

Credits 1

-4

Prerequisites

Permission of instructor.

BIO 290: Introduction to Biological Research

An introduction to research including literature searches, experimental methods, and proper recording and reporting of experimental results. May be repeated for credit.

Credits 1

-4

Prerequisites

BIO 110, CHM 110, and permission of instructor.

BIO 300: Biostatistics

Exploration of the analysis of biological data including experimental design, data collection, describing and displaying data, inferential statistics, and interpretation of results. Students will gain proficiency in the use of statistical computing software. Special emphasis is placed on statistical methods utilized in genetics, epidemiology, human health, ecology, and agriculture.

Credits 3

Prerequisites

MTH 110

BIO 110

BIO 304: Methods for Teaching Life Science in the Secondary School

This course is designed to prepare students majoring in biology for teacher licensure in life science at the secondary (7-12) level.

Credits 3

BIO 305: Animal Anatomy and Physiology

This course is designed to review the anatomy of domestic farm animals and common pets. This course is also designed to discuss the physiology of the various systems in common to all species and the differences in form and function where they exist.

Credits 4

Prerequisites

BIO 110

BIO 206

BIO 306: Introduction to Immunology

This upper-division course is designed to provide undergraduate students with fundamental knowledge of the immune system at the molecular and cellular levels. In particular, it will introduce you to the molecules and cells that make up the human immune system and to the processes that lead to the recognition and elimination of pathogens.

Credits 3

Prerequisites

BIO 250

BIO 307: Animal Breeding and Genetics

Basic principles of Mendelian, population, and quantitative genetics as applied to the improvement of domestic animals. Selection, inbreeding, and crossbreeding strategies for genetic improvement of livestock.

Credits 3

Prerequisites

BIO 110

BIO 206

BIO 308: Parasitology (OC)

Parasites, “ones who eat at the table of another”, are shaping the biological world as they belong to all groups of organisms and infect plants and animals. This course is an introduction to the biology of parasitic organisms that can affect humans and animals (pets mainly), including life cycles, infection pathways, impacts on hosts, and diagnostics. Topics are explored via lectures, laboratory exercises, literature reviews, and discussion groups. This course is for people who are genuinely curious about parasites, have an interest in health-related fields (Veterinarian, Medical, Nurse...), or should know about parasites because of the following reasons: have pets, like to eat raw meat, live in places where they are exposed to parasites on a regular basis (yes Arkansas is one of those places).

Credits 3

Prerequisites

BIO 112

Recommended: BIO 366

BIO 309: Animal Enrichment

This class will teach students how to study, create, troubleshoot, and implement enrichment for animals. This course combines lectures and hands-on lab activities, providing an ideal learning experience for students interested in animals or animal-related professions.

Credits 3

Prerequisites

BIO 110

PSY 101

BIO 310: Health Coaching

An introduction to a wide array of topics on healthcare and healthcare systems in preparation for a practicum as a health coach. Topics include but are not limited to diabetes, cardiovascular disease, dementia, organization of healthcare systems, ethical considerations, and strategies for promoting healthy lifestyles. The course is discussion-based and requires active student engagement.

Credits 1

Prerequisites

Junior standing with focus on a career in the healthcare industries (sophomores may petition to register for the class), minimum GPA of 3.0, and permission of instructor.

BIO 311: Health Coaching Practicum

The second in a series of health coaching classes. Students who successfully complete BIO 310 will enter the practicum class directly. Students will be assigned a patient in the Batesville area and assist them in selected aspects of healthcare.

Credits 1

Prerequisites

Completion of BIO 310 with a B or better and permission of instructor.

BIO 320: Teaching in the Biology Laboratory

Upper-level students who plan to attend graduate school, particularly those who intend to teach at the college level, may take this course to obtain teaching experience. Students will teach alongside a faculty member in a laboratory course they have successfully completed at the 100 or 200 level. Students will attend each laboratory section, assist in teaching the lab, give and receive feedback on lectures, and write a teaching philosophy.

Credits 1

BIO 330: Medical Cell Biology

This course will focus on a singular human disease or condition (selected by the instructor) with particular emphasis on students learning how to leverage the primary scientific literature to gain a deeper understanding of the topic, and the experimental approaches used to synthesize this deeper understanding. Students will all present a paper of their choosing in a mini journal-club format.

Credits 1

Prerequisites

BIO 250

BIO 340: Ecology

Ecology is an introduction to the relationships between biota and their environment with emphasis on limiting factors, competition, coevolution, energy flow, and population dynamics. The course includes lecture and laboratory components, and one Saturday field trip will be required.

Credits 4

Prerequisites

BIO 112

CHM 110

MTH 110

BIO 345: Speleology

An introduction to the study of caves. Students will learn about the formation, ecology, evolution, and inhabitants of caves in the Ozarks and elsewhere. The course includes lecture and lab components.

Credits 4

Prerequisites

BIO 112 & CHM 110

BIO 350: Microbiology (OC)

Microbiology examines the structure, biochemistry, genetics, and physiology of microorganisms with an emphasis on bacteria. The course includes lecture and laboratory components.

Credits 4

Prerequisites

BIO 250

CHM 110

BIO 352: Molecular Biology

In-depth study of the structure and regulation of prokaryotic and eukaryotic genes with an emphasis on recombinant DNA techniques and applications. The course consists of both lecture and laboratory components.

Credits 4

Prerequisites

BIO 252 or permission of instructor.

BIO 356: Biochemistry

Study of the chemical basis of life. The major biomolecules—proteins, carbohydrates, lipids, and nucleic acids—will be discussed with emphasis on their reactions and roles in living cells. The course consists of both lecture and laboratory components.

Credits 4

Prerequisites

CHM 220 or permission of instructor. (Same as CHM 356)

BIO 360: Comparative Physiology (OC/PS)

Comparative Physiology provides an in-depth study of the physiological systems that maintain homeostasis in animals with emphasis on the design and function of these systems in different animals in response to the environmental pressures they face. The course consists of lecture and laboratory components.

Credits 4

Prerequisites

BIO 250

CHM 110

BIO 364: Developmental Biology

Study of the major processes which lead to the form and function of multicellular organisms. The course consists of both lecture and laboratory components.

Credits 4

Prerequisites

BIO 250 and BIO 252, or permission of instructor.

BIO 366: Histology (OC)

Study of the microscopic structure and function of animal tissues and organs. The course consists of both lecture and laboratory components.

Credits 4

Prerequisites

BIO 250

BIO 370: Evolution

This course provides an in-depth study of patterns and processes of evolutionary change, and how biological diversity is originated and maintained. The course emphasizes how evolutionary principles are the foundation of modern biology and relevant to other disciplines. Topics include mechanisms of evolutionary change, fossil record, microevolution, macroevolution, population genetics, speciation, and human evolution. The course includes lecture and laboratory components.

Credits 4

Prerequisites

BIO 112

Corequisites

BIO 252

BIO 382: Special Topics in Biology

Study in a specific area of biology not covered by regularly listed courses. Course content and structure will vary according to the interests of the instructor. Lecture, laboratory, and field work may be included.

Credits 3

-4

Prerequisites

Permission of instructor.

BIO 385: Exercise Physiology

This course addresses the study of how the body (on the cellular, tissue, and organ system levels) responds in function and structure to 1) acute exercise stress, and 2) chronic physical activity. Aspects of chemistry, biology, and physics are integrated to explain biological events and their sites of occurrence in the human body as they affect exercise and training. Includes energy systems, neuromuscular concepts as applied to sports, and functions of the cardiovascular and respiratory systems. (Same as EXS 375)

Credits 3

Prerequisites

EXS 201

BIO 260

CHM 105

BIO 399: Biology International Studies Course: Variable Topics

Study of varying topics in biology. Includes a two-week Nichols trip. Prerequisites will vary.

Credits 1

BIO 420: Advanced Topics in Biology

Advanced study in a specific area of biology. Course content and structure will vary according to the interests of the instructor. Lecture, laboratory, and field work may be included.

Credits 3

-4

Prerequisites

Permission of instructor.

BIO 425: Advanced Biochemistry

In-depth study of selected biochemical reactions and pathways of major biological and physiological significance, including synthesis and breakdown of important biomolecules, cell signaling pathways, and second messengers. The course consists of both lecture and laboratory components.

Credits 4

Prerequisites

CHM 356 or BIO 356 (Same as CHM 425)

BIO 470: Directed Study

Independent study in a specific area of biology under the direction of the faculty.

Credits 1

-4

Prerequisites

Permission of instructor.

BIO 480: Directed Research

Independent research in approved areas of biology. Under direction of faculty, the student will define, design and complete an original research project and/or take part in a larger, ongoing research program. This course may be repeated for credit.

Credits 1

-4

Prerequisites

BIO 112, CHM 120, BIO 290, Junior standing and permission of instructor.

BIO 495: Senior Evaluation

This course provides graduating seniors the opportunity to assess their knowledge of biology, and to assess the effectiveness of the biology program. Instead of regular class meetings, students will take a comprehensive exam, which will assess five major areas: cell biology, molecular biology & genetics, organismal biology, ecology & evolution, and analytical reasoning. The senior assessment also allows students to provide feedback concerning their individual learning experiences. Senior Evaluation must be taken before spring break of a student's graduating year. The course is graded pass/fail - satisfactory completion of the exam, regardless of score, is required for a passing grade.

Credits 0

Prerequisites

Senior Standing

Business Administration

Assistant Professor: Peter Staples

The Business Administration major provides students with an understanding of complex business environments, administrative practices and processes, and the structure and role of organizations, through the entrepreneurial lens. It introduces students to the concepts and theories of management and decision-making while providing experience-based opportunities in which to apply these concepts. Students will focus their studies and select an emphasis in at least one of three areas: management, accounting, or finance. As students advance, they will have the opportunity to apply their knowledge by researching, writing, and presenting a business plan. Students will also have the opportunity to apply their learned skills to the management of a real fund, through an endowment-funded investment portfolio. The business administration major offers graduates the flexibility to choose between entry-level managerial positions, advanced study, and/or the launch of a new opportunity. In the Senior year, the program ends with a year-long Capstone Experience that includes Entrepreneurship, where student teams create a business plan. The teams then compete in a business plan competition in the second semester of the Capstone Experience.

NOTES

* Students may use ECO 101 and BUS 323 to satisfy core requirements.

* Students may elect ECO 215 a second and third time.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Business Administration Major (BS)

Summary of Requirements for a Major in Business Administration

Item #	Title	Credits
ACC 210	Financial Accounting	3
ACC 211	Managerial Accounting	3
BUS 206	Principles of Marketing (OC/PS)	3
BUS 210	Principles of Management	3
BUS 303	Business Law	3
	BUS 311 or BUS 330	3
BUS 323	Statistical Applications to Business Decision Making	3
BUS 415	Social Entrepreneurship	3
BUS 420	Business Capstone	3
ECO 101	Principles of Economics I	3
ECO 102	Principles of Economics II	3
ECO 215	Investment Portfolio Management	1
ECO 320	Corporate Finance I	3

Additional Major Requirements: Accounting Emphasis

Item #	Title	Credits
ACC 311	Intermediate Accounting I	3
ACC 320	Cost Management I	3
ACC 335	Foundations of Taxation	3
	Accounting Electives	3

Additional Major Requirements: Finance Emphasis

Item #	Title	Credits
ECO 330	Corporate Finance II	3
	Finance Electives	9

Additional Major Requirements: Healthcare Administration

Item #	Title	Credits
HAM 100	Health Systems in the United States	3
HAM 200	Healthcare Finance	3
HAM 450	Healthcare Strategy Capstone	3
	Healthcare Administration Major Electives	3

Additional Major Requirements: Management Emphasis

Item #	Title	Credits
	Management Electives	9

Additional Major Requirements: Social Entrepreneurship Emphasis

Item #	Title	Credits
BUS 330	Business Process & Design Improvement (PS)	3
ECO 340	Sustainable Economic Development	3
BUS 458	Internship in Social Entrepreneurship/CSR	1-4
	One 300/400 level BUS or ECO Elective (3 credits)	3

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	92-98

BUS 311 or BUS 330

Item #	Title	Credits
BUS 311	Operations Management	3
BUS 330	Business Process & Design Improvement (PS)	3

Accounting Electives

Choose 1 of the following:

Item #	Title	Credits
ACC 312	Intermediate Accounting II	3
ACC 325	Cost Management II	3
ACC 300	Accounting Systems	3
ACC 382	Special Topics in Accounting	1-3
ACC 400	Governmental and Not-For-Profit Accounting	3
ACC 405	Advanced Tax Accounting	3
ACC 412	Auditing	3
ACC 415	Advanced Accounting	3

Finance Electives

Item #	Title	Credits
ACC 382	Special Topics in Accounting	1-3
ECO 306	Econometrics	3
ECO 382	Special Topics in Economics	1-3
ECO 390	Money and Banking	3
ECO 401	Multinational Financial Management	3
ECO 410	International Economics	3
ECO 475	Investments	3
ECO 482	Special Topics in Economics	1-3
	BUS 450/455 Internship or Senior Thesis	3
ACC 311	Intermediate Accounting I	3
ACC 312	Intermediate Accounting II	3
ECO 340	Sustainable Economic Development	3
ECO 420	Public Finance	3
ECO 382	Special Topics in Economics	1-3
ECO 482	Special Topics in Economics	1-3

Healthcare Administration Major Electives

Choose one of the following classes:

Item #	Title	Credits
HAM 300	Health Law & Ethics	3
HAM 305	Health Data & Analytics	3
HAM 310	Healthcare Service Operations	3

Management Electives

Total Credits: 9

Choose 3 of the following:

Item #	Title	Credits
BUS 315	Organizational Behavior	3
BUS 375	Human Resource Management	3
BUS 480	Business Strategy	3
	BUS 450/455 Internship or Senior Thesis	3
	BUS 382 OR BUS 470	3

One 300/400 level BUS or ECO Elective (3 credits)

Business Administration Minor

The business administration minor is a course of study designed as a second field for students who wish to develop an understanding of the basic functions impacting the decision-making process in economic organizations.

NOTES

* Students may use ECO 101 to satisfy core requirements.

Summary of Requirements for a Minor in Business Administration

Item #	Title	Credits
ACC 210	Financial Accounting	3
ACC 211	Managerial Accounting	3

Social Entrepreneurship Minor

The social entrepreneurship minor is designed to teach students fundamental concepts of business, economics, and entrepreneurship applied to creating positive sustainable social impact. The concepts from the courses are applicable to both startup and existing organizations. The most challenging social problems require holistic solutions, so students from all majors are welcome. Students in the minor will have the opportunity to collaborate with business students and students from other disciplines to apply their disciplinary knowledge to a capstone project.

Summary of Requirements for a Minor in Social Entrepreneurship

Upper Division Elective

One 3-credit 300/400 level ACC, BUS, ECO, or Internship elective if the Business Capstone is not taken.

Business Administration Course Descriptions

BUS 206: Principles of Marketing (OC/PS)

A survey of activities involved in the marketing of products to consumer and industrial markets. Topics include pricing, product development, promotion, distribution, and environmental forces that affect marketing.

Credits 3

BUS 208: Career Professionalism

Preparation of students for career success. Students will evaluate appropriate career direction, create relevant goals, identify transferable skills and experience, and effectively market themselves in resumes, cover letters, portfolios, networking environments, and employment interviews.

Credits 1

BUS 210: Principles of Management

A survey of effective management techniques for achieving organizational objectives in business, non-profit institutions, and government agencies with emphasis the four basic functions of management: planning, organizing, leading, and controlling. The course introduces Social Entrepreneurship with a focus on the triple bottom line.

Credits 3

BUS 302: Governance, Business, and Society

The course involves analyses of the intersection of government, business, law, and society. Policies, ethics, and the maintenance and regulation of competition at the local, national, and global levels are explored in relation to how organizations are governed – internally and externally.

Credits 3

Prerequisites

BUS 210

BUS 303: Business Law

A systematic analysis of the legal concepts applicable to business organizations, legal rights and remedies, secured transactions, commercial paper, property, and bankruptcy.

Credits 3

Prerequisites

Junior or senior status or permission of instructor.

BUS 310: Consumer Behavior

An introduction to consumer behavior as it affects an organization's marketing strategy and policy decisions. The course offers various perspectives on marketing activities with emphasis on basic psychological, social, cultural, and situational influences.

Credits 3

BUS 311: Operations Management

Examination of techniques and procedures relating to the design of operations, including planning and control, quality control, inventory management, maintenance management, and product planning systems. Not repeatable for credit.

Credits 3

Prerequisites

BUS 210

BUS 323

BUS 315: Organizational Behavior

An introduction to the management of individuals and small groups in the work place. This course studies the basic theory of behavior within organizations, including topics such as the dynamics of small groups, informal structures within an organization, and the significance of the social environment.

Credits 3

Prerequisites

BUS 210

BUS 320: Digital Marketing

Students will learn how companies and brands promote and build their businesses through digital platforms – websites, email, content marketing, video, and online ads. The class will also focus on the digital analytics needed to assess effectiveness – SEO, keywords, and Google Analytics.

Credits 3

BUS 323: Statistical Applications to Business Decision Making

Exploration of the background necessary to run a statistical project from data collection through to analysis and interpretation of results with emphasis on probability distributions, statistical inference, and regression analysis.

Credits 3

Prerequisites

MTH 101 or MTH 103

BUS 330: Business Process & Design Improvement (PS)

This course introduces concepts and tools for analyzing and improving existing processes or designing new ones. The main focus is on Lean Six Sigma concepts but includes other tools and concepts. The course also introduces the strategic application of quality management concepts and quality systems with an emphasis on value creation. Upon completion of the course, the student should understand and be able to apply the ASQ Six Sigma Yellow Belt Body of Knowledge.

Credits 3

Prerequisites

ECO 101

BUS 210

ACC 211

Or permission of instructor.

BUS 335: Diversity and Inclusion

The management of diversity and inclusion has evolved from a focus on compliance to a strategic-level effort with a demonstrated positive impact on an organization's performance. In the current business climate, companies that strive for both diversity and inclusion are achieving intended business results. They provide the proof that diversity and inclusion are much more than a legal or moral requirement; they're also a competitive advantage. This course provides an overview of the evolution of the management of diversity and inclusion and presents targeted and high-involvement diversity practices. It examines diversity in the contexts of teams and leaders, and it frames diversity in terms of current business and cultural challenges.

Credits 3

BUS 360: Business to Business Marketing

The Business to Business (B2B) Marketing course will explore the principles and practices of marketing in a business-to-business context. The course will cover organizations' strategies and tactics to market their products and services to other businesses, including customer relationship management, segmentation, targeting, and more.

Credits 3

BUS 362: Practical Applications in Marketing

In the Practical Applications in Marketing class, students will join the Highland Road Marketing student-run agency. As team members, students will help external small business clients with website development, social media, event management, branding, and new business development. Students can take the class for credit for two semesters (6 total credit hours).

Credits 3

Prerequisites

BUS 310

BUS 320

BUS 375: Human Resource Management

Study of the process of managing human resources to achieve organizational objectives. Students will build a foundation for the process of personnel selection, development, and maintenance, as well as consider the activities of unions and other employee organizations.

Credits 3

BUS 382: Special Topics in Business Administration

Study of selected topics in business administration. Prerequisites will vary.

Credits 1

-3

BUS 399: Business Administration International Studies Course: Variable Topics

Study of varying topics in business administration. Includes a two-week Nichols trip. Prerequisites will vary.

Credits 1

BUS 402: Marketing Research and Analysis

Study of how management uses marketing information systems and marketing research as decision-making tools with emphasis on research design, questionnaire construction, sampling, data processing, quantitative analysis, and research applications.

Credits 3

Prerequisites

BUS 323

BUS 404: Highland Road Marketing - Practical Applications in Marketing

A marketing class structured around an in-house student-run marketing services firm that involves designing a practical and academically rigorous course. This approach provides students with hands-on experience in applying marketing concepts and strategies in real-world scenarios, thus enhancing their learning and readiness for future professional roles. Cross-listed: ECON 101/PSY 101

Credits 3

Prerequisites

BUS 310

BUS 315

Or instructor approval.

BUS 405: New Product Development

The New Product Development (NPD) course will explore how new products are brought to market – from concept development to commercialization. In this course, students will learn the fundamentals of product management and modern project management used to bring new products to market.

Credits 3

BUS 410: Organization Theory

Holistic study of the organization, focusing on the major determinants of organizational effectiveness.

Credits 3

Prerequisites

BUS 210

BUS 415: Social Entrepreneurship

Social Entrepreneurship is Part one of the capstone experience required for completion of the Business Administration Major and Social Entrepreneurship Minor. An examination of the activities involved in the planning, establishing, and launching a social business enterprise. Students will explore the various start-up options for businesses and non-profits, then prepare a business plan for the proposed enterprise.

Credits 3

Prerequisites

Senior status in the Business Major or Social Entrepreneurship Minor.

BUS 420: Business Capstone

Part Two of the Business Capstone Experience. Students will complete the business plans started in BUS 415, prepare for and compete in the Arkansas Business Plan Competition. Additional topics include, project implementation, career development, and career planning.

Credits 3

Prerequisites

BUS 415

BUS 425: Advanced Theories in Marketing

The Advanced Marketing Theories course will explore advanced marketing concepts, theories, strategies, and innovative new trends successfully used by marketers today. Students will learn advanced marketing strategies and techniques using research projects and case studies.

Credits 3

Prerequisites

BUS 310

BUS 315

BUS 430: International Business

An overview of international business activities with emphasis on gaining an international perspective of cultural dynamics, business practices, political and legal environments, and global market strategies.

Credits 3

BUS 435: Special Topics in Social Entrepreneurship

Special topics or projects in social entrepreneurship include participation in social business competitions as directed by the instructor. May be repeated for up to 4 credits if topics or projects are different.

Credits 1

-4

Prerequisites

BUS 415

And permission of the instructor.

BUS 445: Field Study in Small Business Management

Practical experience exposing students to real business situations. Students will serve as consultants to small business owners in the region and prepare a case report at the end of the semester containing their findings and recommendations.

Credits 1

-3

Prerequisites

Permission of instructor.

BUS 450: Internship in Business Administration

Students will gain field experience through direct, supervised work in a selected, approved company. The internship will involve a minimum of 140 contact hours over the course of a semester, and interns will provide periodic reports to the faculty supervisor. Course can be taken two times for credit.

Credits 3

Prerequisites

Declared Business or Economics major in senior year with cumulative GPA minimum of 2.75

BUS 455: Senior Thesis

Students will conduct independent research on a selected subject in the area of business administration. Faculty members will guide students through the research process to accomplish agreed upon objectives, and students will submit a research paper and make an oral presentation at the end of the semester. Prerequisite:

Credits 3

Prerequisites

Declared Business major in senior year.

BUS 458: Internship in Social Entrepreneurship/CSR

Students will gain field experience through direct, supervised work in a selected, approved company. The internship will involve a minimum of 140 contact hours over the course of a semester, and interns will provide periodic reports to the faculty supervisor. The internship will primarily focus on Social Entrepreneurship or CSR (corporate social responsibility) topics and projects.

Credits 1

-4

Prerequisites

Permission of the instructor

BUS 470: Topics in Business Administration

Concentrated study of selected advanced topics in Management, Operations, Marketing, Human Resources, and Accounting. Prerequisites will vary.

Credits 1

-3

BUS 480: Business Strategy

Examination of the problems involved in the formulation and execution of business policies and maintenance and development of an effective organization. Includes the use of case studies as a basis for discussion.

Credits 3

Prerequisites

Declared major in final spring semester.

ECO 340: Sustainable Economic Development

An introduction to key concepts in economic development with a focus on social and environmental sustainability. Topics are presented mainly from a regional economics perspective. The role of social entrepreneurship in creating social capital and economic development is also examined.

Credits 3

Prerequisites

ECO 101

HAM 100: Health Systems in the United States

This course is an introduction to the US healthcare system and the practice of healthcare management. Students will learn how the healthcare industry functions and explore the roles and impacts of its various parts. Students will also have the opportunity to compare and contrast the US healthcare system with those of other nations.

Credits 3

HAM 200: Healthcare Finance

This course covers how to apply concepts of finance and accounting to healthcare. Students will learn how to track and evaluate the financial status of a healthcare organization. Additionally, students will learn how healthcare systems finance growth, and other projects. By the end of this course, students will be able to analyze issues and trends in healthcare finance and use financial information to support healthcare decision-making.

Credits 3

Prerequisites

HAM 100

ACC 210

HAM 300: Health Law & Ethics

This course is an overview of healthcare law in the United States. It covers the ethical and legal issues that healthcare providers and administrators are confronted within the modern workforce. By the end of this course, students will understand how the legal environment shapes the medical profession and how to analyze and respond to a range of ethical and legal issues

Credits 3

Prerequisites

BUS 303

HAM 305: Health Data & Analytics

This course helps students understand the process of analyzing patient and other healthcare data to drive change and achieve greater efficiencies in healthcare systems. Students will acquire the programming and scripting skills (no prior experience needed) they need to analyze and explore data sets. By the end of this course, students will be able to perform statistical analyses of healthcare data and turn it into actionable information to improve healthcare systems.

Credits 3

Prerequisites

BUS 323

HAM 310: Healthcare Service Operations

This course is an introduction to healthcare operations. Students will learn about operations and systems management within the context of healthcare systems, how hospital supply chains work, and how to analyze operational processes to improve efficiencies. By the end of this course, students will know how to evaluate and optimize hospital processes.

Credits 3

Corequisites

HAM 100

BUS 323

HAM 450: Healthcare Strategy Capstone

This course is the culmination of the work students conduct in the Healthcare Administration Minor. Students will learn to apply strategic thinking to healthcare management and complete a major project in which they propose a systemic change to a hospital or hospital system. By the end of this course, student will have honed and improved your relevant skills and created a portfolio project to show future prospective employers.

Credits 3

Prerequisites

HAM 100

HAM 200

BUS 323

ACC 210

Center for Transformative Teaching and Leadership

Director of Teacher Education and Associate Professor of Education: Kimberly Crosby

Assistant Professors: Margaret Campbell

Firmly rooted in the liberal arts, Lyon College's teacher education program offers programs for teacher licensure in K-6 elementary education; 7-12 secondary education in English, life science, math, and social studies; and K-12 health, physical education, and coaching as well as instrumental and vocal music. In order to pursue teacher licensure, all candidates must agree to a criminal records check and meet testing and grade point average requirements prior to internship placement in their senior year. While finishing their major(s) in the senior year, all candidates formally admitted by the Liberal Arts Teacher Education Committee participate in a teaching residency in one of several local partnership school districts. Candidates must earn passing scores on the state-approved content assessment and on the pedagogical assessment prior to the recommendation for licensure. Candidates who are completing a licensure program may also pursue the K-12 Coaching endorsement by taking the required physical education courses and passing the state-approved content assessment in that area.

MISSION

The Lyon College Teacher Education Program prepares educators to become effective teachers and leaders who educate using best practices; who engage with learners, families, colleagues, and community stakeholders; who inspire learner success; and who empower students to become self-directed learners and leaders.

VISION

The Lyon College Teacher Education Program will produce excellent teachers and leaders who are prepared to meet the challenges of the profession.

VALUES

- Program faculty strongly support the right of all students, regardless of gender, race, creed, family background or socioeconomic status, to be taught by a well-qualified teacher.
- We value a liberal education as the foundation of strong educator preparation in that it fosters the knowledge and dispositions necessary for supporting student learning and growth.
- We value collaboration with families, colleagues, educational partners, and community stakeholders to support the development of our students as professional educators and leaders.
- We value the dedication and commitment of our students to improving the quality of education for citizens in our state.
- We believe that a strong educational system is vital to a democratic society in which all members are equally represented, valued, and respected.

GOALS

1. Educate using best practices in instructional design, delivery, and assessment to maximize student learning and growth.
2. Engage with learners, families, colleagues, and community stakeholders to improve teaching and learning.
3. Inspire learner success by modeling appropriate professional dispositions.
4. Empower students to become self-directed learners and leaders.

Title II

Section 307 of Title II of the Higher Education Act mandates that the Department of Education collects data on state assessments and other requirements, standards for teacher licensure, and data on the performance of teacher

preparation programs. In Arkansas, a system of multiple measures determines the quality of teacher education candidates using Praxis exams to measure content and pedagogical knowledge. Candidates must earn passing scores on the PRAXIS tests appropriate to their teaching areas.

Program Transitions/Admission Requirements

There are three specific transition points in Lyon's teacher education program, including Transition One: Pre-Admission, Transition Two: Admission to Residency, and Transition Three: Exit from Program.

Transition One: Practicum Enrollment

Students wishing to begin the junior-level practicum sequence must provide documentation of a 2.75 cumulative GPA from Lyon or a transfer institution prior to enrolling in Practicum I. Students who do not have the requisite GPA must get permission from the instructor and the Director of Teacher Education in order to enroll in a practicum course. Practicum students should declare a major in Education upon enrolling in Practicum I.

Transition Two: Admission to Residency

Candidates for the student teaching residency must apply for admission during the semester immediately preceding the proposed placement. Candidates will be required to submit evidence of their preparedness for the residency and to sit for an interview with members of LATEC (Liberal Arts Teacher Education Committee) following submission of the required documentation. The following materials must be submitted electronically prior to the interview for admission:

- Candidate Information Form
- Names and email addresses of at least three references, one of whom must be the major advisor or another faculty member in the major discipline
- Philosophy of education statement or a typed statement explaining why you want to be a teacher
- Lyon transcript documenting at least a 2.9 cumulative GPA as well as a grade of "C" or higher in the following courses:
 - ENG 102 English Composition II
 - MTH 101 College Algebra OR MTH 103 College Algebra with Lab OR MTH 105 Math for the Liberal Arts
 - EDU 202 Overview of Teaching
- Formal observation evaluations from EDU 327 Teaching Practicum II

PLEASE NOTE: Transferred credits will not be included in the GPA calculation for admission to the student teaching residency. Students who do not meet the cumulative GPA requirement of 2.9 or the course grade requirements will not be admitted, but may submit a written request to the Director of Teacher Education for reconsideration of admission upon meeting the requirements.

Transition Three: Exit from the Program/Residency Portfolio

Teacher candidates maintain a digital portfolio documenting their progress in the program beginning with EDU 202. The completed portfolio is submitted in the last semester of the senior year for review and final grading. The portfolio must be submitted electronically and must include a capstone narrative and selected artifacts from their education coursework. Candidates are provided with a checklist and rubric to aid them in preparing their portfolios for submission. All digital portfolios will be archived by Lyon in an electronic format. More information about the portfolio can be found in the Lyon College Teacher Education Handbook.

Licensure:

Students who meet the criteria and are in good standing will have completed the Liberal Arts Teacher Education Program and will be recommended for an Arkansas teaching license. Candidates should be aware that the Arkansas Department of Education has access to and must consider any background check reflecting a conviction (pleading

guilty or no contest or being found guilty by a jury or judge) for any offense listed in Arkansas Code Ann. §§ 6-17-410 and 6-17-414 as well as any felony involving physical or sexual injury, mistreatment, or abuse against another, including records that have been expunged, sealed, or subject to a pardon. **The discovery of a record of conviction for any felony/non-felony offense could result in the applicant being ineligible for an Arkansas educator's license.** For any questions about this, please call the ADE legal office at 501.682.4227.

Education Major [Elementary K-6] (BA)

The Education Major prepares teacher candidates for teaching at the K-6, 7-12, and K-12 levels in specified content areas. This course of study combines a solid foundation in disciplinary content, coursework focusing on educational theory and pedagogy, and professional training and extensive field experience in partner school classrooms appropriate for the selected teaching emphasis. Students may prepare for licensure in the following licensure levels and content areas:

K-6 level (multidisciplinary – includes English language arts, mathematics, social studies, and science);

7-12 level in English, life science, mathematics, or social studies

K-12 level in health, physical education, and coaching; vocal and/or instrumental music

Candidates will complete a full-year student teaching residency in an assigned partner school classroom. Semester 1 (EDU 490) requires that candidates complete a minimum of 270 hours in the residency classroom. Semester 2 (EDU 491) requires candidates to complete a minimum of 360 hours in the residency classroom. Candidates who will be graduating no later than December 2026 may request an alternative full-day one-semester residency placement with approval from the education program director.

Candidates will be individually advised concerning their need for additional coursework in order to meet licensing requirements or to prepare for the Praxis II content knowledge exam(s). These courses may or may not be included in the required major.

*** Additional content requirements satisfied by the Core Curriculum include: COR 120 The American Experience, COR 140 Imagining Lives Through World Literature, and HIS 110 World Civilization I.**

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprising of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Education Major [Instrumental Music K-12] (BA)

The Education Major prepares teacher candidates for teaching at the K-6, 7-12, and K-12 levels in specified content areas. This course of study combines a solid foundation in disciplinary content, coursework focusing on educational theory and pedagogy, and professional training and extensive field experience in partner school classrooms appropriate for the selected teaching emphasis. Students may prepare for licensure in the following licensure levels and content areas:

K-6 level (multidisciplinary – includes English language arts, mathematics, social studies, and science);

7-12 level in English, life science, mathematics, or social studies

K-12 level in health, physical education, and coaching; vocal and/or instrumental music

Candidates will complete a full-year student teaching residency in an assigned partner school classroom. Semester 1 (EDU 490) requires that candidates complete a minimum of 270 hours in the residency classroom. Semester 2 (EDU 491) requires candidates to complete a minimum of 360 hours in the residency classroom. Candidates who will be graduating no later than December 2026 may request an alternative full-day one-semester residency placement with approval from the education program director.

Candidates will be individually advised concerning their need for additional coursework in order to meet licensing requirements or to prepare for the Praxis II content knowledge exam(s). These courses may or may not be included in the required major.

Students pursuing a secondary or K-12 teaching license must complete the education requirements and the concurrent requirements for the teaching emphasis as listed below.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Center for Transformative Teaching and Leadership

Course Descriptions

EDU 202: Overview of Teaching (OC)

This course provides an introduction to the teaching profession highlighting the foundations of the education system in the United States and the role of teachers in that system. Students will be introduced to Charlotte Danielson's Framework for Teaching Evaluation Instrument and its use in supporting Arkansas teachers' performance and development. Students will gain practical experience by completing a minimum of 20 hours of classroom observation through video and in-person sessions in a public school setting.

Credits 3

Prerequisites

Sophomore status or permission from the instructor

EDU 306: Social Studies for the K-12 Classroom

This topics course will focus on social studies content appropriate for the K-12 classroom, with emphasis on physical and human geography, sociology, and economics.

Credits 3

Prerequisites

EDU 327 as a pre-requisite or co-requisite

EDU 320: Teaching Reading

Exploration of theories and strategies that reflect best practice in reading instruction. Students will learn how to diagnose reading difficulties, use intervention strategies to assist struggling readers, and foster disciplinary literacy across the curriculum. Students will also gain practical experience by completing a minimum of 10 hours of classroom observation and directed experiences in reading instruction.

Credits 3

Prerequisites

EDU 327 as a corequisite or permission from the instructor

EDU 323: Teaching Art in K-12

This course focuses on the content and pedagogical knowledge and skills necessary for teaching art education in the K-12 educational setting. Course topics include implementing a choice-based curriculum, assessing student work, teaching art to diverse students, using inquiry methods to explore art, and creating art using diverse media.

Credits 2

Prerequisites

EDU 325

EDU 324: Children's Literature

Evaluation and selection of developmentally appropriate texts from the various genres in children's literature. Students will learn to use effective instructional practices and resources for teaching children and adolescents to read and respond critically to literary texts.

Credits 3

Prerequisites

Sophomore status

EDU 327: Teaching Practicum

The teaching practicum is an introduction for pre-service teachers to the four domains of Charlotte Danielson's Framework for Teaching and to the development of professional dispositions and knowledge of effective instructional practice. Course content will focus on organizing content knowledge for student learning, creating environments that are conducive to student learning, developing the instructional skills necessary for guiding student learning, and demonstrating growth within the profession. Supervised classroom participation experiences of at least 30 hours in approved settings are required in grades and/or disciplines appropriate to students' areas of licensure. Fee required.

Credits 2

Prerequisites

EDU 202

And a minimum cumulative GPA of 2.75 or instructor permission.

EDU 328: Integrating Technology in the Classroom

Designed to prepare teacher candidates to effectively integrate technology into classroom practice, this course focuses on using technological resources and tools to enhance learning through standards-based content instruction and pedagogical best practices. Course topics align with the International Society for Technology in Education (ISTE) standards for students and teachers.

Credits 3

Prerequisites

EDU 327 as a corequisite or permission from the instructor

EDU 329: Teaching Physical & Health Education in K-12

This course focuses on the content and pedagogical knowledge and skills necessary for teaching physical education and health in the K-12 educational setting. Course topics include developing a skills-based approach, teaching to the national standards for physical and health education, developing meaningful curriculum and assessments, and implementing effective instructional practices.

Credits 3

Prerequisites

EXS 201 or permission of instructor

Corequisites

EXS 201 or permission of instructor

EDU 330: Literacy in the Disciplines

Preparation of students to teach reading, writing, and reasoning processes that support learning in the various content areas across the curriculum. The course focuses on the knowledge and skills specific to selecting appropriate texts, understanding text structures, and organizing instruction for discipline-related purposes that connect reading, writing, speaking, and listening to content area curricula.

Credits 3

Prerequisites

EDU 320 or permission from the instructor

EDU 335: Educating Diverse and Exceptional Learners (PS)

This course will assist teacher candidates in becoming caring, reflective, and competent professionals and preparing them to meet the educational needs of diverse and exceptional learners. It will take into consideration cultural, economic, language, and other differences found in learners as well as explore different types and levels of intelligence, resilience, and motivation.

Credits 3

Prerequisites

EDU 202

EDU 336: Educating Diverse and Exceptional Learners Field Experience

Directed experience in a diverse setting applicable to teacher education and/or professional growth. Corequisite: EDU 335 or consent from instructor. May be repeated for additional elective credit.

Credits 1

EDU 340: Teaching Stem in Elementary I: Mathematics/Technology

Designed to prepare teacher candidates to teach mathematics at the elementary school (K-6) level, this course will focus on the knowledge and skills necessary for meeting common core and disciplinary content standards as well as Arkansas teacher standards and competencies. It includes an emphasis on technology integration.

Credits 2

EDU 345: Teaching Stem in Elementary II: Science/Engineering/Technology

Designed to prepare teacher candidates to teach science at the elementary school (K-6) level, this course will focus on the knowledge and skills necessary to meet disciplinary content standards and the Arkansas teacher standards and competencies. It includes emphases on engineering and technology integration.

Credits 2

EDU 382: Special Topics in Education

Study of selected topics in education. Prerequisites will vary.

Credits 3

EDU 399: Education International Studies Course: Various Topics

Studies of varying topics in education. Includes a two-week Nichols trip. Prerequisites will vary depending upon course topic.

Credits 1

EDU 403: Integrating the Liberal Arts in the K-12 Classroom

This course provides an introduction to planning and teaching integrated thematic units in the K-12 classroom. Topics will include interdisciplinary teaching and learning, instructional models for a variety of teaching purposes, and pedagogical practices that support student learning. Students will create an interdisciplinary thematic unit that incorporates content from a variety of disciplines including the humanities, fine arts, social sciences, mathematics, and sciences and that is developmentally appropriate for the target age group and responsive to diverse student needs.

Credits 3

Prerequisites

EDU 327

EDU 450, 451: Directed Study

Directed individual study in an area accepted for teacher certification or professional growth.

Credits 1

-3

Prerequisites

Must be approved by LATEC before being placed in an internship or residency.

EDU 460: Directed Multicultural Experience

Directed experience in an area accepted for teacher certification or professional growth.

Credits 1

-3

Prerequisites

Must be approved by LATEC before being placed in an internship or residency.

EDU 464: Integrating Methods in K-6

This course prepares teacher candidates to integrate liberal arts methods into core elementary subjects (K-6), focusing on art, music, movement, and their connections to other disciplines, such as social studies and literacy. Candidates will develop materials, create interdisciplinary lesson plans, and apply effective teaching methods using High-Quality Instructional Materials (HQIM) while meeting content standards and Arkansas teacher competencies.

Credits 3

Prerequisites

EDU 327

Corequisites

Enrollment in Residency or permission of instructor

EDU 467: Development & Learning in the Classroom

This course examines the typical developmental process from birth through adolescence and will emphasize how a child's development impacts their learning in the classroom. Topics will include changes in physical, cognitive, social, and personality development and the major theories of the field. In addition, we will focus on cultural and educational issues that coincide with the study of child and adolescent development. Application of developmental theory to practice is provided through several hands-on learning activities and child observations.

Credits 3

Prerequisites

Admission to Residency

Corequisites

EDU 490 or EDU 491

EDU 468: Assessment of Learning & the Learner

This course provides an examination of the uses of assessment practices and strategies to improve student learning in the K-12 classroom. Focus will be on methods, materials, and decision-making skills necessary for developing authentic assessments that are formative or summative and appropriate evaluating student learning.

Credits 3

Prerequisites

Admission to Residency

Corequisites

EDU 490 or EDU 491

EDU 490: Teaching Residency I

The teaching residency is designed to provide the pre-service teacher with a realistic mentored experience in planning, managing, and teaching in a public-school classroom. The seminar is designed to both enable the resident to integrate theory and practice and to find professional support from peers and faculty. The seminar itself will be process-oriented, with weekly topics determined collaboratively between the instructor and the students. This is the first semester of a two-semester sequence. The resident must complete a minimum of 270 hours in the assigned residency classroom. Prerequisites: Must be formally admitted to the residency by LATEC

Credits 6

Prerequisites

Formal admission by LATEC

EDU 491: Teaching Residency II

The teaching residency is designed to provide the pre-service teacher with a realistic mentored experience in planning, managing, and teaching in a public-school classroom. The seminar is designed to both enable the resident to integrate theory and practice and to find professional support from peers and faculty. The seminar itself will be process-oriented, with weekly topics determined collaboratively between the instructor and the students. This is the second semester of a two-semester sequence. The resident must complete a minimum of 360 hours in the assigned residency classroom. Prerequisites: Successful completion of EDU 490 Teaching Residency I.

Credits: 9

Credits 9

Prerequisites

EDU 490

EDU 496: Student Teaching Residency

The student teaching internship is designed to provide the teacher candidate with a realistic mentored experience in planning, managing, and teaching at the desired licensure level. The accompanying seminar is designed to enable the intern to integrate theory and practice and to find professional support from peers and faculty. The one-semester internship option is offered as an alternative to the year-long internship. Accepted students must gain approval for this course from both the major and education advisors. The internship will be split across the appropriate grade levels. Fee required.

Credits 15

Prerequisites

Must be approved by LATEC before being placed in an internship or residency.

Chemistry

Associate Professor: Irosha Nawarathne

Assistant Professors: Matthew Thompson and Mengfan Zhu

The chemistry major is designed to guide students toward understanding the principles underlying the composition, structure, and properties of substances—both natural and man-made—and the transformations they undergo. The program emphasizes helping students become knowledgeable observers and independent, imaginative problem-solvers, using state-of-the-art equipment in a laboratory setting.

The chemistry program offers three degrees of Bachelor of Science with the emphases listed below:

1. B.S. Major in Chemistry with Chemical Careers Emphasis
2. B.S. Major in Chemistry with Health Sciences Emphasis
3. B.S. Major in Chemistry with Material Science Emphasis

The B.S. in Chemistry with Chemical Careers Emphasis is designed primarily for students who wish to pursue graduate studies within the chemical sciences or seek employment in chemistry-related fields. Students planning to enter health-allied professional schools may choose a B.S. in Chemistry with Health Sciences Emphasis or B.S. in Chemistry with Material Science Emphasis degree. Further information and course requirements are listed under each emphasis.

- Students may take CHM 105, CHM 110, MTH 210, and PHY 240/241 to satisfy core requirements.
- CHM 105 is not required for students who enter Lyon College with a score of 25 or better on the ACT mathematics section (or equivalent SAT score) and a grade of "C" or better in high school chemistry.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Chemistry Major with Chemical Careers Emphasis (BS)

*Students may use this course to satisfy core requirements.

CHM 105 is not required for students who enter Lyon College with a score of 25 or better on the ACT mathematics section (or equivalent SAT score) and a grade of "C" or better in high school chemistry.

Methods of Chemical Research can be completed by taking CHM 280 or CHM 480 credit/s.

Meet 3 hours a week of chemical research for a minimum of two semesters.

Summary of Requirements for a Major in Chemistry (BS)

Item #	Title	Credits
CHM 105	Introduction to Chemistry *	4
CHM 110	General Chemistry I (PS)	4
CHM 120	General Chemistry II (PS)	4
CHM 210	Organic Chemistry I	4

CHM 224	Quantitative Analysis	2
CHM 302	Instrumental Analysis	4
CHM 356	Biochemistry	4
CHM 355	Physical Chemistry I	3
CHM 365	Physical Chemistry II	3
CHM 482	Topics in Chemistry	3

Chemistry Course Descriptions

CHM 105: Introduction to Chemistry *

An introductory course for students with little or no background in chemistry who wish to pursue further study in the sciences. Topics focus on basic mathematical skills, estimation, chemical nomenclature, stoichiometry, acids and bases, and data analysis. Students will exercise their problem-solving skills throughout the course. Course consists of lecture and laboratory components.

Within the Biology and Chemistry Majors and Minors, * CHM 105 is not required for students who enter Lyon College with a score of 25 or better on the ACT mathematics section (or equivalent SAT score) and a grade of "C" or better in high school chemistry.

Credits 4

Corequisites

MTH 101 or MTH 103

CHM 110: General Chemistry I (PS)

Fundamental concepts of chemistry, including stoichiometry, atomic structure, chemical bonding, periodic properties, energetics, chemical reactivity, and descriptive chemistry of the elements. Course consists of both lecture and laboratory components.

Credits 4

Prerequisites

MTH 101/103 or a 25 or better on the ACT mathematics section (or equivalent SAT score) and a “C” or better in high school chemistry, or a grade of “C” or better in CHM 105

CHM 120: General Chemistry II (PS)

Fundamental concepts of chemistry, including the behavior of matter, solutions, acids and bases, molecular and ionic equilibria, electrochemistry, and kinetics. Course consists of both lecture and laboratory components.

Credits 4

Prerequisites

“C” or better in CHM 110

CHM 182: Topics in Chemistry

Exploration of the modern aspects of classical chemistry, including organic, inorganic, analytical, and physical chemistry and biochemistry. Appropriate for all students. Elective credit. May be taken more than once for credit with permission of instructor.

Credits 1

-4

CHM 210: Organic Chemistry I

Study of carbon compounds with emphasis on fundamental types of aliphatic and aromatic compounds and their structure, nomenclature, preparations, reactions, and practical applications. Course consists of both lecture and laboratory components.

Credits 4

Prerequisites

CHM 120

CHM 220: Organic Chemistry II (OC)

Continuation of CHM 210 with emphasis on aliphatic and aromatic compounds and their structure, nomenclature, preparations, reactions, and practical applications. Course consists of both lecture and laboratory components.

Credits 4

Prerequisites

CHM 210

CHM 224: Quantitative Analysis

Exploration of the physical principles of analytical chemistry that further develop the classical (non- instrumental) methods of chemical analyses. Course consists of lecture on possibly a few hands-on experiences, if any. Topics include basic data handling, statistics, error propagation, acids and bases, redox chemistry, and chemical equilibrium as they apply to the methods to be treated in the laboratory setting using case studies. Students will examine applications of volumetric analysis, redox titrimetry, potentiometry, and gravimetry and complete qualitative analysis.

Credits 2

Prerequisites

CHM 120

CHM 280: Introduction to Chemical Research

An introduction to independent research, including literature searches, experimental methods, and proper recording and reporting of experimental results.

Credits 1

-3

Prerequisites

CHM 110 and permission of instructor.

CHM 282: Special Topics in Chemistry

Exploration of the modern aspects of classical chemistry, including organic, inorganic, analytical, and physical chemistry and biochemistry. Appropriate for all students. Elective credit. May be taken more than once for credit with permission of instructor.

Credits 1

-4

CHM 302: Instrumental Analysis

Theory, operation, and application of various instruments used in a laboratory. Topics include infrared spectroscopy, ultraviolet-visible spectrophotometry, spectrophotofluorometry, atomic absorption spectroscopy, emission spectroscopy, nuclear magnetic resonance spectroscopy, mass spectroscopy, gas chromatography, and high performance liquid chromatography. Course consists of both lecture and laboratory components.

Credits 4

Prerequisites

CHM 220 or permission of instructor.

CHM 304: Environmental Chemistry

Study of chemistry and the environment. Topics include toxicology, common pollutants, sampling for pollutants in air and water, and techniques used in analysis. Course consists of lectures, demonstrations, laboratory experiments, and field work.

Credits 4

Prerequisites

CHM 120

CHM 355: Physical Chemistry I

An introduction to the basic principles of physical chemistry with emphasis on the kinetics and molecular dynamics of chemical reactions and the laws of thermodynamics and their relationship to equilibria in chemistry. Students will analyze experimental data using case studies, solve complex problems, and develop scientific data reporting skills. Course consists of lecture on possibly a few hands-on experiences, if any.

Credits 3

Prerequisites

CHM 120, MTH 210, and either PHY 210 or PHY 240

CHM 356: Biochemistry

Study of the chemical basis of life with emphasis on the major biomolecules—proteins, carbohydrates, lipids, and nucleic acids—and their reactions and roles in living cells. Course consists of both lecture and laboratory components.

Credits 4

Prerequisites

CHM 220 or permission of instructor. (Same as BIO 356)

CHM 365: Physical Chemistry II

Introduction to the physical chemistry principles that concern the structure of individual atoms and molecules, concentrating on quantum mechanics and spectroscopy. This course will examine how the viewpoints of quantum mechanics and thermodynamics are brought together to discuss statistical thermodynamics with emphasis on the analysis of complex problems and experimental data using case studies, and the improvement of scientific communication skills. Course consists of lecture on possibly a few hands-on experiences, if any.

Credits 3

Prerequisites

CHM 220

MTH 220

PHY 250

CHM 370: Junior Seminar

The junior seminar allows students to develop their research and oral skills by reading and presenting information from current primary chemical literature. Each student must deliver a series of oral presentations on topics from the literature. Attendance at weekly departmental seminars and discussions is required.

Credits 1

Prerequisites

Junior standing or permission of instructor.

CHM 382: Topics in Chemistry

Exploration of the modern aspects of classical chemistry, including organic, inorganic, analytical, and physical chemistry and biochemistry. Appropriate for all students. Elective credit. May be taken more than once for credit with permission of instructor.

Credits 1

-4

CHM 390: Internship in Chemistry

Practical experience in chemistry or a related field of the student's choosing, with supervision by professionals. Offered every semester and in the summer as an elective for upper-class students who are interested in sampling a particular field of chemistry as a career opportunity.

Credits 1

-3

Prerequisites

Junior or senior standing and permission of instructor.

CHM 399: Chemistry International Studies Course: Variable Topics

Study of varying topics in chemistry. Includes a two-week Nichols trip. Prerequisites will vary.

Credits 1

CHM 413: Advanced Inorganic Chemistry

Examination of quantum theory, symmetry and group theory, electronic structure, chemical bonding, the periodic table and periodic properties, crystalline structure, coordination chemistry, and some descriptive chemistry of the transition elements. Course consists of lecture on possibly a few hands-on experiences, if any.

Credits 3

Prerequisites

CHM 365 or permission of instructor.

CHM 425: Advanced Biochemistry

In-depth study of selected biochemical reactions and pathways of major biological and physiological significance. Topics include synthesis and breakdown of important biomolecules, cell signaling pathways, and second messengers. Course consists of both lecture and laboratory components.

Credits 4

Prerequisites

CHM 356 or BIO 356. (Same as BIO 425)

CHM 450: Directed Study

Individual work on special topics in chemistry.

Credits 1

-3

CHM 480: Directed Research

Independent research to acquaint students with the methods and techniques of chemical research.

Credits 1

-3

Prerequisites

CHM 220

CHM 482: Topics in Chemistry

Exploration of the modern aspects of classical chemistry, including organic, inorganic, and physical chemistry and biochemistry.

Credits 3

Prerequisites

Junior standing or permission of instructor.

CHM 490: Senior Seminar

Taken in the final semester of the senior year, this course is designed to review the competency of each student in chemistry. Students will deliver a formal presentation consisting of an oral lecture and a written paper. Seminar topics for the presentation are chosen by the students in consultation with the faculty. All presentations are to be prepared under the supervision of a faculty member. Attendance at weekly departmental seminars and discussions is required.

Credits 1

Prerequisites

CHM 370 and senior standing.

Communication Studies Program

Assistant Professor: Kimberly Kulovitz

The Communication Studies Program at Lyon College seeks to cultivate in students the knowledge and ability to use communication theory and practice to connect people, groups, and organizations. Students will employ effective communication strategies to inform, educate, and collaborate, strengthening connections between individuals and groups to create a stronger, more equitable world.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Communication Studies Program Course Descriptions

*COM 482: Special Topics: Mass Communications

*Pending Approval

COM 101: Mass Media and Society

This course explores issues in the interaction between mass media, culture, and society. It is intended to help students develop a critical perspective on mass media, considering the interplay between media institutions, media content, culture, audiences, and social institutions and practices.

Credits 3

COM 150: Introduction to Communication Theory

This course examines various theories that attempt to describe, explain, and/or predict human communication behavior. Theories are studied in the contexts of the communication field: interpersonal, small group, public, organizational, mass media, intercultural, and gender. Students are encouraged, through structured assignments, to apply the theories to their own lives.

Credits 3

Prerequisites

COM 101

COM 200: Interpersonal Communication

This course introduces the principles and theories of interpersonal communication. This course examines human behavior in various personal and professional contexts, emphasizing effective communication skills, communication competence, conflict resolution, and the development and maintenance of personal relationships. Through theoretical frameworks, practical exercises, and case studies, students will develop a deeper understanding of the role communication plays in their personal and professional lives.

Credits 3

COM 225: Persuasion

An investigation of rhetorical and behavioral theories of persuasion, the devising of persuasive campaigns, as well as the consumption and generation of persuasive messages in a variety of communication settings. Applicable for a wide variety of disciplines and careers including business, psychology, law, and human relations in addition to general communication.

Credits 3

COM 301: Organizational & Small Group Communication

This course introduces communication within organizations and communication within small groups and teams. This course explores the theories, practices, and challenges of organizational communication and the dynamics of teams and leadership. Topics will include group decision-making, collaboration and competition, group roles, organizational structures, and relationships, managing change, and understanding the complexities of teamwork.

Credits 3

Prerequisites

ENG 102

COM 310: Communication and Technology

This course will explore the characteristics and functionality of communication technologies. A major focus will be placed on identifying the unique properties of new communication technologies and how they can be leveraged to achieve effective and targeted communication.

Credits 3

Prerequisites

COM 101

COM 450: Independent Study

This course provides communication studies majors and minors an opportunity for self-directed learning under the supervision and guidance of a faculty member. This course is designed for students who would like to explore more specialized topics and research or want to develop unique and creative projects that align with personal interests and goals within the parameters of the communication studies program.

Credits 3

Prerequisites

ENG 102

COM 490: Communication Studies Capstone

The communication studies capstone is the culminating experience for students majoring in Communication Studies. In this course, students will synthesize learning and integrate and apply the knowledge and skills acquired in the major. Through a combination of creative projects, research, and analysis, students will demonstrate their ability to think critically, communicate effectively, and contribute meaningfully to the field of communication.

Credits 3

Prerequisites

Senior standing.

PSY 382: Special Topics

PSY 382: Special Topics

Computer Science

Associate Professor: Marcus Birkenkrahe

Assistant Professor: Pietro Dall'olio

Computer Science is a rapidly changing and exciting field. Its impact on our lives is evidenced by the variety of uses of information technology in business, industry, entertainment, science, and government, to name a few. The Computer Science Major focuses on the foundations of the computer sciences including areas such as software and hardware design, mathematical foundations of computer science, and complexity of computation. The program is designed to give students an enduring foundation for future professional growth. The program blends theory and practice into a learning experience that gives students the capability to apply computer and information systems technology to a wide range of disciplines.

- MTH 115 and MTH 210 may also be used to satisfy core requirements.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

MTH 290	Foundations of Modern Mathematics	3

CSC Electives (9 credits)

3 electives at the 300/400 level; one may be a 300/400 level MTH class.

Computer Science and Artificial Intelligence (BS)

Summary of Requirements for a Major in Computer Science and Artificial Intelligence

Item #	Title	Credits
	MTH 115 or MTH 290	3
	CSC 100, CSC 109, or CSC 115	3
CSC 240	Data Structures with C++	3
CSC 245	Introduction to Digital Logic	3
CSC 255	Computer Architecture	3
CSC 265	Algorithms	3
CSC 310	Mathematical Foundations of Computer Science	3
CSC 420	Operating Systems	3
CSC 482	Special Topics in Computer Science	3
DSC 305	Machine Learning	3

Artificial Intelligence Core

Item #	Title	Credits
CSC 271	Introduction to Generative AI	3
CSC 272	Career Navigation and Exploration in AI	3
CSC 373	Predictive Modeling in AI	3
CSC 474	Prescriptive AI	3
CSC 450	Independent Study	1-3

Core Curriculum

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	89-93

MTH 115 or MTH 290

Item #	Title	Credits
MTH 115	Discrete Mathematics	3
MTH 290	Foundations of Modern Mathematics	3

CSC 100, CSC 109, or CSC 115

One of the following:

Item #	Title	Credits
CSC 100	Introduction to Programming in C++ (PS)	3
CSC 109	Introduction to Programming in Python	3
CSC 115	Introduction to Programming in Java	3

Computer Science and Cybersecurity (BS)

Summary of Requirements for a Major in Computer Science and Cybersecurity

Item #	Title	Credits
	MTH 115 or MTH 290	3
	CSC 100, CSC 109, or CSC 115	3
CSC 240	Data Structures with C++	3
CSC 245	Introduction to Digital Logic	3
CSC 255	Computer Architecture	3
CSC 265	Algorithms	3
CSC 310	Mathematical Foundations of Computer Science	3
CSC 330	Database Theory and Application	3
CSC 410	Data Communications and Networks	3
CSC 420	Operating Systems	3

Cybersecurity Core

Item #	Title	Credits
CSC 181	Introduction to Cybersecurity	3
CSC 283	Network and System Security	3
CSC 284	Cybercrime and Governance	3
CSC 385	Security Operations	1-3
CSC 386	Ethical Hacking	3
CSC 488	Cybersecurity Capstone	3

Core Curriculum

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	92-96

MTH 115 or MTH 290

Item #	Title	Credits
MTH 115	Discrete Mathematics	3
MTH 290	Foundations of Modern Mathematics	3

CSC 100, CSC 109, or CSC 115

One of the following:

Item #	Title	Credits
CSC 100	Introduction to Programming in C++ (PS)	3
CSC 109	Introduction to Programming in Python	3
CSC 115	Introduction to Programming in Java	3

Computer Science and Game Development (BA)

Summary of Requirements for a Major in Computer Science and Game Development

Item #	Title	Credits
	MTH 115 or MTH 290	3
	CSC 100, CSC 109, or CSC 115	3
CSC 240	Data Structures with C++	3
CSC 245	Introduction to Digital Logic	3
CSC 255	Computer Architecture	3
CSC 265	Algorithms	3
CSC 310	Mathematical Foundations of Computer Science	3
CSC 320	Programming Languages	3
CSC 330	Database Theory and Application	3
CSC 420	Operating Systems	3
CSC 482	Special Topics in Computer Science	3

Game Development Core

Item #	Title	Credits
CSC 191	Introduction to Games	3
CSC 292	Content and Systems Design	3
CSC 394	C# Programming	3
CSC 496	Capstone Project: Building a Game	3

Core Curriculum

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	91-93

MTH 115 or MTH 290

Item #	Title	Credits
MTH 115	Discrete Mathematics	3
MTH 290	Foundations of Modern Mathematics	3

CSC 100, CSC 109, or CSC 115

One of the following:

Item #	Title	Credits
CSC 100	Introduction to Programming in C++ (PS)	3
CSC 109	Introduction to Programming in Python	3
CSC 115	Introduction to Programming in Java	3

Computer Science Minor

The Computer Science minor is a course of study designed for students who wish to obtain a working knowledge of Computer Science fundamentals, to include computational theory, discrete structures, and the application of Logic to both hardware and software development. A minor in Computer Science can enhance the value of a wide variety of majors.

Students may develop an individualized major by doing research or taking an internship.

NOTE

* Students may use MTH 115 and MTH 210 to satisfy core requirements.

Summary of Requirements for a Minor in Computer Science

Item #	Title	Credits
	MTH 115 or MTH 290	3
MTH 210	Calculus I	4
CSC 100	Introduction to Programming in C++ (PS)	3
CSC 240	Data Structures with C++	3
CSC 245	Introduction to Digital Logic	3
CSC 265	Algorithms	3
	CSC Elective (3 credits)	3
	Total Credits	22

MTH 115 or MTH 290

Item #	Title	Credits
MTH 115	Discrete Mathematics	3
MTH 290	Foundations of Modern Mathematics	3

CSC Elective (3 credits)

One Computer Science elective.

Computer Science Course Descriptions

CSC 100: Introduction to Programming in C++ (PS)

An introduction to structured programming, including conditional statements, loops, functions, input, output, and use of various data types. Object-oriented features are introduced.

Credits 3

Prerequisites

MTH 101 or MTH 103

CSC 105: Digital Humanities (PS)

An introduction to the theory and methods of Digital Humanities. Topics will include digital text encoding (XML), text computation and analysis, data visualization, and geographic information system (GIS) mapping.

Credits 3

CSC 109: Introduction to Programming in Python

This course assumes students have no prior programming experience and then introduces them to the Python programming language. Topics include basic programming concepts, problem-solving methods, algorithm development, program design and learning the use of packages/ libraries useful for data processing tasks.

Credits 3

Prerequisites

MTH 101

CSC 115: Introduction to Programming in Java

An introduction to object-oriented programming using Java. Topics include problem-solving methods, algorithm development, program design, testing, debugging, and documentation.

Credits 3

Prerequisites

MTH 101 or MTH 103

CSC 181: Introduction to Cybersecurity

In today's world, no one is safe from cyber-attacks, but everyone can be prepared. This course will teach you how malicious actors use social manipulation and technology to launch devastating attacks – and provide you with the tools you'll need to defend against them. Whether you pursue one of the many available jobs in cybersecurity or just want to secure your own privacy, you'll learn how to make the Internet safer.

Credits 3

Prerequisites

CSC 100, CSC 109, or CSC 115

CSC 191: Introduction to Games

Games sit at the intersection of technology, art, and culture, so success within the games industry requires you to understand all three. This course explores why we love games, what role they play in society, and the industry that produces them. You'll also learn the basics of game development. This course was developed in partnership with Unity and the IGDA (International Game Developers Association) to help everyone interested in the games industry start on the right foot.

Credits 3

Prerequisites

CSC 100, CSC 109, or CSC 115

CSC 230: Web Development

This course introduces basic web page development techniques. Topics include HTML, CSS, scripting languages, and commercial software packages used in the development of web pages. The course also includes detailed discussion of design practices, such as the appropriate use of text and graphics, font and color selection, navigation techniques, media formats, and methods of enhancing the user experience. At the conclusion of this course, students will be able to use specified markup languages to develop basic web pages.

Credits 3

Prerequisites

CSC 100, CSC 109, or CSC 115

CSC 240: Data Structures with C++

Fundamentals of data structures as they are used for the efficient storage and manipulation of data. Topics include common data structures that are used in various computational problems, such as stacks, queues, trees, lists, and heaps.

Credits 3

Prerequisites

MTH 101 and one of the following: CSC 100, CSC 115 or CSC 109

CSC 245: Introduction to Digital Logic

An introduction to digital electronic circuits and techniques. Boolean algebra, digital logic gates, registers, automata theory, and integrated circuits.

Credits 3

Prerequisites

MTH 115 or MTH 290

CSC 255: Computer Architecture

Introduction to computer organization and the basic structure of a modern programmable computer. Topics covered include the von Neumann architecture, the CPU, pipelining, memory hierarchy, assembly/ machine language, and the basic laws underlying performance evaluation.

Credits 3

Prerequisites

CSC 240 and CSC 245

CSC 265: Algorithms

Study of algorithmic paradigms including divide and conquer algorithms, greedy methods, dynamic programming, heuristics, and probabilistic algorithms.

Credits 3

Prerequisites

CSC 240

CSC 271: Introduction to Generative AI

Generative AI is AI that can produce new content – answers, code, music, art, video, and more. Those who harness it are more productive, more in-demand, and more highly paid. Those who don't will be left behind. This lightly technical intro will teach you the foundational skills to level up your understanding of transformers, LLMs, and more. By the end of this course, you will engineer better prompts and apply chain-of-thought techniques to generate AI solutions. (Same as DSC 271.)

Credits 3

Prerequisites

CSC 100, CSC 109, or CSC 115

CSC 240

CSC 272: Career Navigation and Exploration in AI

AI jobs are exploding, but the pathways to discover and land them aren't always clear. In this course, you'll explore the wide – and growing – variety of career pathways your AI skills unlock. You'll understand salaries, growth trends, target jobs, and the skills needed to land them. You'll deepen an understanding of resume and interview skills, achievable goals, and careers that meet your needs for meaning, excitement, and a lucrative financial future. (Same as DSC 272.)

Credits 3

Prerequisites

CSC 271

CSC 283: Network and System Security

Modern organizations know that even the strongest systems can be vulnerable to cyberattacks. As a result, jobs in cybersecurity are rapidly expanding as companies look to secure their digital assets. This course will teach you how to secure those assets by identifying and fixing potential security vulnerabilities. By the end of the course, you will be able to identify and remedy common network and systems vulnerabilities.

Credits 3

Prerequisites

CSC 181

CSC 240

CSC 284: Cybercrime and Governance

This course explores the critical role of governance in mitigating cybercrime and ensuring the integrity of digital environments. You will learn how governments detect and stop cybercrimes, and become familiar with the laws and policies in place to deter cybercriminals. Develop and implement robust security policies and procedures that align with legal and ethical standards and help create a resilient, compliant digital ecosystem.

Credits 3

Prerequisites

CSC 283

CSC 285: Career Navigation and Exploration in Cybersecurity

This course will help you find a job in Cybersecurity upon graduation. Not just any job; one that meets your personal and financial needs and makes you excited about the future. In this course, you'll explore career paths in Cybersecurity, potential salary outcomes, and different roles. Then, you'll pick target jobs and opportunities that are the best fit for you, and make a clear plan of action toward securing them.

Credits 3

Prerequisites

CSC 181

CSC 292: Content and Systems Design

If you've ever enjoyed the experience of playing a video game, you've had a first-hand lesson in how important content and systems design are. The experience of a game is driven by four major components: content, systems, narrative, and user experience. This class will help you learn to design all four components, and build a deeper understanding of the game development process and an introduction to concepts in scripting. This online class has optional live sessions.

Credits 3

Prerequisites

CSC 191

CSC 301: Junior Internship

Practical experience through a supervised internship. Students can conduct their internships on-site, working under the supervision of computing/automation/IT professionals, or on eIntern.

Credits 1

-2

Prerequisites

CSC 100 and permission of instructor

CSC 310: Mathematical Foundations of Computer Science

Introduction to mathematical topics as they relate to computer science, such as finite state automata, regular expressions, context-free grammars, Turing machines, and unsolvability.

Credits 3

Prerequisites

CSC 265

CSC 320: Programming Languages

A study of programming languages, their data, paradigms, and design and implementation issues. Topics include language representation, control structures, binding, run-time environment, exception handling, information handling, encapsulation and static and dynamic types.

Credits 3

Prerequisites

CSC 310

CSC 330: Database Theory and Application

An introduction to the theory of databases, database design, and database application development. Topics include database models such as relational, network, hierarchical, object-oriented, and distributed. Students will apply this theory to the development of an actual database application.

Credits 3

Prerequisites

MTH 115 or MTH 290 and one of the following: CSC 100, CSC 115, or CSC 109

CSC 373: Predictive Modeling in AI

This course brings the predictive power of AI to your toolbox. You'll discover how to analyze, interpret, and forecast complex data using AI tools. Learn through hands-on activities and practice techniques like regression analysis and neural networks. You'll also explore how to fill in missing data and estimate your confidence in your predictions. By the end of this course, you'll have in-demand skills for your career and be ready to take on more advanced studies. (Same as DSC 373)

Credits 3

Prerequisites

CSC 271

CSC 265

CSC 385: Security Operations

The moments after a breach can make or break an organization. When the unthinkable happens and a cybercrime is discovered, the actions taken by the security operations team can either contain the damage and restore order or lead to catastrophic consequences. This course examines the tools and techniques used to conduct investigations into cybercrimes and teaches the defensive skills necessary to ensure a breach doesn't occur in the first place.

Credits 1

-3

Prerequisites

CSC 283

CSC 386: Ethical Hacking

To stop a hacker, you need to be able to think like a hacker. In this course, you will learn hands-on techniques for attacking and penetrating networks and systems. You'll learn the tools to launch these offensive tactics, and then complete a hands-on project where you will be asked to ethically hack a real system.

Credits 3

Prerequisites

CSC 385

CSC 393: Unity I: Working with Unity

The Unity engine powers nearly 50% of all games and nearly 75% of mobile games. This course, built in collaboration with Unity and the IGDA (International Game Developers Association), will introduce you to developing games in Unity. By the end of this course, you'll learn how to build a fully functioning game within the Unity system, including all key elements. This online course has optional live sessions.

Credits 3

Prerequisites

CSC 191

CSC 292

CSC 394: C# Programming

C# is a modern, general purpose, object oriented programming language with a range of uses, most notably creating desktop applications, web applications, web services and building games using the Unity engine. This course is intended to give students a working knowledge of the C# programming language and the .NET framework, as well as an understanding of C#'s application to the Unity Game Development Engine. This online course has optional live sessions.

Credits 3

Prerequisites

CSC 100, CSC 109, or CSC 115

CSC 240

CSC 401: Senior Internship

Practical experience through a supervised internship. Students can conduct their internships on-site, working under the supervision of computing/automation/IT professionals, or on eIntern.

Credits 1

-2

Prerequisites

CSC 100 and permission of instructor

CSC 410: Data Communications and Networks

An introduction to the theory and practice of computer networks, software protocols, communication hardware, error detection, and handling.

Credits 3

Prerequisites

CSC 265 and CSC 310

CSC 415: Numerical Analysis

Examination of error analysis, interpolation, approximate differentiation, approximate integration, solutions to differential equations, matrix manipulation, and solutions to systems of linear equations. (Same as MTH 415)

Credits 3

Prerequisites

MTH 210 and one of the following: CSC 100, CSC 115, or CSC 109

CSC 420: Operating Systems

An introduction to the components and organization of operating systems. Batch, interactive and distributed operating systems will be considered. Other topics include multiprogramming, multiprocessing, concurrent programming, memory management, and resource allocation.

Credits 3

Prerequisites

CSC 265

CSC 450: Independent Study

Individual work on special topics in computer science.

Credits 1

-3

Prerequisites

Permission of instructor.

CSC 474: Prescriptive AI

Prescriptive AI teaches you the highest-value technical AI skills available. You'll use the advanced techniques of optimization, evolutionary computation, surrogate modeling, and agent building, helping you use AI for its true superpower: faster, better business decisions. Through real-world challenges and hands-on projects in decision-making, robotics, and more, you'll be able to frame problems and train models that make you a desirable hire in any industry. (Same as DSC 474)

Credits 3

Prerequisites

CSC 373

DSC 305

CSC 482: Special Topics in Computer Science

Study of selected topics in computer science. Prerequisites will vary.

Credits 3

CSC 485: The Future of Cybersecurity

Technology is racing forward, and cybersecurity must stay ahead to meet new challenges and threats. In this class, you will learn about the changing landscape of cybersecurity, emerging mobile technologies that are likely to be targeted, and new forms of cyber-attacks being launched. By the end of the course, you will be able to implement the most cutting-edge practices in cybersecurity in order to protect against attacks.

Credits 3

Prerequisites

CSC 283

CSC 488: Cybersecurity Capstone

The Capstone course is the culmination of the Cybersecurity program, allowing students to apply their knowledge to real-world challenges. Students will undertake a comprehensive project integrating various aspects of cybersecurity, including log analysis, vulnerability assessment, incident response, ethical hacking, and cloud security. This project will develop critical thinking skills and prepare students for major cybersecurity certifications.

Credits 3

Prerequisites

CSC 386

CSC 420

CSC 495: Unity II: Advanced Unity Programming

This course is intended to provide students with the skills and knowledge to bring their mastery of the Unity game engine and C# programming up to a professional standard. Students will learn how to perform a range of vital code-based tasks within the Unity platform, and will grow their skills in building core gameplay functionality, supporting systems and platform-specific optimizations. This course was built in collaboration with Unity. Upon successful completion, students will be prepared to sit for the Unity Certified Associate: Programmer exam.

Credits 3

Prerequisites

CSC 393

CSC 496: Capstone Project: Building a Game

This course is intended as a culmination of all a student's work in the Unity Game Development major. Students will work in groups to build a game in the unity engine that uses real-time 2D or 3D visuals and showcases their understanding of the core principles of game design. Students will pitch their game, design, prototype, build, and test their game. Students will be evaluated based on the quality of their game, and their internal project management processes. This online course has optional live sessions.

Credits 3

Prerequisites

CSC 292

CSC 394

Core Courses

Core Courses deliver multiple Core Goals and Outcomes. Some “COR” coursework is required for all students. Other “COR” coursework may be generalist or multi-disciplinary studies that are purpose-built for the Core Curriculum.

Core Courses Course Descriptions

COR 100: Year One

An introduction to college life. Students will further develop the personal and academic skills necessary for success in college. A service project is central to the course.

Credits 1

COR 101: Strategies for College Success

COR 101 is a companion to YearOne, Lyon’s first-year experience seminar, which is designed to reinforce the academic and social skills that contribute to a successful adjustment to college life. COR 101’s course objective is to facilitate the student’s academic transition from secondary to post-secondary situations through applied practice in study skills that establish and support student success in the first semester of college.

Credits 1

COR 110: Searching (HL)

This course explores the “Big Questions” of human experience and equips students to think through those questions with diverse responses from a range of historical and cultural contexts. Students will examine diverse worldviews and continually examine and refine their own as they explore these questions as the backbone of the course: “How should I live my life?,” “How can we understand the world?,” and “How should we live together?”

Credits 3

COR 120: Conversations: the American Experience

This course explores interconnections between government, political science, and political theory. Students will explain the fundamental institutions and ideas of the American political tradition. At least three assigned readings will come from a common list of “transformative texts,” taught in common across all sections.

Credits 3

COR 130: Conversations: Building the Modern World

This course explores world history from roughly 1450 to the present, emphasizing the cultural, economic, intellectual, and political developments that have shaped our world.

Students will learn how concepts of citizenship, sovereignty, human rights, and modernity have changed over time to develop broad contextual knowledge for understanding the world in which we live. They will also practice historical literacy skills, including historical thinking, historical empathy, analysis of evidence, and writing. Several assigned readings will come from a common list of “transformative texts” to encourage students to ask substantive questions of themselves and their worldviews.

Credits 3

COR 140: Conversations: Imagining Lives Through World Literature

Students in this course read narratives from world literature that raise important ethical questions. They apply those questions to their own thoughts and experiences, concluding the course in an exercise of what Martha Nussbaum calls the “narrative imagination.” At least 50 percent of the assigned narratives come from a common set of “transformative texts” from diverse cultures, with at least two common to every section, and at least one course reading or assignment will engage with the featured production in the theater program.

Credits 3

Prerequisites

Recommended: ENG001

Data Science

Associate Professor: Marcus Birkenkrahe

Data is being generated at all times, arriving from multiple sources at an incredible rate. Nearly every device connected to the internet is generating data, and those capable of analysis and study of it are increasingly in demand. The ongoing generation of “big data” has resulted in a new job market: business leaders, scientists, engineers, and leaders from all walks of life have realized that they need scientists with the knowledge and ability to analyze, and understand the implications of the data and then communicate their findings. In addition to the data that is being constantly generated through modern commercial use of the internet, an abundance of data has been in existence for some time. The proper study and understanding of the implications of this data is increasingly important.

The Lyon College Data Science program will provide students with the theoretical background and initial problem-solving experiences focusing on three general broad areas: science, business and economics, and social sciences and humanities.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Data Science Major (BS)

Summary of Requirements for a Major in Data Science

Computer Science Core Competence - 15 Credits

Item #	Title	Credits
	CSC 100, CSC 109, or CSC 115	3
	MTH 115 or MTH 290	3
CSC 240	Data Structures with C++	3
CSC 265	Algorithms	3
CSC 330	Database Theory and Application	3

Math Core Competence - 11 Credits

Item #	Title	Credits
MTH 210	Calculus I	4
MTH 220	Calculus II (OC)	4
	Math Core Competence Electives	3

Data Science Core Competence - 7 Credits

Item #	Title	Credits
DSC 105	Introduction to Data Science (OC/PS)	3
DSC 205	Introduction to Advanced Data Science	4

Data Science Specialization - 6 Credits

Item #	Title	Credits
DSC 302	Data Visualization	3
DSC 305	Machine Learning	3
DSC 450	Data Science Independent Study	3
DSC 482	Data Science Special Topics	3

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	85-87

CSC 100, CSC 109, or CSC 115

One of the following:

Item #	Title	Credits
CSC 100	Introduction to Programming in C++ (PS)	3
CSC 109	Introduction to Programming in Python	3
CSC 115	Introduction to Programming in Java	3

MTH 115 or MTH 290

Item #	Title	Credits
MTH 115	Discrete Mathematics	3
MTH 290	Foundations of Modern Mathematics	3

Math Core Competence Electives

One of the following: [3 Credits]

Item #	Title	Credits
MTH 330	Linear Algebra (PS)	3
MTH 360	Probability and Statistics	3
BUS 323	Statistical Applications to Business Decision Making	3
CSC 415	Numerical Analysis	3
MTH 415	Numerical Analysis	3

Data Science and Artificial Intelligence (BS)

Data Science Course Descriptions

DSC 105: Introduction to Data Science (OC/PS)

This course provides a general overview of the common topics in the data science domain. Students are introduced to data collection, data engineering, machine learning algorithms and packages, data visualization techniques and related programming tools and frameworks.

Credits 3

Prerequisites

CSC 100 or CSC 109 or CSC 115, and MTH 115 or MTH 290

DSC 205: Introduction to Advanced Data Science

Data collection, data engineering, machine learning algorithms and packages, data visualization, and related programming tools and frameworks. These topics are covered in DSC 105, but here they will be discussed in more depth, and projects will reflect real world challenges. In addition, data mining techniques and more advanced machine learning algorithms will be introduced. In some cases, the statistical concepts behind some of the algorithms will be discussed. Projects may involve text and image classification tasks, developing regression models, etc.

Credits 4

Prerequisites

DSC 105

Or permission of the instructor.

DSC 271: Introduction to Generative AI

Generative AI is AI that can produce new content – answers, code, music, art, video, and more. Those who harness it are more productive, more in demand, and more highly paid. Those who don't will be left behind. This lightly technical intro will teach you the foundational skills to level up your understanding of transformers, LLMs (Large Language Models), and more. By the end of this course, you will engineer better prompts and apply chain-of-thought techniques to generate AI solutions. (Same as CSC 271.)

Credits 3

Prerequisites

CSC 100, CSC 109, or CSC 115

CSC 240

DSC 272: Career Navigation and Exploration in AI

AI jobs are exploding, but the pathways to discover and land them aren't always clear. In this course, you'll explore the wide – and growing – variety of career pathways your AI skills unlock. You'll understand salaries, growth trends, target jobs, and the skills needed to land them. You'll deepen an understanding of resume and interview skills, achievable goals, and careers that meet your needs for meaning, excitement, and a lucrative financial future. (Same as CSC 272.)

Credits 3

Prerequisites

DSC 271 (Introduction to Generative AI)

DSC 302: Data Visualization

This course presents the art and science of turning data into readable graphics. We'll explore the design and creation of data visualizations based on data available and tasks to be achieved. This process includes data modelling, data processing, mapping data attributes to graphical attributes, and strategic visual encoding. Students will evaluate the effectiveness of visualization designs and create their own data visualizations.

Credits 3

Prerequisites

CSC 100, or CSC 109, or CSC 115, or permission of the instructor.

DSC 305: Machine Learning

This course aims at providing mathematical explanations of the machine learning models discussed in DSC 105 and DSC 205. Topics include probability, probabilistic models, statistical concepts related to machine learning, and analysis of some of the popular machine learning models with the help of probability and statistics. Projects will reflect real world challenges and will aim at discovering how machine learning models work.

Credits 3

Prerequisites

DSC 105, DSC 205, CSC 265, or permission of the instructor.

DSC 373: Predictive Modeling in AI

This course brings the predictive power of AI to your toolbox. You'll discover how to analyze, interpret, and forecast complex data using AI tools. Learn through hands-on activities and practice techniques like regression analysis and neural networks. You'll also explore how to fill in missing data and estimate your confidence in your predictions. By the end of this course, you'll have in-demand skills for your career and be ready to take on more advanced studies. (Same as CSC 373.)

Credits 3

Prerequisites

DSC 271

CSC 265

DSC 205

DSC 401: Data Science Applications and Programming

This course will offer programming languages and techniques necessary to process and analyze data. Special emphasis will be on advanced use of Python and R languages to analyze datasets from a variety of disciplines and industries.

Credits 3

Prerequisites

CSC 245

DSC 402: Data Science Capstone

Students will apply their data science knowledge and technology to a real world scenario. Students can accomplish this by working with a local businesses, acquiring data from governmental entities, or through an internship. The capstone will conclude with a final deliverable report and presentation to the business, government, or internship entity.

Credits 3

DSC 450: Data Science Independent Study

Individual work on special topics in data science.

Credits 3

DSC 474: Prescriptive AI

Prescriptive AI teaches you the highest-value technical AI skills available. You'll use the advanced techniques of optimization, evolutionary computation, surrogate modeling, and agent building, helping you use AI for its true superpower: faster, better business decisions. Through real-world challenges and hands-on projects in decision-making, robotics, and more, you'll be able to frame problems and train models that make you a desirable hire in any industry. (Same as CSC 474.)

Credits 3

Prerequisites

DSC 373

DSC 305

DSC 482: Data Science Special Topics

Study of selected topics in data science.

Credits 3

Prerequisites

Prerequisites will vary depending on course.

Economics

Associate Professors: Mahbubul Kabir and Radek Szulga

Assistant Professor: Peter Staples

Economics is the science of choice in the face of scarcity and different consumption options. Limited resources, time, labor supply, energy, knowledge—such factors as these define the boundaries of possibilities and require human beings and societies to make choices. Economic theory is an attempt to capture the essence of that decision-making process, free of the details of particular situations.

Students in the economics major learn to use this theoretical foundation to analyze decision-making throughout society, from an individual's decision to purchase a car to a state's decision to raise or lower taxes. In the classic sense of a liberal arts education, students learn to use the tools of economics as a key to understanding the human experience and as a guide to individual, business, and societal action. This understanding of the forces underlying our economy—and, to a great degree, our society—provides a strong foundation for a range of professions and business careers. The economics major is a solid preparation for graduate studies in economics, business administration, finance, law, and public policy.

NOTES

* Students may use ECO 101 and BUS 323 to satisfy core requirements.

* Students may substitute MTH 210 (Calculus I) for ECO 208.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Economics Major (BA)

Summary of Requirements for a Major in Economics

Item #	Title	Credits
ECO 101	Principles of Economics I	3
ECO 102	Principles of Economics II	3
ACC 210	Financial Accounting	3
ACC 211	Managerial Accounting	3
ECO 208	Quantitative Methods in Business, Economics, and Decision Science	3
BUS 323	Statistical Applications to Business Decision Making	3
ECO 301	Intermediate Macroeconomics	3
ECO 302	Intermediate Microeconomics	3
ECO 306	Econometrics	3
ECO 390	Money and Banking	3
	Economics Electives (12 credits)	12

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	88-90

Economics Electives (12 credits)

Select four Economics courses at the 300 level or above to satisfy this requirement.

Economics Minor

The economics minor is a course of study designed as a second field for students seeking an understanding of the tools of economic theory and their use in analyzing the decision-making process on both an individual and a societal level.

NOTES

* Students may use ECO 101 to satisfy core requirements.

* Students may substitute MTH 210 (Calculus I) for ECO 208.

Summary of Requirements for a Minor in Economics

Item #	Title	Credits
ECO 101	Principles of Economics I	3
ECO 102	Principles of Economics II	3
ECO 208	Quantitative Methods in Business, Economics, and Decision Science	3
BUS 323	Statistical Applications to Business Decision Making	3
	ECO 301 OR ECO 302	3
	Economics Electives (6 credits)	6
	Total Credits	21

ECO 301 OR ECO 302

Item #	Title	Credits
ECO 301	Intermediate Macroeconomics	3
ECO 302	Intermediate Microeconomics	3

Economics Electives (6 credits)

Select two Economics courses at the 300 level or above to satisfy this requirement.

Economics Course Descriptions

ECO 101: Principles of Economics I

An introduction to economics with an emphasis on the fundamentals of economic principles and current economic policy issues. Topics include scarcity of resources, production and consumption, international trade, supply and demand, taxes, welfare state, poverty, income inequality, economic output of an economy, price level, inflation, unemployment, long-run determinants of economic growth, and financial systems.

Credits 3

Prerequisites

MTH 001 or MTH 101 or MTH 103

ECO 102: Principles of Economics II

Continuation of ECO 101. Students will apply the demand and supply model to analyze the effects of market intervention and understand market efficiency and the consequences of market failure, explore different market paradigms with analytical tools (microeconomics), review long-run determinants of economic growth and the role of monetary institutions in the economy (macroeconomics), and employ the aggregate demand and supply model to understand short-run economic fluctuations and the effectiveness of monetary and fiscal policy tools.

Credits 3

Prerequisites

ECO 101

ECO 208: Quantitative Methods in Business, Economics, and Decision Science

Development of essential mathematical tools for business, economics, and other decision sciences. Topics include applications of algebra and differential calculus, including optimization techniques.

Credits 3

Prerequisites

MTH 101 or MTH 103

ECO 215: Investment Portfolio Management

An introduction to stock and bond markets. Students will experience semester-long activities and manage an investment portfolio. Students may enroll in this course a maximum of three times, earning 3 credits. Graded on a pass/fail basis.

Credits 1

Prerequisites

ECO 101 and ACC 211

ECO 301: Intermediate Macroeconomics

Focused study of macroeconomics. Topics include national income accounting, determinants of consumption and investment spending, international capital flows, financial asset holdings, long-run economic growth, business cycles, monetary and fiscal policy, and unemployment.

Credits 3

Prerequisites

ECO 102 and either ECO 208 or MTH 210

ECO 302: Intermediate Microeconomics

Focused study of microeconomics with analytical investigation of consumer choice, production costs, and firm behavior, including critical examination of different market paradigms. Topics include choice under uncertainty, problems with asymmetric information, externalities, and the use of game theories in analyzing strategic behavior of firms.

Credits 3

Prerequisites

ECO 102 and either ECO 208 or MTH 210

ECO 305: Game Theory

Analysis of strategic social interactions with the tools of game theory. Fundamental concepts such as strong dominance, Nash equilibrium, mixed strategies, sub-game perfect equilibrium, and backward induction are covered. Emphasis is on applications in economics and business, including topics in industrial organization, as well as topics in political science.

Credits 3

Prerequisites

ECO 101

ECO 306: Econometrics

This course introduces the student to the theory and basic empirical tools of econometrics. Applications of standard methods to data are emphasized: parameter estimation, hypothesis testing, and forecasting. In the context of Ordinary Least Squares, the focus is on violations of Classical Assumptions such as model misspecification, omitted variable bias, multicollinearity, serial correlation, and heteroscedasticity. Extensive use is made of hands-on work with data sets.

Credits 3

Prerequisites

ECO 102 and (BUS 323 or MTH 360) or instructor approval.

ECO 320: Corporate Finance I

Study of the basic concepts and analytical tools necessary for financial decision making with emphasis on time and risk as determinants of present value, bond and stock valuation, capital budgeting, capital asset pricing model, cost of capital, and capital structure.

Credits 3

Prerequisites

ACC 211, and ECO 102

ECO 330: Corporate Finance II

Continuation of ECO 320. Using the case method, computer simulations and spreadsheet applications, students will work individually and in teams to further their understanding of financial systems analysis.

Credits 3

Prerequisites

ECO 320

ECO 350: Business and Professional Ethics

Examination of professional responsibility with case studies of ethical issues in business and the professions. (Same as RPH 350).

Credits 3

ECO 370: Political Economy of Public Issues

Discussion and research of current public debates and interests in which both governmental and economic forces and interests are joined. Students will present their research to the class and write a major paper.

Credits 3

Prerequisites

ECO 102 or consent from instructor. (Same as POL 370)

ECO 382: Special Topics in Economics

Study of selected topics in economics. Prerequisites will vary.

Credits 1

-3

ECO 390: Money and Banking

Evolution of monetary and financial systems with integrated international aspects, including interest rates, financial markets and institutions, and monetary policy.

Credits 3

Prerequisites

ECO 102

ECO 401: Multinational Financial Management

An examination of financial management in an international setting. Includes analysis of exchange rate determination, exchange rate risk, international financial crises, macroeconomic and political country risk, as well as issues in corporate finance including cash flow, capital management, and international investment.

Credits 3

Prerequisites

ECO 102

ECO 410: International Economics

The exploration of various theories of international trade and finance with emphasis on factors affecting trade and financial flows and the commercial and trade policy implications on these flows. Students will also examine exchange rate regimes, balance of payments, and the role of international institutions such as the World Trade Organization, the World Bank, and the International Monetary Fund.

Credits 3

Prerequisites

ECO 102

ECO 420: Public Finance

An application of microeconomic theories analyzing the role of government in providing public goods and services to a predominantly market economy. Students will examine collective decision-making, types of taxes, local public finance, and government expenditure programs and tax systems with emphasis on their efficiency, equity, and incentive aspects.

Credits 3

Prerequisites

ECO 102

ECO 425: Environmental Economics

Examination of the interactions between production and consumption and the natural environment. Students will use microeconomic theories of externalities and public goods to model environmental problems and efficient solutions and analyze command-and-control based solutions and market-based solutions. Students will also discuss current environmental policy issues and use analytical decision-making tools such as environmental risk analysis and benefit-cost analysis to evaluate environmental projects.

Credits 3

Prerequisites

ECO 102

ECO 430: History of Economic Thought

Study of the evolution of ideas central to economic theory and the development of currently accepted ideas.

Credits 3

ECO 475: Investments

Application of finance tools to the valuation of different types of securities, such as stocks, bonds, and options with emphasis on how to combine these securities into portfolios that provide the best risk-return profile for a given investor.

Credits 3

Prerequisites

BUS 323, ECO 320, and either ECO 208 or MTH 210

ECO 482: Special Topics in Economics

Study of selected topics in economics. Prerequisites will vary.

Credits 1

-3

English

Professors: Wesley Beal and Terrell Tebbetts

Assistant Professor: Melissa Johnson and Melissa Merte

Instructor: Rebecca Sharp, '05

Students majoring in English love language because they understand its power to reflect and to shape human experience, and they work hard at mastering it. As readers, they become good analysts of style and content, character, and theme, with an understanding of the traditions and tools of writing and an ability to develop their own disciplined and creative responses to whatever they read—whether they are reading Shakespeare's *Othello* or a corporate annual report. As writers, they become masters of the principal tool of thought—language—sometimes becoming published writers before they graduate. This mastery of the written word—both as a critical and insightful reader and as an adept and creative writer—provides an excellent foundation for a wide range of professions and for a fulfilling life of continued learning.

NOTE

- COR 140 can also be used to satisfy core requirements.
- At least 9 credits must be above the 200 level.
- Three credits must be at the 400 level.
- Six credits may be taken in the foreign language above the 100 level.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

English Major (BA)

Summary of Requirements for a Major in English

Item #	Title	Credits
	English Major: Electives (100 - 300 level) (4 courses)	12
ENG 300	Epic Poetry to the Novel (PS)	3
ENG 303	Romanticism to present (PS)	3
ENG 305	Global Shakespeare (PS)	3
ENG 363	Advanced Composition	3
	English Major: Required Credits (400+ level)	6

CORE CURRICULUM

ENG 450	Independent Study	1-4
ENG 482	Advanced Topics in Literature	3

English Minor

The English minor is a course of study designed as a second field for students interested in exploring their love of language, developing their abilities as a critical reader, and honing their use of words as a tool of the mind.

Summary of Requirements for a Minor in English

Item #	Title	Credits
	English Minor Electives: 200-300 level (2 courses)	6
	English Survey Course (3 credits)	3
	English Writing Course (3 credits)	3
	English Minor Elective: 400 level (1 course)	3
	Total Credits	15

English Minor Electives: 200-300 level (2 courses)

English Survey Course (3 credits)

Choose one:

Item #	Title	Credits
ENG 300	Epic Poetry to the Novel (PS)	3
ENG 303	Romanticism to present (PS)	3
ENG 305	Global Shakespeare (PS)	3

English Writing Course (3 credits)

Choose one:

Item #	Title	Credits
ENG 160	Introduction to Creative Writing (OC)	3
ENG 337	Advanced Grammar	3
ENG 360	Creative Writing Workshop in Poetry	3
ENG 361	Creative Writing Workshop in Fiction	3
ENG 363	Advanced Composition	3
ENG 448	Advanced Creative Writing Intensive	3

English Minor Elective: 400 level (1 course)

English Course Descriptions

ENG 001: College English

This course focuses on basic rules of grammar and usage, as well as on skills for reading college-level material. Students will gain practice in writing sentences and paragraphs, focusing especially on common errors. They will learn to distinguish between main and supporting ideas. The course will prepare students for success in ENG 101 and 102 and across the curriculum. As a developmental course, this course does not satisfy proficiency requirements. It does not count toward any degree requirement including elective credit. It does count toward the students GPA courseload.

Credits 3

ENG 101: English Composition I

Basic college expository writing, emphasizing mastery of purpose, focus, organization, development, and mechanics.

Credits 3

ENG 102: English Composition II

Essay-writing emphasizing stylistic development through more difficult expository tasks: argumentation, persuasion, textual analysis, and a research paper.

Credits 3

Prerequisites

ENG 101

ENG 103: Oral Presentation

An experiential course covering basic approaches to a variety of formal and informal oral presentations, including informative lectures, persuasive speeches, verbal presentations of texts, and other forms of public communications, ENG 103 focuses attention on non-verbal as well as verbal skills and builds skill and confidence through practice in a workshop format.

Credits 3

Prerequisites

ENG 101

ENG 140: Writing in the Sciences

The course teaches scientists to become more effective writers, using practical examples and exercises. Topics will include general principles of good writing, tips to improve writing efficiency and reduce anxiety, instructions in scientific formatting, and guidelines for publication and peer review. Students from non-science disciplines can also benefit from the exposure to science-specific writing experiences.

Credits 1

ENG 160: Introduction to Creative Writing (OC)

Introduction to Creative Writing is a multi-genre course that leads beginners through three sections: poetry, fiction, and creative nonfiction. Each unit will consist of reading assignments, discussions, in-class writing exercises, creative projects, and workshops exploring the craft, technique, and applications of each genre. The course concludes with public readings, in which students will practice oral communication skills.

Credits 3

Prerequisites

ENG 101

ENG 203: Classical Mythology and Literature

This course studies ancient Greek and Roman mythology as depicted in classical literature.

Credits 3

Prerequisites

ENG 102 or permission of instructor.

ENG 205: Environment and Literature

The course will explore literature on environment-related topics, drawing from studies of nature writing, ecocriticism, environmental humanities, environmental justice, and ecocinema. Literature, media, and scholarship on specific environmental topics and social justice issues may be introduced. For students interested in biology, anthropology, social justice, and environmental studies.

Credits 3

Prerequisites

ENG 102

ENG 209: Welsh Mythology

A survey of Welsh mythology and literature from the 6th to 15th centuries.

Credits 3

Prerequisites

ENG 102

ENG 210: Studies in Fiction

An introductory course designed to teach students how to interpret and analyze the novel and/or the short story.

Credits 3

Prerequisites

ENG 102

Corequisites

ENG 102

ENG 211: Introduction to Poetry

An introductory course designed to teach first- and second-year students how to read and respond to poetry.

Credits 3

Prerequisites

ENG 102

Corequisites

ENG 102

ENG 212: Topics in Literature

An introductory course designed to teach students how to read and analyze literature through the study of a particular theme. Readings may include a variety of genres such as poetry, fiction, drama, and the essay.

Credits 3

Prerequisites

ENG 102

Corequisites

ENG 102

ENG 215: Introduction to Shakespeare

An introductory course designed to teach students how to read and interpret Shakespeare.

Credits 3

Prerequisites

ENG 102

Corequisites

ENG 102

ENG 290: Survey of British Literature I

Survey of major British literary works from Beowulf through to the 18th century, with emphasis on the British interpretation and appropriation of the Western literary tradition. Readings include Beowulf; Chaucer; medieval romance; Renaissance epic, drama, and poetry; and Restoration and 18th century satire.

Credits 3

Prerequisites

ENG 102 and 105

ENG 291: Survey of British Literature II (PS)

The sequel to ENG 290. Readings include major works of Romantic, Victorian, and twentieth-century British literature, including poetry, fiction, and the essay.

Credits 3

Prerequisites

ENG 102 and 105

ENG 300: Epic Poetry to the Novel (PS)

This course thinks about the development and evolution of fundamental literary genres, including epic poetry, drama, the sonnet, and the rise of the novel. Through our studies together, we will consider how and why these genres have proved so enduring across time and place. Readings will span global cultural traditions, but following the genealogy of literary development from epic poetry, students should expect to synthesize American, British, and European readings. The course will conclude with the rise of the novel in the early 18th century, serving to prepare students for further study on the movement- periodization that subsequently begins to organize literary culture later in the century (ENG 303).

Credits 3

Prerequisites

ENG 102

ENG 302: Survey of Global Anglophone Literature

Survey of Anglophone literature, with an emphasis on postcolonial methods.

Credits 3

Prerequisites

One 200-level English course and either junior standing or permission of the instructor.

ENG 303: Romanticism to present (PS)

This course explores cornerstone literary periods: romanticism, realism, modernism, postmodernism, and the Program Era. Organized by the periods that shape literary culture beginning in the late 18th century, this course complements the study of the evolution of literary genres and forms in Epic Poetry to the Novel. Readings will span global cultural traditions, but due to the historical origins and practices of literary periodization, students should expect a focus on American, British, and European readings.

Credits 3

Prerequisites

ENG 102

ENG 305: Global Shakespeare (PS)

An upper-level course designed to teach students to read and interpret Shakespeare alongside texts interpreting and responding to Shakespeare from a variety of global perspectives.

Credits 3

Prerequisites

ENG 102

ENG 320: Methods of Teaching English

Materials, methods, and latest trends in teaching literature and writing. Analysis of test assessments, NCTE standards, and state-mandated requirements, including Arkansas Frameworks and ACTAAP.

Credits 2

Prerequisites

Teaching internship (or corequisite)

ENG 323: Nineteenth Century British Poetry

Survey of either Romantic or Victorian poetry, adding more detail and depth to the basic coverage of these periods provided in the general British Survey (ENG 291). Romantic poets will include Blake, Wordsworth, Coleridge, Byron, Keats, and Shelley. The Victorian offering will cover major poets from Tennyson through Hardy and Hopkins.

Credits 3

Prerequisites

ENG 290 or 291 (or corequisite)

ENG 330: American Literature to 1900

Survey of American literature until 1900, focusing on the development of romanticism, realism, and naturalism. Readings may also include studies of colonists' writing as well as documents from the founding of the republic.

Credits 3

Prerequisites

ENG 290 or ENG 291

ENG 331: American Literature from 1900

Survey of American writers of the 20th century, including those of the Lost Generation, the Fugitive Movement, the Harlem Renaissance, the Depression era, modernism, and the contemporary scene.

Credits 3

Prerequisites

ENG 102 and either 105, 203, 210, 211, 212 OR 215

ENG 333: Modern Poetry

Examination of 20th-century poetry in English. Usually focusing on poetry written since World War II, the course varies in its approach, sometimes surveying the works of influential poets, sometimes looking in depth at a few of these poets and their contributions to the art and craft of poetry.

Credits 3

Prerequisites

ENG 290 or 291 (or corequisite)

ENG 334: American Fiction of the 20th Century

Study of selected 20th-century American novels and short stories. Course focus varies from a historical survey of 20th-century American fiction writers to in-depth study of a theme or themes.

Credits 3

Prerequisites

ENG 290 or 291

ENG 335: British Fiction

Varying studies of the 18th, 19th, or 20th century.

Credits 3

Prerequisites

ENG 290 or 291 (or corequisite)

ENG 337: Advanced Grammar

Study of both traditional and modern grammar, with some emphasis on philology and the teaching of English in multi-cultural schools.

Credits 3

ENG 340: Film Studies

An introduction to the basic vocabulary necessary to analyze film as a visual medium and narrative discourse. Various classic and noncanonical films will be examined through close visual and diegetic analysis. Major critical approaches to film will be examined through readings in secondary scholarship. Attendance at weekly evening screenings is required. (Same as ART 340)

Credits 3

Prerequisites

ART 101, COR 140, or THE 101, or permission of instructor.

ENG 360: Creative Writing Workshop in Poetry

An intensive workshop in the art and discipline of writing poetry, concentrating on the process of writing poems from perception and inspiration through the rigors and satisfaction of revision. Experience in writing poetry expected.

Credits 3

Prerequisites

ENG 211 and permission of instructor.

ENG 361: Creative Writing Workshop in Fiction

Development of creative perception, thinking, and imagination in the writing of fiction. Experience in writing creatively expected.

Credits 3

Prerequisites

ENG 102 and permission of instructor.

ENG 363: Advanced Composition

For students from any major planning to attend graduate and professional schools. Extended writing in the students' own fields of study. Open only to students with a "B" or "A" in English 102; others should seek permission of instructor.

Credits 3

ENG 365: Introduction to Contemporary Critical Theory

An introduction to the theory and practice of several vital critical approaches to literature, including cultural-historical, psychoanalytic, deconstructive, and feminist methodologies. Readings will include selections from primary theoretical texts by such figures as Freud, Lacan, Kristeva, Irigaray, Barthes, Derrida, Saussure, and Foucault, as well as selected literary texts to be interpreted through the various critical methods. This course is highly recommended for students interested in attending graduate school in literature, arts, and humanities. (Same as RPH 360)

Credits 3

Prerequisites

ENG 290 or 291 OR any 300-level foreign-language literature course. Students in other disciplines who are interested in critical theory may enroll with permission of instructor.

ENG 366: Topics in Critical Theory

This course offers an in-depth study of one of the fields of critical theory. Whether on feminisms, historical materialism, psychoanalysis, film theory, the digital humanities, or other subfields, this course will deepen students' exposure to critical theory and will provide further practice in applied reading. This course is therefore highly recommended for students planning to attend graduate school in the arts or humanities.

Credits 3

Prerequisites

Junior or Senior standing

ENG 399: English International Studies Course: Variable Topics

Study of varying topics in English. Includes a 2-week Nichols trip. Prerequisites will vary.

Credits 1

ENG 402: Seminar in Global Anglophone Literature

This seminar may offer a comparative study of the Anglophone traditions or isolate its focus to a particular regional tradition, whether African, Latin American, East Asian, so forth. The course may explore relationships between English and other languages, as well as relationships between literature and the visual or other arts.

Credits 3

Prerequisites

One 300-level English course and either junior standing or permission of the instructor.

ENG 433: Nineteenth-century British Literature

Varying studies of the Romantic or Victorian periods or of selected topics. This course may explore comparisons between British and continental works, or between literature and the visual arts.

Credits 3

Prerequisites

ENG 291 and junior standing

ENG 441: Shakespeare

Survey of Shakespeare's comedies, histories, and tragedies using a variety of critical approaches to develop rich and cohesive understandings of the texts. Theatre majors who have completed THE 232 are exempt from the ENG 290 prerequisite.

Credits 3

Prerequisites

One 300-level ENG literature course and junior standing. Prerequisite/corequisite: ENG 363

ENG 442: Faulkner

This seminar involves reading and discussing the novels and short fiction of William Faulkner, using several critical approaches to enrich discussion. Students have the opportunity to take a short excursion to Mississippi to visit sites used in the fiction and tour Faulkner's home.

Credits 3

Prerequisites

One 300-level ENG literature course and junior standing. Prerequisite/corequisite: ENG 363

ENG 443: Major Writers

Concentrated reading and study of the works of one or two of the great writers of European, English, and American literature.

Credits 3

Prerequisites

One 300-level ENG literature course and junior standing. Prerequisite/ corequisite: ENG 363

ENG 448: Advanced Creative Writing Intensive

An intensive writing seminar, including a final project, for advanced students in poetry, fiction, creative nonfiction, playwriting, or screenwriting.

Credits 3

Prerequisites

One of the following (must be in the same genre as the advanced course): ENG 360 (for poetry), ENG 361 (for fiction), ENG 363 (for creative nonfiction), THE 340 (for playwriting or screenwriting), or consent of the writer-in-residence.

ENG 450: Independent Study

Concentrated study in selected fields.

Credits 1

-4

ENG 482: Advanced Topics in Literature

A senior-level study of a particular theme or topic. Essential assignments will include seminar-style presentation to classmates and a significant research project.

Credits 3

Prerequisites

200-level ENG coursework

Exercise Science Major

Assistant Professors: Allyn Byars and Mayron Faria de Oliveira

The Exercise Science Program offers an academic major with two tracks, each with a challenging curriculum. Both, the Health and Wellness Track and the Health Professions track lead to a Bachelor of Science degree. The Exercise Science Program also coordinates the Activity/Wellness courses that are a part of the general education requirements for all undergraduates. The Exercise Science curriculum promotes critical thinking, encourages the development of leadership skills, and prepares students for careers in and continued study of the application of the principles of human movement, exercise, and healthy living.

The mission of the Exercise Science Program at Lyon College is to discover and promote knowledge of human movement and performance to improve the health and quality of life of individuals at all stages of life and society as a whole.

The Exercise Science major is open to all qualified Lyon College students following the prescribed admission pathway:

1. Students who are in their first year at Lyon (either freshmen or transfers) who express an interest in majoring in Exercise Science must meet with the Exercise Science faculty to evaluate their preparedness for the program, and to plan a course of study that will support their entry. At a minimum, EXS 201 should be completed with a C or better the freshman year.
2. Students in their second pre-baccalaureate year may declare the Exercise Science major provided that they have a cumulative GPA of 2.5 or higher and that they have completed EXS 201, EXS 205, and BIO 110 with a C or better. If the GPA threshold is not met, the student can work with the Exercise Science faculty to develop a remediation plan that provides an opportunity for the student to meet all of the admissions requirements.

Students may use the following courses to satisfy Core requirements: BIO 110, CHM 105, CHM 110, PSY 101, and RPH 205

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Exercise Science Major - Fitness & Wellness Track (BS)

Summary of Requirements for a Major in Exercise Science - Fitness & Wellness Track

Item #	Title	Credits
EXS 201	Health and Wellness	3
EXS 205	Nutrition Concepts for Exercise Science	3
EXS 207	First Aid and Care of Athletic Injuries	3
EXS 302	Kinesiology	3
EXS 309	Motor Learning	3
EXS 320	Fitness Assessment and Exercise Prescription	4
EXS 385	Exercise Physiology	3
EXS 450	Senior Seminar in Exercise Science	3
BIO 110	Principles of Biology I	4
BIO 260	Human Anatomy and Physiology I	4
BIO 262	Human Anatomy and Physiology II	4
	CHM 105 or CHM 110	4
PSY 101	Introduction to Psychology (PS)	3
	PSY 235 or BUS 323	3
PSY 290	Human Development (HL)	3
RPH 205	Introduction to Ethics	3

Choose two from the following courses (5-6 credits):

Item #	Title	Credits
	BIO 310 and BIO 311	2
	PSY 208 or PSY 339	3
OLP 150	Outdoor Leadership	3

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	104-107

CHM 105 or CHM 110

Item #	Title	Credits
CHM 105	Introduction to Chemistry *	4
CHM 110	General Chemistry I (PS)	4

PSY 235 or BUS 323

Item #	Title	Credits
PSY 235	Statistics for the Behavioral Sciences (PS)	3
BUS 323	Statistical Applications to Business Decision Making	3

BIO 310 and BIO 311

Item #	Title	Credits
BIO 310	Health Coaching	1
BIO 311	Health Coaching Practicum	1

PSY 208 or PSY 339

PSY 208 or PSY 339

Item #	Title	Credits
PSY 208	Introduction to Cognitive Psychology	3
PSY 339	Learning and Cognition	3

Exercise Science Major - Health Professions Track

Summary of Requirements for a Exercise Science Major - Health Professions Track

Item #	Title	Credits
EXS 201	Health and Wellness	3
EXS 205	Nutrition Concepts for Exercise Science	3
EXS 207	First Aid and Care of Athletic Injuries	3
EXS 302	Kinesiology	3
EXS 309	Motor Learning	3

EXS 382	Special Topics	3
EXS 450	Senior Seminar in Exercise Science	3

Exercise Science Major Course Descriptions

EXS 201: Health and Wellness

Provides the necessary information, opportunities, and strategies needed to obtain lifetime wellness.

Credits 3

EXS 205: Nutrition Concepts for Exercise Science

An introductory course in contemporary nutrition issues that focuses on the fundamentals of nutrition that affect human function and well-being, covering basic physiology, nutrients and dietary standards and analysis.

Credits 3

EXS 207: First Aid and Care of Athletic Injuries

Presents instruction and orientation in prevention and care of common athletic injuries.

Credits 3

EXS 280: Introduction to Exercise Research

This course, Introduction to Exercise Research, will introduce students to the fundamental concepts, methods, and techniques used in studying exercise science. Exercise research provides essential insights across multiple fields, including physical therapy, athletic training, coaching, kinesiology, and sports science. A foundational knowledge in exercise research will allow students to critically evaluate existing studies, understand the principles behind experimental design, and appreciate the role of scientific research in advancing knowledge on health, performance, and physical rehabilitation. This course aims to equip students with the tools to investigate and analyze the impact of exercise on health and performance, setting the groundwork for more advanced studies in the field. This course will allow students to work on independent and/or ongoing group research projects.

Credits 1

-4

Prerequisites

BIO 260

Corequisites

BIO 262

Or instructor permission

EXS 302: Kinesiology

Study of the muscular-skeletal system of the human body and the mechanics of human motion and its application to physical activities.

Credits 3

Prerequisites

BIO 260

EXS 309: Motor Learning

Provides knowledge of various factors that may affect learning and performance of human movement activities.

Credits 3

EXS 320: Fitness Assessment and Exercise Prescription

Introduction to the appropriate selection and application of exercise testing, and the use of testing results to construct an activity or exercise plan designed to address health issues. The course includes lecture and lab components.

Credits 4

Prerequisites

BIO 110, BIO 260, BIO 262, EXS 201, or permission of instructor.

EXS 382: Special Topics

Special Topic in Exercise Science

Credits 3

EXS 385: Exercise Physiology

This course addresses the study of how the body (on the cellular, tissue, and organ system levels) responds in function and structure to 1) acute exercise stress, and 2) chronic physical activity. Aspects of chemistry, biology, and physics are integrated to explain biological events and their sites of occurrence in the human body as they affect exercise and training. Includes energy systems, neuromuscular concepts as applied to sports, and functions of the cardiovascular and respiratory systems. (Same as BIO 385)

Credits 3

Prerequisites

EXS 201

BIO 260

BIO 262

CHM 105

EXS 450: Senior Seminar in Exercise Science

Capstone course for Exercise Science that integrates theory, research, and practical experience in the field with career exploration and preparation. Preparation for external certification exams (ACSM and/or NSCA) is included.

Credits 3

Prerequisites

EXS 201

EXS 205

EXS 302

EXS 320

BIO 260

Or senior status as a declared Exercise Science major or minor.

EXS 490: Directed Research

This advanced course, Directed Research in Exercise Science, offers students the opportunity to deepen their research skills by working on independent or faculty-led research projects within the field of exercise science. Building on foundational knowledge and methodologies, students will engage in hands-on research that explores complex topics related to exercise physiology, biomechanics, sports science, physical rehabilitation, and other related fields. Through this course, students will refine their abilities in experimental design, data collection, advanced statistical analysis, and interpretation of results. Emphasis is placed on conducting high-quality research with potential for contribution to peer-reviewed publications, conference presentations, and practical applications in health, performance, and clinical settings. This course is designed to cultivate advanced research competencies, critical thinking, and scientific communication, preparing students for graduate studies or professional research roles in exercise science.

Credits 1

-4

Prerequisites

BIO 260

BIO 262

EXS 280

Film and Media Studies

Film and Media Studies Minor

Associate Professor: James Martell

The Film & Media Studies Minor provides the opportunity for the study of film history, criticism, analysis, theory, and the cinematographic elements and techniques that transpose human experience from diverse cultures on to the screen. It exposes students to a range of cinematic works, styles, and movements in order to enlarge their awareness of the medium's significance as an art form, as a technology, and as a means of cultural and political expression. The minor consists of required courses and practica combined with upper-division elective courses from a range of disciplines that introduce students to the practice and critical study of film and screen cultures.

ELECTIVES:

Students must choose 9 credits from the Film Production Dramatic Writing and Study of Film as Significant Course Content categories. At least one course must come from Category I, and at least one from Category II.

Summary of Requirements for a Minor in Film & Media Studies

Item #	Title	Credits
FMS 150	Introduction to Film and Screen Cultures	3
ENG 340	Film Studies	3
FMS 370	Practicum	1
FMS 450	Independent Study	1-3

Category I: Film Production Dramatic Writing (Total 9 Credits from Categories I & II)

Item #	Title	Credits
ART 211	Photography Studio I	3
	ART 323 or FMS 323	3
THE 340	Playwriting Workshop	3

Category II: Study of Film as Significant Course Content (Total 9 Credits from Categories I & II)

Item #	Title	Credits
BUS 382	Special Topics in Business Administration	1-3
ENG 215	Introduction to Shakespeare	3
FMS 382	Special Topics in Film and Screen Cultures	3
FRN 382	Special Topics in French	3
HIS 325	History and Film	3
MUS 291	Topics in Music History	3
POL 349	The German Political and Cultural Tradition	3
POL 382	Special Topics in Political Science	3
PSY 382	Special Topics	3
RPH 325	Jesus and the Gospels	3
SPN 335	Hispanic Cinema	3
	Total Credits	17-19

ART 323 or FMS 323

Item #	Title	Credits
ART 323	Moving Image	3
FMS 323	Moving Image	3

Film and Media Studies Course Descriptions

FMS 150: Introduction to Film and Screen Cultures

Course examines the basic elements that distinguish film, television, and screen cultures from other aesthetic forms, including editing, cinematography, sound and mise-en-scene, and how these components work together to create a narrative.

Credits 3

FMS 323: Moving Image

An introduction to the production, application, and interpretation of time-based visual images such as film, video, and new media. Students will gain experience operating movie cameras, recording video and audio, and editing with computer software. They will also have opportunities to experiment with techniques such as analog filmmaking, animation, installation, projection, multimedia, and web applications. Emphasis will be placed on the application of time-based media within a Studio Art context, and students will cultivate both aesthetic and conceptual skills as makers of moving images. (Same as ART 323 Moving Image)

Credits 3

Prerequisites

FMS 323 or ART 101 or ART 110 or ART 120

FMS 370: Practicum

Experiential learning with local film festival or other activity proposed and organized by student in consultation with faculty associated with the minor.

Credits 1

Prerequisites

FMS 150 or permission of instructor.

FMS 382: Special Topics in Film and Screen Cultures

Studies in selected topics in film and screen cultures. Topics will vary based on instructor.

Credits 3

Prerequisites

FMS 150 or permission of instructor.

FMS 382: Special Topics: Radio Programming

Special topics in Film & Media Studies

Credits 1

-3

FMS 450: Independent Study

Concentrated study of a particular subject in film and screen cultures.

Credits 1

-3

Prerequisites

FMS 310 or permission of instructor.

Fine Arts Major

Professor: Dustyn Bork and Fonzie Geary II

Associate Professors: Maggie Gayle and Michael Oriatti

Assistant Professors: James Berry

The fine arts major broadly educates in the liberal arts tradition with the unique ability for each student to tailor their educational goals within an interdisciplinary and independent environment. Students acquire knowledge from diverse perspectives in the fields of fine arts and explore the role of the arts in society and culture. The degree equips students with the technical, theoretical, and applicable skills needed to effectively communicate, analyze, perform, organize, and create in the dynamic spaces of fine arts. The curriculum allows opportunities for exploration within an emphasis rich with historical precedents and contemporary practices. Students will attend events, perform, collaborate, and learn to work with peers on campus and in the broader community in the pursuit and study of fine arts. This will culminate in mastery of essential skills to become lifelong pursuers of the arts and will equip the fine arts graduate with the skills necessary to engage with others to inspire community involvement through arts projects, engaging cultural institutions, and increase and encourage patrons of the arts. The major requirements and capstone coursework prepare students for careers in technical, performative, and administrative aspects of fine arts and/ or further studies in graduate school.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

ACC 210	Financial Accounting	3
ENG 361	Creative Writing Workshop in Fiction	3
RPH 310	Philosophy of Art	3

Fine Arts Major - Capstone

Item #	Title	Credits
FAM 250	Internship	2
FAM 490	Fine Arts Senior Capstone	2

Fine Arts Major Course Descriptions

FAM 105: Introduction to Fine Arts

An independent project designed by the student with the guidance of fine arts faculty advisor. The student will produce a significant project, lecture, presentation, performance, or exhibition of research that synthesizes the knowledge and skills acquired during their course of study in the fine arts major.

Credits 3

FAM 250: Internship

Practical fieldwork in an arts or cultural events venue. Students will work closely with an advisor or mentor in directed, supervised work with an area arts organization. Students should be in Junior or Senior status of the major to complete and have approval for their site prior to enrolling. Can be taken summer term before Senior year.

Credits 2

Prerequisites

Junior or Senior status in Major

FAM 490: Fine Arts Senior Capstone

An independent project designed by the student with the guidance of fine arts faculty advisor. The student will produce a significant project, lecture, presentation, performance, or exhibition of research that synthesizes the knowledge and skills acquired during their course of study in the fine arts major.

Credits 2

Prerequisites

Senior status in Major

Foreign Language

Foreign Language Course Descriptions

FGN 101: Beginning Language I

Fundamentals of grammar with conversation and/or literary emphasis in a language not ordinarily taught at Lyon.
Credits 3

FGN 102: Beginning Language II

Continuation of FGN 101. Fundamentals of grammar with conversation and/or literary emphasis in a language not ordinarily taught at Lyon.
Credits 3

French

Associate Professor: James Martell

The French major is a course of study designed for students interested in developing their fluency in French and gaining an understanding of culture and literature that comes from the study of a foreign language.

Students majoring in French are strongly encouraged to study abroad.

Students may complete their coursework by studying for a summer or a semester at the University of Poitiers, France, or at another institution in a French-speaking country after consulting with the French faculty at Lyon.

Students may skip FRN 101 and 102 if they have equivalent language proficiency in French.

NOTE

* FRN 101 and FRN 102 may also be used to satisfy core requirements.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

French Major (BA)

Summary of Requirements for a Major in French

Item #	Title	Credits
FRN 101	Beginning French I	3
FRN 102	Beginning French II	3
FRN 201	Intermediate French I	3
FRN 202	Intermediate French II	3
FRN 211	Intermediate French Conversation	1
FRN 212	Intermediate French Conversation	1
FRN 311	Advanced French Conversation	1
FRN 312	Advanced French Conversation	1
FRN 315	Advanced Grammar and Composition	3
FRN 320	French Linguistics and Phonetics	3
	French Electives – Literature (6 credits)	6
	Two Advanced Electives (6 credits)	6
FRN 450	Independent Study	1-3

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	81-85

French Electives - Literature (6 credits)

Select two of the following advanced French electives with a focus on literature:

Item #	Title	Credits
FRN 340	Eighteenth-century French Studies	3
FRN 345	Nineteenth-century French Studies	3
FRN 355	Contemporary France	3
FRN 382	Special Topics in French	3

Two Advanced Electives (6 credits)

Students may take these classes in another division in consultation with the French faculty. Classes may include but are not restricted to the following:

Item #	Title	Credits
HIS 340	The French Revolution and Napoleon	3
HIS 357	Early Modern France	3
RPH 335	Women's Issues	3
ENG 365	Introduction to Contemporary Critical Theory	3
ENG 340	Film Studies	3

French Minor

The French minor is a course of study designed as a second field for students interested in developing their fluency in French and gaining an understanding of culture and literature that comes from the study of a foreign language.

NOTE

* Students may use FRN 101 and 102 to satisfy core requirements.

Summary of Requirements for a Minor in French

Item #	Title	Credits
FRN 101	Beginning French I	3
FRN 102	Beginning French II	3
FRN 201	Intermediate French I	3
FRN 202	Intermediate French II	3
	Two advanced French Electives (6 credits)	6
	Total Credits	18

Two advanced French Electives (6 credits)

300 and/or 400 level

French Course Descriptions

FRN 101: Beginning French I

Introduction to French language and culture with focus on speaking, listening, writing, and reading.

Credits 3

FRN 102: Beginning French II

Introduction to French language and culture with focus on speaking, listening, writing, and reading. FRN 101 (or exemption) is a prerequisite for FRN 102.

Credits 3

Prerequisites

FRN 101

FRN 201: Intermediate French I

Review of grammar with emphasis on reading, writing, listening, speaking, vocabulary building, and idiomatic self-expression. Introduction to works of several modern writers and practice with tapes.

Credits 3

Prerequisites

FRN 101 and FRN 102

FRN 202: Intermediate French II

Review of grammar with emphasis on reading, writing, listening, speaking, vocabulary building, and idiomatic self-expression. Introduction to works of several modern writers and practice with tapes.

Credits 3

Prerequisites

FRN 101 and FRN 102

FRN 211: Intermediate French Conversation

French conversation at the intermediate level. Graded on a pass/fail basis.

Credits 1

Prerequisites

FRN 102 or permission of instructor.

FRN 212: Intermediate French Conversation

French conversation at the intermediate level. Graded on a pass/fail basis.

Credits 1

Prerequisites

FRN 102 or permission of instructor.

FRN 311: Advanced French Conversation

French conversation at the advanced level. Graded on a pass/fail basis.

Credits 1

Prerequisites

FRN 202 or permission of instructor.

FRN 312: Advanced French Conversation

French conversation at the advanced level. Graded on a pass/fail basis.

Credits 1

Prerequisites

FRN 202 or permission of instructor.

FRN 315: Advanced Grammar and Composition

Study of advanced grammar points and stylistic features of written French. Students will develop advanced language skills with an emphasis on writing.

Credits 3

Prerequisites

FRN 202 or permission of instructor.

FRN 320: French Linguistics and Phonetics

French Linguistic and Phonetics is a course intended for students who have had some previous study of French. It is intended to provide students who wish to take advanced courses in French with systematic, comprehensive review, and enhancement of French pronunciation, to increase aural comprehension. Prerequisite FRN 202 or permission of instructor.

Credits 3

FRN 340: Eighteenth-century French Studies

Introduction to 18th-century French thought, culture, and history and continued work on language skills.

Credits 3

Prerequisites

FRN 202 or permission of instructor.

FRN 345: Nineteenth-century French Studies

Introduction to 19th-century French literature, culture, and history and continued work on language skills.

Credits 3

Prerequisites

FRN 202 or permission of instructor.

FRN 350: Twentieth-century French Studies

Introduction to 20th-century French literature, culture, and history and continued work on language skills.

Credits 3

Prerequisites

FRN 202 or permission of instructor.

FRN 355: Contemporary France

Introduction to contemporary French literature, culture, and history and continued work on language skills.

Credits 3

Prerequisites

FRN 202 or permission of instructor.

FRN 382: Special Topics in French

Study of selected topics in French. Prerequisites will vary.

Credits 3

FRN 399: French International Studies Course: Variable Topics

Study of varying topics in French culture. Includes a 2-week Nichols trip to a French-speaking country.

Credits 1

Prerequisites

FRN 102

FRN 450: Independent Study

Credits 1

-3

Graduate Program

Graduate Certificate in Teaching Deaf or Hard of Hearing Students

The Graduate Certificate in Teaching Deaf or Hard of Hearing Students provides a pathway to obtaining the Arkansas licensure endorsement for Teachers of Hearing-Impaired Students K-12. The program provides a firm foundation of professional knowledge, skills, and dispositions through challenging coursework and professional mentoring in conjunction with classroom experience. The coursework is offered through a hybrid teaching model that blends online coursework with weekly face-to-face meetings offered either remotely or in person and is comprised of eight courses (24 graduate credit hours). Candidates beginning the program in a fall term can complete the requirements in four semesters.

Additional Licensure Requirements

Candidates completing the program must earn a passing score on the state-required licensure exam in order to be eligible for the licensure endorsement in Teaching Hearing Impaired Students K-12.

Admission Requirements

Lyon College admits candidates who demonstrate that they can contribute to and benefit from the Lyon experience. Admission is not limited by age, race, gender, disability, sexual orientation, or national origin of the applicant. Admission requirements include the following:

1. Graduate Student Application Form
2. Official transcript from an accredited college or university demonstrating a bachelor's degree with a cumulative GPA of 2.75 or higher on a four-point scale or a GPA of 3.0 or higher in the last 60 hours of coursework. If applicable, candidates must also submit official transcripts for any graduate coursework completed.
3. Evidence of Arkansas Educator Licensure*
4. Preferred minimum of 2 years of teaching experience
5. Demonstrated fluency in American Sign Language or concurrent enrollment in ASL coursework or training leading to proficiency
6. Current federal criminal background check (see below)
7. Written Goal Statement (should reflect a desire to pursue a career that furthers the education of deaf and hard of hearing students)
8. Letter of Recommendation that addresses effective work with infants, children, or adolescents and/or families.

*Note: The licensure endorsement is intended for those who are currently licensed to teach in Arkansas. Candidates who are licensed teachers in other states should determine whether the program meets professional licensure requirements in those states.

Background Checks

Prior to placement in an internship classroom, candidates must submit to a criminal history check (ASP & FBI) and an Arkansas Child Maltreatment Central Registry check or provide evidence of current background check approval.

Program Sequence

Courses will be offered in sixteen-week terms, and it is expected that students will enroll in two three-credit courses to earn six graduate credit hours per regular semester. Coursework will be offered in summer terms as well. Students can complete the program in one and one-half years of continuous enrollment.

Delivery and Support

Courses will be offered using a hybrid teaching model that combines asynchronous online coursework with weekly face-to-face or remote meetings with course instructors. The program will utilize Canvas as the learning management system to provide access to course resources and assignments. Instructors will be expected to adhere to Lyon College's policies regarding the quality of online teaching and will be required to complete online training provided by the College covering best practices in online instruction based on the Quality Matters Standards.

Summary of Requirements for Deaf Education Graduate Certificate

Item #	Title	Credits
EDU 622	Historical, Social, and Mental Health Context for Deaf Learners and Education	3
EDU 624	Linguistics of American Sign Language	3
EDU 626	Introduction to Audiology for Deaf Educators	3
EDU 628	Language Acquisition and Deprivation in DHH Children	3
EDU 630	Special Education Law: IEP Practices and Accommodations for DHH Learners	3
EDU 632	Teaching Literacy in an ASL/English Bilingual Classroom Course	3
EDU 634	Teaching Deaf and Hard of Hearing Learners: Curriculum, Instruction & Evidence-Based Practices	3
EDU 690	Internship & Seminar for Deaf/HH Professional Practice	3
	Total Credits	24

Master of Arts in Teaching (MAT)

The Master of Arts in Teaching (MAT) offers an alternative pathway to Arkansas teacher licensure for those who have earned a bachelor's degree from an accredited institution of higher education and who wish to pursue a career in the teaching profession. The degree provides a firm foundation of professional knowledge, skills, and dispositions through challenging coursework and professional mentoring in conjunction with intensive classroom experience in a year-long teaching residency. Teacher candidates may pursue teacher licensure in the following content areas and levels:

- Elementary Education K-6
- Middle Childhood 4-8 in English language arts, mathematics, science, and social studies
- Secondary 4-12 in computer science
- Secondary 7-12 in English/Language arts, biology/life science, chemistry, mathematics, and social studies
- Broad Range K-12 in art, foreign languages (French or Spanish), physical education, and music (vocal and/or instrumental)

The MAT degree consists of 36 credit hours and is designed to prepare candidates using a hybrid teaching model that blends online coursework with weekly face-to-face meetings offered either remotely or in person. Candidates beginning the program in a summer term can complete the degree in fifteen months, while those beginning in the fall semester will be able to finish in less than two years. The program offers two pathways to complete the Residency requirements:

Pathway 1: Teaching Residency

In Pathway 1, teacher candidates may complete the residency requirement by teaching full-time in the subject area and grade level(s) for which they are seeking licensure. In order to follow this pathway, candidates must be working as teacher of record under the Rules Governing Educator Licensure in Arkansas and meet all other requirements for admission to the program. Candidates will be awarded six credit hours in each of two semesters for their full-time work in the classroom.

Pathway 2: Traditional Residency

In Pathway 2, teacher candidates who are not employed as teacher of record will be placed in a two-semester, half-day residency where they will complete the field experience requirements for the degree in conjunction with their coursework.

Program Admissions

To be unconditionally admitted to the MAT program, candidates must meet the following requirements:

1. Submit a completed graduate student application form.
2. Provide an official transcript demonstrating the completion of an undergraduate degree in an eligible discipline from an accredited college or university with a cumulative GPA of 2.75 or higher on a four-point scale or a GPA of 3.0 in the last 60 hours of coursework. If applicable, candidates must also submit official transcripts for any graduate coursework completed.
3. Submit passing scores on the Praxis subject area exam for the desired teaching license.
4. Provide three references. Two references must be professional in nature.
5. Provide a professional goals statement and rationale for seeking admission to the program.
6. Sit for an interview (virtual or in-person) with the admissions committee.

Candidates may be conditionally admitted under the following conditions:

- The cumulative undergraduate GPA is 2.5 or higher with a GPA of 3.0 or higher on at least 30 credit hours of coursework in the intended teaching discipline.
- Praxis subject area scores provided are near passing [within two Standard Errors of Measurement (SEM) of the state-required cut score]. Candidates must submit passing scores on all required testing prior to recommendation for licensure.

Background Checks

Prior to placement in a residency classroom, candidates must submit to a criminal history check (ASP & FBI) and an Arkansas Child Maltreatment Central Registry check. Information on background check requirements and processes can be found on the Department of Education website [here](#).

Please note: Candidates should be aware that the Arkansas Department of Education has access to and must consider any background check reflecting a conviction (pleading guilty or no contest or being found guilty by a jury or judge) for any offense listed in Arkansas Code Ann. §§ 6-17- 410 and 6-17-414 as well as any felony involving physical or sexual injury, mistreatment, or abuse against another, including records that have been expunged, sealed, or subject to a pardon. The discovery of a record of conviction for any felony/non-felony offense could result in the applicant being ineligible for an Arkansas educator's license. See [Disqualifying Offenses for Licensure or Employment in Arkansas Public Schools \(PDF\)](#).

Additional Licensure Requirements

- **Candidates completing programs in elementary K-6, social studies 4-8, or social studies 7-12 must complete three college credit hours in Arkansas History at an accredited institution of higher education or the 45-hour professional development course in Arkansas History offered through Arkansas IDEAS.**

- All candidates must complete required professional development in family and community engagement, child maltreatment training, teen suicide awareness and prevention, dyslexia awareness, and human trafficking awareness. These trainings may be obtained on Arkansas IDEAS.

MAT Course Descriptions

EDU 505 Foundations of Effective Teaching & Learning (3 credits)

This course focuses on the foundational skills required for early success in the classroom. Topics will include the TESS domains (from Danielson's Framework for Teaching), principles of classroom management, teacher collaboration, and professional dispositions and ethics. Course content will focus on organizing content knowledge for student learning, creating environments that are conducive to student learning, developing the instructional skills necessary for guiding student learning, and demonstrating growth within the profession. Candidates should complete this course in the summer prior to field placement or employment on a provisional license.

EDU 510 Science-based Reading and Literacy Instruction (3 credits)

This course focuses on preparing pre-service teachers to effectively teach reading and literacy skills based on the science of reading. Course topics include the science of reading research as well as concepts of print, phonological and phonemic awareness, phonics and word study, development of reading comprehension, and reading assessment and instruction.

EDU 515 Disciplinary Literacy & Pedagogy (3 credits)

This course focuses on developing teacher candidate awareness of the foundational principles of the science of reading as it pertains to literacy instruction in the content areas, as well as their knowledge and skills related to content-area instructional methods and strategies.

EDU 520 Child & Adolescent Development (3 credits)

The purpose of this course is to provide students with a graduate-level introduction to theory, empirical research, and practical educational applications of child and adolescent development. Topics will include biological, cognitive, linguistic, social, affective, and personality development. The focus will almost exclusively be on typical development. As such, the course will not focus on therapeutic approaches, interventions, or clinical populations (except in rare and limited instances). Material will be covered through instructor and student presentations and seminar discussions.

EDU 525 Learning & Cognition (3 credits)

The emphasis of this course is on how humans learn. The purpose is to provide students with a graduate-level introduction to theory, empirical research, and practical educational applications of learning and cognition. The course will also give students hands-on experience with learning and memory principles, describing these in relation education and provide students with useful tools in understanding thinking, learning, and teaching; as such the areas of memory, learning styles, motivation, and knowledge transfer will be specifically addressed.

EDU 530 Models & Methods for Quality Instruction (3 credits)

This course focuses on the knowledge, skills, and dispositions necessary for high quality, authentic instructional practice. Topics will include instruction using interdisciplinary teaching and learning, instructional models for a variety of teaching purposes, and pedagogical practices that support student learning. Students will design an interdisciplinary thematic unit that incorporates content from a variety of disciplines including the humanities, fine arts, social sciences, mathematics, and sciences as appropriate. Prerequisite/Corequisite: EDU 505 Foundations of Effective Teaching and Learning

EDU 535 Integrating Technology into the K-12 Classroom (3 credits)

Designed to prepare teacher candidates to effectively integrate technology into classroom practice, this course focuses on using technological resources and tools to enhance learning through standards-based content

instruction and pedagogical best practice. The course explores how technology may be leveraged as a tool to facilitate changes in the way teachers teach and students learn, and ultimately to stimulate positive changes in education both locally and globally. It also examines how educators can increase their own productivity by using technology for communication and collaboration among colleagues, staff, parents, students, and the larger community. Students will examine the benefits and possible drawbacks of technology use in their classrooms and learn how to integrate technology effectively into their teaching to promote student learning. Course topics align with the International Society for Technology in Education (ISTE) standards for students and teachers.

EDU 605 Culture, Equity, and Engagement in Educational Settings (3 credits)

This course explores diversity, equity, and engagement in educational settings within the sociopolitical context of the present day. Readings and discussions will focus on how societal and educational systems impact student learning and how culturally responsive educators can provide high quality instruction to a diverse student population.

EDU 610 Education Law, Ethics, and Advocacy (3 credits)

This course focuses on foundational legal and ethical principles upon which school leaders should base their decisions in their work as educators and as advocates for their students, their colleagues, their communities, and the teaching profession.

EDU 615 Residency & Seminar I (6 credits) The student teaching residency is designed to provide the pre-service teacher with a realistic mentored experience in planning, managing, and teaching in a public-school classroom. The seminar is designed to both enable the resident to integrate theory and practice and to find professional support from peers and faculty. The seminar itself will be process-oriented, with weekly topics determined collaboratively between the instructor and the students. Residents who are employed by a school district on a provisional license will complete the residency in their district-assigned classrooms. Residents who are not employed by a school district will be placed in a classroom with a mentor teacher. This is the first semester of a two-semester sequence. The resident must complete a minimum of 270 hours in the assigned residency classroom.

EDU 620 Residency & Seminar I (6 credits) The student teaching residency is designed to provide the pre-service teacher with a realistic mentored experience in planning, managing, and teaching in a public-school classroom. The seminar is designed to both enable the resident to integrate theory and practice and to find professional support from peers and faculty. The seminar itself will be process-oriented, with weekly topics determined collaboratively between the instructor and the students. Residents who are employed by a school district on a provisional license will complete the residency in their district-assigned classrooms. Residents who are not employed by a school district will be placed in a classroom with a mentor teacher. This is the second semester of a two-semester sequence. The resident must complete a minimum of 360 hours in the assigned residency classroom.

Graduate Program Course Descriptions

EDU 505: Foundations of Effective Teaching and Learning

This course focuses on the foundational skills required for early success in the classroom. Topics will include the TESS domains (from Danielson's Framework for Teaching), principles of classroom management, teacher collaboration, and professional dispositions and ethics. Course content will focus on organizing content knowledge for student learning, creating environments that are conducive to student learning, developing the instructional skills necessary for guiding student learning, and demonstrating growth within the profession. Candidates should complete this course in the summer prior to field placement or employment on a provisional license.

Credits 3

EDU 510: Science-based Reading and Literacy Instruction

This course focuses on preparing pre-service teachers to effectively teach reading and literacy skills based on the science of reading. Course topics include the science of reading research as well as concepts of print, phonological and phonemic awareness, phonics and word study, development of reading comprehension, and reading assessment and instruction.

Credits 3

EDU 515: Disciplinary Literacy & Pedagogy

This course focuses on developing teacher candidate awareness of the foundational principles of the science of reading as it pertains to literacy instruction in the content areas, as well as their knowledge and skills related to content-area instructional methods and strategies.

Credits 3

EDU 520: Child Development and Learning in K-12 I

This course is part one of a two-course sequence that emphasizes how children develop and learn. The purpose of this course is to provide students with a graduate-level introduction to the theory, empirical research, and practical educational applications of development and learning. Topics will include biological, cognitive, affective, social, and personality development. The focus will be almost exclusively be on typical development. As such, the course will not focus on therapeutic approaches, interventions, or clinical populations (except in rare and limited instances). Material will be covered through instructor and student presentations and seminar discussions.

Credits 3

EDU 525: Child Development and Learning in K-12 II

This course is part two of a two-course sequence that emphasizes how children develop and learn. The purpose of this course is to continue the focus on theory, empirical research and practical educational applications of development and learning. Topics will include learning and memory, language development, literacy, motivation, and social cognition. This course will also provide students with useful tools in understanding teaching within the context of child development, exploring the impact that family structure, peers, and the media has on children's learning.

Credits 3

EDU 530: Models & Methods for Quality Instruction

This course focuses on the knowledge, skills, and dispositions necessary for high quality, authentic instructional practice. Topics will include instruction using interdisciplinary teaching and learning, instructional models for a variety of teaching purposes, and pedagogical practices that support student learning. Students will design an interdisciplinary thematic unit that incorporates content from a variety of disciplines including the humanities, fine arts, social sciences, mathematics, and sciences as appropriate.

Credits 3

Prerequisites

EDU 505

EDU 535: Integrating Technology into the K-12 Classroom

Designed to prepare teacher candidates to effectively integrate technology into classroom practice, this course focuses on using technological resources and tools to enhance learning through standards-based content instruction and pedagogical best practices. The course explores how technology may be leveraged as a tool to facilitate changes in the way teachers teach and students learn, and ultimately to stimulate positive changes in education both locally and globally. It also examines how educators can increase their own productivity by using technology for communication and collaboration among colleagues, staff, parents, students, and the larger community. Students will examine the benefits and possible drawbacks of technology use in their classrooms and learn how to integrate technology effectively into their teaching to promote student learning. Course topics align with the International Society for Technology in Education (ISTE) standards for students and teachers.

Credits 3

EDU 605: Culture, Equity, and Engagement in Educational Settings

This course explores diversity, equity, and engagement in educational settings within the sociopolitical context of the present day. Readings and discussions will focus on how societal and educational systems impact student learning and how culturally responsive educators can provide high quality instruction to a diverse student population.

Credits 3

EDU 610: Education Law, Ethics, and Advocacy

This course focuses on foundational legal and ethical principles upon which school leaders should base their decisions in their work as educators and as advocates for their students, their colleagues, their communities, and the teaching profession.

Credits 3

EDU 615: Residency & Seminar I

The student teaching residency is designed to provide the pre-service teacher with a realistic mentored experience in planning, managing, and teaching in a public-school classroom. The seminar is designed to both enable the resident to integrate theory and practice and to find professional support from peers and faculty. The seminar itself will be process-oriented, with weekly topics determined collaboratively between the instructor and the students. Residents who are employed by a school district on a provisional license will complete the residency in their district-assigned classrooms. Residents who are not employed by a school district will be placed in a classroom with a mentor teacher. This is the first semester of a two-semester sequence. The resident must complete a minimum of 270 hours in the assigned residency classroom. Prerequisites: Admission to the MAT program. Credits: 6

Credits 6

EDU 620: Residency & Seminar II

The student teaching residency is designed to provide the pre-service teacher with a realistic mentored experience in planning, managing, and teaching in a public school classroom. The seminar is designed to both enable the resident to integrate theory and practice and to find professional support from peers and faculty. The seminar itself will be process-oriented, with weekly topics determined collaboratively between the instructor and the students. Residents who are employed by a school district on a provisional license will complete the residency in their district-assigned classrooms. Residents who are not employed by a school district will be placed in a classroom with a mentor teacher. This is the second semester of a two-semester sequence. The resident must complete a minimum of 360 hours in the assigned residency classroom. Prerequisites: Successful completion of EDU 615 Residency I. Credits: 6

Credits 6

EDU 622: Historical, Social, and Mental Health Context for Deaf Learners and Education

This course explores the historical, social and mental health factors that influence the Deaf learner's educational journey. Learning enhances our understanding of the impact of these factors and leads to identifying approaches that promote positive educational, psychological, emotional, and social development. The course begins by exploring current educational practices in historical context and then looks at different aspects of a Deaf child's experiences that impact social and mental health, including connections to the student's familial and educational environment.

Credits 3

EDU 624: Linguistics of American Sign Language

This course is designed to examine the linguistic properties of ASL, including phonology, morphology, syntax, and semantics, and how signed languages differ and are like spoken languages. Students will be introduced to the linguistic and culturally based communication issues that impact the process between Deaf and hearing persons.

Credits 3

EDU 626: Introduction to Audiology for Deaf Educators

This course focuses on the knowledge and skills necessary for basic understanding of the hearing process for normal hearing as well as deaf/hard of hearing individuals. Topics will include anatomy and physiology, hearing evaluations, and intervention strategies that may be available for students. Students will participate in discussions on hot topics in audiology as they relate to deaf education practices.

Credits 3

EDU 628: Language Acquisition and Deprivation in DHH Children

This course addresses several theories regarding language acquisition and language deprivation with a focus on the direct educational impacts. The course is divided into three main sections: Language Development through ASL, Language Development through Speech, and Language Deprivation Syndrome.

Credits 3

Prerequisites

EDU 622

EDU 630: Special Education Law: IEP Practices and Accommodations for DHH Learners

This course is an intensive study of the legislation and litigation involved with individuals with disabilities, specifically concentrating on deaf and hard of hearing (DHH) students between the ages of birth–21years. A historical as well as current study of legislation used as the basis for providing special education services on the federal and state level will be covered. The legal system on the federal and state level is covered as well as critical litigation that has influenced the field of special education, specifically the cases that relate to educating DHH students.

Credits 3

EDU 632: Teaching Literacy in an ASL/English Bilingual Classroom Course

This course is designed to give teachers confidence with research-based instructional techniques and strategies in the area of teaching reading to deaf students. Topics will cover best practices and current trends in second language acquisition while emphasizing explicit instruction, progress monitoring and targeted assessments designed to monitor growth of deaf students. By providing a foundation in ASL/English Bilingual strategies, teachers can move beyond traditional instruction to improving literacy across the curriculum.

Credits 3

EDU 634 : Teaching Deaf and Hard of Hearing Learners: Curriculum, Instruction & Evidence-Based Practices

This course is a study of the philosophical foundations, principles, and practices of effective instruction for deaf students. Based on the assumption that the best teachers critically consider what to teach, how to teach, and how to assess students and their classes, this course nurtures a well-developed and thoughtful intellectual framework that helps teachers make sound educational decisions based upon the myriad of factors that influence those decisions.

Credits 3

EDU 690: Internship & Seminar for Deaf/HH Professional Practice

The internship is designed to provide students with a realistic mentored field experience in planning, managing, and teaching deaf and hard of hearing students. The accompanying seminar is designed to enable the intern to integrate theory and practice and to find professional support from peers and faculty on the Arkansas School for the Deaf campus.

Credits 3

Health-Related Concentrations

Pre-Health Related Concentrations

Professional schools in health-related fields have very specific admission requirements. Students interested in these areas should begin planning their undergraduate curriculum as early as possible.

Any student who is interested in pursuing a career in one of these areas should contact the chair of the Pre-professional Advisory Committee, or another science division faculty member, upon matriculation at Lyon. While some health profession programs do not require a student to complete a bachelor's degree in order to apply, it is generally recommended that the student do so because of the competitive edge provided by a completed liberal arts education.

Pre-Dental Concentration

Biology:

Professors: Cassia C. Oliveira and David Thomas

Associate Professors: Alexander Beeser and Maryline Jones

Assistant Professor: Eric South

Chemistry:

Associate Professor: Irosha Nawarathne

The Pre-Dental Concentration prepares students to take the Dental Admission Test (DAT), and meet the requirements for dental school admission. The concentration may be added to any major, but usually is coupled with the Biology Major. This curriculum is based upon the requirements for the University of Tennessee Health Science Center – Memphis. Other schools may have additional requirements. Lyon College proficiency and common core courses (ENG 101 & 102, MTH 101, etc.) are not included here even though many schools list them as prerequisites. Some of these courses may have prerequisites not shown. Only one pre-health professions concentration may be declared.

NOTE

***Students may use BIO 110, CHM 110, PHY 210/211, PHY 240/241, SPN 101, and SPN 102 to satisfy Core requirements.**

Summary of Required Courses

Pre-Occupational Therapy Concentration

Biology:

Professors: Cassia C. Oliveira and David Thomas

Associate Professors: Alexander Beeser and Maryline Jones

Assistant Professors: Eric South

The Pre-Occupational Therapy Concentration prepares students to take the Graduate Record Exam (GRE), and

meet the admissions requirements for occupational therapy school. The concentration may be added to any major, but usually is coupled with the Biology Major or Psychology Major. This curriculum is based upon the requirements for most doctoral-level Arkansas Occupational Therapy schools. Other schools may have additional requirements. Lyon College proficiency and common core courses (ENG 101 & 102, MTH 101, etc.) are not included here even though many schools list them as prerequisites. Some of these courses may have prerequisites not shown. Only one pre-health profession concentration may be declared.

NOTES

* Students may use ANT 101, PSY 101, PSY 235, BIO 110, CHM 105/CHM 110, and PHY 210/PHY 211, PHY 240/241, SPN 101, and SPN 102 to satisfy core requirements.

* The BIO 110, CHM 110, and PHY 210 courses vary based on specific graduate program requirements.

Pre-Optometry Concentration

Biology:

Professors: Cassia C. Oliveira and David Thomas

Associate Professors: Alexander Beeser and Maryline Jones

Assistant Professor: Eric South

Chemistry:

Associate Professor: Irosha Nawarathne

Physics:

Associate Professor: Stuart Hutton

The Pre-Optometry Concentration prepares students to take the Optometry Admission Test (OAT), and meet the admissions requirements for optometry school. The concentration may be added to any major, but usually is coupled with the Biology Major or the Chemistry Major. This curriculum is based on the requirements of Southern College of Optometry. Other schools may have additional requirements. Lyon College proficiency and common core courses (ENG 101 & 102, MTH 101, etc.) are not included here even though many schools list them as prerequisites. Some of these courses may have prerequisites not shown. Only one pre-health profession concentration may be declared.

NOTES

*** Students may use BIO 110, CHM 110, MTH 210, PHY 210/211, PHY 240/241, PSY 101, PSY 235, SPN 101 and SPN 102 to satisfy Core requirements.**

*** Molecular biology may be substituted for BIO 356 Biochemistry.**

Pre-Pharmacy Concentration

Biology:

Professors: Cassia C. Oliveira and David Thomas

Associate Professors: Alexander Beeser and Maryline Jones

Assistant Professor: Eric South

Chemistry:

Associate Professor: Irosha Nawarathne

The Pre-Pharmacy Concentration prepares students to take the Pharmacy College Admission Test (PCAT), and meet the admissions requirements for pharmacy school. The concentration may be added to any major, but usually is coupled with the Biology Major or the Chemistry Major. This curriculum is based upon the requirements of the University of Arkansas for Medical Sciences. Other schools may have additional requirements. Lyon College proficiency and common core courses (ENG 101 & 102, MTH 101, etc.) are not included here even though many schools list them as prerequisites. Some of these courses may have prerequisites not shown. Only one pre-health profession concentration may be declared.

Pre-Veterinary Concentration

Biology:

Professors: Cassia C. Oliveira and David Thomas

Associate Professors: Alexander Beeser and Maryline Jones

Assistant Professor: Eric South

Chemistry:

Associate Professor: Irosha Nawarathne

The Pre-Veterinary Concentration prepares students to take the Veterinary College Admission Test (VCAT) and/or Graduate Record Exam (GRE), and meet the admissions requirements for veterinary school. The concentration may be added to any major, but usually is coupled with the Biology Major. This curriculum is based upon the requirements for Louisiana State University and Kansas State University. Other schools may have additional requirements. Lyon College proficiency and common core courses (ENG 101 & 102, MTH 101, etc.) are not included here even though many schools list them as prerequisites. Some of these courses may have prerequisites not shown. Only one pre-health profession concentration may be declared.

History

Associate Professor: Edward Tenace

Assistant Professors: Kieran O'Keefe and Wu Qu

The study of history is a crucial aspect of a liberal education. History provides a sense of perspective on the processes of social, political, and economic change that have literally shaped the world. The study of history deepens and broadens one's understanding of the ways institutions and attitudes bring about change over time.

Lyon history students experience the varied work of the modern historian, especially the historian as a detective and as an interpreter. Working with both evidence and ideas in the classroom and in the field, history majors have the opportunity to refine their skills in critical reading, reasoning, research, and writing.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

History Major (BA)

Summary of Requirements for a Major in History

Item #	Title	Credits
HIS 101	The United States I	3
HIS 102	The United States II	3
HIS 110	World Civilization I	3
HIS 280	Historiography and the Historical Method	3
	Additional 200- level History Courses (2 courses):	6
	Upper level (300+) History Courses (6 courses):	18
HIS 475	Seminar in History	3
HIS 480	Senior Seminar	3

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	88-90

Additional 200- level History Courses (2 courses):

* Any 200-level History Course except for HIS 280.

* Courses must be taken with Lyon College History Faculty.

Upper level (300+) History Courses (6 courses):

- 2- 300-level courses in European History*
- 2 - 300-level courses in World History*
- 2 - 300-level courses in American History*

*Courses must be taken with Lyon College History Faculty

History Minor

This course of study is designed as a second field for students interested in history and in developing their skills in reasoning, research, and writing.

NOTE

* HIS 110 and HIS 112 are the required common core before the senior year.

Summary of Requirements for a Minor in History

Item #	Title	Credits
HIS 101	The United States I	3
HIS 102	The United States II	3
HIS 110	World Civilization I	3
	History Courses 200/300 level - (2 courses):	6
	Total Credits	15

History Courses 200/300 level - (2 courses):

Choose two History courses at the 200 or 300 level focused on different geographic areas (the United States, Europe, or World History).

History Course Descriptions

HIS 101: The United States I

The history of the United States from the colonial period to Reconstruction.

Credits 3

HIS 102: The United States II

The history of the United States from Reconstruction to the present.

Credits 3

HIS 110: World Civilization I

This course offers a general history of civilization, emphasizing the economic, intellectual, political and cultural aspects that have contributed to the development of our world. It covers the period up to 1715.

Credits 3

HIS 210: Latin American History

This class surveys Latin American history from the eve of first encounters between Americans and Europeans in 1492 to the present: over 500 years of history for a vast region spanning Mexico, Central America, the Caribbean, and South America. Students will explore historical processes like encounters between Europeans, Americans, and Africans; Spanish and Portuguese colonialism in the New World; struggles for independence and construction of new Latin American states; class struggle, revolution, and counterrevolution in the twentieth century; and globalization, neoliberalism, and inequality in the twenty-first century.

Credits 3

HIS 220: Comparative Revolutions

This course offers a comparative history of a historical phenomenon: revolution. Throughout the semester, this class will consider multiple modern revolutions across the globe. It will begin with an exploration of the political theory of the Enlightenment, before considering specific revolutions, including but not limited to the American, French, Haitian, Mexican, and Russian. Besides comparing and contrasting various revolutions, this course will ask a number of questions related to revolutionary change, including what causes revolutions? Who makes a revolution? What leads to success or failure in a revolutionary situation? How should we define conceptions such as democracy, freedom, and liberty?

Credits 3

HIS 250: War, Institutions, and Society to 1815

The History of Warfare from Ancient Times to the end of the Napoleonic era. In addition to examining the developments of warfare in terms of tactics, strategy, and technology, the course will set warfare in a social and institutional context as a major driver of change. Emphasis will be given mainly to Western military developments but we will also examine the way non-Western societies interacted, responded, and adapted to the Western way of war.

Credits 3

HIS 251: War, Institutions, and Society since 1815

The History of Warfare from the mid-19th century to the present. In addition to examining the main developments in modern warfare, the course will set the study of warfare in a social and institutional context as a major driver of change. We will examine the development of such concepts as total war, conventional war, guerrilla warfare, and the rise of terrorism. Emphasis will be on such well known conflicts as the American Civil War, the Wars of European Unification, the World Wars, and the various anti-colonial wars.

Credits 3

HIS 280: Historiography and the Historical Method

This course explores the process of doing history and allows students to practice those processes and discuss the merits of different approaches to studying the past. Students will be exposed to the concept of historiography, its role within the discipline, and its importance regarding historical research. This course prepares students for upper-level courses, including HIS 480. Required for history majors.

Credits 3

HIS 282: Special Topics in History

Study of selected topics in history.

Credits 3

Prerequisites

Prerequisites may vary.

HIS 300: The Cuban Revolution

An exploration of the complex history of the Cuban Revolution. We will embrace a methodology that examines Cuban history from within, while also devoting attention to the significant role that Cuba and Cubans have played in the international arena, especially since 1959. While much of the scholarship on Cuba has taken a top-down approach focused on political leaders and their policies, we will use creative examination of primary sources to build our own, bottom-up analysis of the social and cultural impacts of the revolution. We will seek to develop answers to difficult questions about the nature of popular democracy and totalitarian rule, the success of the Cuban Revolution in fulfilling its stated goals, and the ways that the revolutionary project has impacted the real lives of real people.

Credits 3

HIS 301: British History I

The principle events surrounding the formation of England from the Norman Conquest to the end of the Stuart monarchy in 1714 with additional examination of England's relation to its Celtic neighbors, the beginnings of the British Empire, and the creation of Great Britain.

Credits 3

HIS 302: British History II

The main political, social, economic, and cultural developments in Britain since 1714. Students will also examine British colonialism, Britain's role in international affairs, and relations among the various territories that make up the United Kingdom itself.

Credits 3

HIS 303: History of Ireland

Survey of the history of Ireland from the arrival of the Celts to the present-day conflict in Northern Ireland with major emphasis on explaining how Ireland's history shaped and continues to shape its present.

Credits 3

Prerequisites

HIS 201 or permission of instructor.

HIS 305: Britain and the British Empire

A wide-ranging introduction to the history of Britain and the British Empire from the 16th century to the present with emphasis on the changing political system, the development of the British state, and the maintenance of an overseas Empire.

Credits 3

HIS 309: The Early American Republic

This course will explore the history of the early American republic, ranging from 1787 to 1848. Often overshadowed by the American Revolution that preceded it and the Civil War that followed, these decades were crucial to the development of the United States. It was during this period that Americans established the Constitution, developed the first political parties, debated how democratic the new nation should be, and argued over how to create a “more perfect union.” The early republic also saw crucial developments concerning slavery and the fate of Native Americans. This course will examine topics such as the creation of the U.S. Constitution, the birth of American partisanship, the War of 1812, the Market Revolution, the expansion of slavery, Indian Removal, Jacksonian Democracy, and the Mexican-American War.

Credits 3

HIS 310: Colonial America

A study of the colonial era of American history from the Columbian Encounter of 1492 through the French and Indian War. Students will explore the diverse peoples, cultures, and colonies across the Americas with a special focus on cultural exchange and conflict between European, Indigenous, and African peoples. Other topics include motivations for colonization, imperial wars, the growth of slavery, and the economic, political, and cultural development of European colonies.

Credits 3

HIS 314: The American Revolution

A study of the era of the American Revolution, beginning with the French and Indian War and continuing to the War of 1812. Students will learn about the place of the thirteen colonies in the British Empire, the causes of the American Revolution, the course of the Revolutionary War, and the birth of a new nation under the Articles of Confederation and the U.S. Constitution. The course will consider whether the Revolution was a radical event, and explore the period from a variety of perspectives, including the Founding Fathers, common soldiers, women, African Americans, and American Indians.

Credits 3

HIS 316: 16th Century Europe

A survey of the main developments in European history between 1480–1610. Topics include the rise of the Habsburgs under Charles V; the impact of the Reformation; the Religious Wars; Spanish colonization overseas; the Military Revolution; and the Habsburg bid for European hegemony under Philip II; and the expansion of the Ottoman Empire in the Western Mediterranean and Eastern Europe.

Credits 3

Prerequisites

HIS 110 or HIS 112 or permission of instructor

HIS 317: U.S. and the World I

This course explores the origins of the United States’ relationship with the globe, ca. 1776 until 1919. Throughout the semester we will examine how domestic politics, gender, ideology, and race shaped broader US interactions with the globe. We will also consider how a revolutionary and anti-colonial republic became an imperial power.

Credits 3

Prerequisites

HIS 101

HIS 318: U.S. and the World II

This course investigates the history of the United States' interactions with the globe after World War I, including with Europe, Africa, Asia, and the Middle East. It will introduce students to important events, people, and the historiography of the subject.

Credits 3

Prerequisites

HSI 102 or permission of instructor

HIS 319: 19th Century Europe

This course treats the main event in the History of Europe from 1814 to 1914. It will treat such topics as the Congress of Vienna; the age of Metternich; the liberal revolutions especially the those of 1848; the Crimean War; the rise of Louis Napoleon; the Wars of Italian and German Unification; the rise of Socialism and Anarchism; New Imperialism; and the political polarization of Europe at the end of the century. Attention will also be given to artistic and literary movements such as Romanticism; Realism; and Naturalism.

Credits 3

Prerequisites

HIS 112 or permission of instructor

HIS 320: Methods of Teaching Social Studies

An introduction to the materials, methods, and latest trends in the teaching of social studies.

Credits 2

HIS 321: 17th Century Europe

A survey of the main developments in European in the 17th century. Topics include the Thirty Years War; the Little Ice Age; the English Civil Wars; the Franco-Spanish conflict; the reign of Louis XIV of France; and the Glorious Revolution.

Credits 3

Prerequisites

HIS 110

HIS 325: History and Film

A showcase of several films based on real historical events. Students will research both the films and the actual events from the standpoint of professional historians, ascertain their historical veracity, and demonstrate how films are the reflection of the society that produced them. Film topics will vary but treat such issues as war, revolution, imperialism, colonialism, and the struggle of classes and social order.

Credits 3

HIS 334: Recent European History

Dominant currents in Europe and their dependencies from the Congress of Vienna to the present.

Credits 3

HIS 340: The French Revolution and Napoleon

An exploration of the causes and consequences of this very decisive period which witnessed the destruction of the Old Regime and the birth of the modern state. Students will consider the ideology of the Enlightenment, social and political reforms, the forces of radicalism and popular violence, and the origin of nationalism, as well as examine the career of Napoleon and its impact on Europe.

Credits 3

Prerequisites

HIS 201 or permission of instructor.

HIS 355: The Reformation

An exploration of the causes and consequences of the Reformation with emphasis on understanding the role of the major reformers such as Luther, Calvin, and Loyola. In addition, students will explore the Reformation's sociopolitical and cultural dimensions. (Same as RPH 358)

Credits 3

Prerequisites

HIS 201 or permission of instructor.

HIS 356: The Spanish Golden Age

Spanish culture and society during the Golden Age of the 16th and 17th centuries. Through the study of historical texts, students will explore some of the major issues of the age (the Inquisition, the Counter-Reformation, the problem of ethnic and religious minorities, and the rise and fall of an empire).

Credits 3

Prerequisites

HIS 201 or permission of instructor.

HIS 357: Early Modern France

The history of France from the “new monarchs” of the 15th century to the end of the Ancient Regime in 1789.

Course content will focus on students gaining an understanding of such traditional themes as the consolidation of the French kingdom, the Renaissance monarchy, the wars of religion, the development of absolutism, Louis XIV, the Enlightenment, and the forces that would eventually unleash the French Revolution. Great stress will be placed on understanding the larger economic and social forces that helped shape French history. In addition, students will explore some of the recent work in the areas of gender and cultural history.

Credits 3

Prerequisites

HIS 201, or permission of instructor.

HIS 361: The Civil War

An examination of the Civil War as a military conflict with great emphasis on understanding the strategy, operations, and tactics employed by both sides. In addition, students will study the war in the context of international diplomacy and domestic politics as well as its impact on the nation.

Credits 3

Prerequisites

HIS 101 or permission of instructor.

HIS 366: Arkansas in the United States

Arkansas from exploration to the present.

Credits 3

HIS 367: Life in 20th Century America

The history of the United States from the 1900s to the 1990s. Social history, domestic politics, influence of the media and popular culture will serve as themes while considering such topics as the Progressive Era, The Roaring Twenties, the home front during World War II, the Great Depression, Cold War culture, counterculture during the 1960s, and others.

Credits 3

Prerequisites

HIS 102 or permission of instructor.

HIS 382: Special Topics in History

Study of selected topics in history. Prerequisites will vary.

Credits 3

HIS 411, 412: Readings in History I & II

Reading and review of three to six monographs each semester. Tutorial.

Credits 1

-3

HIS 460: Practicum in History

Credits 1

-3

HIS 475: Seminar in History

These reading- and writing-intensive seminars provide opportunities for concentrated work on a particular theme, national experience, or methodology to develop subject expertise and research acuity. Students will critically assess previous historians' work and refine their expository skills in writing and speech. Topics vary by instructor.

Credits 3

Prerequisites

HIS 280

Or by permission of the instructor.

HIS 480: Senior Seminar

Preparation of a major research paper with some study of methodology in history.

Credits 3

Prerequisites

Senior standing, HIS 101, HIS 102, HIS 201, HIS 202, and HIS 280

HUM 282: Special Topics in Medical Humanities

Study of selected topics in the Medical Humanities. Course content and structure will vary according to the interests of the instructor.

Credits 3

Prerequisites

Prerequisites will vary.

Honors Fellows Program

Honors Fellows Program

Professor: Wesley Beal

Admission to the Program

First-time, full-time students are invited to interview for the Honors Fellows Program after either:

1. scoring 27 or better on the ACT or 1250 or better on the SAT, or
2. scoring an unweighted 3.7 GPA or better

In both cases, a student must also meet proficiencies in ENG 001 and MTH 001 prior to matriculation

Lyon students who enter the College without meeting the requirements of the Honors program may apply to become Honors Fellows if they complete the first year with a GPA of 3.5 or better and submit an application to the Honors director. Likewise, transfer students may be admitted when they demonstrate a 3.5 GPA in courses given transfer credit and submit an application to the Honors director. In these cases, students will likely have to make up for missed Honors sections of common-core courses by adding to their total Honors Points requirement (see below).

Honors Fellow Curricular Requirements

- Honors sections of COR 120H* **Conversations: the American Experience** and COR 140H* **Conversations: Imagining Lives Through World Literature** taken in the first year
- Fulfillment of two Honors contracts (for 3- or 4- credit courses)
- Completion of 10 Honors points (or more for late-entering Honors Fellows; see below)
- HON 400 Honors Capstone (3 credits)

* These courses also satisfy Core requirements

Honors Points

Students who become Honors Fellows after the common-core sequence has begun must add 1 point to their total Honors Points requirement for each 3-credit common-core course not taken in an Honors cohort. Likewise, students who apply AP credits or transfer credits toward the common-core sequence must add 1 point to their total Honors Points requirement for each 3-credit common-core course not taken in an Honors cohort. Honors Fellows must complete 10 Honors points; they are encouraged to formulate a timetable to completion with the Honors director. Honors Fellows may repeat a points category no more than four times.

The allocation of points is:

4 points: Double-majoring

4 points: Study abroad

3 points: Additional year (six-credit sequence) of the foreign language beyond core and major requirements

3 points: Nichols trip

2 points: Honors Fellows domestic travel

2 points: Presentation of new work at undergraduate or professional conference or at juried exhibition or production off campus

3 points: Publication in a peer-reviewed journal or juried, off-campus exhibition

2 points: Additional honors contract beyond the two required for the program

1 point: Attendance of professional conference off-campus

1 point: Completion of the Introduction to Postgraduate Fellowships course

1 point: Executive officer of SGA-recognized organization

1 point: Internship off-campus

1 point: Academic year of service as Resident Assistant or Resident Director

1 point: Semester as Supplemental Instructor

1 point: Semester of College-affiliated or –sponsored vocal or instrumental ensemble, or billed participation in theater production

1 point: Semester of research/arts assistantship

1 point: Lead an Honors Fellows Salon

1 point: Year of varsity athletics

GPA Maintenance, Probation, and Suspension

Honors Fellows must maintain a cumulative GPA of 3.25 or better to graduate as an Honors Fellow. An Honors Fellow whose GPA falls below 3.25 will devise and implement a formal plan to improve her GPA in consultation with the HFP director.

Summary of Requirements for the Honors Fellows Program

Item #	Title	Credits
	Honors Sections	6
	Honors Points (10 points)	
HON 400	Honors Capstone (OC)	3
	Total Credits	9

Honors Sections

COR 120H and COR 140H

Item #	Title	Credits
COR 120	Conversations: the American Experience	3
COR 140	Conversations: Imagining Lives Through World Literature	3

Honors Points (10 points)

Completion of 10 Honors points (or more for late-entering Honors Fellows; see the Honors Fellows Program section above for more details).

Honors Fellows Program Course Descriptions

HON 210: Experiencing the City

Open to Fellows in their second year, this course offers study and in situ experience of an American city. Students will study major themes pertaining to the city's history and present, such as immigration and labor. They will visit the city in a cohort, balancing group activities devised by the course instructor and personal itineraries of their own devising.

Credits 1

Prerequisites

Second-year standing, good standing in the HFP, course fee, and other requirements according to travel authorities and destination

HON 300: Introduction to Postgraduate Fellowships

Open to all students of junior standing, this course introduces students to the processes of applying for major postgraduate fellowships and grants. Students will review opportunities for postgraduate study such as Fulbright grants and the Truman Scholarship. Students will study and gain practice in the core components of applications for these awards: the construction of a resume or curriculum vitae, a statement of purpose, and interviewing.

Credits 1

Prerequisites

Permission of instructor

HON 400: Honors Capstone (OC)

A capstone experience in which Honors Fellows complete either a creative project or a research project in consultation with interdisciplinary project advisory committees that will be cultivated by the Fellow. Fellows will meet weekly in seminar form to develop their projects.

Credits 3

Prerequisites

Senior standing in the Honors program.

Interdisciplinary Course Offerings

Interdisciplinary Course Offerings Course Descriptions

NIS 300, 301: Semester Abroad / Variable Credit

Study abroad under an approved exchange program. Prerequisite: Cumulative GPA of 3.0 or better, junior standing, and approval of the director of the Nichols program.

RLS 201: Residence Life Seminar

Introduction to human relations and policy issues for prospective student residence life staff.

Credits 1

Prerequisites

Selection as Residence Life Staff.

International Studies

International Studies Minor

Associate Professor: Jaeyun Sung

At a time when intellectual and professional endeavors of all kinds have an increasingly international dimension, the minor in international studies is a secondary field of specialization that provides an understanding of the global aspects of contemporary problems. The minor will complement and expand the scope of a student's major in any discipline. As an interdisciplinary minor, international studies draws upon the disciplines of political science, economics, history, foreign languages, and anthropology.

A minor in international studies requires students to participate in an appropriate study abroad program in order to develop an understanding of how nations interrelate culturally, politically, and economically.

Summary of Requirements for a Minor in International Studies

Item #	Title	Credits
	ISM: Language	12
	ISM: Foreign Study	
POL 201	Comparative Politics	3
POL 205	World Politics	3
	ISM: Electives	12
	Total Credits	30

ISM: Language

Four semesters of a modern foreign language (through 202) or demonstrated proficiency at that level.

ISM: Foreign Study

A study-travel course or other approved foreign-study experience.

ISM: Electives

Select four of the following elective courses, with no more than two in any one discipline. No more than one may be applied to the student's major.

Item #	Title	Credits
ANT 101	Introduction to Cultural Anthropology (OC)	3
BUS 430	International Business	3
ECO 410	International Economics	3
FRN 350	Twentieth-century French Studies	3
HIS 303	History of Ireland	3
POL 297	International Conflict	3
POL 315	U.S. Foreign and Security Policy	3
POL 346	International Law and Organizations	3
POL 358	Modern Russia	3
RPH 140	Introduction to World Philosophies	3
RPH 150	World Religions	3
SPN 300	Spanish Field Experience	2
SPN 360	Hispanic Culture and Civilization	3

Journalism

Journalism Concentration

The journalism concentration at develops the thinking, writing, and editing skills needed for professional writing careers in business and journalism. The concentration prepares students to join corporate editing and writing staffs as well as the editing and reporting staffs of newspapers and magazines.

Students following the journalism concentration choose majors appropriate to their intellectual and professional interests. Some might select an English major, for example, to focus on critical verbal skills, while others might select political science to develop understanding of political events important to news and editorial writing. Still, others might select Spanish, art, or economics. Students in the journalism concentration are free to select whatever major suits their individual interests and needs.

Lyon graduates with courses from the journalism concentration have been particularly successful after joining the reporting staffs of daily newspapers and the writing and editing staffs of professional organizations. Many of them have also moved easily into marketing positions. Their success has stemmed from their ability to think critically, write clearly, solve problems, and lead.

Recommended electives:

Print journalists have recommended that students develop fields of reporting expertise—in the arts and literature, for example, or politics, science, or business. In addition, Spanish is a useful tool for both reporters and business writers. Students should talk with their concentration advisor about appropriate options.

Summary of Requirements for a Journalism Concentration

Item #	Title	Credits
JRN 102	Fundamentals of Photography	3
JRN 203	News Writing	3
JRN 303	News Editing	3
ART 220	Digital Studio I	3
ENG 363	Advanced Composition	3
JRN 372	Practicum in Writing	1-3
JRN 373	Practicum in Editing	1-3
JRN 401	Internship	3
Total Credits		20-24

Journalism Course Descriptions

JRN 102: Fundamentals of Photography

An exploration of basic camera and digital darkroom techniques. Students will cultivate the aesthetic and conceptual skills of photographic image making. Success in this course will be measured in the understanding of basic camera functions, basic digital imaging skills (scanning, retouching, printing), conceptual development, and a final portfolio. (Same as ART 102)

Credits 3

JRN 203: News Writing

An introduction to basic news and news feature writing with practical experience. Style and form of media news writing included.

Credits 3

JRN 303: News Editing

Principles of editing for the print media with emphasis on AP style, design, layout, newsroom organization and management, and the use of computers.

Credits 3

JRN 372: Practicum in Writing

Practical experience in writing for publication under professional supervision. Placement on student newspaper, yearbook, or in the Lyon marketing and communications office. Prerequisite: JRN 203 or permission of instructor.

Credits 1

-3

Prerequisites

JRN 203

JRN 373: Practicum in Editing

Practical experience in editing material for publication under professional supervision. Placement on student newspaper, yearbook, or in the Lyon marketing and communications office. Prerequisite: JRN 303 or permission of instructor.

Credits 1

-3

Prerequisites

JRN 303

JRN 382: Special Topics in Journalism

Study of selected topics in journalism. Prerequisites will vary.

Credits 3

JRN 401: Internship

Professional experience in publications through work at a business or news organization. With the assistance of college faculty and staff, students will find a part-time job during the academic year or a full-time job during the summer. Prerequisite: JRN 372 or 373.

Credits 3

Prerequisites

JRN 372

JRN 373

JRN 450: Independent Study / Variable Credit

Concentrated study in selected topic.

Credits 1

-3

Mathematics

Professor: Tharanga Wijetunge

Associate Professors: Jeremy Chapman

Assistant Professor: Wesley Perkins, '15

Director of Developmental Mathematics: Meredith Wright, '04

Mathematics is the language of nature, the Rosetta stone by which we come to understand the inner structure and form of our universe. It is also the language of computers and the key to the burgeoning Information Age. As a tool for understanding the world, it is perhaps the oldest and most enduring— and still, today, one of the most dynamic and exciting. Students in the mathematics major develop an understanding of mathematics as a vital tool of the mind.

The mathematics major is both rigorous and flexible. It provides students a foundation upon which to pursue graduate studies in mathematics or professional training in areas such as law or engineering while permitting them the flexibility to pursue minors in other liberal arts disciplines and to prepare themselves to teach in secondary school. Graduates receive a Bachelor of Arts degree in mathematics.

Students who wish to teach secondary school mathematics must satisfy admission requirements for the Liberal Arts Teacher Education Concentration (LATEC) and complete the general education core and education theory curriculum in the secondary education certification program. Additionally, prospective mathematics teachers must take MTH 400, which may be used as a general elective but not as a mathematics elective. We recommend that prospective mathematics teachers take MTH 360 and 380 as mathematics electives.

NOTES

MTH 210 may be used to satisfy core requirements.

MTH 400 may NOT be used to satisfy the Mathematics Elective requirement.

PHY 240, 241, 250, and 251 are recommended general electives.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Math Major: Actuarial Science Track [BA]

Professor: Tharanga Wijetunge

Associate Professors: Jeremy Chapman

Assistant Professor: Wesley Perkins, '15

Director of Developmental Mathematics: Meredith Wright, '04

Actuaries use mathematics, statistics, and financial theory to assess the risk of potential events, and they help businesses and clients develop policies that minimize the cost of that risk.

Individuals with this degree can find stable employment in private corporations, investment firms, banks, consulting agencies, insurance carriers, and government offices. Typically employed as an Actuary, folks with a bachelor's in Actuarial Science can also pursue careers as Data Analysts or other related occupations.

According to the Bureau of Labor Statistics (BLS), the median salary for an Actuary in 2020 was \$111,030, and the number of jobs in Actuarial Science is expected to grow 18% from 2019 to 2029 – driven by the changing needs of the insurance industry.

*** Students may use ECO 101 and MTH 210 to satisfy core requirements.**

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Summary of Requirements for a Major in Math: Actuarial Science Track

Item #	Title	Credits
MTH 210	Calculus I	4
MTH 220	Calculus II (OC)	4
MTH 230	Calculus III	4
MTH 290	Foundations of Modern Mathematics	3
MTH 300	Differential Equations	3
MTH 330	Linear Algebra (PS)	3
MTH 420	Abstract Algebra I	3
MTH 440	Advanced Calculus I	3
	CSC Elective Group: Actuarial Science Track	3
MTH 225	Mathematical Theory of Interest	3
	Math Elective Group: Actuarial Science Track	3
MTH 425	Actuarial Science and Risk Management with R	3
DSC 105	Introduction to Data Science (OC/PS)	3
DSC 205	Introduction to Advanced Data Science	4
ECO 101	Principles of Economics I	3
ECO 102	Principles of Economics II	3
ACC 210	Financial Accounting	3

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	101-103

CSC Elective Group: Actuarial Science Track

Choose one of the following:

Item #	Title	Credits
CSC 100	Introduction to Programming in C++ (PS)	3
CSC 109	Introduction to Programming in Python	3
CSC 115	Introduction to Programming in Java	3

Math Elective Group: Actuarial Science Track

Choose one of the following:

Item #	Title	Credits
MTH 325	Probability for Actuaries	3
MTH 360	Probability and Statistics	3

Mathematics Major (BA)

Summary of Requirements for a Major in Mathematics

Item #	Title	Credits
MTH 210	Calculus I	4
MTH 220	Calculus II (OC)	4
MTH 230	Calculus III	4
MTH 290	Foundations of Modern Mathematics	3
MTH 300	Differential Equations	3

	Mathematics Major Electives (9 credits)	9
	CSC 100, CSC 109, or CSC 115	3

CORE CURRICULUM

Total Credits	83-87
---------------	-------

Mathematics Major Electives (9 credits)

Select three mathematics courses at the 300/400 level. MTH 400 may not be used for this requirement.

CSC 100, CSC 109, or CSC 115

One of the following:

Item #	Title	Credits
CSC 100	Introduction to Programming in C++ (PS)	3
CSC 109	Introduction to Programming in Python	3
CSC 115	Introduction to Programming in Java	3

Mathematics Minor

The mathematics minor is a course of study designed as a second field for students who wish to develop their understanding of mathematics as a tool of the mind.

NOTES

Students may use MTH 210 to satisfy core requirements.

MTH 400 may NOT be used to satisfy the Mathematics Elective

In the list of elective options, CSC 310 has MTH 115 or MTH 290 as a prerequisite.

Summary of Requirements for a Minor in Mathematics

Item #	Title	Credits
MTH 210	Calculus I	4
MTH 220	Calculus II (OC)	4
	Mathematics Electives (9-10 credits)	9-10
	CSC 100, CSC 109, or CSC 115	3
	Total Credits	20-21

Mathematics Electives (9-10 credits)

Three of the following:

Item #	Title	Credits
MTH 230	Calculus III	4
MTH 290	Foundations of Modern Mathematics	3
MTH 300	Differential Equations	3
MTH 330	Linear Algebra (PS)	3
MTH 360	Probability and Statistics	3
MTH 380	Modern Geometry	3
MTH 415	Numerical Analysis	3
MTH 420	Abstract Algebra I	3
MTH 440	Advanced Calculus I	3
MTH 445	Special Topics	3
CSC 310	Mathematical Foundations of Computer Science	3

CSC 100, CSC 109, or CSC 115

One of the following:

Item #	Title	Credits
CSC 100	Introduction to Programming in C++ (PS)	3
CSC 109	Introduction to Programming in Python	3
CSC 115	Introduction to Programming in Java	3

Mathematics Course Descriptions

MTH 001: Intermediate Algebra

This course prepares students for College Algebra. Coverage will include basic algebraic operations, polynomials, rational expressions, exponents and radicals, linear equations, quadratic equations, radical equations, absolute value equations, solving inequalities, functions, and graphing. This course may NOT be used to satisfy mathematics proficiency at Lyon College and it does NOT count toward the 120 hours necessary to graduate. **It DOES count in a student's course load and DOES count toward a student's GPA. Students who earn less than a 'C' grade in this course must repeat it.**

Credits 3

Prerequisites

Math ACT of 17 or above.

MTH 003: Intermediate Algebra w/Lab

This course prepares students for College Algebra. Coverage will include basic algebraic operations, polynomials, rational expressions, exponents and radicals, linear equations, quadratic equations, radical equations, absolute value equations, solving inequalities, functions, and graphing. This course may NOT be used to satisfy mathematics proficiency at Lyon College and it does NOT count toward the 120 hours necessary to graduate. **It DOES count toward a student's course load and DOES count toward a student's GPA. Students who earn less than a 'C' grade in this course must repeat it.**

Credits 3

Prerequisites

Math ACT of 17 or above.

Corequisites

MTH 003 LAB

MTH 101: College Algebra

A review of algebra and the study of functions, including the polynomial, rational, exponential, and logarithmic functions and their graphs.

Credits 3

Prerequisites

MTH 001 or MTH 003

or Math ACT of 22 or above.

MTH 103: College Algebra with Lab

An extended review of algebra and the study of functions, including polynomial, rational, exponential, and logarithmic functions and their graphs.

Credits 3

Prerequisites

MTH 001 or MTH 003

Or Math ACT of 19 or above.

MTH 105: Math for Liberal Arts (HL)

Exponential growth and decay, simple interest, compound interest, inflation, loans, combinations, permutations, probability, odds, expectation, frequency distributions, descriptive statistics, and the normal distribution.

Credits 3

Prerequisites

MTH 001 or MTH 003

Or Math ACT of 19 or above.

MTH 110: Elementary Functions

Exponential, logarithmic, and trigonometric functions and elementary matrix theory including determinants and systems of equations in preparation for calculus.

Credits 3

Prerequisites

MTH 101

Or MTH 103

MTH 115: Discrete Mathematics

Sets and set operations, combinatorics, and elements of graph theory.

Credits 3

Prerequisites

MTH 101

Or MTH 103

MTH 182: Special Topics in Mathematics

An exploration of one or more topics in mathematics not included in the list of courses in the catalog. Course content and structure will vary according to the interests of the instructor. The course name and appropriate prerequisites will be announced well in advance.

Credits 1

-4

Prerequisites

Permission of Instructor

MTH 210: Calculus I

Limits, differentiation, and integration of algebraic, trigonometric, logarithmic, and exponential functions with their applications.

Credits 4

Prerequisites

MTH 110 or permission of instructor.

MTH 220: Calculus II (OC)

Applications and techniques of integration, sequences, infinite series, and transcendental functions.

Credits 4

Prerequisites

MTH 210 or permission of instructor.

MTH 225: Mathematical Theory of Interest

Actuaries focus on using math and statistics to evaluate risk and make strategic decisions. This course covers a range of topics relevant to actuaries, including measurement of interest rates, interest theory, and the pricing of bonds, mortgages, annuities, and other financial instruments. This course will also fully cover all content required by the Society of Actuaries Financial Mathematics (FM) Exam and its equivalents. This online class has optional live sessions.

Credits 3

Prerequisites

MTH 210

MTH 230: Calculus III

Vectors and polar coordinates, functions of several variables, partial differentiation, multiple integration, and line integrals, as well as Green's Theorem, Stokes' Theorem, and Gauss' Theorem.

Credits 4

Prerequisites

MTH 220 or permission of instructor.

MTH 290: Foundations of Modern Mathematics

An introduction to the method of formal proof. Topics include logic, set theory, relations, functions and cardinality.

Credits 3

Prerequisites

MTH 210 or permission of instructor.

MTH 300: Differential Equations

Ordinary differential equations and Laplace transforms.

Credits 3

Prerequisites

MTH 220

MTH 330 is recommended.

MTH 325: Probability for Actuaries

Actuaries and quantitative professionals deal primarily in probabilities. This course will cover a wide range of topics and introduce you to core probability concepts needed for actuarial and quantitative work. You will be able to apply to concepts of probability to real-world scenarios. This course will also fully cover all content required by the Society of Actuaries P Exam and its equivalents. This online class has optional live sessions.

Credits 3

Prerequisites

MTH 210

MTH 220

MTH 230

MTH 330: Linear Algebra (PS)

Algebra of finite dimensional linear spaces, linear transformations and matrices, eigenvalues, and eigenvectors.

Credits 3

Prerequisites

MTH 220

MTH 360: Probability and Statistics

Elementary probability, distribution functions, sampling, and testing statistical hypothesis.

Credits 3

Prerequisites

MTH 220

MTH 380: Modern Geometry

Euclidean and non-Euclidean geometries.

Credits 3

Prerequisites

MTH 290

MTH 400: Secondary Methods in Mathematics

Preparation of mathematics students for their roles as secondary mathematics teachers.

Credits 3

MTH 415: Numerical Analysis

Error analysis, interpolation, approximate differentiation, approximate integration, solutions to differential equations, matrix manipulation, and solutions to systems of linear equations. (Same as CSC 415)

Credits 3

Prerequisites

MTH 210 and one of the following: CSC 100, CSC 115, or CSC 109

MTH 420: Abstract Algebra I

An introduction to the algebraic structure of the integers and groups, including equivalence relations, subgroups, normal subgroups, homomorphisms, Lagrange's theorem, and Sylow's theorem.

Credits 3

Prerequisites

MTH 290 and 330 or permission of instructor.

MTH 421: Abstract Algebra II

A continuation of MTH 420, including rings, fields, Galois theory, and solvability by radicals.

Credits 3

Prerequisites

MTH 420

MTH 425: Actuarial Science and Risk Management with R

This course focuses on team-based problem solving in actuarial science & risk management. Students will learn the fundamentals of the R programming language, RStudio and R Markdown, and use these tools to complete a range of projects. Projects vary, but may include bond and loan amortization, analysis of the efficient frontier and the capital asset pricing method, insurance liability & estimates of expected loss. This course culminates in a capstone project that ties together skills from throughout the Actuarial Sciences program.

Credits 3

Prerequisites

MTH 210, MTH 225, and either CSC 100, CSC 109, or CSC 115

MTH 440: Advanced Calculus I

The real numbers; series; continuous, uniformly continuous, differentiable, and integrable functions; sequences; compact sets; the Heine-Borel theorem; the Bolzano-Weierstrass theorem; limits; and the fundamental theorem of calculus.

Credits 3

Prerequisites

MTH 220 and 290

MTH 441: Advanced Calculus II

A continuation of MTH 440 to multivariate calculus, including sequences and series of functions, uniform convergence and power series, partial derivatives, the Inverse and Implicit Function Theorems, and multiple integrals.

Credits 3

Prerequisites

MTH 440

MTH 445: Special Topics

An exploration of one or more advanced undergraduate topics in mathematics not included in the list of courses in the catalog. The course name and appropriate prerequisites will be announced well in advance.

Credits 3

MTH 447: Mathematics Seminar

Taken in the senior year, resulting in a paper to be presented to the faculty.

Credits 1

-4

MTH 450: Independent Study

Individual work on special topics in mathematics.

Credits 1

-4

Medical Humanities

Medical Humanities Minor

Anchored in transformative texts, the Medical Humanities minor prepares students for a range of health-science careers. This minor may be added to any major but usually is coupled with those associated with nursing, pre-dental, pre-medical, and pre-veterinarian studies. The Medical Humanities minor deepens students' capacities for critical thinking, empathy, and tolerance for ambiguity—each of which is increasingly valued in health science fields.

Summary of Requirements for a Minor in Medical Humanities

Item #	Title	Credits
	Medical Humanities Minor Electives (6 Credits)	6
BIO 205	Biomedical Terminology	1
HUM 375	Bridging Health and Humanities Seminar (OC)	3

Recommended Courses (3 Credits):

Item #	Title	Credits
ENG 140	Writing in the Sciences	1
BIO 310	Health Coaching	1
BIO 311	Health Coaching Practicum	1
	Total Credits	10–13

Medical Humanities Minor Electives (6 Credits)

Choose Two Electives

Item #	Title	Credits
ANT 305	Indigenous Knowledge in the Americas	3
ANT 300	Global Health: Introduction to Medical Anthropology	3
ENG 212	Topics in Literature	3
HIS 382	Special Topics in History	3
HUM 282	Special Topics in Medical Humanities	3
RPH 205	Introduction to Ethics	3

Medical Humanities Course Descriptions

HUM 375: Bridging Health and Humanities Seminar (OC)

This capstone experience is designed to make students of the Medical Humanities bring together what they learned in the minor while developing a public-facing project related to a particular subject of interest in the health sciences. Students will integrate the interdisciplinary character of their liberal arts education and their comprehension of the medical humanities field in the development and their capstone projects. At least one-third of assigned readings come from a common set of "transformative texts."

Credits 3

Prerequisites

Completion of Medical Humanities electives and requirements.

Military Science

Military Science

The Army Reserve Officer Training Corps (ROTC) is a series of elective college courses, taken in conjunction with a full load of academic courses. Participation in ROTC instruction in leadership and management helps students develop discipline, physical stamina, and confidence. The ROTC program augments the Lyon College's strategic goals by emphasizing academic excellence and the development of personal integrity, honor, and responsibility.

Military Science Concentration

Military Science Instructor: Jerry Bowling

The Military Science and Leadership (MSL) concentration is offered in conjunction with the affiliate Reserve Officers Training Corp (ROTC) program at Lyon College and offers a pathway to commissioning as an officer in the U.S. Army (active duty), the U.S. Army Reserve (USAR) or the Army National Guard. The eight MSL courses required for contracted cadets will generate a total of 18 credit hours toward their undergraduate degree, and provide military career preparation in the areas of leadership, soldiering, and the roles and uses of the armed forces.

Summary of Requirements for a Concentration in Military Science

Item #	Title	Credits
MSL 101	Introductory to the Army	1
MSL 102	Foundations of Agile and Adaptive Leadership	1
MSL 201	Leadership and Decision Making	2
MSL 202	Army Doctrine and Team Development	2
MSL 301	Training Management and the Warfighting Functions	3
MSL 302	Applied Leadership In Small Unit Operations	3
MSL 401	The Army Officer	3
MSL 402	Company Grade Leadership	3
Total Credits		3

Military Science Course Descriptions

MSL 101: Introductory to the Army

Focuses on introduction to the Army and critical thinking. It introduces Cadets to the Army and the Profession of Arms. Students will examine the Army Profession and what it means to be a professional in the U.S. Army. The overall focus is on developing basic knowledge and comprehension of the Army Leadership Requirements Model while gaining a complete understanding of the Reserve Officers' Training Corps (ROTC) program, its purpose in the Army, and its advantages for the student. Cadets also learn how resiliency and fitness supports their development as an Army leader. Includes a weekly lab facilitated by MSL III Cadets and supervised by Cadre.

Credits 1

Corequisites

MSL 150

MSL 102: Foundations of Agile and Adaptive Leadership

Introduces Cadets to the personal challenges and competencies that are critical for effective leadership. Cadets learn how the personal development of life skills such as critical thinking, time management, goal setting, and communication. Cadets learn the basics of the communications process and the importance for leader's to develop the essential skills to effectively communicate in the Army. Cadets will begin learning the basics of squad level tactics that will be reinforced during a weekly lab facilitated by MSL III Cadets and supervised by Cadre.

Credits 1

Corequisites

MSL 150

MSL 150: Military Science Lab

This course will allow students to practice and hone the skills learned in the classroom. The primary focus will be on the proper execution of battle drills while allowing ample opportunities to exercise and develop leadership skills. At the conclusion of this course, the student will be able to plan, coordinate, navigate, motivate, and lead a platoon in future operational environments. Since Lab 150 is repeatable it would count for activity credits toward graduation requirements as determined by the course catalog. This class must be taken in conjunction with any other course from the MSL series of classes. Repeatable for credit.

Credits 1

MSL 201: Leadership and Decision Making

Focuses on leadership and decision making. The course adds depth to the Cadets understanding of the Adaptability Army Learning Area. The outcomes are demonstrated through Critical and Creative Thinking and the ability to apply Troop Leading Procedures (TLP) to apply Innovative Solutions to Problems. The Army Profession is also stressed through leadership forums and a leadership self- assessment. Students are then required to apply their knowledge outside the classroom in a hands-on performance-oriented environment during a weekly lab facilitated by MSL III Cadets and supervised by Cadre.

Credits 2

Corequisites

MSL 150

MSL 202: Army Doctrine and Team Development

This course begins the journey to understand and demonstrate competencies as they relate to Army doctrine. Army Values, Teamwork, and Warrior Ethos and their relationship to the Law of Land Warfare and philosophy of military service are also stressed. The ability to lead and follow is also covered through Team Building exercises at squad level. Students are then required to apply their knowledge outside the classroom in a hands-on performance-oriented environment during a weekly lab facilitated by MSL III Cadets and supervised by cadre.

Credits 2

Corequisites

MSL 150

MSL 301: Training Management and the Warfighting Functions

This is an academically challenging course where students will study, practice, and apply the fundamentals of Training Management and how the Army operates through the Warfighting functions. At the conclusion of this course, students will be capable of planning, preparing, and executing training for a squad conducting small unit tactics. Includes a lab per week using peer facilitation overseen by MSL IVs, supervised by ROTC Cadre.

Credits 3

Prerequisites

MSL 101, MSL 102, MSL 201, and MSL 202 or acceptable equivalent.

Corequisites

MSL 150

MSL 302: Applied Leadership In Small Unit Operations

This is an academically challenging course where students will study, practice, and apply the fundamentals of direct level leadership and small unit tactics at the platoon level. At the conclusion of this course, students will be capable of planning, coordinating, navigating, motivating and leading a platoon in the execution of a mission. Includes a lab per week using peer facilitation overseen by MSL IVs, supervised by ROTC Cadre. Successful completion of this course will help prepare students for the Cadet Summer Training Advance Camp, which you will attend in the summer at Fort Knox, KY.

Credits 3

Prerequisites

MSL 101, MSL 102, MSL 201, MSL 202, and MSL 301 or acceptable equivalent.

Corequisites

MSL 150

MSL 401: The Army Officer

Focuses on development of the Army Officer. It is an academically challenging course where students will develop knowledge, skills, and abilities to plan, resource, and assess training at the small unit level. Students will also learn about Army programs that support counseling subordinates and evaluating performance, values and ethics, career planning, and legal responsibilities. At the conclusion of this course students will be familiar with how to plan, prepare, execute, and continuously assess the conduct of training at the company or field grade officer level. Includes a lab per week overseeing MSL III lesson facilitation and supervised by ROTC Cadre.

Credits 3

Prerequisites

MSL 101, MSL 102, MSL 201, MSL 202, MSL 301, and MSL 302 or acceptable equivalent.

Corequisites

MSL 150

MSL 402: Company Grade Leadership

Students will develop knowledge, skills, and abilities required of junior officers pertaining to the Army in Unified Land Operations and Company Grade Officer roles and responsibilities. This course includes readings, small group assignments, briefings, case studies, practical exercises, and an Oral Practicum as the final exam. The Oral Practicum explores students' knowledge of how they will be prepared for the 20 Army Warfighting Challenges (AWFC) covered throughout the ROTC Advanced Course. Successful completion of this course will assist in preparing you for your BOLC B course and is a mandatory requirement for commissioning. Includes a lab per week overseeing MSL III lesson facilitation and supervised by ROTC Cadre.

Credits 3

Prerequisites

MSL 150

MSL 101, MSL 102, MSL 201, MSL 202, MSL 301, MSL 302, and MSL 401

MSL 480: Special Problems in Military Science

This is an academically challenging course where the student will study, practice, develop, and apply critical thinking skills pertaining to Army leadership, officer skills, Army Values and ethics, personal development, and small unit tactics at the platoon level. This course includes reading assignments, self-directed research assignments, briefings, case studies, practical exercises, and a Capstone Exercise in place of the final exam. The student will receive systematic and specific feedback on their leader attributes, values, and core leader competencies from their cadre, PMS, and other instructors who will evaluate you using the Cadet Officer Evaluation Report (COER). At the conclusion of this course, the student will be able to plan, coordinate, navigate, motivate and lead a platoon in future operational environments. Successful completion of this course will assist in preparing you for your BOLC B course.

Credits 3

Prerequisites

MSL 401

MSL 402

Music

Assistant Professor: Bethany Neese

Adjunct Instructors: John Christian and Barbara Reeve

Accompanist/Stage Director: Kristian Ameigh

At Lyon we speak the language of music, endorsing its traditional role in the liberal arts. The music major is thus rooted in the history and theory of music as well as in performance. It is well suited to students who wish to pursue graduate study in performance, music education, music theory, or musicology; potential church musicians; and students who wish to study music in tandem with other disciplines.

In addition to studying music in the classroom, music majors develop skills as performers (in voice, piano, organ, or selected instrumental areas) in private lessons with a member of the music faculty. A basic level of skill on the piano is expected of all music majors; therefore, students must pass a piano proficiency examination by their senior year. All music majors must also complete a senior project that will culminate in the form of a public recital, lecture recital, or lecture.

NOTES

* Students may use MUS 110 to satisfy core requirements.

* To satisfy the Individual Lessons requirement, three hours of private lessons, not including those the student may wish to take in order to pass the piano proficiency examination, should be taken on one instrument or in voice. Additional private lessons may be taken but may not be considered as music elective hours.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum (44-48 hours), the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Music/Scottish Arts Minor

Advisor: James Bell

The music/Scottish arts minor is a program of study for students interested in the music of Scotland, particularly bagpiping. Successful completion of minor will enable students to sit for examinations from the various organizations that administer certification in Scotland.

NOTE

* Students may use MUS 110 to satisfy core requirements.

* Students must take 4 semesters of MUS 163 Pipe Band.

Summary of Requirements for a Minor in Music/Scottish Arts

Item #	Title	Credits
MUS 110	Music Theory	3
MUS 111	Musicianship I	1.5
MUS 163	Pipe Band	1
MUS 163	Pipe Band	1
MUS 163	Pipe Band	1
MUS 163	Pipe Band	1
MUS 263	Ceol Mor I (classical Bagpipe I)	3
MUS 363	Ceol Mor II (classical Bagpipe II)	3
MUS 463	Ceol Mor III (classical Bagpipe III)	3
	One Music Elective (200 level or above)	3
	Total Credits	20.5

One Music Elective (200 level or above)

Music Minor

The music minor is a course of study designed as a second field for students wishing to explore interests and develop talents in the area of music.

NOTE

* Students may use MUS 110 to satisfy core requirements.

Summary of Requirements for a Minor in Music

Item #	Title	Credits
MUS 110	Music Theory	3
MUS 111	Musicianship I	1.5
	Music History Elective	6
	Individual Lessons (2 credits)	2
	Ensemble (2 semesters)	2-4
	Music Electives (3 Credits)	3
	Total Credits	17.5-19.5

Music History Elective

Select 2 of the following

Item #	Title	Credits
MUS 291	Topics in Music History	3
MUS 295	World Music	3
MUS 311	Medieval and Renaissance Music	3
MUS 320	Baroque and Classical Music	3
MUS 325	Nineteenth- and Twentieth-century Music	3

Individual Lessons (2 credits)

Two hours of private lessons in one instrument or voice.

Ensemble (2 semesters)

Select 2 semesters of the following:

Item #	Title	Credits
MUS 100	Lyon College Gospel Choir	1
MUS 120	Lyon College Marching Band	2
MUS 125	Lyon College Jazz Band	1
MUS 130	Lyon College Concert Band	1
MUS 140	Lyon College Concert Chorale	1
MUS 163	Pipe Band	1

Music Electives (3 Credits)

Music Course Descriptions

MUS 100: Lyon College Gospel Choir

This ensemble performs a wide range of gospel music, both on- and off-campus. Repeatable for credit.

Credits 1

MUS 105: The Language of Music

An introduction to the Western musical traditions. Students will begin by surveying the fundamental aspects of musical language, including notation and basic theory, and then proceed to an examination of several compositions, ranging from symphonies and operas to the avant-garde and popular works of the 20th century.

Credits 3

MUS 110: Music Theory

A study of diatonic harmonic practice, beginning with triads and ending with seventh chords. Other topics include cadence types, nonharmonic tones, phrase structure, voice leading, and harmonic progression.

Credits 3

MUS 111: Musicianship I

An introduction to sight singing, keyboard harmony, and the development of aural skills.

Credits 1.5

MUS 112: Musicianship II

Continued study of sight singing, keyboard harmony, and the development of aural skills.

Credits 1.5

Prerequisites

MUS 111

MUS 114: Piano Class

Designed for students with little or no piano background. Explores basic methodology of keyboard technique, sight-reading, and repertoire building. Must be taken with little or no piano experience as preparation for piano proficiency. May be substituted by the music major for one semester of MUS 151P.

Credits 1

MUS 115: Voice Class

Basic principles of singing for the student with little or no previous vocal training. Can be used to prepare music majors and non-majors to take private lessons. May be substituted for one semester of MUS 151V.

Credits 1

MUS 120: Lyon College Marching Band

An ensemble that marches and plays at football games. Smaller pep bands will be drawn from the full ensemble to play at other events. May be repeated for credit.

Credits 2

MUS 125: Lyon College Jazz Band

Instrumental training in a variety of jazz styles. Performances will be scheduled for appropriate occasions both on- and off-campus. May be repeated for credit.

Credits 1

MUS 130: Lyon College Concert Band

Training in band literature to all students with abilities on woodwind, brass, or percussion instruments. Performances will be scheduled for appropriate occasions both on- and off-campus. May be repeated for credit.

Credits 1

MUS 140: Lyon College Concert Chorale

Vocal performance in a wide variety of literature, ranging from larger choral-orchestral works to folksongs and spirituals. The Concert Chorale presents several concerts each year, both on- and off-campus. The Concert Chorale is open to any interested student who passes a brief audition. May be repeated for credit.

Credits 1

MUS 150: Beginning Guitar

Instruction for beginning students in the fundamentals of guitar playing. Students must provide their own instrument. This course may be taken only once for credit.

Credits 1

MUS 151I, 152I: First Year Instrument, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 151O, 152O: First Year Organ, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 151P, 152P: First Year Piano, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 151V, 152V: First Year Voice, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 163: Pipe Band

Instruction for beginners and experienced players in playing the Great Highland Bagpipe, including applicable music theory. Experienced players may audition to join the performing pipe band, which holds weekly practice sessions and performs at numerous public events and competitions throughout the region. The band takes one to two major trips each year. Students without practice chanter must purchase their own. May be repeated for credit.

Credits 1

MUS 205: Advanced Music Theory

A study of chromatic harmonic practice, including secondary, borrowed, Neapolitan, and augmented- sixth chords. Other topics will include modulation, counterpoint, and form. A major project will be the composition of a fugue.

Credits 3

Prerequisites

MUS 110

MUS 251I, 252I: Second Year Instrument, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 251O, 252O: Second Year Organ, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 251P, 252P: Second Year Piano, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 251V, 252V: Second Year Voice, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 263: Ceol Mor I (classical Bagpipe I)

An introduction to the fundamentals of piobaireachd (the technique and literature of the classical Highland bagpipe). Students can expect to learn all basic embellishments used in ceol mor, as well as the use of cadenceds and simple phrase structures. The student will learn a minimum of one complete tune.

Credits 3

MUS 291: Topics in Music History

An examination of a major composer, genre, or repertory from a historical perspective.

Credits 3

MUS 292: Topics in Music Theory

An examination of a major composer or a group of works defined by genre or repertory from a theoretical perspective. Topics may also include particular analytical methods or the history of music theory.

Credits 3

MUS 293: Topics in Performance Practice

An examination of a particular aspect of applied music studies, including historical performance practices.

Credits 3

MUS 295: World Music

A survey of the music of the world's peoples in its social context, including the Americas, Africa, Europe, Indonesia, India, and Asia.

Credits 3

MUS 311: Medieval and Renaissance Music

A study of the history and literature of the music of Medieval and Renaissance eras.

Credits 3

MUS 320: Baroque and Classical Music

A study of the history and literature of the music of Baroque and Classical eras.

Credits 3

MUS 325: Nineteenth- and Twentieth-century Music

A study of the history and literature of the music of the nineteenth and twentieth centuries.

Credits 3

MUS 330: Hymnody

A survey of Christian hymnody and its role in worship from the first century of Christianity to the present, incorporating the study of selected texts, tunes, authors, and composers.

Credits 3

MUS 351I, 352I: Third Year Instrument, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 351O, 352O: Third Year Organ, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 351P, 352P: Third Year Piano, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 351V, 352V: Third Year Voice, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 363: Ceol Mor II (classical Bagpipe II)

A continuation of MUS 263 to include a comparison of the various canntaireachd sources. There will be further study of phrase structures and the various advanced embellishments. Students can expect to learn additional tunes.

Credits 3

Prerequisites

MUS 263

MUS 399: Music International Studies Course: Variable Topics

Study of varying topics in music. Includes a 2-week Nichols trip. Prerequisites will vary.

Credits 1

MUS 420: Conducting

Conducting techniques for the music major, including score reading, rehearsal techniques, and performance practices.

Credits 3

MUS 425: Methods and Materials in Teaching Music

Preparation for music majors working toward public school certification in music.

Credits 3

MUS 430: Church Music

A course designed to develop the variety of skills required of the church musician, including service playing and anthem accompaniment, console conducting, the planning and selection of music for worship, and the development of a church music program.

Credits 3

MUS 431: Vocal Pedagogy

This course presents the materials for and the methods of singing. It is designed for prospective teachers of singing.

Credits 3

Prerequisites

MUS 351V

MUS 433: Keyboard Pedagogy

This course presents the materials for and the methods of working with keyboard instruments. It is designed for prospective teachers of keyboard instruments.

Credits 3

Prerequisites

MUS 351O or 351P

MUS 450: Independent Study

Directed individual study in an area accepted for professional growth.

Credits 1

-3

MUS 451I, 452I: Fourth Year Instrument, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 451O, 452O: Fourth Year Organ, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 451P, 452P: Fourth Year Piano, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 451V, 452V: Fourth Year Voice, Individual Lessons

(By permission of instructor only)

Credits 1

-2

MUS 463: Ceol Mor III (classical Bagpipe III)

Involved study including the various accepted styles of the current year's Silver Medal tunes. Students will learn how to interpret music based on accepted fundamentals of ceol mor.

Credits 3

Prerequisites

MUS 363

MUS 499: Senior Recital

A capstone experience for the music major consisting of a project culminating in the form of a public recital, lecture recital, or lecture of a musicological nature.

Credits 1

Prerequisites

MUS 351V, 351O, 351I, or 351P and permission of instructor.

Neuroscience

Biology:

Professors: Cassia C. Oliveira and David Thomas

Associate Professors: Alexander Beeser and Maryline Jones

Assistant Professor: Eric South

Psychology:

Associate Professor: Jennifer Daniels

Assistant Professors: Britt Florkiewicz, Robert Miller, Allison Sonia, and Nikki Yonts

The Neuroscience major provides students with a foundational understanding of the biology and function of the nervous system and brain. The major offers courses spanning topics from the intricate processes that control neural activity to the anatomy and function of brain regions and the intersection of neurobiology and behavior. True to the liberal arts experience, the Neuroscience major draws from several academic disciplines, and students in the major will take many courses in biology and psychology as well as neuroscience as they develop their understanding of how the brain and nervous system produce the mind and behavior. The program also emphasizes research methodology, data analysis, and statistics as it pertains to the study of the nervous system and behavior.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Neuroscience Major (BS)

Summary of Requirements for a Major in Neuroscience

Item #	Title	Credits
BIO 110	Principles of Biology I	4
BIO 250	Cell Biology	4
CHM 110	General Chemistry I (PS)	4
CHM 120	General Chemistry II (PS)	4
PSY 101	Introduction to Psychology (PS)	3
PSY 235	Statistics for the Behavioral Sciences (PS)	3
PSY 250	Research Methods with Human Participants	3
PSY 318	Biological Psychology	3
PSY 335	Abnormal Psychology	3
NEU 301	Neuroscience Foundations	3
NEU 302	Biological Basis of Perception & Movement	3
NEU 303	Cognitive Neuroscience	3
NEU 401	Clinical Neuropathology	3
NEU 490	Senior Evaluation	0
	Neuroscience Elective Courses	10-11

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	99-102

Neuroscience Elective Courses

Select 3 courses, at least one from each group

Group A

Item #	Title	Credits
BIO 252	Genetics	4
BIO 352	Molecular Biology	4
BIO 356	Biochemistry	4
BIO 360	Comparative Physiology (OC/PS)	4
BIO 364	Developmental Biology	4

Group B

Item #	Title	Credits
PSY 312	Sensation & Perception	3
PSY 339	Learning and Cognition	3
PSY 342	Introduction to Cognitive Psychology	3
PSY 353	Introduction to Evolutionary Psychology	3

Neuroscience Course Descriptions

NEU 301: Neuroscience Foundations

This course introduces students to the field of neuroscience, explores the cellular and molecular basis of neural systems, and discusses the neural basis of cognition. Students are expected to leverage their understanding of biology and chemistry to build a working knowledge of neuroscience fundamentals. This online class features optional live sessions.

Credits 3

Prerequisites

BIO 110

CHM 110

CHM 120

NEU 302: Biological Basis of Perception & Movement

Perception and Movement are fundamentally driven by biological processes. This course provides students with an understanding of the various systems and organs that play a role in the human ability to perceive the world and move through it. It builds upon Neuroscience Fundamentals to allow students to understand the impact of core neuroscience concepts.

Credits 3

Prerequisites

NEU 301

NEU 303: Cognitive Neuroscience

Cognitive Neuroscience is the study of the biological process which underlies behavior, learning, thought, and experience. This course builds on students' understanding of neuroscience and psychology to explore information processing, behavior, language, and more. Special attention is paid to the neurological factors which drive behavior and give rise to a range of disorders.

Credits 3

Prerequisites

NEU 302

PSY 101

NEU 401: Clinical Neuropathology

This course captures foundational concepts in modern psychiatric care and neuroscience and makes them clear and accessible. It provides students with a broad knowledge base covering many of the latest developments in the field of neuroscience, including our most modern understanding of developmental disorders, various pathologies of neurological systems, the role of microbiology in neurological care and more. Upon completion, students will be well prepared to pursue graduate study or work in the sciences, armed with a strong understanding of the current state of both Neuroscience and Mental Health and the connections between both.

Credits 3

Prerequisites

NEU 303

PSY 101

NEU 490: Senior Evaluation

This course provides graduating seniors the opportunity to assess their knowledge of neuroscience, and to assess the effectiveness of the program. Instead of regular class meetings, students will complete a set of assessment tools, including a knowledge test and surveys that allows students to provide feedback concerning their individual learning experiences. The course is graded as pass/ fail.

Credits 0

Prerequisites

Senior standing

PSY 250: Research Methods with Human Participants

This course will introduce students to the language of research, ethical principles and challenges, and the elements of doing research with human participants. This class is designed for non-psychology majors and cannot be substituted for PSY 240.

Credits 3

Prerequisites

PSY 235 **or**

BIO 300 **or**

BUS 323

Non-Disciplinary Science

Non-Disciplinary Science Course Descriptions

SCI 100: Physical Science for the Liberal Arts

An introduction to the physical sciences, including physics, chemistry, astronomy, and earth science. Students will examine how that knowledge is discovered and how they can use it to understand the natural world. Course consists of both lecture and laboratory components. Cannot be counted toward Biology, Chemistry, or Physics majors or minors.

Credits 4

SCI 101: Introduction to Model Rocketry

Model rocketry uses the same principles of physics and engineering as full-scale rocketry to propel a vehicle from Earth's surface and recover it safely. Students will design, build and fly at least three basic model rockets during the course. Some meetings outside of the normal class time may be required for launches.

Credits 1

Prerequisites

MTH 101 recommended

SCI 182: Special Topics in Science

Study in a specific area of science not covered by regularly listed courses. Course content and structure will vary according to the interests of the instructor. Lecture, laboratory and/or field work may be included. Prerequisite: permission of the instructor.

Credits 1

-4

Prerequisites

Variable

SCI 201: Intermediate Model Rocketry

Model rocketry uses the same principles of physics and engineering as full-scale rocketry to propel a vehicle from Earth's surface and recover it safely. Building upon skills learned in Introduction to Model Rockets, students will design, build and launch at least three model rockets: payload, two-stage, and mid-power. Some meetings outside of the normal class time may be required for launches.

Credits 1

Prerequisites

SCI 101

SCI 270: Science Practicum

Credits 1

-3

SCI 282: Special Topics in Science

Study in a specific area of science not covered by regularly listed courses. Course content and structure will vary according to the interests of the instructor. Lecture, laboratory, and/or field work may be included. Prerequisite: permission of the instructor.

Credits 1

-4

Prerequisites

Variable

SCI 360: Methods in Teaching Science

A course designed for prospective secondary science teachers that emphasizes hands-on experimentation in teaching science process skills, techniques, and data collection and analysis.

Credits 1

-3

SCI 382: Special Topics in Science

Study in a specific area of science not covered by regularly listed courses. Course content and structure will vary according to the interests of the instructor. Lecture, laboratory and/or field work may be included. Prerequisite: permission of the instructor.

Nursing

Advisor: Becky Le

The program is designed to enhance the nurse's career-long learning by focusing on the expected competencies of a professional nurse. The BSN program curriculum and practice experiences allow opportunities for engagement in academic-practice partnerships that improve expertise and increase the overall quality of care within populations. The program builds on and expands established nursing knowledge, skills, and attitudes by providing research-based nursing science, principles of nursing leadership, and a liberal arts foundation.

Mission:

The mission of the Lyon College BSN undergraduate degree program is to provide associate-level nursing graduates with an educational foundation grounded in the liberal arts and the expert practice of nursing. The nurse earning the BSN is prepared to be a professional health care practitioner who provides compassionate care based on scholarship and evidence, and who serves as the link between the individual, family, community, population, and the complex health care system across the lifespan. The heart of the graduate BSN student is to improve the physical, emotional, and spiritual lives of those in their care while maintaining the highest standards of clinical judgment, values, scholarship, quality, safety, and leadership.

Program Goals:

- Provide a well-rounded curriculum in liberal arts and sciences as a foundation for the advancement of nursing and career-long learning;
- Provide a nursing program designed to meet the present and future needs of complex healthcare systems by preparing RNs at the baccalaureate level for the improvement of measurable health outcomes through evidence-based practice.
- Facilitate students' expansion and mastery of knowledge, skills, and dispositions essential for clinical effectiveness and individual performance.
- Promote faculty and student practice experiences relating to the promotion of health in diverse individuals, families, communities, and populations.

Program Learning Outcomes:

- **Clinical Judgement:** students will use reliable evidence from multiple perspectives to inform safe nursing practice and make reasonable clinical decisions.
- **Holism:** students will synthesize knowledge from nursing and a liberal education in the planning and provision of holistic nursing care across the lifespan and continuum of healthcare environments.
- **Quality and Safety:** students will employ the nursing process, scholarship, patient care technologies, and healthcare informatics to support safe nursing practice.
- **Interprofessional Collaboration:** students will utilize interpersonal and interprofessional communication in collaboration for the promotion of optimal health for individuals, families, communities, and populations.
- **Core Values:** students will apply ethical and legal standards of professional nursing including advocacy, professional accountability, and responsibility in the provision of professional nursing care.
- **Systems Based Leadership:** students will integrate leadership and management skills, and knowledge of health care policy, regulatory processes, and cost effectiveness for the improvement of quality care and patient safety
- **Determinants of Health:** students will incorporate principles of comprehensive health assessment, health education, health promotion, cultural competency, and disease prevention in person centered nursing care of individuals and populations from birth to death.

- **Respectful Care:** students will value caring, respect, dignity, hope, and the human spirit in the provision of professional nursing care.

Lyon College Mission and Goals Concepts	Nursing Mission and Goals Concepts
Service	Holism Practice Experiences
Experiential Learning	Practice Experiences
Leadership	Systems Based Leadership
Critical and Creative Thought	Clinical Judgement
Ethical and Spiritual Growth	Core Values Respectful Care
Communicators	Interprofessional Collaboration
Inquiry and Critical Thinking	Clinical Effectiveness Quality and Safety
Cultural Awareness	Determinants of Health
Community Engagement	Academic-Practice Partnerships
Self-Reflection and Self-Examination	Individual Performance

Provide a nursing program designed to meet the present and future needs of complex healthcare systems by preparing RNs at the baccalaureate level for the improvement of measurable health outcomes through evidence-based practice.	Clinical Judgement Quality and Safety Interprofessional Collaboration Core Values System Based Leadership Determinants of Health
Facilitate students' expansion and mastery of knowledge, skills, and attitudes essential for clinical effectiveness and individual performance.	Clinical Judgement Holism Core Values System Based Leadership Respectful Care
Promote faculty and student practice experiences relating to the promotion of health in diverse individuals, families, communities, and populations.	Clinical Judgement Holism Core Values Determinants of Health

Pre-Nursing Entry Pathway

The Pre-Nursing entry pathway prepares students for admission to an RN licensure program and completion of the BSN degree. Based on the completion of admission criteria, students may begin Lyon College courses before, during, or after entering a nursing licensure program. 40 block credits will transfer from the RN licensure program. The early admissions program will accelerate the number of BSN prepared nurses in our workforce while maximizing the graduate's eligibility for diverse employment options.

AAS Nursing students will be eligible for early admission into Lyon College's RN to BSN program based on the review and/or confirmation of:

- Acceptance into Lyon College at Lyon College's sole discretion

- Official Transcript of AAS Nursing Program in Progress
- Completion of all general education requirements for the associate degree with a cumulative GPA of 2.75, and 9 credits of nursing courses with a cumulative GPA of 2.0 or higher.
- Students will sign a “Release of Information” agreement so that both institutions are able to view and receive relevant student information.

Students will be eligible for continued concurrent enrollment based on:

- Continued Good Standing within the AAS Nursing program: Any failure or loss of "student in good standing" status in the AAS Nursing courses (any earned grades below C) will result in the automatic withdrawal from the AAS-BSN concurrent enrollment curriculum.
- Academic good standing within the RN to BSN program based on the criteria established in Lyon College's Catalog and the School of Nursing's Student Handbook.

Graduation eligibility for the RN-BSN program is based on:

- AAS Conferred Degree. Students must first graduate from the AAS Nursing program.
- Completion of all BSN courses and success on the NCLEX-RN.
- Proof of licensure as a registered nurse must be supplied to the School of Nursing at Lyon College prior to the student being awarded a BSN degree.
- Completion of the degree requirements for the BSN with a cumulative GPA of 2.75

Post-Nursing Entry

The degree completion program at Lyon College is designed for nurses who have already gained the RN qualification and professional licensure. 40 block credits will transfer from the RN licensure program.

Prospective students will be eligible for admission into Lyon College's RN to BSN program based on the review and/or confirmation of:

- Unencumbered valid RN license
- Cumulative GPA of 2.75 and an Associate or Diploma Degree with a major in Nursing
- Students who do not meet the minimum GPA requirement, or have not taken NCLEX, may be admitted on academic probation based on the formal appeal and consideration of the Nursing Faculty Council.

Students will be eligible for continuing in the RN to BSN program based on:

- Continued unencumbered RN license in the state they are completing the practice experience.
- Students must achieve a 2.0 for each individual major nursing course. If a 2.0 is not achieved, the student is required to repeat the course.
- Students whose cumulative GPA falls below 2.75 will be placed on academic probation for the next term.
- Students who are unable to achieve a 2.0 in any two Nursing courses will be suspended from the Nursing program.

Graduation eligibility for the RN-BSN program is based on:

- **Completion of the degree requirements for the BSN with a cumulative GPA of 2.75**

Note: To graduate with a Bachelor of Science in Nursing degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of Nursing Core Requirements (26 credit hours),

General Electives (12 credit hours), RN Courses (40 credit hours), and core curriculum requirements (45 credit hours). They must also earn at least a 2.75 cumulative grade point average for all work taken at Lyon College and a 2.75 cumulative grade point average in their major, minor, and concentration.

Nursing Core Classes should be taken in sequence. Exceptions may be made on a case by case basis.

Quantitative Methods or Calculus may count as credit for Statistics.

The Bachelor of Science in Nursing [BSN]

Nursing Course Descriptions

NUR 310: Quality & Safety Improvement Methods

This course prepares the RN-BSN student to identify and analyze the knowledge, skills, and attitudes needed to enhance the role of the baccalaureate prepared professional nurse. The course examines current issues and ethical dilemmas impacting the nursing profession and evaluates the legality of policies governing nursing practice. The RN-BSN student will understand these practice and academic standards, and the process of quality and safety measurement, as it leads to improved patient outcomes. This course contains a practice experience.

Credits 3

NUR 320: Scholarship in Nursing

This course introduces research methodology, critical appraisal of research literature, identification of clinical problems for study, and application of evidence. This course contains a practice experience.

Credits 3

NUR 330: Comprehensive Assessment & Health Outcomes

This course equips students with the knowledge and skills to complete a comprehensive health assessment. The course assesses human differences, biases, and stereotypes to provide culturally competent nursing care. This course contains a practice experience.

Credits 3

NUR 340: Competency in Leadership Practice

This course focuses on the principles of leadership and management in various healthcare settings. The course integrates the concepts of communication, delegation, conflict resolution, and organizational structure. This course contains a practice experience.

Credits 3

NUR 382: Special Topics in Nursing

This course covers an area of nursing not covered by the regular curriculum. Course content and structure will vary according to the interests of the instructor. Lecture, laboratory, and practical work may be included. Repeatable for credit under different topics. This course contains a practice experience.

Credits 1

-4

Prerequisites

Permission of Instructor

NUR 410: Nursing Informatics Processes and Technologies

This course introduces computers and nursing informatics focusing on applications to the nursing profession and healthcare system. The concepts of electronic health, mobile health, and telehealth are examined to enhance patient-centered care outcomes. This course contains a practice experience.

Credits 3

NUR 420: Pathophysiology

This course promotes a contemporary understanding of conditions affecting the human body. RN-BSN students will gain accurate information on risk factors, treatments, symptom manifestations, and mechanisms of disease across the lifespan. Intertwined through this understanding includes an approach to epidemiology within specified populations.

Credits 3

NUR 430: Person-Centered Care through the Lifespan

This course addresses developmental tasks and responses to changes across the lifespan. The nursing process is focused on holistic wellness, disease prevention, chronic disease care, regenerative, restorative, hospice, and palliative care. This course contains a practice experience.

Credits 4

NUR 470: Independent Study

Independent study in a specific area of nursing under the direction of the faculty. Repeatable for credit under different topics. This course contains a practice experience.

Credits 1

-4

Prerequisites

Permission of Instructor

NUR 482: Advanced Topics in Nursing

This course covers an advanced area of nursing not covered by the regular curriculum. Course content and structure will vary according to the interests of the instructor. Lecture, laboratory, and practical work may be included. Repeatable for credit under different topics. This course contains a practice experience.

Credits 1

-4

Prerequisites

Permission of Instructor

NUR 490: Population Health Nursing Capstone

This course analyzes the nursing role as it relates to health patterns across populations. RN-BSN students will engage in collaborative activities including development of interventions and policies that strive towards health equity and improved health outcomes for all. The course provides an integrated practice experience exploring the concepts of community-based nursing and determinants of health.

Credits 4

NUR 495: Senior Evaluation

This course provides graduating seniors the opportunity to assess their knowledge of nursing, and to assess the effectiveness of the RN to BSN program. The senior assessment also allows students to provide feedback concerning their individual learning experiences. Senior Evaluation must be taken before mid-term student's graduating semester. The course is graded pass/fail; satisfactory completion of the exam, regardless of score, is required for a passing grade. This course contains a practice experience.

Credits 0

Prerequisites

Final Semester

Outdoor Leadership

Outdoor Leadership Concentration

Associate Professor: Kim Crosby

The outdoor leadership concentration was created to take advantage of and advocate the use of the outdoor resources available to the College and to increase the academic, ethical, and social development of students through experiential learning. It is a multidisciplinary program that works closely with LEAP (Lyon Education and Adventure Program).

NOTE

* Current certification in first aid, CPR, and AED are prerequisites for OLP 301.

Summary of Requirements for an Outdoor Leadership Concentration

Item #	Title	Credits
OLP 150	Outdoor Leadership	3
EXS 201	Health and Wellness	3
	OLP 205 OR OLP 210	1-3
LED 201	Principles of Leadership	1
OLP 301	Outdoor Leadership Internship*	1-3
	OLP Ethics Elective	3
	OLP Activity Electives	2
	Total Credits	14-18

OLP 205 OR OLP 210

Item #	Title	Credits
OLP 205	Wilderness First Responder (WFR)	3
OLP 210	Wilderness First Aid (WFA)	1

OLP Ethics Elective

Select 1 of the following:

Item #	Title	Credits
RPH 205	Introduction to Ethics	3
RPH 320	Christian Ethics	3
RPH 350	Business and Professional Ethics	3
RPH 362	Environmental Ethics	3

OLP Activity Electives

Select 2 of the following:

* Students may also select certain pre-approved BIO courses (birding, caving, etc.)

Item #	Title	Credits
OLP 120	Biking	1
OLP 122	Paddling	1
OLP 124	Sailing	1
OLP 126	Backpacking	1
OLP 128	Rock Climbing	1
OLP 130	Scuba	1

Outdoor Leadership Course Descriptions

LED 201: Principles of Leadership

Basic principles of leadership, including leadership theory, the relational leadership model, the context of leadership in groups, and ethics and leadership. Through discussion, lecture, research, readings and activities, students will be challenged to think critically and imaginatively about the foundations of leadership. Students will be responsible for crafting their own model of leadership that reflects the material covered in the course.

Credits 1

LED 202: Leadership Seminar

This course will expand on the theories and models of leadership that were covered in LED 201 through interactive discussions with local, state, regional, and national leaders. Speakers will be from a variety of backgrounds, including (but not limited to) education, politics, law, business, and non-profits. The discussions will take place both on-campus and at off-site locations.

Credits 1

Prerequisites

LED 201

OLP 120: Biking

Basics of biking with emphasis on appropriate gear, basic bike maintenance, trip planning (including risk management and logistics), and developing competence in basic biking skills. Preference will be given to students who have declared a concentration in outdoor leadership.

Credits 1

OLP 122: Paddling

Different modes of paddling, including canoeing, kayaking, and stand-up paddle boarding with emphasis on appropriate gear, trip planning, risk management, and logistics. Students will achieve basic competence in paddling skills. Preference will be given to students who have declared a concentration in outdoor leadership.

Credits 1

OLP 124: Sailing

An introduction to skippering a keelboat of approximately 16 to 27 feet in length by day in light to moderate winds in different lake conditions. Students will learn basic sailing terminology, parts and functions, helm commands, basic sail trim, points of sail, buoyage, seamanship, and safety (including basic navigation rules to avoid collisions and hazards). Preference will be given to students who have declared a concentration in outdoor leadership.

Credits 1

OLP 125: Disc Golf

Disc Golf is a course designed to introduce students to basic disc golf skills and knowledge. The course includes instruction concerning the basic skills of the game as well as technique, strategy and etiquette. Emphasis will be placed on an understanding of the game and its basic rules and regulations.

Credits 1

OLP 126: Backpacking

Basics of backpacking with emphasis on appropriate gear, trip planning and logistics, risk management, and developing competence in basic backpacking and camping skills. Preference will be given to students who have declared a concentration in outdoor leadership.

Credits 1

OLP 128: Rock Climbing

Basics of rock climbing with emphasis on appropriate gear, knots, climb site risk management, trip planning and logistics, and developing competence in basic rock climbing skills. Preference will be given to students who have declared a concentration in outdoor leadership.

Credits 1

OLP 130: Scuba

Upon completion of this course, students will be certified in Self Contained Underwater Breathing Apparatus or SCUBA. Students will learn SCUBA concepts in the classroom, dive techniques in the pool, and check out dives with instructors in open water. Preference will be given to students who have declared a concentration in outdoor leadership.

Credits 1

OLP 150: Outdoor Leadership

Principles and practices of leadership in experiential education with emphasis on being an efficient, safe, and ethical leader. Students will share leadership duties in a three day, two night outdoor experience with their peers putting their gained leadership skills to use in the outdoors.

Credits 3

Prerequisites

Must have gone on at least two LEAP weekend activities and have written approval from instructors of those activities.

OLP 160: Fishing

This is a beginner's level introduction to conventional fishing and fly fishing the beautiful waters of Arkansas. You will learn about fishing equipment, basic knot tying, local aquatic insect life, the hydraulics of a stream, different baits, and how to tie your own flies and how properly cast. For the trip final, we will go on a full day/multi-day fishing trip and put the skills you mastered to use.

Credits 1

OLP 205: Wilderness First Responder (WFR)

Examination of the tools required to make critical decisions in remote locations. Classroom lectures and demonstrations are combined with realistic scenarios where mock patients will challenge the student to integrate learning. After course completion, students will be certified as Wilderness First Responders. This course will be offered in January before the spring semester, as a summer course in May, or as a spring break course. Preference for admission into this class will be given to students who have declared a concentration in outdoor leadership.

Credits 3

OLP 210: Wilderness First Aid (WFA)

Examination of the tools required to make critical decisions in remote locations. Classroom lectures and demonstrations are combined with realistic scenarios where mock patients will challenge the student to integrate learning. After course completion, students will be certified with a Wilderness First Aid certificate. This course will be offered as a weekend course. Preference for admission into this class will be given to students who have declared a concentration in Outdoor Leadership.

Credits 1

OLP 282: Special Topics

This course allows students to take additional course work in outdoor leadership.

Credits 1

-3

OLP 301: Outdoor Leadership Internship*

This course is designed for students to take knowledge gained from leadership courses and apply it in the field. Students will plan and lead multiple LEAP events throughout the semester.

* Students may also take the internship at another school/agency in the summer.

Credits 1

-3

OLP 320: Outdoor Education Travel: Variable Topics

Study of various topics in outdoor education. Includes 1-day to 2 week outdoor education trip. Prerequisites will vary.

*Students may also take the internship at another school/agency in the summer.

Credits 1

-3

Physical Education

Physical Education Course Descriptions

PED 101: Physical Fitness (HL)

An introduction to the concepts of physical fitness and the means of embodying them in a lifelong setting.

Credits 1

PED 102: Basic Swimming (non-swimmers Only)

Basic techniques and skills of swimming and diving.

Credits 1

PED 103: Volleyball

Instruction, rules, strategy, and practice in the fundamentals of volleyball.

Credits 1

PED 104: Beginning Table Tennis

Instruction, rules, strategy, and practice in the fundamentals of table tennis.

Credits 1

PED 108: Archery and Bowling

Fundamental skills, strategy, rules, scoring, and practice in archery and bowling.

Credits 1

PED 109: Beginning Tennis

Instruction, rules, and practice in the fundamentals of tennis.

Credits 1

PED 110: Tennis and Badminton

Fundamental strokes, strategy, rules, scoring, and practice in tennis and badminton.

Credits 1

PED 111: Aerobic Dance

An introduction to movement routines for developing and maintaining cardiorespiratory endurance.

Credits 1

PED 112: Beginning Swimming

Basic techniques and instructions of swimming.

Credits 1

PED 113: Body Shaping

Continuation of the fundamentals of physical fitness, including aerobic conditioning and weight training.

Credits 1

PED 114: Yoga

An introduction to the fundamental theories and practices of hatha yoga with emphasis on yoga asanas (physical postures). Asanas help improve an individual's overall postural alignment and allow the body and all its systems to function more efficiently and become more resilient. The practice of yoga offers lifelong tools to increase self-awareness, strength, flexibility, endurance, and balance within the body all while reducing stress and increasing kinesthetic intelligence.

Credits 1

PED 115: Beginning Scottish Highland Dance

An introduction to traditional Scottish dances such as the sword dance and Highland Fling.

Credits 1

PED 116: Intermediate Swimming

Instruction and practice in all basic swimming strokes and water safety.

Credits 1

PED 117: Varsity Cheerleading

Designed for prospective and active cheerleaders, and prospective cheerleader sponsors. Graded on a pass/fail basis. This course is not repeatable for credit.

Credits 1

PED 119: Basic Golf

Basic instruction in all phases of play, emphasizing rules and etiquette to promote golf as a lifetime sport.

Credits 1

PED 120: Tai Chi Chih

An introduction to both the theory and practice of tai chi chih. Tai chi chih is a non-competitive, non-martial arts form of movement that promotes physical strength and balance, and at the same time enhances focus, concentration, and emotional wellness. It is also an excellent program for relieving stress. It is appropriate for all ages and abilities and can be easily adapted for those with physical disabilities or limitations.

Credits 1

PED 121: Paddling

This course teaches the different modes of paddling including canoeing, kayaking, and stand-up paddle boarding. It will focus on appropriate gear, trip planning, risk management, and logistics. Students will achieve basic competence in paddling skills. Preference will be given to students who have declared a concentration in Outdoor Leadership. (Same as OLP 122)

Credits 1

PED 122: Fundamentals of Dance

Students learn form, position, muscle control, flexibility, and the basic movements to bring them to a level that will enable them to enjoy and develop a love for the art of dance. (Same as THE 122)

Credits 1

PED 124: The Biggest Winner

This course will prepare the student, with a BMI greater than 25, to achieve and maintain a healthy body weight for life. The class explores sound nutrition, weight management principles, and the identification and use of appropriate weight management tools. Weekly weigh-ins will be required. The class may be repeated, as needed, to reach optimal BMI.

Credits 0

PED 126: Backpacking

An introduction to the basics of backpacking that focuses on appropriate gear, trip planning and logistics, course materials, and competence in basic backpacking skills.

Credits 1

PED 130: Varsity Sports

Participation in a varsity sport for a full season. Graded on a pass/fail basis. This course is not repeatable for credit.

Credits 1

PED 182: Special Topics

This course allows students to take additional coursework in PE. Repeatable for credit under different topics.

Credits 1

-3

PED 203: Theory of Coaching

Study of contest management, schedule planning, and effective coaching of individual and team sports.

Credits 3

PED 215: Advanced Scottish Highland Dance

A continuation of principles taught in PED 122, giving the student an in-depth view of a variety of dance forms such as ballet, tap, jazz, lyrical, modern, and musical theatre while fine tuning the body, building cardiovascular health, and giving each participant a sense of well being.

Credits 1

Prerequisites

PED 115

PED 282: Topics in Dance

A continuation of principles taught in PED 122, giving the student an in-depth view of a variety of dance forms such as ballet, tap, jazz, lyrical, modern, and musical theatre while fine tuning the body, building cardiovascular health, and giving each participant a sense of well being. (Same as THE 282)

Credits 1

Prerequisites

THE 122 or PED 122 or permission of instructor.

PED 301: History and Principles

History, philosophy, aims, current problems, and fundamental principles of physical education.

Credits 3

PED 303: Organization and Administration

Problems relative to the organization and administration of a physical education program in public schools.

Credits 3

PED 304: Methods for Teaching Team Sports in Secondary Schools

Methods, materials and activities for coaching with an emphasis on effective coaching techniques. This would include planning practices, game preparation, scouting and game analysis of sports such as basketball, football and baseball.

Credits 3

Physics

Physics Minor

Associate Professor: Stuart Hutton

The physics minor is a course of study designed as a second field for students who wish to develop a deeper understanding of physics.

NOTE

* Students may use MTH 210, PHY 240, and PHY 241 to satisfy core requirements.

Summary of Requirements for a Minor in Physics

Item #	Title	Credits
MTH 210	Calculus I	4
MTH 220	Calculus II (OC)	4
	PHY 210/211 or PHY 240/241	4
	PHY 220/221 or PHY 250/251	4
PHY 335	Modern Physics	3
	Physics Electives (300-400 level)	4
	Total Credits	23

PHY 210/211 or PHY 240/241

Select either General Physics I or Fundamentals of Physics I.

Item #	Title	Credits
PHY 210	General Physics I	3
PHY 211	General Physics I Laboratory	1
PHY 240	Fundamentals of Physics I	3
PHY 241	Fundamentals of Physics I Laboratory	1

PHY 220/221 or PHY 250/251

Select either General Physics II or Fundamentals of Physics II.

Item #	Title	Credits
PHY 220	General Physics II	3
PHY 221	General Physics II Laboratory	1
PHY 250	Fundamentals of Physics II	3
PHY 251	Fundamentals of Physics II Laboratory	1

Physics Electives (300-400 level)

Select 4 credits of additional physics electives at the 300 or 400 level.

Physics Course Descriptions

PHY 210: General Physics I

Newtonian mechanics, sound propagation, heat transfer, and thermodynamics using algebra and trigonometry.

Credits 3

Prerequisites

MTH 110 or permission of instructor.

PHY 211: General Physics I Laboratory

Experimental techniques for Physics I.

Credits 1

Corequisites

PHY 210

PHY 220: General Physics II

Study of electricity, magnetism, light, and optics using algebra and trigonometry.

Credits 3

Prerequisites

PHY 210

PHY 221: General Physics II Laboratory

Experimental techniques for Physics II.

Credits 1

Corequisites

PHY 220

PHY 235: Introduction to Digital Logic

An introduction to digital electronic circuits and techniques. Boolean Algebra, digital logic gates, registers, automata theory, and integrated circuits. (Same as CSC 245)

Credits 3

Prerequisites

MTH 115

PHY 240: Fundamentals of Physics I

Principles of Newtonian mechanics, sound propagation, heat transfer, and thermodynamics employing differential and integral calculus.

Credits 3

Prerequisites

MTH 210 or permission of instructor.

PHY 241: Fundamentals of Physics I Laboratory

Experimental techniques for PHY 240.

Credits 1

Corequisites

PHY 240

PHY 250: Fundamentals of Physics II

Study of the basic principles of electromagnetism, light propagation, and optics employing differential and integral calculus.

Credits 3

Prerequisites

MTH 220 and either PHY 210 or PHY 240 or permission of instructor.

PHY 251: Fundamentals of Physics II Laboratory

Experimental techniques for PHY 250.

Credits 1

Corequisites

PHY 250

PHY 282: Special Topics in Physics

Study of selected topics in physics. Prerequisites will vary.

Credits 3

PHY 321: Independent Study

Directed study on an individual basis covering topics from advanced physics.

Credits 1

–3

Prerequisites

PHY 210 or 240, PHY 220 or 250, and permission of instructor.

Course may be repeated for up to 3 credits.

PHY 335: Modern Physics

Relativity, elementary particles, quantum mechanics, wave and particle theories, and spectra.

Credits 3

Prerequisites

PHY 220 or PHY 250 or permission of instructor.

PHY 382: Special Topics in Physics

Study of selected topics in physics. Prerequisites will vary.

Credits 3

PHY 390: Seminar in Physics

Students research areas from advanced physics and deliver oral presentations supported by a formal paper.

Credits 1

Prerequisites

MTH 220 and either PHY 220 or PHY 250 or permission of instructor.

Course may be repeated for credit once.

Political Science

Professor: Scott Roulier

Associate Professor: Jaeyun Sung

Assistant Professor: Brendan Connell

Political science is the study of political systems and the ideas that bring them into being, transform them, and sustain them. Students in the political science program at Lyon examine such enduring concepts as freedom, justice, equality, order, and power; explore the practical and ethical dimensions of contemporary issues, and compare political systems throughout the world. The study of political science provides students with a deeper understanding of the nature and responsibilities of citizenship and builds a strong foundation for a range of careers and professions, including public service.

Students may use COR 120 to satisfy core requirements.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Political Science Major (BA)

Summary of Requirements for a Major in Political Science

Item #	Title	Credits
POL 201	Comparative Politics	3
POL 205	World Politics	3
POL 220	Introduction to Research Methods in Political Science	3
	POL 351 OR POL 353	3
POL 455	Senior Seminar	3
	Political Science Electives (18 credits)	18

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	82-84

POL 351 OR POL 353

Item #	Title	Credits
POL 351	Ancient Political Philosophy	3
POL 353	Modern Political Philosophy	3

Political Science Electives (18 credits)

Political Science Minor

The Political Science minor is designed for those students who wish to supplement their major field of study with valuable political knowledge.

Summary of Requirements for a Minor in Political Science

Item #	Title	Credits
	Seven courses in political science (21 credits)	21
	Total Credits	21

Seven courses in political science (21 credits)

These courses must be selected from at least two of the political science subfields: American government, comparative politics, international relations, and political philosophy. At least four of these courses must be at the 300 level or above.

Political Science Course Descriptions

POL 201: Comparative Politics

A survey of governments and politics in the industrialized and developing nations. Students will examine what it means to compare political systems and explore the ideological foundations, political institutions, and political performance of governments in Europe, Asia, Latin America, and the Middle East.

Credits 3

POL 205: World Politics

A review of the main issues and problems confronted by nation-states as they interact with each other in the international system with emphasis on peace and war, integration and disintegration, and the nature of foreign policy formulation.

Credits 3

POL 206: Model United Nations

Study of the structures and procedures of the United Nations in preparation for student participation at intercollegiate model United Nations conferences. Students will be expected to become familiar with both the United Nations as an institution and the policies of the countries they will be representing. Approval of the instructor is required for enrollment. May be repeated for up to three credits.

Credits 1

POL 210: Introduction to Legal Studies (OC)

A general introduction to the study of law that offer students a broad liberal arts perspective on the important role law plays in our society. Students will gain a working knowledge of criminal and civil procedure, learn about the state and federal court systems, read and analyze court opinions, and participate in an appellate simulation. In addition, this course will include modules on the philosophy of law and sociology of law.

Credits 3

POL 220: Introduction to Research Methods in Political Science

An introduction to the basic empirical research design and quantitative methodologies for testing theories in political science. Students gain statistical techniques for analyzing large datasets and exposure to the empirical political science literatures.

Credits 3

Prerequisites

COR 120

Permission of instructor.

POL 250: Political Issues and Public Policy

Study of significant issues in public policy with emphasis on the ability to address such issues from different philosophical and ideological perspectives.

Credits 3

POL 288: Political Parties, Campaigns & Elections

Study of the nature, organization, and operations of American political parties in government and in the electoral process. Students will examine different types of elections and how campaign strategies differ depending on the type of election and the political environment.

Credits 3

POL 297: International Conflict

Analysis of the phenomena of war and conflict between nation-states. Students will explore various explanations for war and evaluate these through examination of various conflicts in the 20th century. In addition, students will examine methods for limiting conflict.

Credits 3

Prerequisites

POL 205

POL 302: Arkansas State and Local Government

General features of state constitutions, powers of governors, state legislative structure and processes, state judicial systems, and structure and form of municipal and county governments. Emphasis on Arkansas government.

Credits 3

POL 315: U.S. Foreign and Security Policy

The evolution of U.S. foreign and security policy with particular attention to the Cold War and post-Cold War eras. In addition students will examine the policy-making process, including the role of public opinion, the mass media, and Congress. (Same as HIS 315)

Credits 3

Prerequisites

POL 205 or permission of instructor.

POL 325: American Political Institutions

This course defines the responsibilities of and focuses on the interactions among the major branches of government – congress, the Presidency, and Supreme Court.

Credits 3

POL 335: Politics of Urban Spaces

This course will introduce students to the institutions and practices of urban spaces (e.g. planning/zoning, governance structures, and policymaking) and to the political, social, economic, and environmental consequences associated with various urban models, i.e. suburbs, garden cities, modernist and new urbanist developments. Attention will also be given to the way urban design affects race, class, and gender relationships. Prereq: A 200-level political science course is recommended.

Credits 3

Recommended Prep

A 200-level political science course is recommended.

POL 340: Environmental Politics & Policy

Through case studies, this course will expose students to the legal, economic, and political challenges posed by environmental threats and will also introduce them to and require them to evaluate the effectiveness of proposed solutions to these problems. Prereq: A 200-level political science course is recommended.

Credits 3

Recommended Prep

A 200-level political science course is recommended.

POL 343: International Political Economy

This course seeks to explain the political causes and consequences of globalization throughout history, including in the issue areas of international trade, finance, and migration. For each of these issue areas, students will analyze how politics shape the foreign economic policies pursued by governments as well as how changes in the global economy affect the preferences and bargaining power of state and non-state actors.

Prerequisites

POL 205 (World Politics) is recommended.

POL 346: International Law and Organizations

An introduction to the basic principles of public international law in the rules of war, the law of the Seas, and human rights, and a survey of the related functions of the United Nations.

Credits 3

Prerequisites

POL 205

POL 349: The German Political and Cultural Tradition

The development of German political ideas and the evolution of German constitutional arrangements from the Reformation to the present. In addition to the Sonderweg thesis—which seeks to explain and understand Germany's embrace of authoritarian political institutions—students will explore the rich German liberal and democratic tradition. In order to comprehend the complexity of German political thought, students will study the artifacts and writings of artists, philosophers, filmmakers, and poets, as well as historians and politicians. (Same as HIS 349)

Credits 3

POL 351: Ancient Political Philosophy

Examination of the political thinkers who started the Western political tradition. Concentrating on original sources, students will consider the origin of political philosophy in selected works by such authors as Xenophon, Plato, and Aristotle. (Same as RPH 351)

Credits 3

POL 353: Modern Political Philosophy

Study of major political thinkers such as Machiavelli, Locke, Rousseau, Hume, and Marx. Students will concentrate on selected works and topics that have influenced contemporary politics. (Same as RPH 353)

Credits 3

POL 358: Modern Russia

The transformation of Russia in the 20th century with special attention to the factors leading to the collapse of communism in the Gorbachev era and the efforts to establish democratic institutions in the region thereafter. (Same as HIS 358)

Credits 3

Prerequisites

POL 201 or permission of instructor.

POL 368: Asian Politics

Comparative survey of government and governmental institutions in Asia with particular emphasis on identifying key political, economic, and social trends affecting the region.

Credits 3

POL 370: Political Economy of Public Issues

Discussion and research of current public debates and interests in which both governmental and economic forces and interests are joined. Students will present their research to the class and write a major paper. (Same as ECO 370)

Credits 3

Prerequisites

ECO 102 or consent of instructor.

POL 371: The Middle East

Survey of the Middle East from the rise of Islam to the present day with emphasis on the development of Islamic society and culture and the impact and influence of the West. Particular attention will be given to the rise of nationalism, the Arab-Israeli Conflict, and the development of Islamic fundamentalism. (Same as HIS 371)

Credits 3

Prerequisites

HIS 201 and 202 or permission of instructor.

POL 380: Civil Liberties

An examination of the civil rights and liberties guaranteed by the Bill of Rights. Special attention will be given to the study of criminal defendants' rights (the Fourth, Fifth, and Sixth Amendments), freedom of speech and religion (First Amendment), equal protection (Fourteenth Amendment), and the right to privacy.

Credits 3

POL 382: Special Topics in Political Science

Study of selected topics in political science. Prerequisites will vary.

Credits 3

POL 399: Political Science International Studies Course: Variable Topics

Study of varying topics in political science. Includes a 2-week Nichols trip. Prerequisites will vary.

Credits 1

POL 450: Directed Study

Concentrated study in one or more areas of government.

Credits 3

POL 455: Senior Seminar

This course will provide students with the opportunity to take stock of the concepts, knowledge and methods they have learned in major courses by conducting original research in the field of political science.

Credits 3

Prerequisites

POL 220 or permission of instructor

POL 460: Practicum in Politics

This course offers an experiential opportunity to bridge the gap between theoretical knowledge and practical application within political science. Variable Credit.

Credits 1

-3

Pre-Professional Programs

Pre-Professional Concentrations

The breadth of understanding and the habits of disciplined thought that are the products of a strong, undergraduate liberal arts education provide an excellent foundation for a range of professions. The courses of study offered at Lyon provide the basic intellectual and communication skills upon which success in professional school and in a profession largely depend.

Pre-Engineering Curriculum

Associate Professor Stuart Hutton

Lyon College offers several demanding programs to prepare students for an engineering degree. The 3-2 program, wherein students attend Lyon for three years, completing the core curriculum and all requirements for their particular major (usually mathematics), and then transfer to their engineering school of choice for the remaining two years. Students earn their degree from Lyon by transferring ABET-accredited engineering credit hours from a coherent engineering program as documented by the school catalog in order to satisfy Lyon graduation hours. Students will also receive an engineering degree from their school of choice following the completion of that school's individual requirements. Formal agreements exist between Lyon and the University of Arkansas, Missouri University of Science and Technology, and the University of Minnesota but entry into other schools is possible.

Pre-engineering students and the pre-engineering advisor work together to determine course schedules. The requirements and time frames may vary based upon student interest and preparation.

Lyon also offers the opportunity to receive a bachelor's degree from Lyon and a Master of Engineering degree from the University of Minnesota. This program involves four years at Lyon and, typically, two years at the University of Minnesota. Students may need to take several extra courses before proceeding through the graduate curriculum; the number of courses will vary by major and emphasis. Admission is not guaranteed.

NOTES

* Students may use MTH 210, CHM 110, PHY 240 and ECO 101 to satisfy core requirements.

* Students who begin their mathematics with MTH 110 may have to spend an extra summer or year before transferring to an engineering school.

* The language of the programming course must be C++.

* EM 50, Engineering Mechanics Statics is not taught at Lyon. Arrangements should be made to complete this course at an ABET-accredited engineering school as required by the program of choice after completion of the physics sequence PHY 240, 241 and PHY 250, 251.

Summary of Minimal Requirements

Item #	Title	Credits
MTH 210	Calculus I	4
MTH 220	Calculus II (OC)	4
MTH 230	Calculus III	4
MTH 300	Differential Equations	3
CHM 110	General Chemistry I (PS)	4
CHM 120	General Chemistry II (PS)	4
PHY 240	Fundamentals of Physics I	3
PHY 241	Fundamentals of Physics I Laboratory	1
PHY 250	Fundamentals of Physics II	3
PHY 251	Fundamentals of Physics II Laboratory	1
CSC 100	Introduction to Programming in C++ (PS)	3
ECO 101	Principles of Economics I	3
ENG 101	English Composition I	3
ENG 102	English Composition II	3
	HIS 101 OR HIS 102	3
	Humanities or social science electives (12-15 credits)	12-15
EM 50	Engineering Mechanics Statics	3
	Total Credits	61-64

HIS 101 OR HIS 102

Item #	Title	Credits
HIS 101	The United States I	3
HIS 102	The United States II	3

Humanities or social science electives (12-15 credits)

Pre-Law Concentration

Professor Scott Roulier

Studies and surveys have consistently shown that the best preparation for law school is to earn a bachelor's degree in any rigorous major requiring analytical reasoning, careful reading, and effective speaking and writing. Thus the pre-law concentration is not designed to substitute for but to augment major requirements. The Pre-law Committee has identified the following courses as providing the knowledge, understanding, and intellectual skills important to success in law school. Students with any Lyon major may elect to take this concentration.

Additional Opportunities for Students in Lyon's Pre-Law Concentration

Law Club: Provides visits to law schools as well as interactions with law students and practicing attorneys who graduated from Lyon.

LSAT Prep: Provides sample testing and scoring as well as tips on how to improve scores.

Internships: Selected students work in the offices of practicing attorneys.

Model UN: Students participate in activities important to international law.

NOTE

Students in the pre-law concentration will be taking COR 120 as a Core requirement or majoring in business, English, and political science and thus taking some of these courses for both purposes.

Summary of Requirements for a Pre-Law Concentration

Item #	Title	Credits
POL 210	Introduction to Legal Studies (OC)	3
BUS 303	Business Law	3
ENG 363	Advanced Composition	3
POL 380	Civil Liberties	3
	Total Credits	12

Psychology

Associate Professor: Robert Miller

Assistant Professors: Britt Florkiewicz and Brandon Porter

Psychology, the study of behavior and mental processes, is a social, behavioral, and cognitive science. The psychology major at Lyon introduces students to the empirical study of human and animal behavior and such diverse mental faculties and processes as perception, memory, intelligence, problem solving, and decision making. Students are also introduced to a wide range of current professional issues and responsibilities regarding both the academic discipline and the applied profession of psychology.

All psychology students develop an understanding of the social, psychological, and biological causes of behavior and an understanding of the effects of these factors on a variety of psychological phenomena, including interpersonal relationships, human growth and development, learning, personality, and abnormal behavior. In addition, they are introduced to the application of basic psychological principles in a variety of endeavors, including counseling and other areas of clinical psychology and education.

There are two major offerings from the Psychology program, a Bachelor of Science and a Bachelor of Arts. Majors who pursue a B.S. will become skilled researchers and wise consumers of scientific psychological research, designed to prepare students for graduate study in psychology or related fields. Students who pursue the B.A. major tend to be interested in applied aspects of the discipline and will gain practical experience in the field through a supervised internship in their junior or senior year. Both majors are designed to prepare students for work in psychology and related fields. Additionally, a background in psychology is appropriate and valuable for students planning to enter such professions as business, education, law, medicine, social work, and the ministry.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Psychology Major (BA)

Summary of Requirements for a Major in Psychology (BA)

Item #	Title	Credits
PSY 101	Introduction to Psychology (PS)	3
PSY 235	Statistics for the Behavioral Sciences (PS)	3
PSY 240	Introduction to Research Methods	3
PSY 332	History and Systems of Psychology (OC)	3
PSY 341	Professional Development in Psychology	1
PSY 443	Senior Internship	3
PSY 490	Senior Exit Survey in Psychology	0
	Five Pillars of Knowledge Courses (PSY)	15
	Psychology Upper Electives (300 & 400 level classes)	12
	Psychology Elective (200 level)	3

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	92-94

Five Pillars of Knowledge Courses (PSY)

Item #	Title	Credits
PSY 225	Social Psychology	3
PSY 290	Human Development (HL)	3
PSY 203	Introduction to Biological Psychology	3
PSY 205	Introduction to Abnormal Psychology	3
PSY 208	Introduction to Cognitive Psychology	3

Psychology Upper Electives (300 & 400 level classes)

Psychology Elective (200 level)

Psychology Major (BS)

Summary of Requirements for a Major in Psychology (BS)

Item #	Title	Credits
PSY 101	Introduction to Psychology (PS)	3
PSY 235	Statistics for the Behavioral Sciences (PS)	3
PSY 240	Introduction to Research Methods	3
PSY 332	History and Systems of Psychology (OC)	3
PSY 341	Professional Development in Psychology	1
PSY 485	Senior Thesis	3
PSY 490	Senior Exit Survey in Psychology	0
	Five Pillars of Knowledge Courses (PSY)	15
	Psychology Upper Electives (300 & 400 level classes)	12
	Psychology Elective (200 level)	3

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	92-94

Five Pillars of Knowledge Courses (PSY)

Item #	Title	Credits
PSY 225	Social Psychology	3
PSY 290	Human Development (HL)	3
PSY 203	Introduction to Biological Psychology	3
PSY 205	Introduction to Abnormal Psychology	3
PSY 208	Introduction to Cognitive Psychology	3

Psychology Upper Electives (300 & 400 level classes)

Psychology Elective (200 level)

Animal Behavior Minor

The animal behavior minor is a course of study designed as a second field for students who wish to develop a deeper understanding of animal behavior.

Students may use PSY101 and BIO110 to satisfy core requirements.

Summary of Requirements for a Minor in Animal Behavior

Item #	Title	Credits
PSY 101	Introduction to Psychology (PS)	3
BIO 110	Principles of Biology I	4
BIO 112	Principles of Biology II	4
PSY 306	Animal Behavior I	3
PSY 307	Animal Behavior II	3
	Animal Behavior Electives (A)	3-4
	Animal Behavior Electives (B)	3
	Total Credits	23-24

Animal Behavior Electives (A)

Choose one of the following electives:

Item #	Title	Credits
BIO 222	General Zoology	4
BIO 340	Ecology	4
BIO 345	Speleology	4
BIO 360	Comparative Physiology (OC/PS)	4
BIO 370	Evolution	4
BIO 382	Special Topics in Biology	3-4

Animal Behavior Electives (B)

Choose one of the following psychology electives:

Item #	Title	Credits
PSY 209	The Psychology of Pet Ownership	3
PSY 203	Introduction to Biological Psychology	3
PSY 208	Introduction to Cognitive Psychology	3
PSY 308	Primate Perspectives on Behavior and the Brain	3
PSY 312	Sensation & Perception	3
PSY 353	Introduction to Evolutionary Psychology	3

Psychology Minor

The psychology minor is a course of study designed as a second field for students who wish to develop an understanding of the scientific study of behavior and the mind.

Summary of Requirements for a Minor in Psychology

Item #	Title	Credits
PSY 101	Introduction to Psychology (PS)	3
	Five Pillars of Knowledge Courses (PSY)	15
PSY 490	Senior Exit Survey in Psychology	0
	Total Credits	18

Five Pillars of Knowledge Courses (PSY)

Item #	Title	Credits
PSY 225	Social Psychology	3
PSY 290	Human Development (HL)	3
PSY 203	Introduction to Biological Psychology	3
PSY 205	Introduction to Abnormal Psychology	3
PSY 208	Introduction to Cognitive Psychology	3

Psychology Course Descriptions

PSY 101: Introduction to Psychology (PS)

An overview of the scientific study of behavior, and its causes, prediction, and control.

Credits 3

PSY 182: Topics in Psychology

Examination of a selected area of psychological research or applied psychology.

Credits 1

-4

Prerequisites

PSY 101

PSY 203: Introduction to Biological Psychology

Examination of the underlying brain mechanisms responsible for behavior. Topics include research methods used to study the brain, functional organization of the nervous system, properties of neurons, sensory and motor systems, and neural mechanisms related to memory, language, emotion, and intelligence.

Credits 3

Prerequisites

PSY 101

PSY 205: Introduction to Abnormal Psychology

Examination of the definition and etiology of major types of psychological disorders from the perspective of several psychological theories. Attention is given to their diagnosis, assessment, treatment, and related ethical concerns.

Credits 3

Prerequisites

PSY 101

PSY 208: Introduction to Cognitive Psychology

The intent of this course is to introduce the basic concepts and findings of cognitive psychology, including, but not limited to, the topics of perception, attention, motor control, learning, memory, language, categorization, imagery, judgment and decision-making, and problem-solving. Cognition will be discussed from the perspectives of information processing and cognitive neuroscience.

Credits 3

Prerequisites

PSY 101

PSY 209: The Psychology of Pet Ownership

The goal of this course is to study the pet-ownership relationship from a variety of psychological perspectives (biological, clinical, cognitive, developmental, and social). We will focus on proximate-level (i.e., how) and ultimate-level (i.e., why) explanations for this relationship. This course will provide you with the skills and tools needed to better understand yourself and the animals you may encounter/interact with.

Credits 3

Prerequisites

PSY 101

PSY 210: Cultural Psychology

This course seeks to help students develop an understanding and valuing of diversity, based on the principles of awareness, knowledge and skills as they relate to the areas of worldview, identity, and acculturation. Student will be able to articulate differences among cultural communities, whether of ethnicity, race, religion, gender or socioeconomic status, is critical to understanding attitudes, beliefs, and behavior.

Credits 3

Prerequisites

PSY 101

PSY 220: Psychology of Women and Gender

Survey of theory and research on the meaning of gender and its impact on women's development.

Credits 3

Prerequisites

PSY 101

PSY 225: Social Psychology

A holistic approach to the study of individuals interacting with other individuals and groups within social, psychological, and cultural environments.

Credits 3

Prerequisites

PSY 101

PSY 235: Statistics for the Behavioral Sciences (PS)

An introduction to descriptive and inferential techniques for analyzing research data. Topics covered include central tendency, variability, distributions, Z-scores, analysis of variance, correlation, regression, and nonparametric tests of significance.

Credits 3

Prerequisites

MTH 101, MTH 103, or MTH 105, and PSY 101

PSY 240: Introduction to Research Methods

Study of research methods in the behavioral sciences. Students are introduced to basic design and practical procedures in carrying out research, as well as ethical considerations in gathering data.

Credits 3

Prerequisites

PSY 235

PSY 282: Special Topics

Examination of a selected area of psychological research or applied psychology.

Credits 3

Prerequisites

PSY 101

PSY 290: Human Development (HL)

Study of the physical, cognitive, emotional, and social development of the individual from birth through adulthood. (Same as EDU 290)

Credits 3

Prerequisites

PSY 101

PSY 303: Psychology of Parenting

This course explores the psychology of the parent-child relationship, focusing specifically on parenting. The course will examine and discuss models of parenting, factors that predict parenting behavior, the scientific basis of effective parenting and discipline, and the impact that parenting has on development across the lifespan.

Credits 3

Prerequisites

PSY 101

PSY 305: Child Psychopathology

In this course, psychological disorders that develop in childhood and adolescence are examined, including autism spectrum disorders, ADHD, learning and cognitive disabilities, and behavioral disorders. In addition, the course explores issues of risk and resilience, interventions and treatments, and the controversies and ethical issues surrounding diagnosis, classification, and treatment of disorders in children and adolescents.

Credits 3

Prerequisites

PSY 101

PSY 306: Animal Behavior I

To date, we have identified over 2 million distinct animal species living on planet Earth. Most psychologists are interested in studying the brain and behavior of only one of these species: humans. But what about the remaining animal species? What kinds of brains do they possess, and what kinds of behaviors do they exhibit? The goal of this course is to provide an overview of the various theoretical approaches that are used to study the brain and behavior of animals (other than humans).

Credits 3

Prerequisites

PSY 101

PSY 307: Animal Behavior II

Animal behavior research has changed dramatically over the past 100 years. The goal of this course is to provide students with the opportunity to learn more about the applications and techniques used in animal behavior research today. This course will help students bridge the gap between previous coursework (i.e., Animal Behavior I) and applied experience through labs & independent research. This class will emulate the structure of a research lab and will result in a final paper & presentation on a topic of the student's choosing.

Credits 3

Prerequisites

PSY 306

PSY 308: Primate Perspectives on Behavior and the Brain

The human brain is an incredibly complex structure that allows us to perform amazing behaviors (such as language). But how (and why) did this structure evolve? What features of the brain and behavior are unique to humans? Widespread among other animals? This course will examine the evolutionary origins of the human brain and behavior by studying our closest living relatives: the non-human primates. In this class, students will develop effective research and writing strategies which will culminate into a final paper.

Credits 3

Prerequisites

PSY 306

PSY 310: Child and Adolescent Development

Examination of the development processes from conception through adolescence. Topics include physical, cognitive, social, and personality development from the perspective of the major theories of the field. In addition, students will focus on cultural and educational issues that arise from the study of the development of children and adolescents.

Credits 3

Prerequisites

PSY 101

PSY 312: Sensation & Perception

A biopsychological analysis of sensory systems and the organization of sensory input into perception. This course covers the five primary sensory / perceptual systems: vision, audition, body sensation, olfaction, and gustation. It is strongly encouraged that students have completed a lab science before attempting this course.

Credits 3

Prerequisites

PSY 101

PSY 318: Biological Psychology

Examination of the underlying brain mechanisms responsible for behavior. Topics include research methods used to study the brain, functional organization of the nervous system, properties of neurons, sensory and motor systems, and neural mechanisms related to memory, language, emotion, and intelligence.

Credits 3

Prerequisites

PSY 101

PSY 332: History and Systems of Psychology (OC)

Study of the evolution of modern psychology from its origins in philosophy and natural science to contemporary thought in psychology.

Credits 3

Prerequisites

PSY 101

PSY 335: Abnormal Psychology

Examination of the definition and etiology of major types of psychological disorders from the perspective of several psychological theories. Attention is given to their diagnosis, assessment, treatment, and related ethical concerns.

Credits 3

Prerequisites

PSY 101

PSY 338: Personality Psychology

Study of contemporary theory, research, and assessment in personality.

Credits 3

Prerequisites

PSY 101

PSY 339: Learning and Cognition

Examination of the major theories of learning and cognition and identification of a variety of research tools useful in understanding thinking, learning, and teaching.

Credits 3

Prerequisites

PSY 101

PSY 340: Intermediate Research Methods

Continuation of the statistical concepts acquired in PSY 235 and experimental methods acquired in PSY 240. Students will learn the advanced tools needed to engage in and evaluate research specific to the social sciences. Specifically, they will design and collect data using a variety of research methods and analyze data employing advanced statistical analysis.

Credits 3

Prerequisites

PSY 235 and 240

PSY 341: Professional Development in Psychology

This course focuses on planning for a future with an undergraduate degree in psychology and encourages students to research personal career development and the contemporary workforce. Students will be exposed to information designed to assist in the clarification, selection, and pursuit of a career in psychology or a related field.

Credits 1

Prerequisites

Officially declared psychology major and completion of PSY 101 or permission of instructor.

PSY 342: Introduction to Cognitive Psychology

The intent of this course is to introduce the basic concepts and findings of cognitive psychology, including, but not limited to, the topics of perception, attention, motor control, learning, memory, language, categorization, imagery, judgment and decision-making, and problem-solving. Cognition will be discussed from the perspectives of information processing and cognitive neuroscience.

Credits 3

Prerequisites

PSY 101

PSY 345: Human Sexuality Across the Lifespan

Examination of human sexuality from psychological, biological, behavioral, social, and historical perspectives.

Credits 3

Prerequisites

PSY 101

PSY 353: Introduction to Evolutionary Psychology

This course provides an in-depth exploration of the phylogenetic origins of human nature, specifically addressing the presence and nature of evolved psychological mechanisms that solve challenges relevant to survival and reproduction in ancestral environments. Topics covered will include competition, cooperation, natural and sexual selection, inclusive fitness, status, intersexual conflict, kinship, mating strategies, disease and predator avoidance, food acquisition and selection, and more. Throughout coverage of these topics, the role of theoretical perspectives and experimental evidence will be particularly emphasized.

Credits 3

Prerequisites

PSY 101

PSY 382: Topics in Psychology

Examination of a selected area of psychological research or applied psychology.

Credits 3

Prerequisites

PSY 101

PSY 382: Special Topics

Credits 3

Prerequisites

PSY 101

PSY 399: Psychology International Studies Course: Variable Topics

Study of varying topics in psychology. Includes a 2-week Nichols trip. Prerequisites will vary.

Credits 1

PSY 410: Psychological Testing

A study of the nature and theory of individual and group tests of intelligence, personality, interests and attitudes.

Credits 3

Prerequisites

PSY 235 and PSY 240

PSY 443: Senior Internship

A capstone course for psychology majors. Students will gain field experience through direct, supervised contact with professionals in psychology and related fields. In addition to on-site responsibilities, students will write a comprehensive paper integrating the field experience and psychological theory and formally present the paper in an open forum. Prerequisites/corequisites: PSY 235, 240, 332, 340, and permission of instructor.

Credits 3

PSY 450: Independent Study

Study of selected topics in psychology.

Prerequisites

Permission of instructor and junior or senior standing.

PSY 485: Senior Thesis

A seminar-based capstone course for psychology majors. Students will design and conduct individual research projects that may be suitable for submission to journals or presentations at conferences. Students are guided through the research process on a topic of their choice, designing a study, gathering and analyzing data, and writing the results in an APA-formatted research report. Prerequisites/corequisites: PSY 235, PSY 240, PSY 340, and permission of instructor.

Credits 3

Prerequisites

PSY 235

PSY 240

and permission of the instructor.

PSY 486: Senior Thesis II

A continuation of PSY 485. Students can continue to work on research they began in PSY 485.

Credits 3

Prerequisites

PSY 485 and permission of instructor.

PSY 490: Senior Exit Survey in Psychology

This course will provide graduating seniors the opportunity to provide valuable feedback about their experiences in the psychology program. This course does not meet throughout the semester, and instead only requires students to – before finals week – take a senior exit survey online which will assess knowledge of concepts, theories, and principles of psychology, relevant to the primary disciplines within psychology (such as social psychology, biological psychology, developmental psychology, and abnormal psychology) as well as research methods and statistics. Also, the senior exit survey will provide students with the opportunity to provide feedback regarding their own learning, engagement, challenges, and successes during their time in the program. This survey provides the faculty in the psychology program with invaluable data as to the strengths and areas for development and growth within the psychology program and curriculum. Must be taken pass/fail.

Credits 0

Prerequisites

Senior standing

Religion and Philosophy

Professors: Martha Beck and Paul Custodio Bube

The religion and philosophy major at Lyon College offers students a broad range of courses rich in philosophical and theological thought. Because it combines rigor and clarity of thought and expression with concern for all aspects of the human condition, the study of religion and philosophy also provides a strong foundation for a range of professions.

All RPH majors will take the advanced seminar. They will either undertake in-depth research and complete a project on a topic in religion or philosophy or connect religious and philosophical insights to other academic disciplines. With the approval of RPH faculty, students in other disciplines may take this course and connect their specialized fields to theological or philosophical perspectives.

Students can choose one of four possible tracks in religion and philosophy.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Religion and Philosophy Major (BA)

Track One: General RPH major

Item #	Title	Credits
	RPH Foundation Classes (Choose 4)	12
	General RPH Electives (21 credits)	21
RPH 470	Advanced Seminar: In-depth Study of Religion and Philosophy	3

Track Two: RPH Major with a focus on religion

Item #	Title	Credits
	RPH Foundation Classes (Choose 4)	12
	RPH: Religion Electives	21
RPH 470	Advanced Seminar: In-depth Study of Religion and Philosophy	3

Track Three: RPH major with a focus on philosophy

Item #	Title	Credits
	RPH Foundation Classes (Choose 4)	12
	RPH: Philosophy Electives	21
RPH 470	Advanced Seminar: In-depth Study of Religion and Philosophy	3

Track Four: RPH major with a focus on ethics

Item #	Title	Credits
	RPH Foundation Classes (Choose 4)	12
	RPH: Ethics Electives	21
RPH 470	Advanced Seminar: In-depth Study of Religion and Philosophy	3

CORE CURRICULUM

Item #	Title	Credits
	Core Curriculum Requirements (In addition to Major hours)	46-48
	Total Credits	82-84

RPH Foundation Classes (Choose 4)

Regardless of which track they choose, all RPH majors are required to take four of the following eight courses:

Item #	Title	Credits
RPH 110	Old Testament	3
RPH 120	New Testament	3
RPH 130	Introduction to Christian Theology	3

Religion and Philosophy Minor

The religion and philosophy minor is a body of courses designed as a second field for students who wish to develop their skills of thought and expression and their understanding of the human experience through an exploration of philosophical and theological thought.

Summary of Requirements for a Minor in Religion and Philosophy

Item #	Title	Credits
	RPH Minor Electives	18
	Total Credits	18

RPH Minor Electives

Students must select 6 RPH courses, including at least three at the 300 level or above.

Religion and Philosophy Course Descriptions

RPH 110: Old Testament

Introduction to critical and interpretive methods in the study of the Old Testament.

Credits 3

RPH 120: New Testament

Introduction to critical and interpretive methods in the study of the New Testament.

Credits 3

RPH 130: Introduction to Christian Theology

Basic beliefs and forms of the Christian religion.

Credits 3

RPH 140: Introduction to World Philosophies

Philosophical problems, methods, and values as they have developed in various world cultures, with a comparison between Western and non-Western world views, such as Hinduism, Buddhism, and Confucianism. Emphasis is given to the ways different world views affect international relations today.

Credits 3

RPH 150: World Religions

Survey of several major living religions, including Hinduism, Buddhism, Taoism, Confucianism, Shinto, Judaism, and Islam. Students will study each religion in terms of its social, cultural, historical, ritual, and symbolic experiences.

Credits 3

RPH 205: Introduction to Ethics

The course examines the place of ethics within philosophy and religion, major ethical theories, and how ethical theories can be applied to contemporary issues, such as abortion, homosexuality, capital punishment, the environment, and euthanasia.

Credits 3

Prerequisites

ENG 102

RPH 210: The Legacy of Ancient Greek Civilization in the Era of Globalization

The class examines how all aspects of Ancient Greek civilization fit together into a unified worldview. Among other aspects of the culture, we will discuss the mythology (religion); the religious rituals; the cultural context of the Olympics; the cultural context of the performance of tragedies; and the political- legal system, including trial by jury and political decisions determined by an assembly of citizens. We will read literary and philosophical texts including some Pre-Socratic philosophers, Hesiod's creation story, Homer, Greek tragedy, Plato, and excerpts from Aristotle in order to better understand the worldview underlying the texts. All along the way, we will be looking for analogies with our own experiences in culture. We will reflect upon the lessons the Ancient Greeks were trying to pass on to posterity and the ways those lessons are or are not relevant for us today.

Credits 3

Prerequisites

One RPH class, HIS 201, or permission of the instructor.

RPH 306: Logic

Study and practice of the basic skills of critical thinking, including deductive, inductive, analogical, cause-effect, statistical analysis, and normative argument.

Credits 3

Prerequisites

One RPH class or permission of instructor.

RPH 310: Philosophy of Art

Readings from Western and non-Western texts on the nature of art with emphasis on issues of race, gender, multiculturalism, and the natural environment. Central questions include the following: What is art? What is beauty? What is creativity? What is the relationship between a work of art and the artist? The audience? The critic? What is the relationship between art and politics? Ethics? Education? Psychology? Religion? Reason? Faith? What makes an experience an aesthetic experience?

Credits 3

Prerequisites

Permission of instructor.

RPH 320: Christian Ethics

Study of the basic approaches and principles of Christian ethics with special attention to the ethics of character and the use of the Bible and theology in ethics. Application will be made to several contemporary ethical issues, including character formation; marriage, family, and sexuality; the sanctity of life; and environmental issues.

Credits 3

Prerequisites

RPH 110, 120, or 130

RPH 325: Jesus and the Gospels

An examination of the four canonical gospels, along with some non-canonical documents (e.g., Gospel of Thomas), in terms of their literary and historical meanings to better understand the nature of Jesus Christ as a focus of religious faith and as a focus of historical research.

Credits 3

Prerequisites

RPH 110, RPH 120, or RPH 130 or permission of instructor.

RPH 329: The Early Church

The development of Christian thought and life to 600 A.D. (Same as HIS 329)

Credits 3

Prerequisites

RPH 120 or permission of instructor.

RPH 331: The Middle Ages

Survey of the history of Europe from the fall of the Roman Empire to the end of the 15th century. Topics include the Christianization of Europe, the evolution of feudalism, the rise of the papacy, the Crusades and the Hundred Years' War. (Same as HIS 331)

Credits 3

Prerequisites

HIS 201 or permission of the instructor.

RPH 335: Women's Issues

An examination of the history of beliefs regarding the treatment of women, the Women's Movement in the West, and international women's issues today. Beginning in Ancient Crete, the course will discuss how ideas surrounding human nature and the human condition have led to social institutions and expectations which affect women's experiences in relation to sexuality, gender, marriage, child rearing, education, religion, the legal system, economics, politics, and the relation between culture and nature. The last half of the class will focus on issues women face today, in particular the impact of race, class, ethnicity, post-colonialism, and economic globalization.

Credits 3

Prerequisites

one RPH class or permission of the instructor.

RPH 337: Plato's Dialogues

"Know thyself," "an unexamined life is not worth living," "nothing in excess." Most Westerners have heard these expressions and know something about the Gold Age of Athens. Plato was born when Athens was thought to be the greatest democratic society in human history. He watched as ignorance, lust, pride, greed, delusions, arrogance, and self-absorption led to the collapse of the great "free and open society." The "liberals" destroyed Athens with their self-indulgence, the conservatives destroyed Athens with their religious and intellectual intolerance, those who sought military or economic empire building drove the city to overextended itself and fall apart. The dialogues read in this class take place before Athens destroyed itself. Plato's readers must have natural intelligence and educational opportunity and be living in a society that allows citizens free intellectual inquiry. He is showing his readers what the Athenians made.

Credits 3

Prerequisites

at least one RPH class and junior or senior standing or permission of the instructor.

RPH 350: Business and Professional Ethics

Examination of professional responsibility with case studies of ethical issues in business and the professions. (Same as ECO 350)

Credits 3

RPH 351: Ancient Political Philosophy

An examination of the political thinkers who started the Western political tradition. Concentrating on original sources, students will consider the origin of political philosophy in selected works by such authors as Xenophon, Plato, and Aristotle. (Same as POL 351)

Credits 3

RPH 353: Modern Political Philosophy

Study of major political thinkers such as Machiavelli, Locke, Rousseau, Hume, and Marx. Students will concentrate on selected works and topics that have influenced contemporary politics. (Same as POL 353)

Credits 3

RPH 354: The Byzantine Empire

The rise and fall of the Byzantine Empire from 330 to 1453 with emphasis on the political, social, and economic structures of Byzantium and the religion and culture of its peoples. In addition, students will study the influence of Byzantium on the Slavs, Arabs, Turks, and Western European kingdoms. (Same as HIS 354)

Credits 3

Prerequisites

HIS 201 or permission of instructor.

RPH 358: The Reformation

An exploration of the causes and consequences of the Reformation with emphasis on understanding the role of the major reformers such as Luther, Calvin, and Loyola. In addition, students will explore the Reformation's sociopolitical and cultural dimensions. (Same as HIS 355)

Credits 3

Prerequisites

HIS 201 or permission of instructor.

RPH 360: Introduction to Contemporary Critical Theory

An introduction to the theory and practice of several vital critical approaches to literature, including cultural-historical, psychoanalytic, deconstructive, and feminist methodologies. Readings will include selections from primary theoretical texts by such figures as Freud, Lacan, Kristeva, Irigaray, Barthes, Derrida, Saussure, and Foucault, as well as selected literary texts to be interpreted through the various critical methods. This course is highly recommended for students interested in attending graduate school in literature, arts, and humanities. (Same as ENG 365)

Credits 3

Prerequisites

ENG 290 or 291 OR any 300-level foreign-language literature course. Students in other disciplines who are interested in critical theory may enroll with permission of instructor.

RPH 362: Environmental Ethics

Readings in environmental ethics that address the ways Western and non-Western philosophies have shaped understanding of the environment and responses to environmental problems. Discussions will revolve around utilitarianism, libertarianism, Christianity, Hinduism, and deep ecology. Among the problems discussed will be overpopulation, global warming, and various plans for addressing environmental needs.

Credits 3

Prerequisites

100-level RPH course

RPH 365: Topics in Religion

Study in areas such as biblical interpretation, systematic and historical theology, and world religions.

Credits 3

Prerequisites

Permission of instructor.

RPH 370: Topics in Philosophy

Study in areas such as philosophical psychology and philosophical perspectives on various contemporary moral problems.

Credits 3

Prerequisites

Permission of instructor.

RPH 450: Independent Study

Concentrated study in selected fields.

RPH 460: RPH Practicum

Variable credit.

RPH 470: Advanced Seminar: In-depth Study of Religion and Philosophy

Students will do in-depth research and complete a project or paper on a topic either in Religion or Philosophy, or connecting Religious and Philosophical insights to other academic disciplines. With the approval of RPH faculty, students majoring in disciplines other than Religion and Philosophy are also invited to take this course.

Credits 3

Spanish

Associate Professors: Monica Rodriguez and Stephanie Saunders, '02

Instructor: Joseph Ivy

In a world where all fields of endeavor are becoming increasingly international and multicultural, fluency in another language and an understanding of other cultures have become keys that open a wide variety of opportunities — both personal and professional. Spanish majors have the opportunity to develop a facility in the use of both spoken and written Spanish and to build a knowledge of its literature and cultural heritage. The major prepares students for graduate school, teaching, or a range of professions grounded in bilingualism.

Students may skip SPN 101 and 102 if they have equivalent language proficiency.

NOTE

* Students may use SPN 101 and 102 to satisfy core requirements.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Spanish Major (BA)

Summary of Requirements for a Major in Spanish

Item #	Title	Credits
SPN 101	Beginning Spanish I	3
SPN 102	Beginning Spanish II	3
SPN 201	Intermediate Spanish I	3
SPN 202	Intermediate Spanish II	3

	Total Credits	78-80

Spanish Minor

The Spanish minor is a course of study designed as a second field for students interested in developing their fluency in Spanish and gaining the increased insights into culture and literature which result from the study of a foreign language.

Students may skip SPN 101 and 102 if they have the equivalent language proficiency.

NOTE

* Students may use SPN 101 and 102 to satisfy core requirements.

Summary of Requirements for a Minor in Spanish

Item #	Title	Credits
SPN 101	Beginning Spanish I	3
SPN 102	Beginning Spanish II	3
SPN 201	Intermediate Spanish I	3
SPN 202	Intermediate Spanish II	3

Spanish Minor Electives [Choose two]:

Item #	Title	Credits
SPN 325	Spanish in the Community	3
SPN 326	Introduction to Hispanic Literature	3
SPN 333	Advanced Grammar and Composition	3
SPN 335	Hispanic Cinema	3

SPN 370	Spanish American Short Story	3
SPN 382	Special Topics	3
	Total Credits	18

Spanish Course Descriptions

SPN 101: Beginning Spanish I

Fundamentals of grammar with emphasis on oral proficiency. Extensive use of audio and video resources in language lab.

Credits 3

SPN 102: Beginning Spanish II

Fundamentals of grammar with emphasis on oral proficiency. Extensive use of audio and video resources in language lab.

Credits 3

Prerequisites

SPN 101 or equivalent

SPN 201: Intermediate Spanish I

Review of grammar with emphasis on reading, writing, listening, speaking, vocabulary building, and idiomatic self-expression. Introduction to works of several modern writers.

Credits 3

Prerequisites

SPN 102 or equivalent

SPN 202: Intermediate Spanish II

Review of grammar with emphasis on reading, writing, listening, speaking, vocabulary building, and idiomatic self-expression. Introduction to works of several modern writers.

Credits 3

Prerequisites

SPN 102 or equivalent

SPN 300: Spanish Field Experience

Spanish field experience provides opportunities for students to engage with the Hispanic community in Batesville. Spanish students will volunteer to assist students in ESL classes at UACCB, BHS, and The Ozark Literacy Project. Pass/Fail.

Credits 2

Prerequisites

SPN 201 or SPN 202

SPN 325: Spanish in the Community

Spanish in the Community is designed to develop the knowledge and skills required for effective communication in the target language. Students will collaborate with professionals to gain practical experience through a chosen service-learning site. In this setting, students will apply course materials (vocabulary, readings and activities) to tutor, interpret and translate on site.

Credits 3

Prerequisites

SPN 202

SPN 326: Introduction to Hispanic Literature

Introduction to Hispanic Literature introduces students to the formal study of Peninsular and Latin American literature through the study of some of its most representative works and periods. In this course, literature is an object of rigorous study that is accessed through the particularities of the genres studied and the tools provided by literary theory for its analysis.

Credits 3

Prerequisites

SPN 202

SPN 333: Advanced Grammar and Composition

In-depth examination of the elements of Spanish grammar with practice in written compositions and oral presentations.

Credits 3

Prerequisites

SPN 202

SPN 335: Hispanic Cinema

A selection of major films produced in Spain and Latin America that combines a verbal and visual experience. The course may vary in its selection of films, sometimes offering Peninsular films and at other times Latin American films or a combination of both. Students will learn historical developments of film in Spain and Latin America; analyze films from a critical perspective; and compare films with screenplays, novels, or short stories. This course can serve as either a Peninsular or Latin American advanced elective.

Credits 3

Prerequisites

SPN 202 or permission of instructor.

SPN 350: Methods of Teaching Spanish

Modern methods of instruction in foreign language and culture from middle school through high school with emphasis on materials, planning, and classroom techniques.

Credits 3

Prerequisites

Permission of instructor.

SPN 360: Hispanic Culture and Civilization

Cultural survey of Spain and Latin America emphasizing history, literature, and other arts. Taught in Spanish.

Credits 3

Prerequisites

SPN 202

SPN 370: Spanish American Short Story

An examination of the genre of the Latin American short story that alternates by semester between the short stories of the Peruvian Amazon region and the Southern Cone region (Argentina and Uruguay). The course will cover major authors, trends, and works of these respective regions. Taught in Spanish.

Credits 3

Prerequisites

SPN 202

SPN 382: Special Topics

Study of a major author or authors and their works. Taught in Spanish.

Credits 3

Prerequisites

SPN 202

SPN 399: Spanish International Studies Course: Variable Topics

Study of varying topics in Hispanic culture. Includes a 2-week Nichols trip to a Spanish-speaking country.

Credits 1

Prerequisites

SPN 102

SPN 415: U.S. Latino Literature

An examination of the literary works written by major authors from the three main Hispanic communities of the U.S.A.: Cuban-American, Mexican-American, and Puerto Rican. Students will read and analyze texts in different genres, such as theater, essay, short story, and novel. Students will write a research paper. Taught in Spanish.

Credits 3

Prerequisites

SPN 202

SPN 450: Independent Study

Concentrated study in selected fields.

Credits 1

-3

Prerequisites

Permission of instructor.

Theatre Arts

Professor: Fonzie Geary II

Associate Professor: Maggie Gayle

Dramatic art represents the culmination of all arts put forth for the purpose of advancing human interaction, reflecting and challenging broader culture, and fostering a firmer sense of the individual self. Students investing in the study of dramatic art will develop skills in oral communication, research methods, interpersonal relationships, and team building collaboration. In addition, students will develop skills in the critical evaluation of text and performance in a variety of perspectives including theoretical, cultural, and historical as a means of better understanding the world around them.

Theatre arts are required to participate in all Harlequin Theatre productions in some capacity.

NOTE

* Students may use THE 101 to satisfy core requirements.

NOTE: To graduate with a Bachelor of Arts or Bachelor of Science degree from Lyon College, students must successfully complete a minimum of 120 semester credit hours comprised of our required Core curriculum, the requirements of at least one major (credit hours vary per major), and a selection of our Liberal Arts electives. They must also earn at least a 2.00 cumulative grade point average for all work taken at Lyon College and a 2.00 cumulative grade point average in their major, minor, and concentration.

Theatre Arts Course Descriptions

THE 101: Introduction to Theatre

Survey of basic theatrical elements including acting, playwriting, directing, design, history, and dramatic literature that demonstrates the significance of theatre in society both Western and non-Western.

Credits 3

THE 104: Introduction to Technical Theatre

An introduction to technical theatre and set construction. Lectures provide background and theory; laboratory hours teach hands-on skills needed in the technical theatre environment including scenery, props, lighting, sound, design, and scene painting.

Credits 3

THE 204: Costume Tech

An introduction to costume technology. Lectures provide background and theory; laboratory hours teach hands-on skills needed in a theatrical costume shop including sewing, patterning and alterations.

Credits 3

THE 205: Theatre Design

An integrated overview of the theory and practice of design for the stage. Basic skills and crafts are emphasized as the building blocks for communication in theatre. Students will be introduced to and participate in the critique process, which teaches critical thinking and evaluation in order to improve the quality of student work.

Credits 3

THE 206: Scenic Painting

An introduction to scenic painting for theatre. This is practical training with hands-on experience in technique. Students will be learning the process of painting a show through planning, research, color mixing, scenic painting techniques, and even how to clean up.

Credits 3

THE 210: Theatre Practicum

Practical work on a Harlequin Theatre production as actor, backstage technician, or front of house personnel. No previous theatre experience required. Assignments are made by the instructor during the term student is registered. Maximum credit allowed for graduation is 4 credits. (200-level credits must be completed before 300-level credits)

Credits 1

THE 212: Theatre Practicum

Practical work on a Harlequin Theatre production as actor, backstage technician, or front of house personnel. No previous theatre experience required. Assignments are made by the instructor during the term student is registered. Maximum credit allowed for graduation is 4 credits. (200-level credits must be completed before 300-level credits)

Credits 1

THE 213: Fundamentals of Voice and Diction

Study of the process for improvement of voice production, vocal placement, and diction through the use of vocal exercises and readings from dramatic and non-dramatic literature.

Credits 3

THE 232: Acting I

This course serves as an introduction to Stanislavski-based theories, techniques, and repetition practices of acting. The training centers upon the Meisner technique. Students will learn the basic Meisner components beginning with repetition and continuing through doors and activities, followed by beginning scene work.

Credits 3

Prerequisites

THE 101

THE 301: Modern Drama

A seminar-based course that examines Western playwrights from George Buchner (1835) to the present through reading and discussion. The seminar will vary from a survey to a concentration on selected playwrights.

Credits 3

THE 310: Theatre Practicum

Practical work on a Harlequin Theatre production as actor, backstage technician, or front of house personnel. No previous theatre experience required. Assignments are made by the instructor during the term student is registered. Maximum credit allowed for graduation is 4 credits. (200-level credits must be completed before 300-level credits)

Credits 1

THE 312: Theatre Practicum

Practical work on a Harlequin Theatre production as actor, backstage technician, or front of house personnel. No previous theatre experience required. Assignments are made by the instructor during the term student is registered. Maximum credit allowed for graduation is 4 credits. (200-level credits must be completed before 300-level credits)

Credits 1

THE 333: Acting II

This course serves as an extension of skills and concepts learned in THE 232. Students will learn more advanced components of the Meisner Technique such as Spoon River and more in depth character and script analysis. In addition, students will gain exposure in studying other major acting theorists and practitioners such as Adler, Strasberg, and Hagen.

Credits 3

Prerequisites

THE 232

THE 340: Playwriting Workshop

An intensive writing workshop exploring the art of writing a play. Students will learn the art of rewriting, as well as the art of writing a play. Prerequisite THE 101 or permission of instructor.

Credits 3

THE 353: Principles of Directing

The process of directing for the stage through the study of script analysis and the presentation in class of scenes from plays directed by the student.

Credits 3

Prerequisites

THE 101

THE 382: Special Topics in Theatre

Study of selected topics in theatre. Prerequisites will vary.

Credits 3

THE 383: World Theatre History

Survey of world theatre from its ritualistic beginnings to the present day. It will include readings of selected plays from world cultures. (Same as HIS 383)

Credits 3

Prerequisites

THE 101

THE 399: Theatre International Studies Course: Variable Topics

Study of varying topics in theatre. Includes a 2-week Nichols trip. Prerequisites will vary.

Credits 1

THE 450: Independent Study

Directed study in special areas of theatre.

Prerequisites

Permission of instructor.

THE 480: Senior Capstone

Students will design and produce, with guidance from theatre faculty, a theatre project independent of the program's mainstage productions with the goal of showcasing the knowledge acquired during their course of study in theatre.

Credits 3

Prerequisites

THE 210 OR THE 212

THE 232

THE 310 OR THE 312

and Senior Standing

Campus Life

Student life at Lyon College is infused with a strong sense of community, enriched by the Honor and Social Systems, which afford students a great measure of personal freedom while requiring of them an equal measure of responsibility. A supportive campus culture provides an excellent backdrop for the College's campus life programs, designed to encourage learning, growth, participation, and leadership. Within the College community, the role of the student life staff is to foster an atmosphere in which learning and growth are primary emphases. Lyon's student life programs are geared toward the development of the whole person, with attention to the intellectual, emotional, social, physical, and spiritual dimensions of learning and maturing.

Lyon students take active roles in all aspects of college life. The Student Government Association gives students a voice in shaping institutional goals and priorities. Through the Honor and Social Systems, students take responsibility for maintaining the highest standards of integrity and responsibility within their Community.

Social life on the campus is active and varied. Lyon students are inventive and energetic in their social and recreational pursuits, and an extensive program of student activities offers entertainment, participation, cultural diversity, recreation, and collegiality. Lyon students also participate in a variety of campus organizations. Clubs, societies, and special interest groups bring faculty, staff, and students together to explore shared interests. Publications and artistic opportunities provide students with creative outlets. The LEAP allows students to take full advantage of Lyon's location in the Ozarks. Lyon is the only private college in Arkansas that sponsors national sororities and fraternities.

There are numerous opportunities for spiritual growth and service at the College. Weekly worship services are available on campus, and area places of worship welcome Lyon students. The college chaplain works with Campus Ministries to provide leadership and direction to campus religious activities centered around worship, study, fellowship, service, and spiritual development.

Campus life is an important dimension of the educational experience at Lyon. It exposes students to

a diversity of persons, opinions, and lifestyles and provides them with daily opportunities to play productive roles in the life of an active community of learners.

The Honor and Social Systems

Lyon students commit themselves to high standards of personal integrity through the Honor and Social Systems. These incorporate an honor pledge, a code of honorable conduct, standards of student behavior, and a series of procedures carried out by the Honor and Social Councils, which are chosen by the student body. Beginning in the 1920s, students and faculty experimented with an honor system, but this experiment was abandoned after World War II. The Lyon College Honor System was re-established in 1992, when the college community voted to adopt a new system, reaffirming the institution's commitment to standards of honor.

The Honor System is based upon the belief that Lyon undergraduates are mature individuals, capable of acting honorably in academic matters without faculty surveillance, and that they should be encouraged to take responsibility for their own conduct as individuals and as a community. By signing the Lyon College Roll of Honor, students commit themselves to the ideals embodied in the Honor System—integrity, responsibility, and a regard for others—and recognize their own responsibility to assist in maintaining an environment in which honorable conduct is expected.

The Social System was developed in 1994 as an outgrowth of the Honor System and in keeping with the philosophy that students should assume a significant role in shaping their lives at Lyon. The system establishes a code of conduct by which Lyon students agree to abide.

The Social System is maintained and administered by students through the Social Council, made up of 19 students. The Council's responsibility is to uphold the College's Social System and to uphold the rights of each student during investigations and hearings. The Council investigates allegations, conducts hearings when necessary, and may impose penalties up to and including expulsion. The full text of the Standards of Student Behavior is in the Student Handbook.

The Lyon College Honor Pledge

"I will abstain from all fraud in academic work. I will neither give nor receive aid on any form of test or assigned work where such aid is prohibited, nor tolerate this conduct in any member of the community. I will deal responsibly with such acts when I observe them. By my conduct and influence, I will endeavor to build a high standard of honesty and truthfulness in all academic Work."

The Honor System is maintained and administered by students through the Honor Council, made up of 22 students. The purpose of the Honor Council is to foster a spirit of honor on campus and to hear and act upon alleged violations of the Honor Code.

The Honor Council is empowered to try students who are accused of Honor Code violations and, in the event of a conviction, to impose penalties up to and including expulsion from the College.

The full text of the Honor Code is found in the Student Handbook.

Residence Life

The integration of academics and co-curricular life is embodied in the design of the residential life program at Lyon. On-campus residence life is designed around small group living, with each residence area under the leadership of resident directors and resident assistants. Group activities and programs to support personal development—with an emphasis on intellectual, social, emotional, physical, and spiritual growth—are a part of the residential life program.

Two Faculty/Staff Resident Mentors live on campus and design programs to integrate the academic and co-curricular aspects of campus life: Young House (established in 1993) and Spragins House (established in 1997).

Single, full-time students under 21 years of age and living 45 or more miles from the Lyon campus are required to reside on campus. Single, full-time students under 21 years of age may commute daily from the home of their parents or legal guardians if within 45 miles of the campus. Students who are veterans, reside with their spouse, or are 21 years of age or older may reside off-campus provided that they

have submitted an application to live off-campus to the Office of Student Life prior to the assignment of on-campus housing. All students living in College residences are required to have a campus meal plan. Exceptions to these policies must be approved by the Dean of Students. See the Student Handbook for more information on rules and regulations pertaining to residence life.

Edwards Commons

Edwards Commons is the central gathering and programming space for students, student activities, recreation, and campus dining. Completed in August 2012, Edwards is one of the newest campus buildings. It contains the Scot Shop, student mailboxes, the dining room, the Lyon Den, student programming spaces, a multipurpose game room, a cardio exercise room; conference rooms, the counseling center, and the Office of Student Life.

Campus Organizations

Clubs, societies, and special interest groups abound at Lyon. Existing organizations are evaluated each year to ensure continued alignment with the College's values. Students may propose new organizations of interest by following the procedures outlined in the Student Handbook.

The Student Activities Council (SAC) provides activities and diverse entertainment for students, faculty, staff, and the surrounding community. SAC brings comedians, novelty performers, and musical groups to campus and works to uphold campus traditions and establish new ones. It also plans various other opportunities and activities. Through its programs, SAC promotes cross-campus involvement and unity as well as enrichment of the liberal arts education.

Greek System

One-third of the students living on campus belong to Greek social organizations: Alpha Xi Delta, Chi Omicron, Kappa Sigma, Phi Mu, Tau Kappa Epsilon, and Zeta Beta Tau. Fraternities and sororities play an important role in providing an active social climate for the campus. They also emphasize service to the College and the community.

Honor Societies

Alpha Chi (juniors and seniors whose GPAs rank in the top 10%) heads the list of academic honor societies at Lyon. Others include Alpha Lambda Delta (freshmen whose GPAs rank in the top 20%), Alpha Psi Omega (national dramatics fraternity), Chi Beta Phi (national scientific honorary fraternity), Kappa Delta Pi (national education honorary fraternity), Kappa Pi (international honorary art fraternity), Omicron Delta Epsilon (economics honorary fraternity), Phi Alpha Theta (national history honor society), Phi Sigma Tau (national philosophy honor society), Sigma Beta Delta (business, management and administration majors), Sigma Delta Pi (national Spanish honor society), Psi Chi (psychology majors), Sigma Tau Delta (national English honor society) and Theta Alpha Kappa (national religion honor society). The College also sponsors Mortar Board, the National Honor Society for college seniors.

Student Government

The Student Government Association (SGA) gives Lyon students a voice in shaping institutional priorities. Students present their ideas, opinions, and concerns and become involved in the development of college policies. Through its budgetary resources, the SGA has a direct influence on the quality of campus life by providing programs, co-sponsoring others, and appropriating funds to support various student initiatives in strengthening the quality of campus life.

The four executive officers of the SGA—the president, vice president, secretary, and treasurer—are elected by a vote of the student body. The SGA officers, along with elected representatives of all campus residences, commuter students, elected representatives of each class, and various appointed representatives make up the Student Assembly, a student organization responsible for legislating issues of student life and an important element in the College governance system.

Every student admitted to Lyon is a member of the SGA. Students are encouraged to vote in elections and to convey their opinions and concerns to their representatives, who work with the administration to plan activities and strengthen student life at the College. The SGA Constitution and Bylaws can be found in the Student Handbook.

LEAP

The Lyon Education & Adventure Program (LEAP) provides opportunities for students, faculty, and staff to have fun, learn, grow, and develop outdoor skills, leadership skills, and an appreciation for the environment. This program takes advantage of the ready accessibility to the many opportunities afforded by Lyon's location in the foothills of the Ozark Mountains.

Outdoor recreation trips are at the forefront of the program along with workshops and clinics to learn new skills in the outdoors and apply them to the classroom and life. LEAP also offers a leadership development program designed to put students in leadership roles, allow them to practice their decision-making skills, and experience self-discovery, confidence, and other leadership skills. Students can also attend skill workshops and become co-leaders on outdoor trips. They can progress through the program to become a full trip coordinator and then eventually plan and run trips themselves. This responsibility requires a commitment to the program and some additional medical training and competence.

Outdoor recreation trips are open to all students. There is a selection process for participation in the leadership development program.

Campus Ministry & Service

Campus Ministry and Service is based on the conviction that opportunities for religious expression, the search for moral values, and responsible community involvement are fundamental to education.

Programming offers a broad spectrum of activities and experiences designed to inspire life-long religious inquiry, faith dialogue, community service, and personal growth in a way that is relevant to campus life as well as to the concerns of society and the global community. Weekly chapel services offer the College community worship opportunities and a forum for the development of worship leadership skills and tools for discerning a vocational call. Participation in these activities is voluntary. Under the direction of the campus chaplain, Lyon Campus Ministries sponsors special events, fellowship activities, and service projects.

Student Publications

Students interested in writing, editing, design, photography, advertising, and publishing have the opportunity to work on the campus newspaper, *The Highlander*.

Students under the guidance of a student publications board produce these publications. The Highlander plays an important role in informing the college community and exploring the range of opinions on campus issues.

The Scottish Heritage Program

Founded by Presbyterians in 1872, Lyon College has, over the years, celebrated its Scottish heritage in many ways. From the choice of its athletic mascot, the Scots, the College has developed a distinctive and multifaceted program that is known and respected throughout the United States, Canada, and the United Kingdom. In addition to an international prize-winning pipe band, Lyon's Scottish heritage is promoted through a Scottish arts bagpipe minor, college credit courses in Highland dance and drumming, and an instructional outreach program. Our unique Lyon College tartan is registered in Scotland.

From the humble beginning of three members, the Lyon College Pipe Band has grown into a highly competitive group. The band earned the distinction of placing second in its grade at the 2001 World Pipe Band Championships in Glasgow, Scotland. The College offers Scottish Heritage scholarships to pipers, drummers, and dancers, within a range of skill levels.

Founded in 1979, Lyon College's annual *Arkansas Scottish Festival* combines a three day Scottish festival with games, music, and food, with the College's fall homecoming celebration, and has become one of the best known Scottish festivals in the south, with thousands of attendees each year.

Opportunities in Music

Lyon College students enjoy a range of opportunities to express and explore their love of both vocal and instrumental music.

The Lyon College Concert Chorale is open to any interested student who passes a brief audition. The Choir performs a wide variety of literature, ranging from larger choral-orchestral works to folk songs and spirituals. The Concert Chorale presents several on-campus performances each year, including two large-scale concerts, as well as the annual Christmastime Festival of Carols service. Students involved in instrumental ensembles experience travel and enrichment through performance. All band members are an integral part of the college community supporting athletics, special events, and promoting Lyon College throughout the state, region, and nation.

The Lyon College Gospel Choir is a vocal ensemble open to students and community members regardless of their faith. The ensemble performs a variety of song forms drawn from the African American religious tradition, including traditional and contemporary gospel, anthems, and spirituals. The choir is devoted to using its art not only to entertain but also to worship.

Opportunities in Theatre

Harlequin Theatre, the oldest collegiate theatre organization in Arkansas, presents major productions in the fall and spring. Students from all disciplines are welcome to participate as actors, technicians, and designers. The completion of the Holloway Theatre in 1991 provided the Harlequin Theatre with a space designed to meet the diversified needs of modern collegiate theatre.

Theatre at Lyon is part of the liberal arts educational process. Students are given opportunities to act, direct, design, and write plays. Every year select students attend and often compete at the Region VI Kennedy Center American College Theatre Festival.

Cultural Events

To support the broadening influence of the liberal arts curriculum, Lyon College provides its students with a variety of cultural events each year, ranging from lectures to art exhibits to concerts to films to theatre.

Such ongoing series as the Hugh B. Patterson Endowed Lecture Series, the Ashley-Lewis Endowed Concert and Recital Series, the Dan C. and Sidney Childs West

String Music Endowment, and the Leila Lenore Heasley Prize Lecture support the College's efforts to provide an environment rich in cultural offerings.

Athletics

Intercollegiate Athletics

The intercollegiate athletic program at Lyon College provides student athletes with experienced coaching, appropriate facilities, and challenging competition.

Women's varsity teams at Lyon compete in basketball, cross country, golf, soccer, softball, volleyball, and wrestling. Men's varsity teams compete in basketball, baseball, cross country, golf, football, soccer, and wrestling.

The Scots are student-athletes, recruited both for academic promise and athletic excellence. Students may try out for these teams and for the varsity cheerleading squad that provides them with support. As a member of the St. Louis Intercollegiate Conference - National Collegiate Athletic Association Division III (NCAA D3), the intercollegiate athletic program at Lyon is governed by regulations of the conference and the NCAA D3.

Varsity athletic facilities include Becknell Gymnasium, home to Lyon basketball and volleyball; Gillam Family Athletic Complex, home to Lyon baseball, football, and wrestling; soccer and softball fields; lighted tennis courts; and a cross-country course.

Athletic Eligibility

To participate in intercollegiate athletics, a student must:

1. be enrolled in at least 12 credit hours at Lyon College,
2. have a cumulative Lyon College GPA of at least 2.000,
3. have passed at least two-thirds of credit hours attempted at Lyon College during the previous two full-time semesters (at least one fall & one spring semester) at Lyon College, inclusive of any summer classes taken during the previous academic year of attendance at Lyon College (note that grades of F, W, AW, I, FL, WP, and WF do not count as passing, and see Academic Terms on page 13 for the definition of an academic year that includes fall, spring, and summer terms).

Criterion 2 and 3 do not apply to first-time or transfer students who have not yet completed at least one fall and one spring semester at Lyon College. See Categories of Entrance to Lyon College on page 302 for definitions of student types.

A student may compete while enrolled less than full-time, provided the student is enrolled in the final semester of the baccalaureate program and the College certifies that the student is carrying (for credit) the courses necessary to complete degree requirements.

The GPA used in eligibility determination of FTFT and transfers will be calculated after two full-time semesters (at least one fall & one spring semester) at Lyon College. The GPA used in eligibility determination for returning students who have completed two full-time semesters or more of attendance at Lyon College will be calculated at the end of each academic term (semester).

If a student-athlete is unable to complete their academic work in any full-time term of attendance and is approved for a medical withdrawal, the courses from which they are withdrawn at that time will not count towards attempted hours for athletic eligibility. The students must have consulted with the dean of students plus received written permission from the provost and the dean of students for a medical withdrawal to be approved.

Once the certification of eligibility decision has been made, a student must be eligible or cease all participation in intercollegiate athletics competitions until the next subsequent certification period. A student becomes immediately ineligible during a semester if he or she drops below 12 enrolled credit hours.

A student-athlete deemed ineligible may practice, but by NCAA rules, the student will be charged a season of competition if they practice on/after the first competition date in their sport.

Intramural Athletics

The intramural athletic program at Lyon is an integral part of campus life. In addition to providing an opportunity for students to build healthy and active lifestyles, physical skills, and good sportsmanship, the program provides a frequent and natural occasion for camaraderie and fun.

The program offers an extensive schedule of competitions. Teams and individuals participate in flag football, basketball, softball, tennis, volleyball, badminton, free throw shooting, table tennis, miniature golf, horseshoes, campus golf, and a variety of special competitions.

Facilities for recreational athletics include an auxiliary gym, basketball courts; a weightlifting and fitness area; an aerobics gym; lighted tennis courts; an outdoor walking track; fields for football, soccer, and softball; and a sand volleyball court.

Student Life

Counseling

Lyon College counseling is committed to helping all students achieve maximum benefit from attending Lyon. A full-time licensed professional counselor provides both counseling and consultation services to students. These services strive to meet the psychological needs of students by providing a safe, supportive, and confidential environment that empowers students to explore personal and interpersonal concerns. For most students, the college years represent many unique challenges. This time is one of significant personal exploration, growth and decision-making regarding one's values, interpersonal relationships, and life goals, all within a challenging academic environment.

Students can be seen individually for appointments at no cost to the student. Educational programs relating to mental health issues also offered through this office. Various resources provided by this office include books, videos and pamphlets on a variety of topics and a website with links on a multitude of mental health issues. Local community resources are also available to students through referral by the college counselor. Any costs associated with the use of community resources are the responsibility of the student.

Testing

Lyon serves as a national test center for the American College Test (ACT), Scholastic Assessment Test (SAT), The Praxis Series: Professional Assessments for Beginning Teachers (PRAXIS I and II), and ACCUPLACER.

Campus Safety

Professional safety personnel provide security service 24-7. Campus Safety officers enhance the safety of people and property on campus, interact with students to increase their awareness of security and safety issues, assist with energy conservation, and help maintain college policies.

TRIO Programs

The College hosts two Upward Bound programs, which assist selected area high school students in preparing for college and provide Lyon students opportunities to serve as mentors, counselors, and tutors. The APPLE Project serves students throughout the school year and during a summer residential session. The Upward Bound Math/Science Program provides a summer enrichment program with emphasis in math and science and a limited academic-year component, administered primarily by e-mail and mail to students in selected Arkansas high schools.

Admission and Financial Aid

Admission to Lyon College

Lyon College seeks to enroll students who can contribute to and benefit from the education the College offers. The College draws students from a variety of educational and social backgrounds. Students with lively intellects, a strong work ethic, a capacity for leadership, good character, and emotional maturity will find Lyon to be a supportive and fulfilling environment.

Lyon reviews applicants and admits students prepared for an academically rigorous environment and demonstrating strong leadership and activity experience. Because the academic preparation of students in high school or college is so important in developing their capacity to succeed at Lyon, the enrollment services office, in reviewing applicants' admission materials, pays close attention to the quality of the curriculum available to and taken by them.

Lyon expects students to demonstrate their seriousness of purpose by participating in a college preparatory curriculum throughout their high school careers. Prospective students are encouraged to take advantage of the challenging curriculum that is available to them. Ordinarily, qualified high school applicants for admission are recommended to take at least 15 high school units in the following subjects: English (4 units); mathematics, including algebra I and II and geometry (3 units); social studies (3 units); natural sciences, including, if possible, one lab science (3 units); and foreign language (2 units). Lyon strongly recommends applicants to take a challenging curriculum in the twelfth grade, including mathematics and science courses and, if possible, a foreign language at a level beyond the second year.

A high school diploma is expected of matriculants to Lyon College. Applicants who have earned a General Education Development (GED) certificate in lieu of a high school diploma must submit GED scores with their applications. A minimum GED score of 165 is required.

Lyon College respects the high school experience as

reflected in official transcripts and therefore admits students on a test-blind basis. ACT and/or SAT, or Accuplacer scores can be submitted to enhance an application if desired and to aid the College in determining financial aid awards and course placement. Admission is not limited by age, race, gender, disability, sexual orientation, or national origin of the applicant.

Admission to Lyon College does not discriminate on the basis of race, color, ethnicity, national origin, religion, creed, sex, age, marital status, parental status, physical disability, learning disability, veteran status, or sexual orientation in the administration of its educational or admissions policies, scholarships and loan programs, and athletic and other college-administered programs.

Categories of Entrance into Lyon College

Students may apply to Lyon College as degree-seeking or non-degree-seeking students. A student in either category may apply as a full-time (not less than twelve semester hours) or part-time (fewer than twelve semester hours) student. Degree-seeking students may apply for entry in the fall or spring semester, although it is more common for them to enter Lyon in the fall; degree-seeking students who wish to integrate the RN to BSN or MAT programs may also apply for entry in the summer; non-degree-seeking students may apply for entry in the fall, spring, or summer term. Only degree-seeking students (full- or part-time) are eligible for financial aid. A degree-seeking incoming student can take developmental classes (ENG 001 and MTH 001) at Lyon in the summer prior to their first semester at the College, as those classes do not carry college credit.

A degree-seeking student who has earned a high school diploma or a GED certificate but has not enrolled full-time as a degree-seeking student at another institution of higher learning prior to enrolling at Lyon is classified as a first-time student. College credits earned before the student has completed their high school diploma or GED do not change a student's classification as a first-time student. A degree-seeking student who has earned a high school diploma or a GED certificate and afterwards has enrolled full-time as a degree-seeking student at another institution of higher learning prior

to enrolling at Lyon is classified as a transfer student. A student who enrolled at Lyon as a degree-seeking student withdrew prior to completing a baccalaureate degree, and seeks readmission as a degree-seeking student may be classified either as a transfer student or as a readmitted student, depending on circumstances.

Professional and graduate students are degree-seeking students who have earned a baccalaureate degree from an accredited institution and are enrolled in one of Lyon College's graduate or professional programs.

There are also several categories of non-degree-seeking students. An auditing student is one who only enrolls in one or more courses without receiving credit. A post-baccalaureate student is a full- or part-time student who already holds a baccalaureate degree from an accredited institution. A transient student is a student who is pursuing a degree at another institution of higher learning while taking courses at Lyon.

Application Procedures

All persons wishing to enroll at Lyon College must submit a completed application to and be accepted for admission by the enrollment services office.

Applications are considered on a rolling basis. The final application deadline is normally two weeks (14 calendar days) prior to the first day of an academic term.

Students applying for admission must submit the following application materials.

I. First-year students

A. An application for admission.

B. Either an official high school transcript from each high school attended or a GED certificate (minimum score of 165). A minimum 3.0 GPA (on a 4-point scale) in the core academic courses such as mathematics, English, history, and the sciences is expected.

- Students wishing to transfer Advanced Placement (AP) or International Baccalaureate (IB) credit may do so in accordance with College guidelines, upon receipt by the registrar of an official

transcript issued by the College Board (for AP credit) or International Baccalaureate.

- First-year students who have taken any college coursework must also submit an official academic transcript from those institutions for evaluation for transfer credit. First-year students wishing to transfer credit from another college should refer to the "Academic Rules and Regulations" section for the institutional policy on accepting transfer credits.

Applicants whose high school GPA is less than 3.0 will undergo a careful, holistic review by the Admissions and Financial Aid Committee to determine admission.

II. Transfer students

A. An application for admission.

B. Official college transcripts from each college attended. This must include evidence of good academic and social standing at the last institution attended. A minimum 2.5 GPA (on a 4-point scale) in core academic courses such as mathematics, English, history, and the sciences is expected. Refer to the "Academic Rules and Regulations" section for the institutional policy on accepting transfer credits.

C. Applicants with coursework earned at non-accredited institutions will be asked to verify transferable credits via placement tests. Students wishing to transfer Advanced Placement (AP) or International Baccalaureate (IB) credit may do so in accordance with College guidelines, upon receipt by the registrar of a transcript issued by the College Board (for AP credit) or International Baccalaureate.

D. Official high school transcripts if the applicant graduated high school in the last three years or the applicant has attempted less than 12 hours of college credit.

III. International students

A. Lyon College application for admission.

B. One of the following test scores: Official ACT, SAT, TOEFL (minimum 79), iTEP (minimum 3.8),

Duolingo (minimum 105), or IELTS (minimum 6.0).

C. Proof of graduation from secondary school, certified by an NACES agency (if applicable).

D. Official transcripts from any non-US college or universities attended, evaluated by an NACES agency.

E. Official transcripts from any US schools and/or universities attended.

IV. To be unconditionally admitted to the MAT program, candidates must meet the following requirements:

1. Submit a completed graduate student application form.
2. Provide an official transcript demonstrating the completion of an undergraduate degree in an eligible discipline from an accredited college or university with a cumulative GPA of 2.75 or higher on a four-point scale or a GPA of 3.0 in the last 60 hours of coursework. If applicable, candidates must also submit official transcripts for any graduate coursework completed.
3. Submit passing scores on the Praxis subject area exam for the desired teaching license.
4. Provide three references. Two references must be professional in nature.
5. Provide a professional goals statement and rationale for seeking admission to the program.
6. Sit for an interview (virtual or in-person) with the admissions committee

Candidates may be conditionally admitted under the following conditions:

- The cumulative undergraduate GPA is 2.5 or higher with a GPA of 3.0 or higher on at least 30 credit hours of coursework in the intended teaching discipline.
- Praxis subject area scores provided are near passing [within two Standard Errors of Measurement (SEM) of the state-required cut score]. Candidates must submit passing scores on all required testing prior to recommendation for licensure.

Prior to placement in an internship classroom, candidates must submit to a criminal history check (Arkansas State Police, FBI, and Arkansas Child Maltreatment Central Registry).

V. Students seeking readmission

A. An application for readmission.

B. Official transcripts of any college work attempted in the period of absence.

C. Students seeking readmission are required to provide a statement outlining their reasons for withdrawing and for seeking to re-enroll and presenting a case that they can succeed at Lyon if readmitted. The enrollment services office may ask applicants to supply additional information or documentation in support of the statement.

VI. Non-degree seeking students

Students applying for admission as non-degree seeking students must submit a Non-Degree Seeking Student Application, obtained from the enrollment services office, and any supporting materials requested.

Enrollment Procedures

New degree-seeking full-time students must submit a non-refundable \$250 enrollment deposit. Offers of admission may be held open until May 1, the Candidate's Common Reply Date as agreed upon by the National Association of College Admission Counseling.

Prior to the first day of class at Lyon, students are required to submit their final, official transcript(s) from any high school, college, or other educational institution they have attended. Final high school transcripts must include the graduation date. Any health records required by the state of Arkansas must also be submitted by that time. Students that do not submit these required items may be placed on an academic hold. If a student's final transcript demonstrates a level of academic achievement that is markedly below that established at the time of admission—or below a "C" average for the final term before transfer to Lyon—the College reserves the right to revoke its offer of admission.

TEC - Transfer and Exchange Collaboration

Lyon College and the University of Arkansas Community College at Batesville (UACCB) are committed to providing educational opportunities for the citizens of Batesville and the surrounding region. To fulfill this commitment, the two institutions have created the Transfer and Exchange Collaboration (TEC).

To be eligible for TEC, students must be full-time (12 hours at their home institution), have the support of the chief academic officer at their home institution, and meet any prerequisites for the course or courses they wish to take at the other institution. Students' tuition at their home college will cover coursework taken at the host college.

Articulation Agreements

Lyon has articulation agreements with Ozarka College in Melbourne, Arkansas State University-Beebe, Arkansas State University-Newport, Northwest Arkansas Community College, and the University of Arkansas Community College at Batesville that allow students who complete all or a significant portion of the Associate of Arts degree at those institutions to transfer easily to Lyon. Satisfactory completion of an Associate of Arts (A.A.) degree at these two-year colleges with at least 60 hours of transferable coursework will guarantee junior standing at Lyon. Remedial courses are not transferable toward a Lyon degree.

In order for coursework to transfer to Lyon, the student must have earned at least a "C" in all courses used to satisfy Lyon's degree requirements.

High School Concurrent Opportunity

The High School Concurrent opportunity allows local high school rising juniors and seniors with a cumulative 3.25 high school GPA or 20 ACT composite score to enroll in up to five Lyon courses (maximum of 20 total credit hours) at a reduced price per class (excluding lab and course fees) before they graduate from high school. Concurrent student prices apply to

all Lyon fall, spring, and summer courses, depending on availability and academic eligibility. To apply to the program, students need only inform the enrollment services office of their interest and submit Non-Degree Seeking Applications along with qualifying transcripts and/or ACT scores.

Financial Information

Lyon College is committed to making an educational experience of the highest quality available to qualified students. Tuition and fees account for about 45 percent of Lyon's educational investment in its students. With a combination of affordable costs, extensive merit-based scholarship and financial aid programs, and academic programs of quality, Lyon has been regularly recognized as one of higher education's best bargains among private, selective liberal arts colleges.

Fees for 2025-26

The following summary outlines the basic charges by semester and year for the 2025-26 academic year.

Regular Undergraduates	Semester	Year
Tuition * (12-17 credits)	\$14,950	\$29,900
Housing	\$2,885	\$5,770
Dining Plan	\$2,490	\$4,980
Student Activity Fee	\$120	\$240
Technology Fee	\$500	\$1000
Campus Enhancement Fee (Not applicable to FT Freshmen)	\$75	\$150
Total basic cost for typical student	\$21,020	\$42,040

Tuition per credit:*	
Overload, more than 17 credits	\$800
More than 5 credits, fewer than 12 credits per semester	\$930
5 credits or fewer	\$475
New Student Orientation Fee	
Freshmen & Transfers - Applied first semester	\$150
International Students - Applied first semester	\$250

Deaf Education Certificate	\$410 /credit hour
Masters of Arts in Teaching	\$410 /credit hour
RN to BSN	\$335 /credit hour

Residential Housing Options* (Annual Rates)	Hall	Double	Single
Standard Housing	Blandford Hall Bryan Hall Hoke-McCain Hall Love Hall Spragins Hall	\$5,770	n/a
Premium Housing	Brown & Barton Apartments McRae Hall Whiteside Hall Wilson Hall Wilson & Rogers Hall	\$6,800	n/a
Pet Friendly	Bryan Hall	\$6,800	n/a

Other Housing	Sturbridge (Single Bedrooms) Townhouse	n/a \$10,000	\$10,000 \$12,000
---------------	---	-----------------	----------------------

Residential Dining Options*		Semester	Annual
Unlimited Plan	Unlimited Meals + \$100 Flex per semester	\$2,880	\$5,760
18 Meals–Premium	18 meals/week + \$100 Flex per semester	\$2,780	\$5,560
18 Meals	18 meals/week + \$15 Flex per semester	\$2,705	\$5,410
14 Meals–Premium	14 meals/week + \$125 Flex per semester	\$2,580	\$5,160
14 Meals (Base)	14 meals/week + \$25 Flex per semester	\$2,490	\$4,980
10 Meals–Premium	10 meals/week + \$135 Flex per semester	\$2,430	\$4,860
10 Meals	10 meals/week + \$35 Flex per semester	\$2,390	\$4,780
Commuter Dining Options*		Semester	Annual
Commuter Meal Plan–Premium	5 meals/week + \$100 Flex per semester	\$1,000	\$2,000
Commuter Meal Plan	5 meals/week + \$50 Flex per semester	\$950	\$1,900
<i>Note: Commuter options are only available for non-residential students</i>			

Presidential Scholars (per credit)	\$140
---	-------

Summer School Fees (2024)	
Tuition per credit	\$250
Room per summer sub-term (students taking classes)	\$600
Room per summer sub-term (students performing research)	\$0

**The College reserves the right to increase this charge if an increase in food or utility costs should demand.*

Other Fees and Deposits

Non-refundable Enrollment Deposit: \$250

A deposit is required of all students who have been accepted for admission. \$150 is credited toward the student's account upon registration for the academic term. For new students, the confirmation deposit also serves as the \$100 damage deposit. Upon leaving Lyon, the damage deposit will be applied to the student's account first then any credit balance refunded on request.

International Student Health Insurance: \$1,200 per year

All international students attending Lyon are required to have active health care and accident insurance. Recognizing the various forms of foreign health care programs, the College has available a health care plan that is designed to meet the needs of international students. International students who have active coverage through other healthcare plans will have the opportunity to waive the College plan. International students not covered by such plans will be required to participate in the College plan to be billed at the rate of \$600 per semester. The College plan is provided by an independent insurance agency. The price is subject to change.

Tuition/Room and Board Refund Insurance

- \$161.00 (Commuters)
- \$214.50 (Residential Students)

Lyon has available, through a private company, a tuition refund plan. This is an insurance policy designed to return to the student's account 70% of tuition, room, and board charge when a student must withdraw from a semester due to medical reasons. The cost of coverage is 1.05% of the student's total tuition, room, and board costs. Specifics are included with each semester's billing. Those who do not wish to participate in this program will have the opportunity to waive the coverage by the first week of class.

Transcript Fees:

Online—Electronic: \$10.65 (+ processing fee)

Online—Paper: \$12.80 (plus postage)

Credit by Examination: \$475/credit hour

Returned Check Charge: \$30

Commencement Fee (Graduating seniors): \$190

Audit Fee (per credit): \$100

Individual Music Lessons*: \$280 / credit hour

**Course fees listed on schedule with each specific course.*

In addition, students should expect to budget at least \$1,000 for books and supplies during the school year.

Payment of Student Accounts

Student fees are due and payable at the beginning of each semester before completion of registration and admission to classes. A bill is mailed approximately one month before the beginning of each semester so that students may pay semester charges prior to formal registration. Students who have not made satisfactory payment arrangements, i.e. cleared the business office, by the beginning of classes will be regarded as delinquent. A delinquent student account is subject to penalties as listed in the Student Handbook. Summer school charges are due before the beginning of class.

There are two payment options offered at Lyon College:

1. Term bills may always be paid in a lump sum at semester's beginning. These payments can be made through the Lyon College cashier 870.307.7322 or via Nelnet. There are no additional fees with this option.
2. Lyon College partners with Nelnet Business Solutions (NBS) to offer payment plans to students for tuition and fees. These payment plans make paying for your education more affordable as they offer you the opportunity to spread payments over time. These plans are interest free; however, there is a \$50.00 per semester administrative fee payable to Nelnet. Several plans are available so you can choose the one that best fits your needs.

Payment Plan Enrollment Deadlines

Fall 2025

Full payments may be made on Nelnet's e-Cashier through August 22, 2025.

Last day to enroll online	Required down payment	Number of payments	Months of payments
July 2	None	5	July–November
August 1	None	4	August–November
August 22	25%	3	September–November

Spring 2026

e-Cashier available on November 17, 2025.

Full payments may be made on e-Cashier through January 16, 2026.

Last day to enroll online	Required down payment	Number of payments	Months of payments
December 3	None	5	December–April
December 31	None	4	January–April
January 15	25%	3	February–April

NOTE: All down and full payments are processed immediately!

As a payment reminder, Nelnet will email monthly statements to all students who have chosen a payment plan via Nelnet.

Refund Policies

Refunds for students officially withdrawing from college during the 2025-26 academic year will be made as follows:

Before the first day of class, there will be a 100% tuition refund. From the first day of class to the end of the first week of classes there will be an 80% tuition refund. From the end of the first week to the end of the second week of classes there will be a 60% tuition refund. From the end of the second week to the end of the third week of classes there will be a 40% tuition refund. From the end of the third week to the end of the fourth week of classes there will be a 20% tuition refund. From the end of the fourth week and thereafter there will be no refunds. Refunds are not applicable for summer terms or any other short term class.

If the student withdraws during Lyon's refund period, all of the student's institutional scholarships and grants will be returned to his/her sources on a basis consistent with the College's refund policy. For example, a student who withdraws and receives an 80% tuition refund will receive 20% of his/ her institutional scholarships and grants for that semester, equaling a percentage of tuition he/she was charged for the semester.

Enrollment is checked as of the College's census day (the 11th day of class) each semester for certifying enrollment/hours necessary to receive state scholarships and grants. If the student is enrolled in the required number of hours as of the census date and withdraws subsequent to that date, he/she is allowed to keep the entire semester disbursement of the state scholarship or grant, even if his/her institutional scholarship(s) and or grant(s) are being pro-rated. Return of Title IV (federal) aid is discussed below in the section "Return of Aid." Private outside scholarships are not returned to the donor unless the donor specifically requires it.

All outstanding student accounts become due and payable immediately upon a student's withdrawal.

Board refunds will be made on a pro rata basis consistent with the number of weeks remaining in the semester after withdrawal.

Room charges follow the same refund schedule as tuition, see above.

A tuition refund plan is available through a private insurance carrier to guarantee partial refund of tuition, room and board charges in the event of a medical withdrawal from the semester.

Appeals of institutional refund policy by parents or students who feel that individual circumstances warrant exceptions from the published policy may be addressed in writing to:

Controller, Lyon College,
P.O. Box 2317, Batesville, AR.
72503

Scholarships and Financial Aid

At Lyon College, we are committed to making an educational experience of the highest quality available to qualified students. With a combination of affordable costs, extensive merit-based scholarship and financial aid programs, and academic programs of quality, Lyon College has been regularly recognized as one of higher education's best bargains among private, selective liberal arts colleges.

Applying for Financial Aid

To establish their eligibility for the widest possible range of financial aid opportunities, students should file a FAFSA and specify that they want it sent to Lyon by listing Lyon's Federal school code (001088) on it. Students who wish to be considered for Federal and need-based Lyon aid programs must file a FAFSA. (For more details, see the "Financial Aid Programs" section below.) FAFSA forms can be completed online at www.studentaid.gov. Students must file a new FAFSA prior to each year in which they wish to receive federal aid.

Lyon assigns priority in the awarding of financial aid to students whose FAFSAs are received by March.

After this date, the College will continue to work with students to make a Lyon education possible for them,

but cannot assure the full availability of Federal, state, or institutional funds. While only accepted students can be offered institutional financial assistance, students who have not yet been notified of their acceptance should not delay applying for federal, state, and/or outside aid.

Financial Aid Eligibility

Students' financial aid eligibility is dependent on their academic and social standing as defined in the section on "Academic Rules and Regulations" above and in the Student Handbook. Students in good academic and social standing and students on probation are eligible for at least some forms of financial aid. Students who have been suspended from the College are ineligible for financial aid of any kind. They may reapply for financial aid when they reapply for admission.

Because FTFT students are ordinarily expected to complete their degree requirements within four years, Lyon institutional aid is renewable for eight semesters of full-time enrollment, or until the student has earned 120 total credits. Students unable to complete degree requirements within four years may receive Federal financial aid and may appeal to the Admission and Financial Aid Committee through the financial aid office for a renewal of their Lyon aid, for an additional one or two semesters depending on the circumstances. Lyon and state aid may not be applied toward summer session costs. However, some forms of Federal aid may be used for that purpose; a Pell Grant to use toward summer tuition (summer Pell) is available for students who received a Pell Grant in the previous fall and/or spring semester. If a Lyon student has not used up the federal loans for which s/he was eligible during the fall/spring academic year, s/he may be able to use those remaining funds toward summer classes taken at Lyon. Students who receive financial aid from Federal, state of Arkansas, or Lyon sources must meet specified minimum academic performance requirements that are intended to encourage the completion of a degree in a timely manner. These minimum requirements relate to the number of credit hours that a student has completed and the grade point average that s/he has earned. Requirements for Federal and Lyon aid programs are outlined below. Students from the state of Arkansas should contact the financial aid office or the Arkansas Department of Higher Education website www.adhe.edu to obtain current academic performance requirements for state scholarship programs.

Some General Rules About Scholarship Maintenance

Course Loads: All Lyon College-funded scholarships (financial aid) require a minimum course load of at least 12 hours per semester at Lyon College (as recorded on the official census day each semester, which is generally the 11th day of class each semester).

However, the majority of State of Arkansas scholarship programs require a course load of at least 15 hours per semester (as recorded on the official census day each semester). Waitlisted

Hours: do not count as enrolled hours – only actually enrolled hours count. **Pass/fail:** Pass/fail courses and remedial courses for which a student **Repeating**

Courses: Students who repeat a course may count the course only once toward credit hour requirements. **It is the student's responsibility to know all of his/her scholarship maintenance requirements and the student should verify that he/she is enrolled in the necessary course load to maintain all aid. Students wishing to reduce course loads after enrollment should contact the office of financial aid to ensure that their aid will not be affected. GPAs:** Scholarships

funded by Lyon College all have specific cumulative GPA requirements, though they vary by type. Lyon GPAs do not include coursework taken at another institution, whether taken concurrently in high school, prior to transferring into Lyon, or during a summer while enrolled at Lyon. For the purpose of maintaining state scholarships (funded by the AR Dept. of Higher Education, such as the AR Challenge, or Governor's Distinguished Scholarship), grade points earned at another institution may be used by the ADHE in recalculating an overall cumulative GPA; it is the student's responsibility to submit transcripts from both Lyon and the other institutions to the ADHE for such a recalculation. It is the student's responsibility to know all of his/her scholarship GPA maintenance requirements. Students who are unsure of the GPA requirements to maintain their scholarship(s) should contact the office of financial aid.

Most students will have financial aid from more than one source and many will have aid from two or all three major sources – Lyon College, the Department of Education (federal government), and the Arkansas Department of Higher Education (state government). Each of these major sources has its own policies regarding financial aid eligibility and maintenance,

so it is important that the student understand the sources of his aid and the accompanying requirements for maintaining all of his financial aid.

Lyon Scholarship Maintenance Requirements

Residency Requirements

- All Lyon students, unless automatically exempt (as stated in the Residence Life section of the catalog) are required to reside on campus or in campus-owned housing.
- Students holding a Lyon Honors Fellowship must live on campus their first year and are subject to the Lyon Resident Policy in subsequent years.

Academic Requirements

- Students holding a Lyon Honors Fellowship will have their cumulative GPAs reviewed at the end of each academic year. The minimum cumulative GPA requirement for a Lyon Honors Fellowship is 3.25

Students failing to meet the minimum cumulative GPA requirements will lose their Lyon Honors Fellowship.

Other Lyon Scholarships (Academic and Performance)

1. Students holding all other Lyon scholarships (academic, fine arts, transfer, etc.), grants, and awards, may have their cumulative GPAs reviewed at the end of each academic semester for academic good standing. A minimum cumulative GPA of 2.0 is required for all other Lyon scholarships.
2. See [Academic Probation](#).
3. Should the student not raise their cumulative GPA at the end of the probation semester to the level required for 'good academic standing', they will be suspended from the College and may result in an adjustment of their Lyon aid.

Loss of Lyon Scholarships

- Students who have had their financial aid adjusted due to academics may appeal that decision. They must submit a written appeal to the director of financial aid detailing the

extenuating circumstances that resulted in their deficient academic performance causing the adjustment of their aid. The appeal will be evaluated by the Admission and Financial Aid Committee.

- Students who are suspended or lose their scholarships at the end of the spring semester may elect to go to summer school at Lyon. Summer credit at Lyon will be calculated into their cumulative Lyon GPA and could impact the reinstatement of their scholarship and good standing at the College.

Lyon College Scholarships

Lyon Scholarships for 2025-26

Lyon offers the following merit-based and need-based scholarship programs for the 2025-26 academic year. Lyon reviews its scholarship programs annually and makes modifications as appropriate.

Consequently, the number and size of awards may vary from year to year. Institutional scholarship maintenance requirements are outlined in the section on "Financial Aid Eligibility" (see above). Scholarship maintenance requirements that are specific to particular scholarships are outlined in the scholarship descriptions that follow below.

Lyon Honors Fellowships

A select number of entering freshman students will be invited to apply and interview for limited spots in the prestigious Lyon Honors Program – a rigorous course of study designed to provide highly skilled, motivated students the opportunity to study, travel, hone their research skills, and exchange ideas in a challenging and supportive academic environment. With an offer of a Lyon Honors Fellowship comes an additional, generous annual stipend. Lyon Honors Fellowships are valid for up to eight semesters of full-time study as long as the student maintains a cumulative grade point average of 3.25 by the end of the first year and each year thereafter and meets all other institutional scholarship maintenance scholarship requirements. Freshman Lyon Honors Fellows are required to reside on campus.

Merit-Based Scholarships

Lyon College awards academic merit-based aid according to a review of a student's application and academic performance. These amounts are annual and renewable for up to eight semesters of undergraduate

study provided that the student maintains requirements. Students will be notified of their award by the Admissions Office staff after being accepted.

International & Transfer Scholarships

Lyon welcomes qualified transfer students who have demonstrated their academic ability and commitment to the pursuit of higher education at other institutions. Lyon College offers academic scholarships to accepted students transferring to Lyon from two-year and four-year institutions.

International Baccalaureate Scholarships

Accepted applicants who are International Baccalaureate Diploma candidates receive a \$1,000 award in addition to their main Institutional (Lyon-funded) scholarship. IB Diploma candidacy must be confirmed by the student's high school if not listed on the transcript. However, total institutional aid may not exceed the amount of tuition.

Performance Affinity Awards

Lyon offers a limited amount of performance awards annually to members of the entering students who demonstrate outstanding ability in music, theatre, or visual art. These performance awards may be stacked with all other Lyon institutional scholarships and grants, except Lyon Fellowships. (Only one performance award per student)

Candidates must schedule a campus audition or portfolio review through the Admissions Office.

Audition expectations:

- **Vocal Music:** Two contrasting pieces with sheet music for piano accompaniment; an accompanist is provided.
- **Theatre:** Two contrasting 1-minute monologues (reflecting your age and gender).
- **Visual Art:** Portfolios should consist of no more than 15 works of art, reflecting the student's ability to use a variety of mediums. We prefer actual works over digital files, though exceptions can sometimes be made.
- **Instrumental Music (Marching, Concert, or Jazz Band):** Two contrasting pieces, with scales up to three sharps and three flats, two octaves.
- **Scottish Heritage:** demonstrate outstanding ability in piping, drumming, or Highland dance. Scottish fiddle, accordion, or other instruments may also be considered.

Competitive Club Scholarships

Lyon has many clubs, or 'affinity groups', that students can participate in. These groups capture a wide range of interests, talents, and abilities of the students who are attracted to a great school like Lyon College. Lyon's affinity groups/club sports are:

- **Archery**
- **Band**
- **Cheer and Dance**
- **Choir**
- **Esports**
- **LEAP (Lyon Education Activities Program): Disc Golf, Cycling, Rock Climbing**

Students who participate in these sports/activities are recruited specifically for these programs and can receive scholarship offers to participate in the activity at Lyon College. The scholarships may be combined with academic scholarships, and have the same basic maintenance requirement as most other institutional scholarships (full-time enrollment, minimum 2.0 cumulative GPA, Good Academic Standing). As with other participation scholarships, these can be combined with other Lyon scholarships, excluding Lyon Fellowships, but not beyond the total cost of tuition.

Military Friendly Scholarships

Lyon College welcomes veterans and their dependents with VA benefits to Lyon College. We are proud to partner with the VA in funding a superior education for our brave veterans and their dependents. We welcome VA beneficiaries with Chapters 31, 33, and 35 benefits. Obtain your Certificate of Eligibility from the VA and bring it to us - we'll take it from there!

Also, Lyon's new Military Science concentration is perfect for so many students, not only those who commit to serving in the National Guard or Armed Services. Lyon's ROTC Program has fantastic benefits for those commits...either full tuition and fees or room and board.

Lyon's military-related scholarships will supplement both Chapter 33 VA benefits recipients, as well as those committed to the ROTC program.

Lyon College Legacy Award (Additional Materials Required)

- Lyon College is proud to offer incoming freshmen the Legacy Award—a \$500 per year grant, renewable up to 4 years. The Legacy Award will be available for any incoming student who is the sibling, child, or grandchild of a Lyon College/Arkansas College graduate or current full-time Lyon student. That's \$2,000 off your tuition, over 4 years, just for picking the same college as your sibling, parent, or grandparent! This \$500 per year Legacy Award will be awarded in addition to any and all other Lyon institutional scholarships and grants, though total institutional aid shall not exceed the full cost of tuition.
- To request a legacy award application, ask your Admissions Counselor, or call 870.307.7250, or email financialaid@lyon.edu.

Aid Programs of the State of Arkansas

NOTE: Specific maintenance requirements exist for the following State of Arkansas scholarships and grants. It is the student's responsibility to know those scholarship maintenance requirements. They can be found at the Arkansas Department of Higher Education's website www.adhe.edu.

To apply for the following Arkansas grants and scholarships, go to sams.adhe.edu/scholarship.

NOTE: the deadline for the Arkansas Challenge Scholarship application is July 1st of each year. The application deadline for the Governor's Distinguished Scholarship is February 1st of each year.

The state of Arkansas offers a number of financial aid programs to Arkansas residents who attend college in-state. The availability of, and the requirements governing students' eligibility for, these programs are subject to change. Thus, applicants from the state of Arkansas should contact the financial aid office or the Arkansas Department of Higher Education (1.800.54.STUDY) or go to www.adhe.edu for the latest information on all state financial aid programs.

The Arkansas Academic Challenge (Lottery) Scholarship program provides annual grants to students who meet specified criteria related to academic performance in high school, and coursework

completed in high school. These scholarships amount to between \$1,000 and \$5,000 per year, depending upon the student's year in school. Applications are available online at sams.adhe.edu and must be submitted by July 1. Students receiving funds through this program must maintain specified credit hour and grade point average requirements to retain their eligibility.

As of July 1, 2019, students selected as National Merit Finalists or students with a composite ACT score of 32 or higher or an SAT of 1410 or higher may be eligible for the Governor's Distinguished Scholarship. This scholarship currently provides an annual stipend in the amount of \$10,000. The deadline for this program is February 1 of each year.

Other financial aid may be available to students in the form of special grants offered through the Arkansas Department of Social and Rehabilitative Services and the Veterans Administration. Appropriate state or local offices should be contacted for additional information.

Federal Financial Aid Programs

Federally funded financial aid programs in the form of grants, loans, and work-study opportunities are available. Most Federal programs are designed for students with demonstrated financial need. The amount of a student's demonstrated need is based on a calculation derived from a student's FAFSA of the difference between what a student and his or her family can reasonably afford to contribute to the cost of attending college and the actual cost of attendance. Because the FAFSA is the basis of the calculation of need, all students must file a FAFSA prior to each year in which they wish to receive federal aid. Aid from Federal sources is renewable for up to twelve semesters of full-time study as long as recipients meet specified minimum academic performance requirements. (See the "Satisfactory Academic Progress" section below.)

Need-based grants are available through the Federal Pell Grant (up to \$7,395 annually). The size of a student's awards depends upon the level of his or her demonstrated need. Federal grants do not have to be repaid.

Part-time work opportunities are also available to students through the Federal Work-Study program.

Students must demonstrate financial need to receive funding through these programs, which allow students to work approximately 4 hours per week to earn money to use toward educational expenses. Students are paid the current state minimum wage. The College is careful to design work-study assignments so that they do not interfere with a student's studies.

Students with demonstrated financial need may also be awarded low-interest student loans through the subsidized Federal Direct Loan program. Annual maximum loan levels for the Federal Direct Loans – the most popular student loan program – are as follows: freshman year, \$5,500; sophomore year, \$6,500; junior and senior years, \$7,500. An origination fee of approximately 1% is deducted from all Direct Loans, which means the amount of loan that a student receives will be less than the amount requested.

Students without demonstrated need are eligible for loans through the unsubsidized Federal Direct Loan program. All but \$2,000 of the amounts shown above MAY be subsidized, depending on the student's remaining 'need' after all other gift aid is considered. On any portion of a loan classified as 'subsidized', the federal government will pay the interest while the student is enrolled in school while seeking his bachelor's degree. A student can pay back interest on a quarterly or semi-annual basis or can elect to defer interest payments until after college. If interest payments are deferred, the interest will be capitalized, which means the interest is added to the principal loan amount. Early principal repayment is allowed on either type without penalty.

Federal Direct PLUS (Parent) Loans are also available to parents of undergraduate students to assist with college financing. Maximum loan levels vary, and loans are only made to parents without adverse credit histories. If a parent is denied a PLUS loan, the student may borrow up to \$4,000 or \$5,000 in additional funds (depending on grade level) through the unsubsidized Federal Direct Student Loan program. Families are not required to demonstrate the financial need to receive funding through the PLUS loan program.

To retain their Federal aid, part-time students must meet the same credit hour and grade point average requirements as full-time students. The financial aid office will assess their progress in meeting credit hour requirements by pro-rating the number of hours in which they are enrolled as a percentage of the minimum credit hour requirement for full-time status

and extending the time allowable for degree completion by a proportionate amount. For further details concerning the financial aid eligibility of part-time students, please contact the financial aid office.

For additional information on Federal aid programs, students should contact the financial aid office.

Satisfactory Academic Progress for Students with Federal Assistance

Lyon College Satisfactory Academic Progress Policy

In accordance with federal regulations, to be eligible to receive and maintain any Title IV (federal) aid, a student must make satisfactory degree progress. The satisfactory academic progress (SAP) of students will be monitored at the end of each fall, spring, and summer semester.

SAP is measured in three ways:

- Students must progress qualitatively by earning the required number of grade points,
- Students must progress quantitatively by completing the required percentage of cumulative hours attempted, and
- Students must complete their program of study within a reasonable time period.

Qualitative Measure

For the qualitative portion of the SAP requirement, hours attempted (see left column below) means all graded hours a student takes at Lyon or transfers to Lyon. These hours include passed and failed courses, repeated courses, courses dropped with a "W," "WP," or "WF," courses in which a student has been assigned an "I," and courses taken for a grade of pass or fail. Grade point averages, however, (see right column below) are based solely upon credits earned while enrolled at Lyon College.

Minimum SAP qualitative requirements are as follows:

Total Hours Attempted	Minimum Cumulative GPA
-----------------------	------------------------

0-29	1.75
30-59	1.90
60 and over	2.00

Students transferring to Lyon College are assumed to be maintaining satisfactory academic progress. Hours transferred from previously attended schools (including concurrent college hours taken while in high school) will be considered when establishing total hours attempted for GPA requirements, as well as determining the maximum number of hours allowed for financial aid eligibility.

Quantitative Measure

Students receiving financial aid must also satisfactorily complete with a grade of “D” or better 67% of cumulative hours attempted. Attempted hours are all hours a student is enrolled in past the last date a student can drop the class without a record of the course. Incompletes and withdrawals will not be considered passing grades.

- **Withdrawals:** Courses with a grade of “W” will affect the quantitative measure of academic progress in determining eligibility and maintaining financial aid.
- **Audit Courses:** Courses taken for audit do not count for credit or graduation and, therefore, are not counted in determining eligibility for receiving or maintaining financial aid.
- Courses taken pass/fail are counted for quantitative measurements (pace and maximum time frame).
- **Repeated Courses:** If a student repeats a class at Lyon, only the most recent grade will be in the GPA calculation, but the hours from all attempts will be included in qualitative measurements.

Maximum Hours to Complete Course of Study

Students must complete their degree requirements within a normal time frame. To remain eligible to receive financial aid, students must complete their degree requirements within 150% of the published length of their academic program. In most cases students will be eligible to receive financial aid during the first 180 attempted hours as an undergraduate, whether or not they received financial aid or whether

or not the course work was successfully completed. This includes both Lyon College and transfer hours. A student will be placed on federal financial aid suspension if his course work is in excess of 180 hours or if at any time it becomes clear that the student will not meet the quantitative standards by graduation date. This particular quantitative measurement will be monitored at the end of each spring semester.

Financial Aid Warning

Students who fail to meet the minimum Satisfactory Academic Progress requirements, as listed above, will be placed on financial aid warning. Letters will be sent to notify students of their addition to the financial aid warning list. The letter will state the required SAP minimums and inform the students that they have a one-semester probationary period in which to meet SAP requirements, during which time the students are allowed to keep their federal financial aid. Students on warning who meet SAP as of the end of the probationary period will be eligible to continue receiving financial aid.

Financial Aid Suspension

Students who fail to meet the minimum SAP requirements at the end of the probationary warning period will be placed on the financial aid suspension list, and will not be eligible to receive any further financial aid. The mere passage of time will not restore eligibility to students who have lost eligibility for failure to meet SAP requirements.

Students may appeal the financial aid suspension if unusual circumstances beyond their control prevented them from meeting satisfactory academic progress. Students who are placed on financial aid suspension will be sent a letter informing them of their suspension, the SAP minimums required for reestablishing SAP, and information on how to appeal their suspension.

Regaining Financial Aid Eligibility

There is another way to regain financial aid eligibility besides the appeal process. Financial aid eligibility can be re-established after students improve their academic record to meet the minimum standards required by the SAP policy by enrolling in classes the next term without the assistance of federal financial aid funds. If students do meet SAP through this course work, their federal aid will be reinstated for the

following term. If, in attempting to meet SAP, students take classes at a school other than Lyon, they must submit an official transcript from the other school to the Lyon registrar. The financial aid office will then re-evaluate the students' SAP status.

Aid from Private External Sources

In the event that students with need-based aid obtain an aid award from a private external source, the financial aid office reserves the right to reduce their institutional award by an amount equal to that of the private external award. Students must report the receipt of financial assistance from private external sources to the financial aid office.

Disbursement of Aid

All financial aid awards except for work study and grants from private external sources are credited to students' accounts on the 11th class day pending completion of verification, loan entrance counseling and master promissory note, if required. Grants from private external sources are not credited to a student's account until Lyon receives the funds. Work study earnings are paid directly to students every month. Students can apply work-study earnings to their student accounts by endorsing their check and presenting it to the business office.

Verification of Federal and State Aid Awards

Students who receive federal or state aid may be selected for verification of the financial information that they provided in their aid application. Students selected for verification will be required to provide information in addition to that which they have already provided. Students should submit the required documents to the financial aid office within two weeks of the verification request. The financial aid office will not certify a Federal Direct Loan application or authorize federal or state financial aid to be applied to a student's account until verification is complete. If the information provided in the verification is different from that contained in the original financial aid application, the financial aid office will re-evaluate students' aid application using the verified information.

Return of Aid

If students who receive federal aid withdraw prior to completing 60% of a term (including the summer subterm), the financial aid office must return a portion of the students' federal funds to the federal government. The percentage of the federal aid disbursed for the term that must be returned is equal to the percentage of the term that the student did not complete.

Funds that must be returned to the Department of Education are returned within 45 days of the date on which the student withdrew. In this situation, the student could owe Lyon a balance for the amount of federal aid that was returned.

If the student withdraws during Lyon's refund period, all of the student's institutional scholarships and grants will be returned to their sources on a basis consistent with the College's refund policy (see the 'Refund Policies' section above). For example, a student who withdraws and receives an 80% tuition refund (i.e. is charged 20% of tuition for the semester) will receive 20% of his/her institutional scholarships and grants for that semester, equaling the percentage of tuition he/she was charged for the semester.

Enrollment is checked as of the College's census date (the 11th day of class) each semester for certifying enrollment/hours necessary to receive state scholarships and grants. If a student is enrolled in the required number of hours as of the census date and withdraws subsequent to that date, he/she is allowed to keep the entire semester disbursement of the state scholarship or grant, even if his/her institutional scholarship(s) and/or grant(s) are being pro-rated. Private outside scholarships are not returned to the donor unless the donor specifically requires it.

Assistant Professor of Computer Science. Ph.D., Universidad Michoacana de San Nicolás de Hidalgo

Mayron Faria de Oliveira

Assistant Professor of Exercise Science. B.Sc., Vale do Paraiba University; Master's in Translational Medicine, Federal University of Sao Paulo; Ph.D., Federal University of Sao Paulo

Britt Florkiewicz

Assistant Professor of Psychology. B.A., University of North Carolina; M.A., Southern Illinois University; Ph.D.; University of California Los Angeles

Maggie Gayle

Associate Professor of Theatre and Art. B.F.A., Art Emporia State University (Emporia, KS); M.F.A.; Brandeis University Waltham, MA

Fonzie Geary II

Professor of Theatre. B.S., M.S., Eastern Kentucky University; M.A., University of Kentucky; Ph.D., University of Missouri-Columbia

Stuart Hutton

Associate Professor of Physics. B.S., University of Richmond; M.S., Ph.D., Montana State University

Joseph Ivy

Instructor of Spanish. B.A., University of Central Arkansas; M.A. University of Central Arkansas

Maryline Jones

Associate Professor of Biology. B.S., University of Provence; M.S., University of the Mediterranean Sea; Ph.D., University of Montpellier

Melissa Johnson

Assistant Professor of English. Ph.D., University of Minnesota

Mahbubul Kabir

Associate Professor of Economics. B.Sc., Bangladesh University of Engineering and Technology, Dhaka; M.B.A., Dhaka University, Bangladesh; M.A., Williams College; Ph.D., University of Nebraska-Lincoln

Jason R. Kennedy

Assistant Professor of Anthropology. B.A., Tulane University; M.A., Binghamton University; Ph.D., Binghamton University

Kimberly Kulovitz

Assistant Professor of Communication. B.A., University of Wisconsin-Parkside, M.A., University of Wisconsin-Milwaukee; Ph.D., University of Wisconsin-Milwaukee

Matthew Lebrato

Assistant Professor of Anthropology. B.A., The Evergreen State College; M.A., University of Chicago; M.A., and Ph.D., Indiana University

James Martell

Associate Professor of Romance Languages. B.A., Universidad Iberoamericana; M.A, University of Kansas; Ph.D., University of Notre Dame

Melissa Merte

Assistant Professor of English. B.A., Binghamton University; M.A., University of Rochester; Ph.D., University of Minnesota

Robert Miller

Assistant Professor of Psychology. B.S., Northern Illinois University; M.S., University of Notre Dame; Ph.D., University of Notre Dame

Irosha Nawarathne

Associate Professor of Chemistry. B.S., University of Colombo, Sri Lanka; Ph.D., Michigan State University

Bethany Neese

Assistant Professor of Music. *still awaiting transcript*

Cody Norton

Assistant Professor of Art. B.F.A., University of North Texas; M.F.A., University of Colorado Boulder

Kieran J. O'Keefe

Assistant Professor of History. B.A., Mount Saint Mary College; M.A., University of Vermont; Ph.D., The George Washington University

Cassia Oliveira

Professor of Biology. B.S., M.S., Sao Paulo State University; Ph.D., University of Arkansas

Welsey Perkins, '15

Assistant Professor of Mathematics. B.A., Lyon College; M.A. & Ph.D. University of Kansas

Brandon Porter

Assistant Professor of Psychology. B.S., Ohio State University Columbus; M.S., University of Dayton; Ph.D., University of Tennessee Knoxville *in progress*

Wu Qu

Assistant Professor of History. Ph.D., University of Virginia

Don Ray, '91

Assistant Professor of Accounting. B.A., Lyon College; CPA; M.B.A., Arkansas State University

Monica Rodriguez

Associate Professor of Spanish. B.A., Berea College; M.A., Ph.D., University of Kentucky

Scott Roulier

John D. Trimble, Sr., Professor of Political Philosophy. B.A., University of Denver; M.A., Ph.D., University of Virginia

Stephanie N. Saunders, '02

Associate Professor of Spanish. B.A., Lyon College; M.A., University of Kentucky; Ph.D., University of Kentucky

Rebecca Sharp, '05

Instructor of English/Director of Developmental English. B.A. Lyon College; M.F.A., The University of Memphis

Eric South

Assistant Professor of Biology. B.S., Kennesaw State University, M.S. & Ph.D., University of Illinois

Peter Staples

Assistant Professor of Business & Economics. B.S., Brigham Young University; Ph.D., Clemson University

Jaeyun Sung

Associate Professor of American Politics. B.A., Myong Ji University; M.A., George Washington University; Ph.D., University of Georgia

Radek Szulga

Associate Professor of Economics. B.A., Auburn University; M.A., Miami University of Ohio; Ph.D., University of California, Davis

Terrell Tebbetts

Martha Heasley Cox Chair in American Literature. B.A., Hendrix College; M.A., Ph.D., University of Arkansas

Edward Tenace

Associate Professor of History. B.A., University of Maryland, Baltimore County; M.A., Ph.D., University of Illinois

David Thomas

Willie Dillard Bryan Professor of Biology. B.S., M.S., Central Washington University; Ph.D., University of Idaho

Shensi Wang

Assistant Professor of Accounting. Ph.D. The University of Texas at El Paso

Tharanga Mahesh Kumara Wijetunge

Professor of Mathematics. B.S., University of Colombo (Sri Lanka); Ph.D., Central Michigan University

Scott Williams

Assistant Professor of Philosophy. Ph.D., University of Oxford *still awaiting transcript*

Meredith Wright, '04

Instructor of Mathematics. B.A., Lyon College; Masters of Arts, University of Central Arkansas

Emeritus Faculty and Administrators

Ron Boling

Professor Emeritus of English. B.A., Stephen F. Austin State University; M.A., Ph.D., University of Florida

Roberta Bustin

Professor Emerita of Chemistry. B.S., Lyon College; M.S., University of Arkansas; Ph.D., Louisiana State University

Robert Carius

Professor Emeritus of Physical Science and Mathematics. B.A., U.S. Naval Academy; B.S., U.S. Naval Post Graduate School; M.S., Iowa State College

Bradley Gitz

Professor Emeritus of International Politics. B.S., Ph.D., University of Illinois

Bruce Johnston

Dean of Students Emeritus. B.A., Westminster College; M.A., Bowling Green State University; Ed.D., Western Michigan University

Alan McNamee

Professor Emeritus of Accounting. B.S., Manchester College; Ph.D., University of North Carolina

Ann Adams Rhodes

Professor Emerita of Psychology. B.A., M.A., M.E., Ed.D., University of Arkansas

Helen Robbins

Professor Emerita of English. B.A., Smith College; M.A., Ph.D., Duke University

Russell Stinson

Professor Emeritus of Music and College Organist. B.Mus., Stetson University; M.A., Ph.D., University of Chicago

David Sonnier

Associate Professor of Computer Science. B.S., US Military Academy, West Point; M.S., Georgia Institute of Technology

Fred Wann, '59

Professor Emeritus of Physical Education. B.A., Lyon College; M.S.E., Arkansas State University

Garry Wann

Professor Emeritus of Business Administration. B.S., M.B.A., J.D., University of Arkansas

Donald Weatherman

President Emeritus. B.A., California State University; M.A., Ph.D., Claremont Graduate University

Patricia Whitfield

Professor Emerita of Education. B.A., University of California at Los Angeles; M.A., University of Nevada; Ph.D., Brigham Young University

Frank Winfrey

Professor Emeritus of Management. B.A., University of North Carolina; M.B.A., University of Alabama; Ph.D., University of South Carolina

Virginia Wray

Dean of Faculty Emerita. B.A., Westhampton College, University of Richmond; M.A., Bryn Mawr College; Ph.D., University of South Carolina

Endowed Faculty Positions

The William Clark Brown, Sr., Professorship in Chemistry was established by the late Mr. W. C. Brown and the late Miss Jean Brown of Hot Springs in memory of their father, Mr. William Clark Brown, Sr. The income from this endowment will be used to support a distinguished professor of chemistry.

The Rountree Caldwell Bryan Professorship in Education was established in October 1986 with a portion of the bequest from the estates of Rountree C. and Willie Dillard Bryan of Osceola. Income from this endowment will be used to support a designated professor of education.

The Clark N. and Mary Perkins Barton Professorship in Management was established in December 1980 by Mrs. Clark N. Barton of El Dorado. The income from the endowment will be used to support a designated professor of business administration.

The J. William and Catherine Mills Bellamy Professorship in Business was established in July 1983 by Mr. and Mrs. J. William Bellamy of Pine Bluff. The income from this endowment will be used to support a designated professor of business administration.

The Pauline M. and Brooks Bradley Professorship in the Social Sciences was established in 1992 by a bequest from the estate of Pauline M. and Brooks Bradley of Little Rock. The income from the endowment will be used to support a designated professor in the social sciences.

The Jean Brown Professorship in Music was established with a portion of her bequest in 1982. Income from this endowment will be used to support a designated professor of music.

The Josephine Emily Brown Professorship in Music was established by the late Jean Brown of Hot Springs, in memory of her sister, Miss Josephine Brown. The income from this endowment will be used to support a designated professor of music.

The Josephine E. Brown Professorship in Religion was established by her family to endow the teaching of religion in memory of her interest in the Presbyterian Church and in Christian higher education. Income will be used to support a designated professor of religion.

The W. Brown, Jr., Professorship in English was established in 1980 by a gift from the late W. C. Brown of Hot Springs, a former trustee of the College and a member of the Class of 1915. The income from this endowment will be used to support a designated professor of English.

The Willie Dillard Bryan Professorship in Biology was established in October 1986 with a portion of the bequest from the estates of Rountree C. and Willie D. Bryan of Osceola. Income from this endowment will be used to support a designated professor of biology.

The William Jefferson Clinton Professorship in International Politics was established by an anonymous gift in 1992. Income from this endowment will be used to support a designated professor of international politics.

The Martha Heasley Cox Endowed Chair in American Literature was established by Dr. Martha Heasley Cox, '38, of San Francisco, California, with a charitable gift annuity in 2005 and additional funds in a bequest. The income from the annuity fund remainder and bequest will be used to support a distinguished professor of American literature.

The J. William Fulbright Professorship in Modern Languages was established by Henry and Carolyn Nichols of Little Rock in 1992. The income from the endowment is used to support a designated professor of modern languages.

The Frank and Marion Bradley Lyon Professorship in Accounting was established in April 1984 by Mr. and Mrs. Frank Lyon, Sr., of Little Rock. Mr. Lyon was a former Chairman of the Board of Trustees. Income from the endowment will be used to support a designated professor of accounting.

The Paul M. McCain Professorship in History was established in 1980 with grants from the National Endowment for the Humanities and the Frost Foundation of Denver and named in honor of Dr. Paul M. McCain, twelfth President of Lyon College. The income from this endowment will be used to support a designated professor of history.

The W. Lewis McColgan Professorship in Religion was established by the First Presbyterian Church, Pine Bluff, in April 1979 in honor of the late Dr. W. Lewis

McColgan, who served as that church's minister from 1947 to 1974. The income from this endowment will be used to support a designated professor of religion.

The J. Paul Smith Professorship in Mathematics and the Sciences was established in 1982 with a portion of the bequest from Mr. Smith's estate and as a memorial to his support of the College. Income from this endowment will be used to support a designated professor of one of these disciplines.

The Anne J. Stewart Professorship in Economics was established in April 1984 by Mrs. Anne J. Stewart of Dallas, Texas, a former trustee of the College. Income from the endowment will be used to support a designated professor of economics.

The John Dyer Trimble, Sr., Professorship in Political Philosophy is in memory of Mr. Trimble, who attended Lyon College. The income from this endowment will be used to support a designated professor of political philosophy.

Administration

Melissa Taverner

President. B.A., Randolph-Macon Women's College; M.Sc., University of Reading; Ph.D., University of Virginia

Anthony K. Grafton*

Provost and Dean of the Faculty. B.S., University of Arkansas at Monticello; Ph.D., University of Oklahoma

Danell Hetrick*

Vice President of Student Life and Dean of Students. B.A., Arkansas State University; M.A., Arkansas State University

David Hutchison*

Vice President for Advancement. B.A., Central Methodist University; M.Div, Saint Paul School of Theology, Ed.D., Vanderbilt University

Thomas Newton*

Vice President for Enrollment Management. BA, Stephen F. Austin State University; MLA, Southern Methodist University

Gina Garrett, '93

Associate Vice President of Advancement. B.A., Lyon College

Cindy Barber, '85

Executive Director of Alumni Engagement. B.S., Lyon College

Branndii Peterson

Executive Director of TRIO Project. B.A., Southern University and A&M College; M.H.A., University of Arkansas; MBA, University of Phoenix; Ph.D., Jackson State University

Kristi Price*

Executive Director of Institutional Affairs. B.A., University of Central Arkansas; M.Ed., University of Missouri

Tommy Tucker, '84

Executive Director of Financial Aid. B.A., Arkansas College

Nikki Yonts

Associate Dean for Curriculum Development and Assessment. B.A., Washington State University; M.S., Ph.D., Oklahoma State University

Kenton Adler

Director of Development for Scottish Heritage. B.A., Metropolitan State University of Denver

Margaret Alsup, '11

College Chaplain. B.S., Lyon College; M.Div., Columbia Theological Seminary

Scarlett Barnes

Senior Associate Director of Enrollment Services. B.S., Ouachita Baptist University

James Bell

Director of Scottish Heritage

Alexandrya Burroughs

Director of Advancement Services and Data Analytics

Jeremiah Cherwien*

Director of Information Technology. B.A., Gustavus Adolphus College, M.S. Boston University

Nanette Garner

Associate Controller

Tami Hall

Registrar

David Hardin

Director of Communications Services

Breanna Henderson

Regional Director of Admission. B.A., Texas State University; M.A., Texas State University

Kevin Jenkins, '90

Director of Athletics. B.S., Lyon College

Robert Krapohl

Director of the Library. B.A., University of Florida; M.L.S, University of Albany, SUNY; Ph.D., Baylor University

Carol Langston*

Director of College Communications. B.S., Arkansas State University, M.B.A., University of Central Arkansas

Rebecca Le

Director of Nursing Education. B.S., Oklahoma City University; M.A. Southern Nazarene University; Ph.D., Oklahoma City University

Patrick Lynch

Director of Career Development. B.A., University of Michigan; MBA, Michigan State University

David Morris

Director of Annual Giving

Jennifer Morrison

Director of Health and Wellness. RN, BSN, Arkansas State University

Pamela Palermo

Director of Institutional Events

Nicolas Pattillo

Director of International Education

Randy Peterson*

Director of Institutional Research

Jeffrey Roper

Associate Director of Financial Aid

Matthew Sherman

Director of Safety. A.A.S., University of Arkansas Community College

Donald Taylor, '01

Director of Academic Support & Accessibility. B.S., Lyon College; M.Ed., University of Arkansas

Kathryn Thomas

Resident Director of Student Organizations. B.A., University of Arkansas, MA University of Texas at Dallas

Tamija Tucker-Mays

Director of First-Year Advising. A.A., Reedley Junior College; B.A., West Virginia Institute of Technology; B.A., West Virginia Institute of Technology; M.Ed., Georgia Southern University

Jill Varner

Associate Controller and Manager of Student Accounts. B.S., California State University, Bakersfield

Sarah Williams, '05

Associate Director of Instructional Technology. B.A., Lyon College; M.Ed, University of Arkansas at Little Rock

Stephen Williams, '82*

General Counsel. B.A., Lyon College; J.D., University of Arkansas School of Law

***Member of the President's Cabinet**

Honorary Degree Recipients

Honorary degrees are awarded to individuals to recognize outstanding achievement in the honorees' respective fields and for the advancement of the principles for which the College stands.

1876 James Stacy, D.D. A. W. Pitzer, D.D. Isaac J. Long, D.D.	1878 Henry B. Boude, D.D.	1880 Samuel W. Davies, D.D. James H. McNeilly, D.D.
1881 U. M. Rose, LL.D. Julien C. Brown, A.M. Walter W. Killough, A.M.	1883 A. Ross Kennedy, D.D.	1884 W. P. Paxson, D.D. A. H. Garland, LL.D.
1885 James L. Martin, D.D.	1888 R. H. Crozier, D.D.	1889 T. Jeff Stubbs, Ph.D.
1890 Joseph W. Martin, LL.D. Julien C. Brown, LL.D.	1891 J. R. Hoevertson, D.D.	1893 J. M. Brown, D.D.
1894 Marshall W. Daggett, D.D. E. M. Munroe, D.D.	1895 Richard B. Willis, D.D.	1896 A. W. Milster, D.D.
1900 T. J. Horne, D.D. W. K. Patterson, D.D.	1901 D. C. Rankin, D.D.	1903 Arthur G. Jones, D.D. C. P. Bridewell, D.D.
1904 B. M. Shive, D.D.	1905 Malcolm McKay, D.D.	1906 E. Dixon Brown, D.D.
1908 C. C. Williams, D.D. Eugene C. Bingham, D.D.	1914 William Moore Scott, D.D. M. S. Smith, D.D.	1917 W. S. Lacy, D.D.
1921 H. L. Paisley, D.D. R. K. Timmons, D.D.	1922 George H. Lacy, D.D. W. R. Anderson, D.D. A. G. Jones, D.D.	1923 T. C. McRae, LL.D.
1924 William H. Irvine, D.D. John T. Barr, D.D.	1925 George McKee, '07, D.D. J. W. Cobb, D.D. J. M. Williams, D.D. E. B. Tucker, D.D.	1926 Stuart Oglesby, D.D. Frank K. Dudley, D.D. James V. Johnson, D.D.
1927 Hugh Robertson, '13, D.D. James F. McKensie, D.D.	1928 R. C. Long, D.D.	1930 Julian S. Sleeper, D.D.
1931 C. E. Newton, D.D.	1932 E. David Shepperson '31 D.D. Omar G. Davis, D.D. Ury McKenzie, LL.D.	1934 J. N. Heiskell, LL.D. John R. Richardson, D.D.
1935 B. C. Boney, D.D.	1936 W. B. Sullivan, D.D. A. C. McKinnon, D.D.	1937 Abner Robertson, '22, D.D.
1941 Harmon B. Ramsey, '27, D.D. Robert Dwight Ware, '04 D.D.	1942 J. Herndon McCain, '27, D.D. John D. Spragins, '20, D.D.	1943 Otis L. Graham, '25, D.D. Alexander Henry, '29, D.D. John P. Morrow, '28, D.D.
1944 Thomas Brewster, D.D.	1945 S. T. Bryant, D.D.	1946 Walker B. Healey, D.D.

1947 R. D. Nolen, D.D. J. W. Butler, D.D. Margaret M. Jacobs, D.D.	1948 Archie C. Smith, D.D. Horace L. Villee, D.D. Claude D. Wardlaw, D.D.	1949 Frank R. Young, '15, D.D. Stuart H. Salmon, D.D. Harry King, D.D.

2006 Richard H. Ekman, L.H.D. Stephen J. Trachtenberg, LL.D. Mary Steenburgen, L.H.D.	2007 Paul Greenberg, L.H.D. Keith Jackson, L.H.D.	2008 David L. Warren, L.H.D.

2009 David Chester Itkin, L.H.D. John David Mooney, L.H.D.	2010 James R. Check, L.H.D.	2011 William Branch, Jr., L.H.D. Dickson Flake, L.H.D.
2013 Raymond A. Lacroix, Jr., L.H.D.	2017 James D. Simpson III, L.H.D. Charles B. Whiteside III, L.H.D.	2021 Terrell Tebbetts, L.H.D.

Awards

Faculty Awards: The Lamar Williamson Prize for Faculty Excellence

The Lamar Williamson Prize for Faculty Excellence provides a cash award to one outstanding faculty member each year and a permanent silver prize cup. The faculty member is chosen each year by a committee and then is asked to present a publishable paper at a public convocation. Past recipients of the award are the following:

Roberta Bustin

J. Paul Smith Professor of Chemistry (1980)

Terrell Tebbetts

W. C. Brown, Jr., Professor of English (1981)

George Lankford

Pauline M. and Brooks Bradley Professor in the Social Sciences (1982)

Dorothy Landis Gray

Jean Brown Professor of Music (1983)

Jane Bush Fagg

Professor of History (1984)

Daniel W. Fagg, Jr.

Paul M. McCain Professor of History (1985)

Donald V. Weatherman

John D. Trimble, Sr., Professor of Political Philosophy (1986)

Bert E. Holmes

W.C. Brown, Sr., Distinguished Professor of Chemistry (1987)

Ann A. Rhodes

Professor of Psychology (1988)

Edward N. Mosley

Professor of Mathematics (1989)

Robert K. Holyer

W. Lewis McColgan Professor of Religion (1990)

Virginia F. Wray

Associate Professor of English (1991)

Scott Peterson

Willie D. Bryan Associate Professor of Biology (1992)

Thomas E. Cooper

Anne J. Stewart Associate Professor of Economics (1993)

George Chlebak

Professor of Art (1994)

Bart L. Lewis

J. William Fulbright Professor of Modern Languages (1995)

John Dahlquist

Professor of History (1996)

James L. Rulla

Associate Professor of Mathematics (1997)

Andrea Hollander Budy

Visiting Assistant Professor of English (1998)

Russell T. Stinson

Josephine E. Brown Professor of Music (1999)

Teresa B. Murphy

Assistant Professor of Education (2000)

Cassie L. Creighton

Associate Professor of Accounting (2001)

Barrie Bondurant

Associate Professor of Psychology (2002)

Alan H. McNamee

Frank and Marion Bradley Lyon Professor of Accounting (2003)

Robert G. Gregerson

Willie Dillard Bryan Associate Professor of Biology (2004)

Scott M. Roulier

Associate Professor of Political Science (2005)

Frank L. Winfrey

Clark N. and Mary Perkins Barton Professor of Management (2006)

David J. Thomas

Associate Professor of Biology (2007)

Tim Lindblom

Associate Professor of Biology (2008)

Paul Bube

W. Lewis McColgan Professor of Religion (2009)

Martha Beck

Professor of Philosophy (2010)

David Pace

Associate Professor of Chemistry (2011)

Catherine Bordeau

Associate Professor of French (2012)

Patrick Mulick

Associate Professor of Psychology (2013)

Mark Schram

Associate Professor of Biology (2014)

Anthony Grafton

Professor of Chemistry (2015)

Jeremy Chapman

Associate Professor of Mathematics (2016)

Bradley Gitz

William Jefferson Clinton Professor of International Politics (2017)

Nikki Yonts

Assistant Professor of Psychology/Education (2018)

Wesley Beal

Associate Professor of English (2019)

Cassia Oliveira

Associate Professor of Biology (2020)

Dustyn Bork

Professor of Art (2021)

Tharanga Wijetunge

Professor of Mathematics (2022)

Student Awards: The Charles H. Coffin Scholarship Medal

The Charles H. Coffin Scholarship Medal is awarded each year to an honor graduate of Lyon College who has taken at least his or her last three years of work here as a regular student. The award, in the form of a gold medal, represents the highest award conferred upon a Lyon College student. It was founded around the turn of the century by Charles H. Coffin of New York City, Class of 1884, as the Alumni Medal. After his death in 1916, the award was endowed by a gift from a classmate of the original donor and renamed the “Charles H. Coffin Scholarship Medal.” After the mold for the medal was lost, Eugene Sloan, ’12, loaned his personal Coffin Medal to the College so that another die could be cast. His lifelong respect for the medal caused Mr. Sloan’s family to create the Eugene Sloan Endowment for the Coffin Medal to underwrite the cost of the medal. Records are still being searched in order to compile a complete list of recipients. The following list is incomplete:

1906 Eula Maxfield Garrott	1907 George T. McKee
1908 Horace Sloan	1909 Stuart R. Oglesby
1910 E. B. Paisley	1912 Eugene Sloan, Christine Murphy
1914 Malcolm E. Evans	1915 M. S. Smith, Jr.
1916 Fred Maxfield	1918 Jan McMurray
1921 Ira Nelson Barnett III	1922 John Quincy Wolf
1925 William A. Sensabaugh	1926 Etta Brewer
1927 Miriam Alice Anderson, Lillian Jimerson, Avon Shannon	1928 Marguerite Glant Shannon, Stuart H. Salmon
1929 Marjorie Norton	1930 Bess Millen Wolf
1931 Marjorie Witherspoon	1932 Mary Ross Wood
1933 Ella Myrl Dobson, Wilma Stanley	1934 Allie Beth Dent, Doris Wray, Lois Thomas
1935 Leila Heasley	1936 Martha Cantley, Dorothy Ross
1939 Lillie Mae Martin, Frances Ross	1940 Frances Chaney
1942 Betty Wasson, M. E. Wasson	1944 Mary Engels
1946 Charline Bryant	1947 Kathleen Sharp
1948 Lowell Southerland	1949 James Vernon Balch
1950 Gary Jones	1951 Pearl Ottinger
1952 Joan Creason	1953 Joyce Virginia Shillcutt
1954 Evelyn Willard	1955 Von Dean Gray
1956 Marjorie Stuart	1957 Jim Gillaspay
1958 Ernestine Teeter	1959 Barbara Buford
1960 Jacob C. Turner	1961 Mike Collins
1962 James Logan Morgan, Jr.	1963 Moorene Goff Newton
1964 Roberta Mae Bustin	1965 Mary King
1966 Lamar Middleton	1967 Mayola Satterfield

The Lyon College Campus

Academic Buildings

The ALPHIN HUMANITIES BUILDING is named in honor of Hazel C. Alphin of El Dorado. Formerly the dining hall, it was remodeled into a classroom and faculty office building in 1984–85. It contains five classrooms, two seminar rooms, faculty offices, the Kresge Art Gallery, the Fulkerson Art Studio, a drawing studio, and a faculty lounge. The Alphin Room, named in memory of Hendrick Alphin, is used for Board of Trustees' meetings and other special gatherings.

The BROWN CHAPEL AND FINE ARTS BUILDING is named in memory of William Clark Brown, Sr., Allen Brown, and Josephine Brown, all of Hot Springs. Named in memory of Eugene Sloan, Class of 1912, the Sloan Auditorium seats 500 and is used for plays, concerts, convocations, and lectures. The Edwards Pipe Organ, a Holtkamp tracker pipe organ, was installed in 1980. The Ellebracht Chapel is named in memory of Eleanor Ellebracht, Class of 1958; this small chapel is used for campus worship services and holds a small Pilcher pipe organ. The Bevens Music Room on the south side of the building is used for recitals, receptions, and meetings. The building also contains offices and classrooms for music faculty, practice rooms, a recording studio, and a choir and band room.

The HOLLOWAY THEATRE was completed in 1991 and is named in memory of I. Graham Holloway, '80. It contains a 150-seat black box theatre that can be set up for either three-quarter-round or proscenium theatre and support facilities, including a rehearsal room, a green room, set and costume workshops, and storage areas.

The LYON BUSINESS AND ECONOMICS BUILDING was completed in 1993. It contains Nucor Auditorium, the Entergy Computer Center, a computer classroom, five classrooms (including four Harvard Business School-style lecture rooms), two conference rooms, three seminar rooms, four team rooms, and twenty-two faculty offices. It houses the Career Center and the First Year Advisors. The 3rd-floor office suite provides offices for the director of institutional research. The building's clock tower houses the 24-bell Tower Campbell Carillon.

The MABEE-SIMPSON LIBRARY was built in 1975 and renovated and expanded in 1995. It contains stacks, a faculty lounge, seminar rooms, offices, workrooms, reference and periodical collections, and the Dorothy P. Sydenstricker Room, which houses the College's archives, rare book collection, and Regional Studies Center.

The DERBY CENTER FOR SCIENCE AND MATHEMATICS is named in honor of Lawrence E. and Marilyn Church Derby of Warren, Arkansas. This 60,854-square-foot facility was completed in 2003. The Derby Center is home to the College's biology, chemistry, computer science, data science, exercise science, mathematics, neuroscience, physics, and psychology programs. It contains 13 instructional labs, 7 classrooms and seminar rooms, and 18 faculty offices.

Athletic Facilities

The JAMES C. BECKNELL, SR., PHYSICAL EDUCATION BUILDING was completed in 1970 and underwent a partial renovation in the summer of 2001. It contains a gymnasium with seating for 1,600, a fitness center featuring weights and aerobic equipment, a smaller gymnasium, classroom, training room, coaches offices, and public lockers.

The DENNIS AND EVA GILLAM ATHLETIC COMPLEX includes the following facilities located on the eastern border of campus:

- FRED WANN FIELD, Lyon's baseball park, was completed in 1997. Adjacent to it is the Kirk Kelley Baseball Complex, a 7,200-square-foot facility with a 60x80-foot workout area, coaches' offices, and locker room. The facility was completed in 2004 and is named in honor of former head baseball coach Kirk Kelley.
- The HATCHER WRESTLING CENTER was completed in 2014 thanks to a very generous gift by Mr. Greg Hatcher of Little Rock, Arkansas. The 7,800-square-foot Center includes a workout area, locker rooms, and offices.
- A FOOTBALL TRAINING FACILITY was completed in 2016. The 22,000-square-foot facility includes a workout area, training room, weight room, locker room, conference space, and offices. A practice field was completed in 2014.

The MARSHAL HUSER SOCCER FIELD to the south of the Becknell Physical Education Building features a regulation soccer field.

The LYON TENNIS COMPLEX to the east of the Becknell Education Building features six competition courts with Flintkote surfaces.

The HOWARD AND MARY HOUSE SOFTBALL FIELD, Lyon's softball park, was completed in spring 2009 and is located south of Huser Soccer Field.

Residence Halls

BLANDFORD HALL is named in memory of Dr. Eugene C. Blandford, a former professor of Latin. It houses 32 students.

The BARTON STUDENT HOUSING UNITS are named in honor of Mary Barton of El Dorado. They house 48 students in six units, each of which contains four bedrooms, two baths, and a central living area.

The BROWN STUDENT HOUSING UNITS are named in honor of the Reverend Charles W. Brown of El Dorado, Arkansas. Located just west of the Barton units, they house 36 students in six units.

BRYAN HALL, named in honor of the late Rountree C. and Willie D. Bryan of Osceola, houses 48 students.

HOKE-McCAIN HALL houses 92 students. It is named in honor of former trustee Charles J. Hoke of El Dorado and Dr. Paul M. McCain, a former president of Lyon.

LOVE HALL is named in memory of Gordon Love of Hughes. It houses 32 students.

McRAE HALL is named in memory of former Governor Thomas C. McRae and Carleton McRae, '29. Completed in 1989, it houses 35 students in double-occupancy suites.

SPRAGINS HALL is named in memory of Dr. John D. Spragins, a former president of Lyon. This was the first building constructed on the present-day campus and was renovated in 1986. The building contains fifteen suites with four students sharing two bedrooms, two study rooms, and a bath. It houses 60 students.

The CHARLES B. WHITESIDE III HALL is named in honor of former Lyon College trustee Charles Whiteside of Little Rock. The hall houses 100 students.

The MICHAEL E. AND PERRY LEE WILSON HALL is named in memory of former Lyon College trustee Michael E. Wilson and in honor of his son and current trustee and Chairman of the Board Perry Lee Wilson. The hall houses 100 students.

WILSON & ROGERS HALL, which houses 35 students in double-occupancy suites, was completed in 1989. It is named in honor of trustees Dr. R. Sloan Wilson of Little Rock and Doyle W. Rogers, Jr., of Batesville.

Administrative and Support Facilities

The WELCOME CENTER houses the enrollment services and student financial aid offices. It provides a reception area for prospective students and their parents, as well as private conference areas.

BRADLEY MANOR is the honorary residence of the president of Lyon. Completed in 1994, it is named in honor of the family of the late Marion Bradley Lyon.

EDWARDS COMMONS, a 44,000-square-foot campus center, was completed in August 2012. It contains the campus store; student mailboxes; the dining room and bistro; student programming space; Scot Shop, a game room; student government offices; conference rooms; counseling center, health, and wellness clinic, and the student life office. The original Edwards Commons was destroyed by fire in October 2010. Edwards Commons was named for the late John W. and Lucille Welman Edwards of Batesville. Mr. Edwards was a former trustee and banker.

The MAINTENANCE BUILDING is located at the south end of Huser Field.

The MORROW BUILDING houses the Morrow Academic Center (MAC), which includes the Office of Academic Support and Accessibility. The MAC offers students academic support through a variety of peer-led services including Supplemental Instruction (SI), tutoring, the Writing Center, and academic coaching as well as providing a relaxing study area and computer lab. MAC staff collaborate with students who have documented disabilities to arrange for

appropriate academic accommodations. The Morrow Building is named in honor of former Chair of the Board of Trustees John Patterson Morrow, Sr.

The NICHOLS ADMINISTRATION BUILDING was completed in 1975 and remodeled in 2001. It is named in honor of the late Shuford R. Nichols, a former chairman of the Board of Trustees, and provides offices for the president, academic services and provost, vice president for institutional advancement, vice president for business and finance, registrar, director of alumni and parent services, director of marketing and communications, director of human resources, controller, cashier, and other administrative staff of the College.

The TEMP houses the Scottish Heritage Program, a fine arts studio, and a meeting space.

The LYON EDUCATION AND ADVENTURE PROGRAM is located in the house at 301 23rd Street.

Other Facilities

The WILLIE BRYAN BRIDGE AND WALKWAY around the College lake was completed in 1981.

The COUCH MEMORIAL GARDEN, named in memory of the late Jessie J. Couch of Pine Bluff, contains the Ellis G. Mosley Alumni Fountain, benches, and landscaped areas of shrubs and trees.

The FACULTY HOUSE is located on 23rd Street adjacent to the campus. It contains meeting rooms and a guest suite for two persons.

The GRIGSBY HOUSE is a log house (circa 1867) which was moved from nearby Bethesda in 1976 and restored by the College. It was dedicated in 1983 and provides a museum and working laboratory for folklore classes.

The HIGHLAND HOUSE is located on Bearette Street adjacent to the campus. It contains meeting rooms and a lecture hall.

The MARION BRADLEY LYON GUEST HOUSE is located on 23rd Street adjacent to the campus. It contains guest suites that can accommodate up to six persons. Its decoration and most of its furnishings were a gift from Mrs. Lyon.
